THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in neighborhoods have been the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

A PLEASANT OCCASION.

On Thursday evening, May 24th, a festive gathering took place at the handsome old Peirce mansion house, on Court street; the occasion being the marriage of Miss Christina McDonald, of Prince Edward's island, and Mr. Sam'l Kingsbury of this city. The bride has been a valued assistant in the family of Miss Peirce for several years, and the relation has been one of rare fidelity on the one side, and thorough appreciation and trust on the other. Such instances are rare now-a-days, and are a pleasant reminder that honor and faithfulness still exist among these useful members of our households; and Miss Peirce's recognition of these qualities by the liberal and generous manner in which she has celebrated the occasion which takes from her a faithful and tried companion, to govern in the future a home of her own, is alike creditable to her kind heart and good judgment.

On the evening in question the spacious parlors of No. 1 Court street, profusely and tastefully decorated with flowers, were thrown open for the reception of the bride's personal intimate friends, who with the members of the Peirce family awaited with interest the hour which should usher in the bridal party; and as the old hall clock chimed eight they made their appearance. The ceremony, performed by Rev. Mr. McGinley, the pastor of the contracting parties, was very impressive. After the usual congratulations, a handsome collation was served, consisting of the wedding cake, (for which Portsmouth is so justly famed) ices, cakes, coffee, etc., to which ample justice was done; and at the end of a social evening the bridegroom took his wife to the home he has been preparing for her. Let us hope he will fully appreciate the prize he has won.

The bride, who is a pretty black-eyed brunette, was attired in a handsome garnet silk, trimmed with white thread lace. The wedding presents were numerous and useful,—a handsome black marble mantel clock, silver ware, vases, toilet sets, and many others, too numerous to mention. ***

THE 4th OF JULY REUNION.

There was a large meeting of the Reunion Committee of '83 at the common council room on Friday evening. Alderman Stavers, from the committee on finance, reported that a number of the principal tax-payers were strongly in favor of having the needed funds raised wholly by subscription, according to the original plan, and consequently the proposed petition to the city government asking an appropriation had been given up. Dr. Parsons, Mr. M. Crowley, the chairman and others spoke, all the remarks being in favor of holding the reunion, and no doubt being expressed of its entire success. On account of the 30th inst. being Memorial day, an adjournment was taken to Monday evening, June 4th, at which time it is expected there will be a very full attendance of the supporters of the project. In the meantime the several sub-committees will keep at work perfecting the arrangements as far as possible.

A TERRIBLE EXPERIENCE.

As Mr. James Bennett, a diver employed by Mr. Solon S. Andrews on the work at Gangway rock, was at the bottom on Thursday evening last, casting adrift some heavy iron stays from the drill-platform, preparatory to its removal, he incautiously passed under one of the bars, which fell upon him, holding him to the bottom, tearing his diving-dress near the shoulder, and putting it out of his power to use the signal-cord. The men above water were quickly aware that something was wrong, but could do nothing to aid him, beyond pumping down air, until another diving-suit was procured from the workings at Badger's island ledge, when Mr. Bennett was released after having been for two hours in that terrible position. As might be supposed, he was greatly exhausted when rescued; but he was able to be at work on Friday, though only above water.

GOSSIPS SAY

That when a man was capsized in the narrows a few days ago eighteen dories put out to pick him up, and he would probably have been drowned had he not managed to swim ashore.

That Mr. Howard F. Grant of this city takes the position of bookkeeper in the office of the master of maintainance of of way of the Eastern railroad, at Salem, Mass., Mr. George S. Hobbs, the late bookkeeper, having been appointed paymaster of the road.

That great quantities of wild columbines in full bloom are hanging from the crevices in the rocky bluffs overlooking the narrows.

That the pasture lands about the city are teeming with wild flowers, the blue and white violets being remarkably large and beautiful this season.

That but three persons are living in this city who were prominent among the anti-slavery workers of forty years ago, viz., Frederick C. Rogers, who had charge of the "Underground Railroad" station for thirty years, Benjamin Cheever, a member of the secret council, and a Mrs. Brown, a colored lady nearly 100 years old, at whose house the refugees were concealed and fed while they remained in this city.

That up to Friday night more than $85,000 had been subscribed toward the new machine shop and foundry to be built on the Kearsarge mill lot, this amount being raised in less than two days.

That the result shows what Portsmouth enterprise can do when once aroused.

That it is no less gratifying to know that every subscriber is a citizen of Portsmouth and every dollar invested is from Portmouth capitalists.

That empty tenements will be scarce in Portsmouth a year hence.

That the evergreen trees in front of the Unitarian church show unmistakable signs of decay, having been killed by the drought of last summer or the frosts of last winter.

JOHN T. RAYMOND.

The audience at Music hall last Thursday evening, though not as large as was deserved, was composed of bright and quick-witted persons, who were able to appreciate at the instant the smart things "In Paradise," and evinced their approbation not only by constant laughter at the successful hits, but by rapturous applause. It did well in volume and sound, and Mr. Raymond must have been gratified at the reception of the Chicago lawyer.

The support was excellent; the judicious and discreet love making of the Chicago teacher who taught by example as well as precept, the lawyer's clerk, with his "society" vernacular, and the persistent lover, were all well rendered. Mr. Raymond possesses in an abundant degree the power of reproducing certain characters, not extravagant in their manner, but true to nature, which make a lasting impression. He is judicious, and follows the ideal, without yielding to the temptation to overflow in style.

While "Col. Sellers" will ever be a noted character, which will not be easily duplicated by any artist in that line of stage business, we are nearly as well pleased with the hero in Paradise, perhaps because we see the lawyer in this instance representing the cause of justice and innocence, against the wicked machinations of the western gambler. Indeed if we cannot have the Col., by all means let us enjoy the "Major."

NOTICE--RELIEF CORPS.

The ladies of the Relief Corps are hereby notified to be at the Court House on Monday and Tuesday, *afternoon and evening*, for the purpose of assisting in arranging the decorations for Memorial day.

MRS. MARY L. TAYLOR, *President*.

Work has been commenced on the foundation of the new chapel of the Baptist society, on State street.

The schooner Orville Horwitz, Kelsey master, arrived from Baltimore on Friday forenoon with 1037 tons of coal to J. Albert Walker—the first arrival of a sailing vessel reported at the custom house during the week, owing to the bad weather, though the coal steamer Lancaster came in on Tuesday, the 22d. The schooners R. S. Leaming and Elm City, the former with 760 and the latter with 960 tons of coal, both from Georgetown, D. C., to E. F. Sise & Co., and the A. A. Shaw, from Philadelphia with 898 tons of coal to J. Albert Walker, arrived later in the day. Other arrivals were the Annie F. Conlon, from Perth Amboy with coal to C. E. Walker & Co.; the Clara E. Simpson, from Georgetown with coal; the A. T. Boardman, from Perth Amboy with coal for South Newmarket; the Mary Willey, from Bangor with lumber to John H. Broughton; and the British schooner Milo, from St. John, N. B., with ties to the Eastern railroad.

The choir of young men which has been singing at Christ church during the past four Sabbaths under the direction of Mr. E. A. Tilton, has been engaged for one year's duty at that church. The members composing the choir have been devoted to their work, and have shown considerable proficiency considering the short time they have been under instruction.—*Journal.*

Much complaint is made that Music hall is insufferably hot at evening performances, and ladies are obliged to leave before the concluding of the entertainments for this reason. When the weather is as warm as it was on Thursday night, a pressure of steam and closed windows make the hall quite uncomfortable. It is to be hoped that on Memorial day the audience will not be compelled to perspire between the heat of steam and gas-lights, nor the windows and doors be closed as if we were shut in the embrace of a hard winter.

The hoisting engine for the schooner in course of construction by Mr. Fernald arrived at the Eastern railroad station on the 24th inst., and was hauled to Freeman's point on the 25th by Mr. Floron Barri.

Rev. R. W. G. Mellen, pastor of the Unitarian church in Dover, will leave for Europe on the 2d of June, having been granted a vacation of three months.

The steam tug Naumkeag, which has been running on this river for a number of years, principally engaged in up-river towing during the summer months, it is said is to go to Brunswick, Ga., after being thoroughly repaired.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** It combines vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. The startling what ever that the world exists either require or wish to know but what is explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

In Providence, R. I., shortly after midnight on the night of May 23d, Nina Bell Chase, twenty-one years old, shot herself in her room, and died in a few minutes. She was a good looking woman, and had been living for a year with a man named William Paine, a stable keeper. Paine and his hostler went to a variety theatre together in the evening, and the hostler leaving early, Paine went to the Chase woman's room and found his hostler there. An altercation ensued. After the two men left, the woman attempted to drink from a bottle of laudanum, but was prevented. Paine returned afterward and was talking with another woman in another room when the woman shot herself. The woman was married to a man named Mansfield, living in Connecticut, and has a father living in Fall River, Mass. Her mother is in an insane asylum.

The solid farmers of Kansas have still on hand over 5,000,000 bushels of old wheat, and more than 37,000,000 bushels of old corn.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

The Hornellsville *Herald* says there is a young woman in that town, who, though not yet twenty-one years of age, has had six husbands, all of whom are still living.

EASILY PROVEN.—It is easily proven that malarial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness, and neuralgic ailments yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives new life and vigor to the aged and infirm always.

Portland, Oregon, has one Chinese theatre and is to have a second immediately.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

The people down in Georgia are digging pits as a protection from future tornadoes. "I hear you have dug a pit to protect you from the storms," said a Methodist to a Primitive Baptist. "Yes, I have," was the reply. "Well," replied the Methodist, "if you hardshells, who believe that whatever will be will be anyhow, have gone to digging pits, it is high time we Methodists were at it."

Perso 1.

A young lady of seventeen summers, highly educated, refined, and of prepossessing appearance, desires to form the acquaintance of some nice young man, whom she would advise if troubled with dyspepsia, to use that great blood purifier Sulphur Bitters.

Mrs. William McLellan, reported injured by the Kansas City tornado, is the wife of Hon. William H. McLellan, formerly of Belfast, Me. Her injuries are not dangerous. Some of the younger members of the family were somewhat bruised, the brick building occupied by them having been demolished.

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidney, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

"Tim" Buckner, a negro desperado of Plymouth, N. C., has been confined in the jail of that town for the past year. During the whole of that time his two faithful dogs have taken turns in standing in front of the prison door, looking pitifully up at the forbidding walls. The people of the town, becoming deeply interested in the devotion of the poor brutes, have built for them a kennel near the door of the jail, within sight of their master's cell window. A petition is now being circulated asking the governor to pardon Buckner on account of the faithfulness of his dogs, which would seem to be a clear case of vicarious goodness.

Miss Georgiana F. Way, of North Charlestown, N. H., says: "I have taken Brown's Iron Bitters for general debility with most favorable results and cheerfully recommend it."

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 151 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $800.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

Messrs. Samuel A. Green, George P. Sanger, M. P. Kennard, Capt. O. C. Badger, T. B. Aldrich, Charles Levi Woodbury, James L. Little, Jr., Edward Stearns, E. W. Rollins, William H. Goodwin, Arthur H. Pickering, George Riddle, William Ware, A. L. Hollingsworth, James T. Furber and R. H. Eddy last Thursday addressed the following letter to Miss Norah Bartlett:

Deeply regretting that your connection with the Boston Museum is to cease at the end of this season, we wish to express our gratification at your work there through the past three years, and our approval of your good judgment in availing yourself of the close training of that institution. The great variety of parts, constantly changing, has afforded you the opportunity of slowly and carefully gaining the requirements of good acting—the advantages of which cannot fail to be apparent through the brilliant career we expect for you. We accordingly ask, on behalf of ourselves and your numerous friends, that you will kindly signify a date on which, with the consent of the Boston Museum management, it will be agreeable to you to receive a testimonial benefit.

To this the following answer was returned:

BOSTON, May 25, 1883.

Messrs. Green, Sanger and others: Gentlemen,—Allow me to acknowledge, with cordial thanks, your very courteous invitation to accept a testimonial benefit before leaving the Boston Museum company. I sincerely regret that the lateness of the season prevents my compliance with your flattering request. Truly grateful for your good opinion and kind interest,

Believe me, respectfully yours,
NORAH BARTLETT.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

The report of the commission to examine the condition of the insane inmates of the county almshouses in New Hampshire, appointed by a joint resolution of the legislature, has been published. The members of the board visited and thoroughly inspected all institutions, with the view to ascertain particular circumstances attending each case, and the treatment given. The document, which contains much valuable information concerning matters that will demand public attention, will be laid before the coming legislature for action, in pursuance of the act authorizing the appointment of a board.

The secret of the universal success of Brown's Iron Bitters is owing to the fact that it is the very best iron preparation made. By a thorough and rapid assimilation with the blood it reaches every part of the body, giving health, strength and endurance to every portion. Thus beginning at the foundation it builds up and restores lost health. It does not contain whiskey or alcohol. It will not blacken the teeth. It does not constipate or cause headache. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, etc.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Tayler, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

A MALARIAL VICTIM.

The Trying Experience of a Prominent Minister in the Tropics and at the North.

TO THE EDITOR:

The following circumstances, drawn from my personal experience, are so important and really remarkable that I have felt called upon to make them public. Their truth can be amply verified:

In 1875 I moved from Canton, St. Lawrence county, N. Y., to Florida, which state I intended to make my future residence. I purchased a home on the banks of the St. John's river and settled down, as I thought for life. The summer following the first winter I was conscious of most peculiar sensations which seemed to be the accompaniment of a change of climate. I felt a sinking at the pit of the stomach accompanied by occasional dizziness and nausea. My head ached. My limbs pained me and I had an oppressive sense of weariness. I had a thirst for acids and my appetite was weak and uncertain. My digestion was impaired and my food did not assimilate. At first I imagined it was the effort of nature to become acclimated and so I thought little of it. But my troubles increased until I became restless and feverish and the physicians informed me I was suffering from malarial fever. This continued in spite of all the best physicians could do and I kept growing steadily worse. In the year 1880 my physicians informed me a change of climate was absolutely necessary—that I could not survive another summer in the south. I determined to return north, but not to the extreme portion, and so I took up my residence at Upper Sandusky in Central Ohio. The change did not work the desired cure, and when the extreme warm weather of summer came on I grew so much worse that I gave up all hope. At that time I was suffering terribly. How badly, only those can appreciate who have contracted malarial disease in tropical regions. It seemed as if death would be a relief greater than any other blessing. But notwithstanding all this, I am happy to state that I am to-day a perfectly well and healthy man How I came to recover so remarkably can be understood from the following card voluntarily published by me, in the Sandusky, (Ohio) *Republican*, entitled:

HONOR TO WHOM HONOR IS DUE.

Editors Republican: During my recent visit to Upper Sandusky, so many inquiries were made relative to what medicine, or course of treatment had brought such a marked change in my system, I feel it to be due to the proprietors and to the public to state that Warner's Safe Kidney and Liver Cure accomplished for me what other medicines and physicians had failed to do. The malarial poison which had worked its way so thoroughly through my system during my five years residence in Florida had brought me to the verge of the grave, and physicians had pronounced my case incurable; but that is not to be wondered at, as it was undoubtedly one of the worst on record. Hough Brothers, of your city, called my attention to the medicine referred to, and induced me to try a few bottles. So marked was the change after four week's trial that I continued its use, and now, after three months, the cure is complete. This is not written for the benefit of Warner & Co., but for the public, and especially for any person troubled with malarial or bilious attacks."

Such is the statement I made, without solicitation, after my recovery, and such I stand by at the present moment. I am convinced that Warner's Safe Cure is all it is claimed to be, and as such deserves the great favor it has received. A remedy which can cure the severest case of tropical malaria of five years' standing certainly cannot fail to cure those minor malarial troubles which are so prevalent and yet so serious.

James Livingsten of Berlin, Mass., who last week pleaded guilty of manslaughter in killing his wife last April with a hatchet, has been sent to prison for seven years.

"An infant crying in the night,
An infant crying for the light,
And with no language but a cry."

The child was in pain, and knew no better than to cry until morning, or until somebody brought him something to relieve his suffering. Everybody who has the care of a small child should remember that the little fellow's pains and gripes are ever more severe to him than corresponding pains would be to a big man. Acting on this, it is wise to have Perry Davis's Pain Killer on hand.

Nelson Herbert, aged twenty-two years, was drowned in a brook at Shelden, Vt., May 25th. He is supposed to have had a fit while fishing, and fallen into the stream.

Miss Louise S. Locke, North Charlestown, N. H., says: "I derived great benefit from using Brown's Iron Bitters for nervous disease. I gladly recommend it."

At Beloit, Wis., May 25th, during a fierce wind and rain storm, a number of live fish, one of them weighing a pound, dropped in the business streets.

"Get up like a man, and take care of yourself." Get a bottle of Wheat Bitters. It will make a new man of you, no matter what your trouble may be. No such remedy was ever before offered to the public. $1.

It is understood that a new judiciary act, to constitute law and trial courts, has been prepared lawyers, and will be introduced at the next session of the legislature.

A LOCAL INDUSTRY.

Mr. Emerson says "As soon as a stranger is introduced into any company, one of the first questions which all wish to have answered, is: 'How does that man get his living?'" So when a town like Portsmouth is visited, the stranger within our gates naturally asks, "What do your people do for a living?" To an intelligent gentlemen from a flourishing city in Connecticut, putting the enquiry recently, a resident replied: "The larger number of them cut off coupons; but a few of the most indolent have their bonds registered, to save the trouble."

The question of what should be done to increase our industrial results, has for some time been one of interest to our reflecting residents.

It is pretty well ascertained that as far as navy yard aid is concerned, the place is worse off than if the yard was not in the vicinity. The present policy of the administration,—or perhaps, to speak advisedly and within due bounds, the result of the present mode of conducting the affairs of the navy yards—tends, as it is meant that it should, to disgust alike congressmen who vote appropriations, and the people who elect the congressmen. The object is to sustain the position assumed by the guileless head of the navy, that government work can be done cheaper and better by contract, than by the employees of the government in navy yards. Hence we see that when the attention of the navy department is called to a waste or mismanagement, the perversion of funds, or the employment of men on the yards by officers for private work, the only notice taken is for the powers that be to say, "Yes, we know it. The yards cannot be run honestly or effectually, and had better be closed."

This is the doctrine of the contractors, and this it is which will cause a fine crop of grass to grow at our navy yard, to be gathered perhaps at the public expense to feed the horses of some favored officer placed there to protect the interests of the government!

Our people are weary of this kind of management, and heard sick in their attempts to rebuke or remedy these evils. Granted then, that the navy yard is to do but little in the way of employing skilled labor; that the efforts of the department will be exerted in devising schemes of "how not to do it," the question recurs, "What shall we do for a living?" The difficulty in permanently keeping up our shipbuilding industry, a business for which Portsmouth had a world-wide repute, has in times past been that a private shipbuilder could not afford to pay the prices for labor which the government paid at the navy yard, and when a short, spasmodic season of employment resulted in a call, for however brief a period, on the navy yard, the industrious carpenter retired to the more congenial shelter of Uncle Sam's ship-houses.

True, the prospect now is, that with the ukase of the secretary that he will neither build any more wooden ships, nor expend upon those in existence beyond what is demonstrated "petty repairs"—a small phrase, but one calculated, like charity, to cover a multitude of sins,—the ship carpenters will not be likely to make much sound in the future upon the navy yard; and we are glad to note the enterprise of one of our ship-builders, whose reputation is something in which we all have a pride, in keeping one shipyard in active operation. Twenty miles west of us, on the Merrimac, the business is quite abreast of what it was in the palmiest days of old, and we trust it is to revive here.

But we need to supply the places of the four hundred operatives formerly employed by the Kearsarge mills, and of those who indirectly found employment by reason of this former industry, of which the fire deprived us. It is proposed to do this by starting a foundry and machine shop, or rather by extending and enlarging one now in active and successful operation, so that with an increase of skilled mechanics our products may be increased, our tenements be well rented, our merchants see their sales enlarged, our churches have fuller attendance, and a more prosperous and healthful era of business follow.

We are glad to note that in order to bring about such a result some of our best business men have put their shoulder to the wheel. Instead of having a "Board of Trade" meeting, or sitting down and indicating what others might, could or should do, they started a subscription paper, signing for such sums as would enable them to say to others, "Come on," not "go on." These men most of them have ample means; are perhaps not suffering from the lack of thrifty business industry in our streets; but with them it is not a selfish consideration. They think Portsmouth is capable of better things. While it is attractive in summer, it ought to be industrious and thriving all the year around, and a strong feeling of loyalty to the city, of a desire to keep it up in the estimation not only of its own citizens, but of sons who have gone forth to other cities, as well as to the world at large, has incited these gentlemen to put forth a helping hand and start an enterprise which with prudent oversight, sagacious management and the good word and wishes of all our citizens, can but prove a success, and result in a permanent and positive advantage to Old Strawberry Bank.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above. I

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information, TYPE

MEDICAL.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as seen by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes the blood, and renovates thereby restoring the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

135 HOWARD STREET,
LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours,
(Coburn Shuttle Co.) C. C. PICKERING.

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

MEDICAL.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer

IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

4th Company, Abel Jackson, commanding. 1st Lieut. B. Stowe Laskey.
Floral Carriage.
Carriage with disabled veterans.
Invited Guests.

Route of procession—through Pleasant, State, Middle, Islington, Cabot and Middle streets and Richards avenue to the south cemetery, which will be entered by the north gate; the column will form en masse at the westerly end of the pond, where the following exercises will take place:

Reading of General Order.
Prayer by D. W. Jones, Post Chaplain.
Selections by Band.
Decoration of Graves by Storer Post.
Recall.
Volley by Marine Corps.
Selections by Band.

The procession will reform at the close of the exercises, and march through South, Pleasant, Court, Middle and Congress streets to Market square, where a battalion dress parade will be held.

The following is the programme for the evening exercises:

1. Selection, by the band.
2. Introductory remarks by John H. Hutchinson, president of the evening.
3. Resolutions on the death of Ex-Gov. Ichabod Goodwin.
4. Prayer, by chaplain, Rev. H. E. Hovey.
5. Song, Miss Flora Hayes.
6. Recitation (in costume) Miss Hoyt.
7. Oration by Rev. L. F. McKinney of Manchester, N. H.
8. Song.
9. Violin solo.
10. Recitation, Miss Lizzie M. Varrell.
11. "America," band and audience.
12. Benediction, Chaplain Hovey.

The tickets went on sale at Goodrich,s on Saturday morning, a sufficient number of seats, as usual, having been previously marked off on the plans wherewith to furnish all the widows of deceased soldiers with tickets. The centre chairs of the house are reserved at fifteen cents each, and the remainder at ten cents.

There is some anxiety about receiving the customary donation of flowers on Memorial day, as the season is so backward, and it is the earnest request of the committee having the matter in charge, that flowers, of any and all descriptions, may be sent to the Court-house on Tuesday afternoon or early Wednesday morning.

NOTICE--RELIEF CORPS.

The ladies of the Relief Corps are hereby notified to be at the Court House on Monday and Tuesday, *afternoon and evening*, for the purpose of assisting in arranging the decorations for Memorial day.

MRS. MARY L. TAYLOR, *President*.

We also earnestly solicit the assistance of all ladies interested in the cause, outside of the Relief Corps.

POLICE COURT--BATCHELDER, J.

SATURDAY, May 26th.

Daniel Hurley, drunk, fine $3, costs $6.90; county farm in default of payment.

TEAM STOLEN.

A team belonging to Wm. A. Proctor of Manchester was stolen from a post in that city where it was hitched, last Thursday evening. On Friday morning about eight o'clock the team was driven into the yard of A. K. Brown's stable in this city, by a man who hitched the team under a shed and then walked off. As teams are frequently tied there for a short time nothing was thought of this at first, but when night arrived Mr. Brown directed the horse to be stabled, supposing the owner had got on a spree; but he soon saw a notice of the team having been stolen in Manchester, and having found in the buggy a bottle bearing a Manchester label, a box of herring and a pipe, he notified Mr. Proctor and City Marshal Entwistle, and on Saturday the owner arrived and recovered his team.

A young man calling himself Charles H. Morey was arrested in this city Saturday on suspicion of being the thief, and held over Sunday, though no very strong evidence against him had been discovered up to Sunday evening. It was expected that witnesses from Manchester would give important testimony on Monday.

THE WATER WAS TOO WET.

As Mr. John P. Tibbetts, watchman on the navy yard, was getting into his boat at a wharf in the rear of Holbrook's sail-loft shortly before ten o'clock Friday night, to go to the yard, he was startled by a loud splash, followed by still louder yells for help. Pulling to the spot he found in the water a woman named Emma Hubbard, belonging in Dover, but for some time past an inmate of a place in this city, she having attempted to drown herself through jealousy of a Boston drummer, but repented on finding the water much wetter than she had anticipated. She was fished out.

GOSSIPS SAY

That Mr. Charles Davis and Dr. S. C. Whittier started on Saturday for New York, where they were to join a small party of other gentlemen for a four weeks' trip to the west.

That some of the Idaho mines largely owned in this city will be thoroughly inspected by the excursionists before their return.

That there was a loud call for ice cream at the various saloons on Saturday night.

That though many called for the frozen luxury, few were able to get served.

That the Concord railroad will transport the horses of the cavalry to Concord and return free of charge, on the occasion of the governor's inauguration.

That Storer Post, G. A. R., of this city, is the second largest post in the state.

That the boys turned out well on Sunday for divine service.

That many "spring bonnets" made their first appearance at church last Sunday, their fair owners having evidently got tired of waiting for a good day.

That Major Tilton will ring patriotic airs on the chime bells while the procession is moving, Memorial day.

That Mrs. David Junkins of this city and Mrs. Nathan Mason of Eliot, Me., met in Russell street on Friday last, not having seen each other previously for fifty-two years. They had been intimate companions in their girlhood, and the reminiscences which came thronging back through all those years of separation brought to their lips many audible exclamations of joy, the unusual scene drawing together quite a crowd of interested and respectful lookers-on.

FUNERAL NOTICE.

The members of New Hampshire Lodge, I. O. O. F., and sister lodges, are requested to meet at Odd Fellows' hall Monday afternoon, at quarter-past one o'clock, to attend the funeral of our late Brother Uriah Blaisdell. Per order,

THORNTON BETTON, *Sec.*

Mr. James Rindge Stanwood has caused to be published a special limited edition of the "direct ancestry of the late Jacob Wendell of this city, with a prefatory sketch of the early Dutch settlement of the Province of New Netherlands." The sketch of Mr. Jacob Wendell is accompanied by an elegant steel plate portrait of our former fellow citizen, who was over half a century ago a leading merchant here. He was a descendant of Evert Jansen Wendel, a native of Holland who came to this country under the auspices of the Dutch West India Co. in 1640, and was a resident for awhile of New Amsterdam, now New York. The book, which is intended as a memorial tribute to the grandparent of the author, abounds in much valuable historic information, gathered apparently with much care as to its authenticity by Mr. Stanwood, whose tastes and accomplishments in this respect are proverbial.

Mr. Uriah Blaisdell died on Saturday after a long illness, in the 62d year of his age. He was born in Lebanon, but came to this city in 1848 and engaged in business, first keeping a grocery store, and afterward a stove and tin-ware store. He leaves a widow and four children, a son and three daughters; the son, Geo. A. Blaisdell, has been in business with his father, and one of the daughters is the wife of Mr. Charles E. Buzzell. He was an active Universalist, a member of New Hampshire lodge and Strawberry Bank encampment of Odd Fellows, and of St. Andrew's lodge of Freemasons.

The alarm of fire on Saturday afternoon was occasioned by a slight blaze in the barn of Robert Roberts on Hill street, a pile of old shingles having caught fire, probably from a spark. The department turned out promptly, but their services were not required, Mr. Roberts and Mr. Thomas J. Mitchell having extinguished the flames with a few buckets of water before their arrival. Had the fire got well under way it might have been a serious one, as the wind was high at the time, and blowing directly toward other wooden buildings not far distant.

Stephen R. Niles of Boston spent Sunday in Postmouth, having arrived from the White mountain region on Saturday morning. Mr. Niles is giving considerable attention to the business of placing the advertisements of the mountain and coast hotels properly before the public.

Joseph Manning and Charles W. Varrell, representing the Boston grocery houses of J. F. Nickerson & Co. and Timothy Gay & Co., respectively, have tendered liberal supscriptions to the firemen's muster committee, and it is said other firms in Boston which send representatives here will not be behind when the time comes.

The trustees of the Chase Home for Children have purchased the Fishley house on Jefferson street for the uses of the institution.

The public drinking fountains were delivering water when called for on Saturday, and enjoyed a very large patronage.

Mr. Samual Cate, who died at his residence, Melrose Highlands, Mass., on the 24th inst., was born in this city in 1803, and moved to Boston in 1820. He was one of the oldest members of the Massachusetts Charitable Mechanic association, having joined in 1837, and has always taken a great interest in its affairs. He leaves a widow, two sons and one daughter.

Saturday was by far the warmest day of the season, up to that date.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Fleur.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published, 125 pages, 125 engravings, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1, by mail, postpaid, on receipt of price. Illustrated sample 6½ cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is legend all competent critics the most expert work on Physiology ever published. The working whatever that the married or single either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address,

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Clendening, startingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night; Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained of your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES!

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who alone will other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is seriously devoted to her work, which is the outcome of a life-study, and is enabled to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering and all welcome from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All street cars here are an Angel of Mercy whose sole ambition is to do good to others

The North Dakota Loan and Trust Co., of Jamestown, Dakota, not only offers a high rate of interest, but tenders investors the utmost security, and is ready to furnish full information and reference to Eastern bankers, to all applicants. An examination of their facilities is specially desired from those holding funds in trust which they wish to place to the best advantage.

The Manchester & Lawrence railroad stockholders re-elected their board of directors on Friday last, and resolved that it was desirable to have authority to unite with the Concord railroad and the other roads in the Merrimac valley, provided it can be equitably done. The subject is in the hands of the directors.

Bourbon Whiskey

is a necessity in every household. A really reliable brand may be found in the "G. O. Taylor Old Bourbon," bottled by Messrs. Chester H. Graves & Sons, of Boston, and to be obtained in bottles only, bearing their signature over each cork, from leading Grocers and Druggists everywhere.

Rev. William H. Mitchell, of Kennebunk, has accepted a call to the Advent church in Dover, N. H., which church he has for some time supplied. Mr. Mitchell will continue to reside in Kennebunk, where he has a farm, and is an active member of the school board.

"When a thing is once begun, it is almost half finished." If you, reader, have dyspepsia, constipation, biliousness, or any disorder arising from impure blood, begin taking Wheat Bitters. Your cure will be half finished, likely completed, by the first bottle.

Mrs. Coleman and family, from Dunkirk, N. Y., arrived at Rye beach last week, and took up quarters in the Pleasant View cottage, kept by Mr. John H. Foss. From the number of engagements of rooms already made, many of them to be occupied at an earlier date than usual, the keepers of beach hotels and boarding houses in this vicinity anticipate an early and brisk season.

"Dr. Benson's Celery and Chamomile Pills are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

A woman named Penny left her home in South Berwick on Sunday, May 20th, saying she intended to call on a neighbor, and did not return. On Thursday, the 24th, the river at and above Dover was dragged to see if her body could be found, but no trace of her was discovered. She has a daughter, a young woman who works in a factory.

☞ Diamond Dyes will color any thing any color, and never fail. The easiest and best way to economize. 10 cents, at all druggists.

John Hennessey and James Crowley, of this city, were picked up in Dover on Friday evening last, thoroughly drunk, and next day were fined $2 and costs each, amounting to $17.52.

"Solid comfort" can be realized by those suffering from all forms of scrofula, if they will take Hood's Sarsaparilla and be cured.

The *Tribune*, of Waltham, Mass., says "Dr. C. W. Hutchins has been tendered the appointment of surgeon on one of the largest sailing vessels in the European merchant marine service." Dr. Hutchins is the son of Mr. Charles H. Hutchins of this city.

The steam sawmill of Edwin Clement & Co., at Gorham, and a lot of lumber, were burned May 25th; loss $8000, with partial insurrnce.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

Rev. Henry Dorr, of Claremont, was recently thrown from his carriage by a runaway horse, and sustained serious injuries. The left ankle joint was dislocated, the larger bone broken and forced outward until it penetrated through the skin, and the small bone broken.

EASILY PROVEN.—It is easily proven that malarial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness, and neuralgic ailments yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives new life and vigor to the aged and infirm always.

The dwelling and furniture of Henry W. Moody, of Lyme, were recently destroyed by fire, and Luman Moody, aged eighty years, the father of Henry, was burned to death, the rest of the family being temporarily absent.

Dr. M. J. Lewis, Iowa, says: Brown's Iron Bitters gives the best of satisfaction to those who use it."

The Laconia *Tocsin* says that Bishop Healey forbade the burial in a Catholic cemetery of the remains of Fred Landre, a Frenchman who was killed recently by the cars, on the ground that he was drunk at the time of his death.

Ladies should wear a Hop Plaster over the small of the back, as it cures all pains and aches. 25 cts at any drug store. All ready to apply.

A search of the cart of Wm. Pitts, who has been peddling "essences" in several towns in Merrimack county, discovered a few bottles of essence and ten gallons of alcoholic liquors. He was arraigned at Bedford, and in default of bonds was sent to jail.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 161 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the south and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $440,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $650.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

Don't trifle with Catarrh by using nasal injections and irritants. They can never cure it. Use Ely's Cream Balm. It is not a liquid or snuff, and easily applied. A child can use it without harm, and its effects are speedy and thorough. "I suffered for years with chronic catarrh,' writes S. M. Greene, Book-keeper, office N. Y., Catskill & Athens Steamboat Co., Catskill, N. Y. "I was induced to try Ely's Cream balm, and relief was instantaneous." This exquisite remedy never disappoints. Rear Admiral Hughes, under date of Callao, Peru, April 30th, reports the disposition of the vessels of the Pacific squadron at that date as follows: The Essex was repairing machinery at Callao, having orders to proceed to Yokohama, Japan, and join the Asiatic squadron, stopping a few days at Honolulu en route; she expected to sail in about ten days. The Iroquois was at Valparaiso, with orders to remain for the present on the coast of Chili. The Hartford, which sailed from Callao to Honolulu, via the Caroline islands, had been ordered to return to Callao. The Lackawanna had orders to return to Callao on the completion of the coronation ceremonies at Honolulu. The Wachusett had orders to return to Callao, via Samoa. The Adams was at Sitka by order of the department. The Onward was at the quarantine station at San Lorenzo island, Callao bay, on account of a suspicious case of fever having appeared on board; at the date of the report, however, she was entirely free of infectious disease. The health of the squadron was good.

The secret of the universal success of Brown's Iron Bitters is owing to the fact that it is the very best iron preparation made. By a thorough and rapid assimilation with the blood it reaches every part of the body, giving health, strength and endurance to every portion. Thus beginning at the foundation it builds up and restores lost health. It does not contain whiskey or alcohol. It will not blacken the teeth. It does not constipate or cause headache. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, etc.

The Gay Gambeliers.

The effects of poker-playing and other species of gambling among officers of the United States army have been seen in the discovery of officers obtaining money on duplicate pay accounts discounted at heavy shares. This gambling by officers has long been known of in Washington, and it will be seen whether, after a public announcement, the head of the war department will have—as would the head of the navy—the courage to combat a great wrong, and deal with the evil in a vigorous manner.

—Weak in geography: An application was made at a railroad ticket office in Newport, not long since, for a ticket to New Hampshire. "To what part of the state?" was the question asked by the agent. "Well," was the reply, "I don't exactly know, but it's next to that place called Vermont."

MEDICAL.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Tayler, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcades, scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

BOSTON, October 10, 1876.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to do so by you. Yours truly, GEORGE DRAPER.

"An infant crying in the night,
An infant crying for the light,
And with no language but a cry."

The child was in pain, and knew no better than to cry until morning, or until somebody brought him something to relieve his suffering. Everybody who has the care of a small child should remember that the little fellow's pains and gripes are ever more severe to him than corresponding pains would be to a big man. Acting on this, it is wise to have Perry Davis's Pain Killer on hand.

A Correction.

In replying to Mr. Dezendorf's complaint that the Norfolk navy yard was being put to political uses, Secretary Chandler sarcastically reminds the ex-congressman that the time was when he did not object to that sort of thing. This is a neat hit, but Dezendorf may strike back in kind. They do say up in New Hampshire that the Portsmouth navy yard has been worked for all it is worth in the way of producing voting material, and that Mr. Chandler has not up to date objected to "that sort of thing."—*Washington Star.*

We think the above does injustice to Mr. Chandler, and the *Star* cannot be informed as to the true condition of affairs of this kind.

It is certainly not true that the navy yard at Charlestown on the one near this city is at present used in this way, whatever may have been the custom under former secretaries. On Mr. Chandler's recent visit to Boston he was called upon by some of the officers of the navy yard, concerning some change in the civil list, and he charmed his callers by his unmistakably ingenuous deploration of the interference by politicians with the operations at navy yards. In the case under advisement, a request for the employment of a person during the temporary absence of one of the master workmen was endorsed by a leading politician from Massachusetts. The honest secretary remarked that if the request could be granted upon the "merits of the case," there would be no objection. Again, some time last winter, we are told, a written request was sent to the secretary urging the restoration to employment of a man discharged from the Kittery yard upon the plea of economy, while others were retained to do service at officers' quarters and in making articles for private use, and which the writer claimed was pointed out to the secretary. To this request, signed as we have been informed by many of the best workers of the republican party, who had contributed their time and means in supporting the ticket in this state when the contest had a doubtful outlook, the secretary never deigned a reply, probably because he feared that it might be thought that political influence had its weight with him.

On the contrary, when it was proposed during the session of the last Congress to close certain navy yards, Mr. Chandler with that disinterested generosity so rarely seen in men who are mere politicians said to the congressmen and others, I think that the government work can be better done by contract, by Mr. Roach for instance, than at the navy yards, and I am willing to close the yard adjacent to my native state to show my sincerity in this position. An effort of some of our citizens prevented this result, but the declarations of the secretary and his subsequent acts shew that the statement that the "Portsmouth navy yard has been worked for all it is worth in the way of producing voting material" is entirely without foundation in fact.

News and Notes.

The czar of Russia was successfully crowned at Moscow on Sunday, May 27th, with imposing ceremonies. The nihilists made no demonstation in the way of blowing everybody or anybody up.

An average of 5000 people an hour passed over the Brooklyn bridge on the 25th inst.

Both Mahone and Dezendorf seem to have been somewhat left at the late Virginian election.

A man and dog fell from the East river bridge into the river on the 25th inst. The man was picked up by a steamboat, alive but insensible; the dog was drowned.

A bust of the late President Garfield, by Preston Powers, is on exhibition in the gallery of the Boston Art club.

Dr. O. W. Holmes is to preside at the annual Unitarian festival in the Boston Music hall on the afternoon of the 31st inst.

It seems if Mr. Chandler had been a good lawyer he might have made a better cabinet officer. When he demurred to the complaint of Mr. Dezendorf he by implication admitted the fact charged, and said "What of it? Do ye even so yourself." It was a bad "give away," which will eventually annoy President Arthur's administration more than any blunder yet committed by his advisers. It shows a supply of temper, but a lack of tact.

The schooner William C. French, 500 tons burthen, was launched from the yard of Atkinson & Fillmore at Newburyport on Saturday, May 26th.

Twenty-two deaths from yellow fever occurred in Havana during the week ending May 26th.

Twelve employes of the Milwaukee, Wis., county hospital, including female nurses and male attendants, have petitioned the board of supervisors to remove Dr. Marden for drunkenness and worse practices.

Fred Brumley, aged twenty years, was shot dead on the bridge at Norwich, Conn., about 9:30 o'clock on the night of May 27th, by some person unknown.

Charles Mitchell of Concord, during a fit of despondency last Sunday, cut his throat with suicidal intent, but is expected to recover.

AROUND HOME.

The British schooner Milo, which arrived at this port from St. John, N. B., last week, brought 17,555 feet of plank, 12,225 feet of boards, 100,000 laths and 550 thousand shingles to T. E. Call & Sons.

There will be a special meeting of the Woman's Temperance League this (Tuesday) afternoon at two o'clock.

The Virginia strawberries so far received this season are inferior to those of last year. The first watermelons from the south reached Boston last week. Three barrels comprised the first shipment.

Charles H. Morey, arrested on Saturday on suspicion of his being the person who stole Proctor's team at Manchester, was discharged, no evidence being adduced to justify his being further detained.

The monthly meeting of the Rockingham County Temperance association for May will be held in the Congregational church at Brentwood on Thursday, May 31st, commencing at 10:30 o'clock A. M. with a prayer and praise meeting, led by Rev. Mr. Pinkham of Northwood Ridge. One of the questions to be discussed in the afternoon will be "The relation of cider to intemperance."

The Boston *Post* says: "The centreboard catboat Franc has been sold by Mr. Tucker of Dorchester to Boston parties. The Franc was built at Kittery, Maine, by Stephen Decatur, in 1879. She is twenty-eight feet over all, eighteen feet six inches on the water line, eight feet beam, draught two feet, is a fast sailer, and is a sister to the Qui Vive, built two years ago and proved to be very fast."

According to the decision of the United States Supreme court, in the case affecting the Chicago, Burlington & Quincy railroad, every state has the right to regulate fares, freights, etc., and any by-law adopted by the directors of the railroad companies are null and void when they conflict with the laws of a state relating to the same subject. From this it is evident that the New Hampshire legislature can regulate such matters in this state whenever the people desire it, and the members of the legislature obey their wishes. There is no danger, then, to be apprehended from the lease of the Eastern railroad to the Boston & Maine.—*Dover Republican.*

The "Flying Yankee" fast train between Boston and St. John, N. B., over the Eastern and Maine Central railroads, will commence running June 18th. It will leave Boston at 12:50 P. M., arriving at Bangor at 9:45, and reach St. John at six o'clock the next morning. Returning, leave St. John at seven A. M., reaching Bangor at 1:50 P. M., Portland 6:50 P. M., and arriving in Boston at ten P. M.

Half a dozen vessels of the mackerel fleet arrived at Gloucester, Mass., all with seines torn off Chatham, on Saturday and the day before. They report mackerel plenty, but tending in shore, where rough bottom prevents successful fishing. Schooner James A. Stetson took in sixty barrels, the first considerable receipt at that port this season. The first receipt last year was May 17th. The ill success of most of the fleet so far this season is attributed to an unusual transparency of the water; the seine can be plainly seen, it is said, at a depth of eighteen fathoms, and the mackerel seeing the twine, dodge it.

That marked halibut referred to last week as being caught on board schooner Josie M. Calderwood, was first caught two years ago by John Diggins, on board schooner David J. Adams, on Western bank. He cut his initials, "J. D.," on the fish, and let him go. At that time the fish weighed ten pounds, and when last caught weighed about thirty pounds. Mr. Joseph Duffney also cut his own initials, "J. D.," (same initials, as will be observed,) on a halibut seven years ago, on board schooner Frederick Gerring, Jr., on Banquereau, but the one caught on board the Calderwood could not have been his, as it would have gained more than twenty pounds in seven years; consequently there is every reason to believe that the one caught was that of Diggins, and Duffney's is yet to be heard from.—*Gloucester Advertiser.*

Two fishermen named Frederick Eastman and Benjamin Lee, reported lost from the schooner Margaret, of Gloucester, Mass., were picked up on the 24th inst. after being in their dory several days.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. BLOOD

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as seen by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in neighborhoods have been the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

PARISH MEETING.

At a meeting of the members of the South Parish, held on Monday, after a vote confirming the rule passed June 23d, the following communication was read by the moderator:

PORTSMOUTH, Sept. 26, 1882.

Col. William H. Sise, chairman wardens of the South Parish.

My dear sir: In the course of the repairs incident to the restoration of the Old State House, in Boston, in 1881-82, it became necessary that a pattern be supplied for the centre-pieces in the Council Chamber and Representatives' Hall of that building, this portion alone being missing from the original plans, preserved by the municipality.

With the hope of finding a design fully in accord with the order of architecture represented in the finish of these halls, thorough researches were made by the committee in charge of the restoration, in such buildings of the Colonial period as yet remain in Boston and its immediate vicinity, but with no satisfactory result, until, in the progress of the inquiry my attention was directed to the centre-piece which accompanies this communication.

It was then in possession of Wm. J. Fraser, a mason of this city, by whom it had been used as a design for reproductions in plaster. He informed me that when the Old South Meeting House was razed, in 1863, he had himself taken the piece from its position in the ceiling, where it was so securely attached to the church structure as to afford unquestionable proof of its having constituted a portion of the original building.

The quaint wooden centre-piece, bearing the well-known acanthus pattern, especially a favorite at the period when both the buildings were erected—most satisfactorily consummated the search of the committee. By consent of Mr. Fraser it was taken to Boston, where the design was exactly reproduced in the same material for the same centre-pieces in both halls and the vestibule of the Old State House, and afterward was given to me by Mr. Fraser.

In resoring to this ancient parish, in whose possession it may most appropriately rest, this venerable relic of its early house of worship, which was erected in 1731, I would state that it is at present very nearly in its original condition, the coloring having been carefully restored.

Yours, very respectfully,

JAMES RINDGE STANWOOD.

Whereupon the following preamble and resolutions were adopted:

Whereas, the wardens have received from James Rindge Stanwood, Esq., the carved wooden centre-piece of the ceiling of the Old South Meeting House (erected in 1731 and occupied by this parish until 1826) as an interesting and valuable relic of our former house of worship, therefore

Resolved, That the wardens be instructed to communicate to Mr. Stanwood the sincere thanks of the South Parish for his thoughtful and valuable gift.

Resolved, That they be directed to place the said centre-piece in the vestibule of the present church edifice.

SUDDEN DEATH.

John Denny, otherwise known as John Wright, said to have been the largest enlisted man in the United States navy, died very suddenly in this city on Monday morning, at his boarding house on State street. He came down stairs at about five o'clock, complaining of feeling unwell, and died in a few minutes. His last service in the navy was as a boatswain's mate on board the Kearsarge, which vessel he left about twelve days before his death. He was a full-blooded Indian, and nephew of a chief of the Oldtown tribe; but he had made this city his home during his vacations for many years.

LIGHTNING.

During the thunder shower about noon on Monday the house of Austin Jenness at Rye beach was struck by lightning, the chimney knocked down, and the house set on fire; the fire was extinguished with little damage. At North Hampton the carpenter's shop of R. L. Moulton was struck and burned, with its contents, among which were two chests of tools; loss $300.

GOSSIPS SAY

That Mason's steam saw mill is one of the busiest places in this city, and to judge from the number of logs in waiting to be sawed, will continue to be so during the summer.

That a brother and sister of Mr. Thomas Rutter, lately deceased, arrived in this city last week to take charge of the dead man's property, which is not inconsiderable.

That they were quite indignant to find that the residence of the deceased, who lived alone on Sparhawk street, had been entered by parties claiming relationship, and all the movable effects carted off.

That the deceased's real estate, consisting of several dwelling houses on Christian Shore, goes to relatives in New Bedford, Mass.

That Christ church will be dedicated July 2d, Bishop Niles officiating.

That several tons of small pollock were taken from the weirs at the mouth of the harbor on Sunday and Monday.

That they were afterward thrown into the water, and the lower harbor seemed full of floating dead fish.

That a crowd of Newcastle fishermen, each rolling a hogshead through Dennett and North streets, attracted a good deal of attention on Monday afternoon.

That from the north millbridge, the hogsheads were taken to Newcastle in dories.

That the hogsheads were not intended for storing the buried treasure which was not dug up at Newcastle last year.

That though over $100,000 has been subscribed for starting a new machine shop, subscriptions are still coming in, $20,000 having been added on Monday.

That the six owners of the Kearsarge mill property subscribed $50,000.

That one of the principal movers in the enterprise said on Monday, "Our business men are coming up nobly; there is no trouble in raising any amount we want."

That a hay-rack load of evergreen arrived at the court house on Monday, for making into wreaths for Memorial day.

That there were many ladies there, busy as bees in the preparation of the offerings.

THE FIREMEN'S MUSTER.

The general committee on the firemen's muster met at the Gibson house on Monday evening, and were called to order by Chairman Sampson.

The committee appointed to select subcommittees, and arrange other details, reported that the executive committee consist of the foremen of the several fire companies, with the treasurer and recording and corresponding secretaries of the general committee ex-officio. A list of sub-committees, including members of the general committee and citizens, was also reported; and the report was adopted.

The committee reported a programme, which was accepted, and filed for consideration.

Charles Stevens, Irving Perkins, Herman Spinney and George Sanderson were elected assistant corresponding secretaries.

Voted that the members of sub-committees, not members of the general committee, be added to that committee.

Committee on headquarters reported that convenient quarters would be procured, and opened on Saturday evening.

The executive committee were instructed to invite the Strafford Guards of Dover, the Portsmouth Cavalry, and other military organizations in their discretion, to act as escort to the firemen's procession on the second day of the muster; also to invite Storer Post, G. A. R., to superintend the camp of the firemen.

Voted that the executive committee meet on Monday evenings, and have power to fill vacancies in sub-committees.

Adjourned to the call of the chairman.

Mrs. Marshall, mother of Mr. Wm. G. Marshall, was seriously hurt on Friday by falling through a platform at her residence on South street.

There was a slight fire in the house of Richard McDonough on Court street, Saturday evening, caused by a lady while ironing knocking over a kerosene lamp. The basket of clothes and the window curtains were burned, but no serious damage was done.

Ladies union prayer meeting at the Court street Christian church this (Tuesday) afternoon at three o'clock. All interested in the cause are invited.

At Franklin hall this evening there will be a grand skating carnival from eight to ten o'clock, and dancing from ten to twelve, with good music for both; a good time can be counted on, probably the last of the season.

At the annual meeting of the stockholders of the Southern Belle Mining Co., held at the Rockingham house in this city on Monday, May 28th, the following officers were elected for the ensuing year: Dr. A. P. Leighthill of Boston, president; Alfred T. Sinker of Boston, vice president; C. W. Wellington of Boston, treasurer; and H. A. Tarlton of Portsmouth, secretary. Dr. A. P. Leighthill, C. W. Wellington and Alfred T. Sinker of Boston, James M. Brown of Lynn, and H. A. Tarlton of Portsmouth, were chosen the board of directors.

The schooner Orozimbo, Guptill master, arrived from Hoboken on Monday with a cargo to the new coal-dealing firm of O. F. Philbrick & Co.

Articles of association of the New Era Auger company were filed in the city clerk's office on Monday. The capital stock of the corporation is to be $500,000. The company are to manufacture augers and bits under new patents for improvement in the manufacture, patented by Gladwin and Brigg.

The firemen's muster committee will open their headquarters in a few days with music, speeches, a flag-raising and fireworks.

NOTICE--RELIEF CORPS.

The ladies of the Relief Corps are hereby notified to be at the Court House on Monday and Tuesday, *afternoon and evening*, for the purpose of assisting in arranging the decorations for Memorial day.

MRS. MARY L. TAYLOR, *President*.

We also earnestly solicit the assistance of all ladies interested in the cause, outside of the Relief Corps.

There is some anxiety about receiving the customary donation of flowers on Memorial day, as the season is so backward, and it is the earnest request of the committee having the matter in charge, that flowers, of any and all descriptions, may be sent to the Court-house on Tuesday afternoon or early Wednesday morning.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Fleur.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample free by mail. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extensive work on Physiology that has been published. The startling wisdom of a single page may be worth ten times the price of the book to either married or single, or to those about to be married, or those who think they are labouring under some disease or infirmity, and not knowing the nature of their complaint, are doubtful as to the propriety of consulting a physician, lest they should be exposed, or meet with a person who will betray their secret, or who, from want of proper education, is not competent to understand the nature of their complaint, or to prescribe properly for it. This work should be in the hands of every young man who is nervous, debilitated, or who feels the effects of early indiscretion, or any person who wishes to enjoy the full vigor of manhood. It can be sent by mail to any address, in a sealed envelope, free of charge, by the author.

N. B.—YOUNG and MIDDLE AGED MEN can have much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address,

Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves healthy except for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is in the heart.

The renowned Dr. Cundland's, startlingly says "one third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet with a twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should take careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES!

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe]

Messrs. Editors —

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst forms of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

In compliance with popular demand it is now put up in pill form, as well as in liquid form, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimony shows.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

He Had Seen Enough.

A melancholy Turk sat puffing a cigarette as he reclined on what looked like a bundle of old clothes in the rotunda at Castle Garden, New York, the other day. He was very swarthy as to complexion, very gaudy—though somewhat faded—as to his red fez, baggy blue trousers and embroided jacket, decidedly dirty as to personal appearance, but, taken as to general effect, decidedly picturesque. His name was Nashar Houri, he was born on Mount Lenanon, and he was thirty-five years old. He came to this country last fall, was nearly frozen to death by a New York winter, suffered successive attacks of bronchitis and pneumonia, was robbed by an immigrant swindler, run over by a Broadway stage, and clubbed by a member of the finest police force in the world. He had seen much of this great country as he desired to, and as he explained to the *Herald* reporter in Arabic, all he wanted now was to go home. He thought that that if he sat on his luggage and kept wide awake, and told nobody upon what part of his person was concealed his passage money, he might possibly escape without being robbed once more. He had been told, he added, that if he opened his mouth in America the Yankees would steal his front teeth.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Don't touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

He Had Seen Enough.

A melancholy Turk sat puffing a cigarette as he reclined on what looked like a bundle of old clothes in the rotunda at Castle Garden, New York, the other day. He was very swarthy as to complexion, very gaudy—though somewhat faded—as to his red fez, baggy blue trousers and embroided jacket, decidedly dirty as to personal appearance, but, taken as to general effect, decidedly picturesque. His name was Nashar Houri, he was born on Mount Lenanon, and he was thirty-five years old. He came to this country last fall, was nearly frozen to death by a New York winter, suffered successive attacks of bronchitis and pneumonia, was robbed by an immigrant swindler, run over by a Broadway stage, and clubbed by a member of the finest police force in the world. He had seen much of this great country as he desired to, and as he explained to the *Herald* reporter in Arabic, all he wanted now was to go home. He thought that that if he sat on his luggage and kept wide awake, and told nobody upon what part of his person was concealed his passage money, he might possibly escape without being robbed once more. He had been told, he added, that if he opened his mouth in America the Yankees would steal his front teeth.

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $50,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and ether causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

—"Ah!" said the pastor, "your father is dead, than; did he have a doctor?" "No, sir," said the boy; "he died himself."

Ladies should wear a Hop Plastar over the small of the back, as it cures all pains and aches. 25 cts at any drug store. All ready to apply.

—A Georgia bottle of wiskey, found in the wall of an old court house, was sixty years old. That was as old as it was allowed to got.

*Ladies, if you would be forever redeemed from the physical disabilities that, in thousands of cases, depress the spirits and absolutely fetter all the energies of womanhood, you have only to get Lydia E. Pinkham's Vegetable Compond.

—"Thank heaven!" exclaimed a fond father, as he paced the floor at midnight with his howling heir; "thank heaven, you are not twins!"

HAYESVILLE, Ohio, Feb. 11, 1880.

I am very glad to say I have tried Hop Bitters, and never took anything that did me as much good. I only took two bottles and I would not take $100 for the good they did me. I recommend them to my patients, and get the best results from their use.

C. B. MERCER, M. D.

—From the German: Rich uncle to his physician: "So you think there is hope for me?" "Not only that, but I can assure you that you are saved." "Very well, I wish you would inform my nephew, but break the news gently to him."

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

—A young man in Iowa was so impatient to see his girl that he paid $40 dollars for a locomotive to run him thirty-five miles. When he got there she was sparking his rival, and a big dog had posession of the front doorsteps.

,"Men often mistake notoriety for fame," but they never mistake Kidney-Wort for any quack medicine. Kidney-Wort is universally recognized as a standard remedy for all diseases of the liver, bowels and kidneys.

—A father remonstrated with his son, a student at Exeter academy, for wasting his time in writing stories for local papers, and cited Dr. Johnson as saying that a man who wrote except for money is a fool. The son wrote back: "I shall follow Johnson's advice, and write for money. Please send me $50."

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence its phenomenal popularity.

—A lady with a fatal squint went once to a fashionable artist for her portrait. He looked at her and she looked at him, and both were embarrassed. He spoke first. "Wouldn't your ladyship permit me," he said, "to take the portrait in profile? There is a certain shyness about one of your ladyship's eyes which is as difficult in art as it is fascinating in nature."

The unwearied sun, from day to day,
Does his Creator's powers display,
And *publishes* to every land,
The work of an almighty hand.—*Addison.*

Printers' ink and paper are the agencies used to publish to the American people the fact that Dr. Graves' Heart Regulator cures heart disease, sleeplessness, and nervous prostration.

—It was at the Cataract house in Sioux Falls. A son of the Emerald Isle was ushered into the dining room at the dinner hour and the polite steward took hold of the back of the chair to push it into place. The guest looked around suspiciously for a minute, and then said loud enough to be heard all over the room: "By the howly Moses, if yez jerk that chair from under me, I'll knock the whole top of yer head off of yez."

Delicate Females.

The exactions of society, added to the cares of maternity and the household have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidney, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

—The stage beard looks as much like a beard that grew there as a cow's tail would if tied to the bronze dog on the front porch. When you tie a heavy black beard on a young actor whose soul would be churned as if he smoked a full-fledged cigar, he looks about as savage as a bowl of mush and milk struck with a club.

"With Grateful Feeling."

Dr. Pierce, Buffalo, N. Y.: Dear sir—Your "Golden Medical Discovery" and "Purgative Pellets" have cured my daughter of Scrofulous Swellings and Open Sores about the Neck: and your "Favorite Prescription" has accomplished wonders in restoring to health my wife who had been bed-fast for eight months from Female weakness. I am with greatful feelings, Yours truly,

T. H. LONG, Galveston, Texas.

—Translated from the Paris *Omnibus*: Pastor—"Why weep you, dear woman?" Frau—"Look you, Mr. Pastor, my husband, who before four years to America emigated, is an ungrateful fellow!" Pastor—"Indeed! How so then?" Frau—"Look you, here writes he to me I shall also thereconvome, and the both children with me bring; the both! I have indeed now four!"

The secret of the universal success of Brown's Iron Bitters is owing to the fact that it is the very best iron preparation made. By a thorough and rapid assimilation with the blood it reaches every part of the body, giving health, strength and endurance to every portion. Thus beginning at the foundation it builds up and restores lost health. It does not contain whiskey or alcohol. It will not blacken the teeth. It does not constipate or cause headache. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, etc.

NO USE FOR THEM.

Concerning Certain Relics of the Past —Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE CUT in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

MEDICAL.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from billousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

"An infant crying in the night,
An infant crying for the light,
And with no language but a cry."

The child was in pain, and knew no better than to cry until morning, or until somebody brought him something to relieve his suffering. Everybody who has the care of a small child should remember that the little fellow's pains and gripes are ever more severe to him than corresponding pains would be to a big man. Acting on this, it is wise to have Perry Davis's Pain Killer on hand.

The officers of the New Hampshire Agricultural society met at Concord on Monday, May 28th, but no decision was arrived at as to the location of this year's exhibition.

VEGETINE is acknowledged by all classes of people to be the best and most reliable blood purifier in the world.

Queen Victoria is reported to be so seriously ill as to cause very grave disquietude to her physicians.

For the first time in history the English white-bait has condescended to visit American waters, in the New York lower bay. The native fish take kindly to the visitors, and kill themselves eating them.

THE Topeka, Salina and Western Railroad will control 180 miles from Topeka, to Delhi, and the business on the line promises to be very large. Their six per cent. bonds are worthy the attention of capitalists.

Bill Fox, who deliberately murdered W. Howard near Nevada, Mo., a few days ago, pleaded guilty in the court Saturday, saying that his life had been a miserable failure, and that he wanted it ended. Westville, a suburb of New Haven, Conn., is excited over a disgraceful neighborhood fight between two families named Hartry and Patterson, caused by quarrels among the children of the two families. On the 25th inst. Mr. George Hartry and Mrs. Patterson had a quarrel, and the man drew a revolver, but the woman took it away from him and shot him in the head with it, but not fatally.

News and Notes.

While the steamer Bristol of the Fall River line was passing under the Brooklyn bridge, Sunday night, May 27th, a number of stones, iron bolts, etc., were dropped upon her deck from the bridge. One piece, weighing three pounds, passed within eight inches of a man who was near the walking beam. A large stone passed within a foot of the head of Mr. Blanchard, agent of the New York & Boston Despatch Express company.

Nelson Jordan, a negro, while drunk and riotous, resisted arrest at Archer, Alachua county, Fla., and shot the marshal, May 26th. Other negroes then joined Jordan. The mayor summoned a posse, who were fired into by the negroes. The posse returned the fire, killing Jordan. Sam Duncan, a colored politician, formerly in the United States land office, was arrested among others.

There is great excitement in Norwalk, Conn., over an attack on Alfred Mills, a poor oysterman and a cripple, made by Oliver Cook, a rich oyster grower. Mills was gathering oysters in a bed which Cook claimed to own, but which the courts had declared was a bed of natural growth. Mills was terribly beaten, and for a time his life was despaired of.

There was a collision between a mob of striking miners, and a body of militia under command of a sheriff, near Belleville, Ill., May 29th, one soldier being shot through the leg, and a number of the miners wounded; one miner was killed, and one other will die.

Commander Kellogg is detached from command of the Tallapoosa, and ordered to lighthouse duty.

A Washington despatch of May 29th says "Secretary Chandler has received the revised pay-schedules for the workmen in the navy yards; the new schedules recommend a general increase of pay for a day's work of eight hours."

Eighty sail of fishing vessels were anchored off Highland light, Cape Cod, on Sunday. They reported that about 250 vessels of the fleet were scattered from Chatham to Race point; that mackerel were plenty, but wild, and the weather had been rough.

It is reported that the Grand Trunk railway, which has been losing its White mountain business, will make a push to regain it this season. There is some talk of running a parlor car to the Fabyan house from Montreal, via Groveton and Lancaster. The Boston & Maine railroad will run a parlor car as it did last year, via Old Orchard and Portland to Fabyan's. The Southeastern parlor car from Montreal to Portland, through the White mountain notch, will be run as it was last season. In short, all express trains will have parlor cars, so that travellers may come and go at their ease, and as frequently as they may desire.

In the suit for an injunction restraining the lease of the Eastern railroad, brought by Willard P. Phillips in the Massachusetts court, there will be no hearing on the facts, the road's managers having stipulated that the lease shall not be signed till the points raised by Mr. Phillips can be taken to the full bench.

At the annual meeting of the Concord railroad stockholders, in Concord on the 29th inst., the old board of directors was re-elected, and a vote favoring consolidation was passed.

The Portland & Ogdensburg railroad's net earnings for the year ending March 31st, '83, were $184,847; interest paid, $184,594; balance $253.

The gross earnings of the Eastern railroad in April were $276,615.58, an increase of $8780.66 over the same month last year.

A curious coincidence is related in the history of the United States frigate Constitution and the English frigate Shannon. Within a few days of each other, in the summer of 1860, these two vessels whose names are dear to their respective nations, and both, in maritime parlance, ranking as *invalids*, were equipped and sailed on a cruise. The Shannon, the conqueror of the U. S. S. Chesapeake, left Portsmouth, England, and at about the same the Constitution, the conqueror of the Guerriere, left Portsmouth, Virginia, on a short cruise, preparatory to her taking her station at Annapolis as a schoolship. Each was about to be broken up many years ago, and each was saved by poetical remonstrances—one by Tennyson and the other by Holmes.—*Journal.*

In these matters of history it is as well to be accurate, especially at the home port. The Constitution sailed from this harbor, not from Portsmouth, Va., on Aug. 6th, 1860, having arrived in June, 1855; she was put out of commission and placed in ordinary soon after her arrival, and remained here until 1860.

Not long ago we received a paper from Hot Springs, Arkansas, containing an item to the effect that "Miss Jennie Johnson, (*nee* Mrs. Charles F. Dalles, she having procured a divorce from her unworthy husband, and resumed her maiden name,) has opened a first-class millinery store." We were puzzled over this, not being able to understand how a lady who was "born Mrs. Charles F. Dalles" could have had any other "maiden name" than that. But we notice that ladies are born married nearer home, one of our Rockingham county exchanges telling us that "Mr. Caleb Davis and his wife (*nee* Mrs. Huldah Jones) have left us to reside in Newburyport." And the Boston *Post*, without intimating that a lady was born a "Mrs.," in the following item does say that she was fully named when born: "Mrs. Dora Golden, *nee* Dora Wiley, the sweet-voiced soprano, is visiting her relatives in Bucksport, Me." The great drawback to this having babies born already named, would be found in the baby not happening to be of the right kind.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Mr. Charles A. Grant has made considerable improvements to the Sea Cottage and its surroundings, at York beach, besides refitting the parlors and sleeping rooms, this spring.

Old Orchard tested its new Silsby steam fire engine on May 28th, with satisfactory results. A single stream was played through 200 feet of hose, a distance of 257 feet horizontally.

A cow belonging to Cyrus Cleaves of Saco recently walked into the back entry and up the back stairs into the kitchen of the upper tenement, and when found she was quietly enjoying herself by surveying her good looks in the looking glass.

The Donnell house at York beach has been enlarged by a wing 57 ft. 6 in. by 27 ft. 6 in., containing fifteen rooms. The house now has thirty rooms, and can accommodate fifty guests; a piazza has been built along the front of the addition, and a new dining room has been made, much larger than the old one. John B. Brown was the carpenter, and Sidney Winn the mason, in doing this work. The house has been fitted with new furniture, and will be ready to open on the 15th of June; a few of the old patrons of the house will arrive about June 1st.

The first child born in the new town of Old Orchard arrived on the 25th of May, and weighed twelve pounds. It is a boy, son of Mr. J. W. Duff.

MEDICAL.

PURE BLOOD IS THE ABSOLUTE NECESSITY OF HEALTH.

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in whole neighborhoods have been taking it at the same time. It eradicates scrofula, vital exhausters and enriches the blood, thereby restoring and renovating the whole system. HOOD'S SARSAPARILLA purifies the blood. HOOD'S SARSAPARILLA cures dyspepsia. HOOD'S SARSAPARILLA cures biliousness. A peculiar point in HOOD'S SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

133 HOWARD STREET,
LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed.
Very truly yours,
(Coburn Shuttle Co.) C. C. PICKERING.

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

MEDICAL.

THE Admiration OF THE WORLD.
Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE PROGRAMME.

The following is the programme arranged by the sub-committee appointment for the purpose, and reported on Monday evening to the general committee on the New England Firemen's Muster, by whom it was received, and placed on file for consideration, and amendment if thought advisable. The report, after recommending that the muster be held Sept. 5th, 6th and 7th, gives the proposed order of exercises for each day as follows:

First day—Ringing of bells at sunrise and sunset, and firing of national salute. Reception of visiting companies by delegates from local companies, short march about the city, and review of the companies by the mayor; collation to companies after the review, in such place as may be designated. Arranging camp and going into same, at Langdon park—Storer Post, G. A. R., to be invited to assume direction of the camp. Grand regatta on the river, for eight-oared and four-oared boats, single-sculls and dories, with prizes for each class. Evening, grand torchlight procession, in which all visiting companies will participate, prizes to be given for best display made by any company with torches or fireworks.

Second day—Reception of visiting military companies by Portsmouth Cavalry, who will escort His Excellency Gov. Hale and other invited guests. At ten o'clock bells to be rung and salute fired; military escort to proceed to depot, with delegation from all visiting companies and committee on reception in carriages, and after receiving the governor and other guests, escort them to their place in the procession; at the end of the march, over such route as shall be approved, a review of the procession by the governor, followed by a grand clambake at Langdon park. In the evening, a concert by the united bands on Market square, and competitive trial of bands, for prizes.

Third day—Ringing of bells and salute at sunrise, noon and sunset. Trial of engines and racing of hose-carriages. Foot races and other sports. Award of prizes. Breaking of camp, and departure of companies for trains.

THE VALVE SUITS.

Marcus P. Norton, and the counsel for the cities, have been in Troy, N. Y., this week, taking testimony of Mr. Knibbs, and also as to the Troy settlement. Norton has filed his security for costs ordered by the court, and Mr. Caverly, his counsel, has so far recovered his health as to be in town on Tuesday. The case will be for trial on Tuesday next.

GOSSIPS SAY

That the north millpond on Sunday night gave the city notice of what it will be able to do in the way of flavoring the atmosphere by-and-bye, after it gets fairly encouraged by hot weather.

That Dr. Whittier's office is not closed because of his absence in the west, as some have supposed.

That North street, from the millbridge to Dennett street, has been greatly improved by a coating of crushed stone.

That on Monday of this week there were two graves open, awaiting the body of a person recently deceased in this city, the remains meanwhile lying in a tomb while the relatives were engaged in an unseemly wrangle for their possession.

That a concert of war songs is talk of by some of the boys in blue.

That a farmer on the Creek road has over five hundred bean poles planted, much to the astonishment of passers-by.

That the Rye and Newcastle bridge is being extensively repaired, as is also the Sagamore bridge.

That people should strip their gardens this morning of flowers in order that every soldier's grave may be decked.

Mr. Joseph A. Holmes of Greenland has bought of the Concord & Portsmouth railroad five hundred cords of old ties, to be delivered at his steam grist mill near the Greenland station of the road, for use in firing up in the mill. Besides running this mill, and the water-mill (saw and grist) a mile or so beyond Greenland parade, Mr. Holmes does considerable in the poultry-raising line, having at the present time about four hundred chickens hatched out, and between 300 and 400 eggs under setting hens.

Professor John Orth, of the Boston Conservatory of Music, under whose instruction Miss Florence Whidden, a talented young lady of this city, has achieved remarkable proficiency on the piano, has given her a testimonial in which he says "Miss Whidden has been a most conscientious student, and her progress has been solid and thorough. Those who have the good fortune to come under her instruction may rest assured that they will have nothing to *unlearn*. She has therefore my cordial endorsement and best wishes as a player and teacher. Her uncommon talent and perseverance are a guarantee of future success." We predict for our accomplished young townswoman a brilliant career in her chosen profession as pianist and teacher of music.

Mr. Thomas Roberts, while working for Mr. John Shannon on Christian Shore last week, covered in one day an acre and one-half of potatoes—not a bad day's work for a man seventy-one years of age. Speaking of the sediment at the bottom of the north pond, Mr. Roberts says he knows that it is a good fertilizer, for he used it for years on his own land, and raised good crops year after year; he used to get it by the scow-load, and found it to pay well. The scientific fellows may analyze the mud and denounce it as worthless, as much as they please; but he won't believe it any the more, as he has proved to the contrary by actual experiment.

Two big hogs, as dirty as they were big, made considerable amusement for a number of the dwellers on State street, Monday afternoon, through their enquiring dispositions, which led them into every open door or front-yard gate that they could find.

Hiram A. Bowles, of Boston, died on the 29th inst. He was a native of this city, but went to Boston more than forty years ago, and has resided there since.

Capt. Samuel Spinney, who last year planted a portion of the Raynes shipyard, and raised a fair crop of nearly everything he planted, in spite of the drought, is cultivating it again this year, and had corn, potatoes and beans well above ground last week, with peas big enough to hoe.

George C. Mead, formerly connected with several leading hotels in Boston, and of late manager of the Hamilton hotel at Hamilton, Bermuda, died at the latter place on the 20th inst., of lung disease. Mr. Mead was for several years steward of the Oceanic hotel, at the Shoals, and afterward of the Appledore.

The schooner Cocheco, Capt. R. H. Seaward, cleared at Bangor on the 28th inst. for New York, with 250,000 feet of lumber—a big cargo for a vessel of her size.

The new bell of the Christ church chime was placed in position on Tuesday.

The intended marriage of Miss Helen Woodbury Locke of this city to Mr. James D. P. Wingate of the Exeter *Gazette* was announced this week by invitation of the young lady's mother to attend the ceremony at the Congregational church in this city on Thursday afternoon, June 7th, at one o'clock. The wedded pair, after a tour, will return to Exeter, where they will reside, probably in that happy state which none but good editors deserve to enjoy. It is said that a very great many invitations have been issued, and doubtless large numbers will be present to witness this ceremony, the like of which has not been performed in this church for many a day.

The following is the inscription upon a shield on the back of the ceiling centrepiece of the "Old South," now in possession of the South Parish: "The Centrepiece formerly in the ceiling of the Old South Meeting-house, Portsmouth, New Hampshire, erected in 1731, upon a site bequeathed by Captain John Pickering, second of that name at Piscataqua, a public-spirited citizen, and a benefactor of this parish. Presented to the South Parish in Portsmouth, by James Rindge Stanwood, of Boston, Sept. 26, 1882, as a memorial of its second house of worship, removed in 1863."

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufac turer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be ameliorated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. The startling wheel ever that the author of any single either require or wish to know but what is explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Clendinning, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about one ounce, and yet man's twenty-eight pounds of blood passes through it once in a minute and-a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained of your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is seriously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy as relieves from it. Her Vegetable Compound is a medicine for good and not evil purpose. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy where sickness is to do good to others.

The Irish Troubles.

Michael Fagan, who was convicted of the murder of Mr. Burke in Phœnix park on the 6th of last May, was hanged in Kilmainham jail on Monday, the 28th. Everything went off quietly. A small crowd of persons collected outside the prison, a few of whom knelt in prayer for the repose of the soul of Fagan. The condemned man appeared to be resigned to his fate, but declared his innocence to the last.

Farrell, one of the informers in the trials of the Phœnix park murderers, has received £1,000 from the government, and Michael Kavanagh, the carman, another informer, got £250. They have both quit the country. James Carey, the informer, and his brother Peter, will receive small sums for their services.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitators sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily progressing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address **Dr. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Marsh & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

BUSINESS SUCCESS.

Since Florida became a fashionable winter resort, not only for invalids, but for tourists and pleasure seekers desirous of escaping from the rigors of our northern climate, its varied and valuable products have greatly increased in commercial importance, and their importation into the northern market has become a business interest of great and growing prominence. There has also sprung up an interchange of goods, and Florida is increasing in importance as a market for northern manufactures. Referring to these facts, the *Commercial World & U. S. Exporter* of New York city speaks as follows of one of the many active business men contributed by Rockingham county to the city situated at the north end of the big bridge:

One of the most prominent and enterprising houses engaged in the trade with Florida is that of L. B. Parsons, successor to John Parsons & Co., of No. 28 Broadway. They make a specialty of handling Florida products of all descriptions, including those of both land and water, and receive large consignments of oranges and other fruits, cotton, sponges, skins, green turtle, etc. They have superior facilities for obtaining such merchandise upon the most advantageous terms through their house at Cedar Keys, Fla., where the business is carried on under the firm name of Parsons & Hale. Mr. L. B. Parsons is also largely engaged in the shipment of manufactured goods to Florida, supplying the merchants there with dry goods, machinery, groceries, or any other merchandise that may be required. Through his enterprise and business ability he has built up a large and very successful trade.

HAYESVILLE, Ohio, Feb. 11, 1880.

I am very glad to say I have tried Hop Bitters, and never took anything that did me as much good. I only took two bottles and I would not take $100 for the good they did me. I recommend them to my patients, and get the best results from their use.

Ladies Who Bloat.

What a great number there are; how uncomfortable it makes them; it is almost impossible for those afflicted to enjoy life. In my private practice I have always found Sulphur Bitters to be the best remedy. All who are thus troubled should use it. Mrs. Dr. CHILDS, Boston.

A return of the cost of the British royal yachts shows that the average cost for maintenance of the yachts Victoria and Albert during the last ten years has been at the rate of $150,000 a year.

A CONNECTICUT journal furnishes the following toothsome bit of literary diet. It may appear "fishy" at first glance, but it isn't: "A paper called *The Idiot* has appeared in Paris, France. No doubt it is intended for those "queer fish" that are in-Seine." Anybody in America could be properly called insane, or an idiot, if he declare Catarrh to be incurable. People used to think so. The newspapers now contain data, names, facts and dates of cures of this loathsome malady. Everybody has come to know that Ely's Cream Balm cures Catarrh, and it is the only preparation that will do it. "Ely's Cream Balm has cured me of Catarrh of several years standing," writes Mr. Frank C. Ogden, of Elizabeth, N. J. The balm has no equal as a cure for this terrible disease." It is not a liquid or snuff, and is easily applied.

A neatly dressed woman, about thirty years old, threw her young babe and her boy about two years old into the river at New York city at noon on the 28th ult., and then jumped in after them. They were all rescued, and the woman after she was taken ashore said she did not know where her husband was, and preferred death rather than to live the life of a pauper.

A Philadelphia youngster, who was hunting for a lost base-ball, found a package of bonds, deeds, checks and notes amounting to $50,000 wrapped up in a newspaper.

Gen. Crook is reported to have had a battle with the Apaches near Guaynopo, in the Sierra Madres. Crook's forces numbered 500, and the Apaches 400. Fifty Indians were killed. Crook's loss is not stated.

The secret of the universal success of Brown's Iron Bitters is owing to the fact that it is the very best iron preparation made. By a thorough and rapid assimilation with the blood it reaches every part of the body, giving health, strength and endurance to every portion. Thus beginning at the foundation it builds up and restores lost health. It does not contain whiskey or alcohol. It will not blacken the teeth. It does not constipate or cause headache. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, etc.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicine. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

BOSTON, January 1, 1883. eodly

"An infant crying in the night,
An infant crying for the light,
And with no language but a cry."

The child was in pain, and knew no better than to cry until morning, or until somebody brought him something to relieve his suffering. Everybody who has the care of a small child should remember that the little fellow's pains and gripes are ever more severe to him than corresponding pains would be to a big man. Acting on this, it is wise to have Perry Davis's Pain Killer on hand.

The *Monitor* says that the Lowell railroad is now operating more miles of road in New Hampshire than it has on its main line in Massachusetts, and that it does this in spite of positive prohibitory law.

Bourbon Whiskey
is a necessity in every household. A really reliable brand may be found in the "G. O. Taylor Old Bourbon," bottled by Messrs. Chester H. Graves & Sons, of Boston, and to be obtained in bottles only, bearing their signature over each cork, from leading Grocers and Druggists everywhere.

The 61st annual meeting of the New Hampshire Historical society occurs on Wednesday, the 13th inst.

Miss Louise S. Locke, North Charlestown, N. H., says: "I derived great benefit from using Brown's Iron Bitters for nervous disease. I gladly recommend it."

It is said that Col. John H. George and John H. Pearson, who have always so savagely disagreed on railroad matters, are in accord as far as this: Mr. Pearson opposes consolidation in any form whatever, and Col. George opposes it as equally as sternly—unless the Boston & Lowell railroad is made a part of the Great Northern line from Boston to Ogdensburg; in that case he is open to conviction.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

A Day of Disasters.

In Lynchburg, Va., May 30th, the most destructive fire which ever visited the city took place, property to the amount of $300,000 being destroyed; insurance $100,000. The *Virginian* office was burned, and the walls in falling killed five men, all reputable citizens.

In New York, shortly after four o'clock in the afternoon, a terrible disaster took place at the Brooklyn bridge. It happened on the New York anchorage of the bridge, at a point where the solid footway ends, and two flights of seven steps each, with an intermediate landing, lead to the span which extends between the anchorage and the New York tower. The bridge was crowded from end to end, and a woman stumbled on the steps and fell on the landing, screaming loudly as she fell. Instantly the crowd pressed from both ways toward the landing, those in the rear crowding those ahead into a solid mass and trampling over them. The scene was appalling, and the police, aided by a squad of militiamen, were powerless to check the crowding throngs until a hook and ladder company arrived at the spot and tore away a portion of the bridge railings, when the heaps of dead and wounded, lying eight or ten deep, were reached and removed. Five women, dead and trampled into an unshapely mass, were taken from the bottom of the heap; twelve dead bodies in all were carried to the Chambers street hospital. Twenty-six other persons were reported up to midnight as having been terribly injured, many of them fatally, besides those killed outright; nine or more persons were reported as missing; and scores of the wounded, and very likely some of the dead, it was said had been taken direct to their homes, so that the police had no record of them.

There were some sad accidents in Boston harbor on the 20th, resulting in the death of at least seven persons, and the injury of others. A cat-rigged boat was struck by the boom of the sloop yacht Violet, off City point, and capsized, her crew of three men being thrown into the water; one of them, a man sixty-five years of age, had an arm broken, and was insensible when picked up; he was resuscitated, but died in a short time. The lighter Andrew Foster, with an excursion party of 170 persons on board, was being towed by two tugs when a gauge-cock was blown off the lighter's boiler, and five persons were terribly scalded. The schooner yacht Skylark, with eight men on board, was capsized by a squall off Thompson's island, and six of the crew were drowned; one man clung to a beer keg and another to an oar, and were saved. A boat containing three men and four women was capsized between Apple island and East Boston, but all were saved by a small yacht.

In Providence, R. I., while the Memorial day procession was in motion, a horse ridden by Department Commander Chase of the G. A. R. became unmanageable and ran through the ranks, knocking down and badly injuring several persons, and fatally wounding Aaron B. Booth, a musician in White's band.

News and Notes.

A student at the naval academy has proved to be a kleptomaniac, stealing clothes, jewels, and everything he could carry away. This is said to be the earliest development on record in the service. Commonly, the medical experts hold, it does not develope except in the pay department, until an officer has orders to a navy yard.

The oldest Freemason in the country has died. This time the death occurred at Washington, where in the absence of the president something was required for a sensation. It is a peculiarity of this happy country that the oldest mason, just after being promoted to that honorable position, is apt to leave for "that undiscovered country from whose bourne" etc.

Mr. Chandler, who has had some rebuffs recently from the republicans of New York, some of whom told the president that he ought to fire him out, takes pains to set a back fire by being advertised in the New York *World* as a candidate for vice president, with Senator Logan as chief. The new man at the head of the *World* newspaper does not seem to be informed as to how many votes in the New Hampshire delegation at a national convention Mr. Chandler would be likely to receive.

The fifteen days after Amero's commitment for extradition have now expired, and Massachusetts officers are at Digby, N. S., for the purpose of taking the prisoner home with them. But they find there is a prospect of further contest about his removal, the local judge being opposed to it, and making efforts to obtain the prisoner's release.

Ann Eliza Young, the 19th widow of the late Brigham Young, Esq., of Utah, was married in Lodi, Ohio, May 19th, to E. A. Denning of Manistee, Michigan.

The jury in the second trial of Sally Storey of Little Falls, N. Y., for the alleged poisoning of Mrs. Elizabeth Foster, returned a verdict of guilty of manslaughter, with a recommendation of mercy.

The Reform school boys in barges formed a part of the procession in Manchester on Memorial day.

AROUND HOME.

On Monday afternoon, May 28th, Capt. David R. Grogan, keeper of White island light, sighted what was supposed to be a boat bottom up about three miles southsoutheast of the Shoals, and with Assistant Keeper White pulled off to it, and found it to be a life-raft about twelve feet long and eight feet wide, painted a drab color, and bearing the maker's name, "A. M. Ingolson, New York." It was towed to the light station and hauled ashore.

The schooner Ceres, of Boston, with 160 tons of coal, bound from Elizabethport to Boston, went ashore on Naushan island at seven o'clock Monday morning, May 28th, in a thick fog, and bilged; her captain went to Boston for assistance. This is the schooner which some years ago was carried by the tide against Portsmouth bridge, and sunk there, being afterward raised at great expense by a Boston wrecking company.

Greenland has other claims to be considered "quite a town," besides the thrift of its farmers and fertility of its soil, the widely-famed beauty of its drives, and its steadfast devotion to the democratic ticket. It has within its limits a steam grist mill, (Portsmouth has no grist mill at all, steam or other,) two post-offices and four railroad depots, the Stratham station of the Concord & Portsmouth railroad being within the boundaries of Greenland.

Some people go a great way to witness the opening of a new bridge; others to behold a race on land or river; still another class take a grip-sack and umbrella, and visit Boston to attend the anniversaries to see the literary lions then and there assembled. For ourselves, while usually content to remain at home in the constant effort to enlighten this part of the footstool, we would not mind a short trip to the antipodes to see the newspaper man who does not count that day lost when he does not receive a postal card from some advertiser who ought to pay extra for the chronic annoyance, complaining that his little "ad." is about four inches nearer the bottom of the page than he would like to see it, or that a copy of the paper of some day's date when even the editor's copy had to be surrendered to an insatiate public demand, failed to reach him.

It will be remembered that at the time Garcelon attempted to steal the state of Maine, two then prominent members of the fusion party won great renown by swearing that they had been offered large sums—$1000 each, if we remember aright—to vote with republicans in organizing the legislature, of which they were members-elect, and that they had accepted the money only that they might expose the attempted bribery. One of these pure-minded gentlemen was Thomas B. Swan of Minot, who some time later departed from the state in considerable of a hurry in order to avoid the annoyance of standing trial on charges of stealing the funds of the town of Minot, of which he was treasurer, swindling people through the mails, etc. The other was "Moso" Harriman of Kennebunk, who at a subsequent election was the fusion candidate for sheriff of York county, and was vindicated by being elected to stay out of the office, by a large majority. Mr. Harriman now proposes to deprive York county of his valuable presence, by removing with his family to Baltimore, Md., where he has for some months been employed.

A Biddeford undertaker advertises "coffins and caskets for all classes of society," and the advertisement appears in *Watson's Illuminator*, one of the "funny" papers.

MEDICAL.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as shown by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. Allen has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

MEMORIAL DAY.

The programme for the day, as previously published, was carried out, thousands of spectators viewing the procession and the ceremonies at the cemetery. The war veterans made a fine display, there being 124 men in the procession wearing the G. A. R. uniform; and the alignment of the old fellows (most of them are "exempts" now) on the march was something noticeable, when it is remembered that all their drilling was done in the dark days of the war, a score of years ago. The marines of course were nearly perfect in their marching and evolutions, and their volley firing at the cemetery sounded like single shots. The dress parade at the close of the march was admired by many hundreds.

The evening exercises in Music Hall, which was filled long before the time for commeccement had arrived, were exceedingly interesting. They were opened by a selection by the band and prayer by Rev. Henry E. Hovey, chaplain of the evening. Dr. John W. Parsons then introduced Capt. John H. Hutchinson as president of the evening, who appeared and said:

Mr. Marshal, Comrades and Fellow Citizens:—Before proceeding with the programme, allow me to congratulate you, my comrades, on your fine appearance this afternoon. It was creditable, alike, to yourselves and to the dead, and on your behalf, to thank our friends of the Navy for their valued aid in making it a success. And you, fellow citizens, for your very liberal contributions of time, money and flowers. If on subsequent occasions you would form into line and go with us, it would be better, for we are both equal debtors to the 325 brave dead that sleep within our limits. We also congratulate the Ladies Relief Corps for the good work in which they are engaged. May they go on caring for the aged widow and the needy, until the last one shall be gathered home. And you, my comrades, who have, during these 20 years thought the republic ungrateful, take courage, for a better day is dawning for the citizen soldier. Yet, let there be no improper spirit of rivalry. Many of those that remained at home were in the path of duty as well as those that marched to the front. I would specially mention, as worthy of our honor, the mothers who gave perhaps their only son; the aged fathers who look now to yonder cemetery to find the hope of their declining years. Sleeping beneath its sod, there are others whom history will name with gratitude. Recall the circumstances of the call in in April for 75,000 men. Congress to assemble in July, hardly a state legislature in session, and yet, within six days, a regiment passing through Baltimore. These men who stood in the gap and promptly acted, the men whom we designate as the war governors, are men to be highly honored. They are bright constellations. As I name some of them how it thrills the soul: Andrew, Buckingham, Morgan, Morton, Dennison, at our side, Washburn, just passed away. On the other side, Fairbanks, who I knew so well and true. Directly in our zenith I read the name of Goodwin, bright and enduring. You all knew him; you loved him, and it is well that we pause upon this occasion which by his presence and kind words he has honored for so many years, and offer a heartfelt tribute to his memory. I therefore present for your adoption these resolutions, which have been prepared by a joint committee of the citizens and comrades of the Grand Army.

Whereas, since the last Memorial day we have been parted, by death, from the Hon. Ichabod Goodwin, Ex-Governor of New Hampshire,

Resolved, that the the Post is thereby bereaved of its most valued friend and the community of its most honored member.

Resolved, that he is inseparably associated in our minds with our struggle and our triumph in the war of the Rebellion.

Resolved, that his example, in the time of peril to our country, as devoted patriot, wise counsellor and zealous ruler, should be an inspiration to all who now or hereafter enjoy the blessings of this Republic.

Resolved, that his name shall be cherished as the Head of the State, who in its highest office, gave lustre to the commonwealth, and as the private citizen, whose generous philanthropy and unsparing benevolence brought help and comfort to his fellow-men

Resolved, that we will ever mourn his loss, and revere his memory.

The resolutions were adopted by a rising vote.

The oration by Rev. L. F. McKinney of Manchester was an able and scholarly production, bringing to mind the trials and sufferings of the soldiers, paying a worthy tribute to the memory of the dead, and bringing words of encouragement to the living. It was delivered in a most forcible manner, and although not enlivened by popular camp stories, as these orations often are, it was one of the best addresses ever made here on a similar occasion, and was well received by the audience, who listened with attention during its delivery.

A recitation, "Searching for the Slain," by Miss Lizzie M. Varrell; a violin solo by Miss Mary Brookings of South Berwick, a young lady formerly under the instruction of Mr. Ralph Reinewald, and recently of Mr. H. L. Harlow; and the recitation of a selection from "Hiawatha," by Miss Sophia O. Hoyt, in costume, were all well rendered. Mary Louisa Bennett, four years old, made the "hit" of the evening with a song, and was vigorously applauded, responding with another song,—"Marching through Georgia," and a benediction by the chaplain, closed the exercises.

The Pullman train from the eastward, on the morning of Memorial day, comprised thirteen cars and two engines, the train being filled principally with people bound to the Point of Pines, Mass., to see the proposed Hanlan-Kennedy boat-race. A crowd of the passengers got off at the station here, and after devouring the eatables at the restaurant boarded the train again, many of them omitting the formality of paying for what they had received. A train which left here at about quarter before one o'clock in the afternoon, made up of two trains, one from Portland and the other from the Conway branch, consisted of eighteen passenger cars and two engines.

At about five o'clock in the afternoon two men from North Hampton, who drove to this city in a team, got into a fight in a saloon on Daniel street, and were considerably bunged up; they were taken in by the police, but were let off Thursday morning when sober.

A little later two men were engaged in a friendly scuffle on Warren street, near the post-office, when a third person came up and made some remark which displeased one of the scufflers, who immidiately knocked the new-comer down; quite a crowd collected near the spot, and for a few minutes there was much excitement, but the gathering dispersed without any arrests being made.

A hackman, after driving a woman from Great Falls around the city for some hours, had trouble with her about his pay, and settled the dispute by driving her to the police station, where she was locked up for the night. Thursday morning a male friend of the woman's made a satisfactory arrangement for her discharge.

Shortly before eight o'clock in the evening the fire department turned out in answer to an alarm caused by the burning of some brush not far foom the residence of Hon. James W. Emery on Christian Shore.

THE FIREMEN'S MUSTER.

Messrs. Fred B. Haraden, Charles H. Besselievre and Warren Holmes were elected assistant corresponding secretaries at the meeting of the firemen's muster committee on the evening of May 28th, instead of the gentlemen previously reported.

The committee having been tendered by Hon. Marcellus Eldredge, Dr. James R. May, Mr. James Barton and others, the use of stores, offices, etc., rent free, for occupation as headquarters, finally decided to accept the store of Mr. Barton on Congress street, opposite the Kearsarge house, and it will be opened on Saturday evening at eight o'clock by the fire department with a torch-light procession, flag raising and fireworks.

GOSSIPS SAY

That never were the ceremonies of Memorial day better observed in this city than on Wednesday last.

That the one drawback was the placing of the flowers in a team, where they could not be seen, instead of allowing the veterans to carry them as was done formerly.

That the flowers were furnished in greater abundance than ever before, many of them being rare and beautiful.

That 340 soldiers' graves were decorated by Storer Post of this city.

That the ceremonies in Music hall passed off with great eclat.

That strangers in the auditorium remarked that no city of the size of Portsmouth in New England could furnish such a splendid array of talent.

That the remarkable singing of little Mary Louisa Bennett took the house by storm, the applause being the loudest ever heard in that edifice.

That Miss Hoyt deserved an encore for her beautiful rendering of a selection from Hiawatha, and would have received one had her number come later in the evening, after the audience got warmed up.

That the Portsmouth excursionists to Point of Pines on the 30th ult. returned considerably disgruntled over the postponement of the Hanlan-Kennedy boat-race.

That the fogo which disturbed the olfactory nerves of our citizens on Sunday night, May 27th, came from the south millpond, instead of from the north as reported.

That it is not likely to occur again, as the mayor has ordered that the pond be kept full of water o'nights, and only to be drained off in the day time when the wind is northerly.

That a drunken man, well dressed, was found asleep on the flats of the north millpond on Thursday afternoon last.

NEW TELEGRAPH CO.

Articles of incorporation of the People's Telephone & Telegraph company of New England were filed on Tuesday, May 29th, in the county clerk's office at New York. The incorporators are Frank Jones of Portsmouth, N. H.; James P. Cook of Salem, Mass.; Henry M. Cross of Newburyport; and Ernest Marx of New York. Capital stock $5,000,000.

A committee from the Lewiston (Me.) Commandery of Knights Templar visited this city on Wednesday of this week to make arrangements for an excursion of that commandery to this city on the 25th of June. The proposed programme includes a trip to the Isles of Shoals, where dinner will be served, the visitors returning to this city in the afternoon, and after making a short parade, taking coaches for the Hotel Wentworth, where they will remain until the next forenoon, when they will return to this city in time to take the eleven o'clock train for home.

In a Bangor law-office is an old capias writ dated May 27th, 1754, one hundred and twenty-nine years ago, and twenty-one years before the commencement of the Revolutionary war. It was issued at "Portsmouth in the Province of New Hampshire."

We understand that Newburyport Commandry of Knights Templar have made arrangements to dine at the Hotel Wentworth, Newcastle, on Monday, June 25th, returning home in the evening.

Henry Tattersall, while working on the track of the Boston & Maine railroad near the Exeter depot on Tuesday, May 29th, was struck by a locomotive and instantly killed. He was about forty years old.

The genial countenance of Capt. Jos. Shillaber was seen on the street last Thursday. The captain will spend a few days in this city previous to taking command of a new ship now being fitted out at Bath, Me.

Mary Anderson sailed for Europe on the 29th of May, to be absent two years.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammenia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or job close application to business, may be restored and manhood regained.

26th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures gray-ness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheadwick, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's immense weight presses it out of place through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thought and exhaustive treatise. (2)*

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is seriously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are flushed in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and kids fails to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others

Philadelphia, Pa. (2) Mrs. A. M. D.

IN BUSINESS.

Postmaster Pearson says that he is not in politics but in business—in government business which must be transacted on the strictest business principles; that he never was a politician, but has always been a post-office man. He does not see how politics and post-office business can be combined. He doubts whether there is anything political in receiving and delivering letters, and prefers to place this work on a business basis.—*N. Y. Tribune.*

Postmaster Peirce too, having found the anxiety of running the navy yard in times past a source of annoyance, has of late devoted his leisure time to developing the business of the Perkins Chair Co. As a Washington office-holder remarked recently, "A year hence, every one, including senators and representatives, will wonder how we ever got on without 'civil service.'"

Electricity vs. the Gallows.

The electrician of the Sheridan Electric Co. has applied for a patent for what he terms "an improved device for executing criminals condemned to death." The device is a method of causing painless and instantaneous death, and consists of an ordinary arm chair, having an insulated body encircled with wires. When the connection is established, the full charge of electricity enters the criminal's body at the spinal cord and passes out at his feet; or, by another mode, the current is discharged into the palms of the hands. Mr. Sheridan proposes to assign to this and other governments the rights to use his invention, since the machine was designed, he says, in the interest of humanity. There is no denying that such a mode of carrying out the death sentence would do away with the sickening exhibitions which a bungling sheriff or a cowardly criminal often brings about, at the gallows; and it is quite as certain that the state should make the criminal's death as painless as possible—since torture has no place among reformatory or repressive agencies. It is possible, too, that the very mystery attending death by electricity might have a restraining influence on the would-be murderer; for the desire for notoriety which impels to crime would stand little chance of being gratified if the opportunity for scaffold oratory and "last words" was withheld.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

At Betchuan, a small village twenty miles below Point Esquimaux, Quebec, Monday, May 28th, while fourteen men were dividing two kegs of gunpowder a spark from one man's pipe fell into the powder, which exploded, blowing the house to atoms, and carrying two of the men 100 yards. Seven of the pary were terribly burned, but none were killed.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Twelve persons were killed and as many more injured by a tornado near Terra Haute, Indiana, May 28th.

EASILY PROVEN.—It is easily proven that malarial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness, and neuralgic ailments yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives new life and vigor to the aged and infirm always.

Freddie Myers, a schoolboy in Freeport, Ill., while playing a couple of weeks ago, had lime thrown in his left eye "in fun" by a comrade, and thus lost his sight. Monday forenoon, May 28th, by a strange fatality, a playmate, while at play with him in his home, shot a small arrow into the other eye, piercing the eyeball and leaving the little fellow totally blind.

It Is Not Best

to always believe everything that a person tells you, but when you hear that the best blood purifier is Sulphur Bitters, you can believe it, for they cured me of a severe case of blood poisoning. Rev. A. Fairchild, New York City.

Heinrich Kirchner was found dead on the floor of his house in New Tacoma, W. T., the other day, with a gunshot wound in his breast. A letter revealed the cause of the suicide. He had just finished a new house, and was expecting his bride from the east. The last mail brought her declination to come, and in his despondency he shot himself.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Another encyclical letter will shortly be issued by the pope to the faithful in all parts of the world denouncing secret societies. It will also enjoin priests to refuse the sacraments to all persons connected with seditious movements.

A man suffering from debility and loss of appetite took two bottles of Hood's Sarsaparilla, gained ten pounds and got well.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy imitated is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and in spring Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address Dr. J. H. SCHENCK & SON, Philadelphia, Pa.

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 151 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850,00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

At Salida, Col., on the evening of May 30th, two drunken miners raised a disturbance, and City Marshal Stringley started to arrest them. One named Evans attacked the marshal, when the latter shot and killed him. The other miner, named Thomas Minameyer, then shot Marshal Stringley, Deputy Marshal Bathurst and a man named Gannon, after which he started for the mountains with a party of citizens in pursuit. Before he was caught the fugitive shot and killed William H. Brown, one of his pursuers. Brown, Evans and Gannon were killed, Deputy Marshal Bathurst is dying, and Marshal Stringley is in a critical condition. There is great excitement, and strong talk of lynching Minameyer.

The officers were partially overpowered and felled to the ground, when the chief drew a revolver and shot one of his assailants. At this his comrades hustled him into a wagon, and escaped.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

A statement by Mrs. Philip B. Thompson, the first she has made for publication, of the matters that resulted in the killing of Walter Davis by her husband, has been published in Cincinnati. She denies pointedly that she was drunk at the St. Clair hotel, and calls God to witness that Walter Davis was innocent of any wrong to her. She says they could not awaken Miss Buckner, and therefore she went into Davis' room.

The secret of the universal success of Brown's Iron Bitters is owing to the fact that it is the very best iron preparation made. By a thorough and rapid assimilation with the blood it reaches every part of the body, giving health, strength and endurance to every portion. Thus beginning at the foundation it builds up and restores lost health. It does not contain whiskey or alcohol. It will not blacken the teeth. It does not constipate or cause headache. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, etc.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Bogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE CUT in the center. Price 25 cents. Seabury & Johnson, Chemists, New York. feb21, was&gtsept23

MEDICAL.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what The Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

"An infant crying in the night,
An infant crying for the light,
And with no language but a cry."

The child was in pain, and knew no better than to cry until morning, or until somebody brought him something to relieve his suffering. Everybody who has the care of a small child should remember that the little fellow's pains and gripes are ever more severe to him than corresponding pains would be to a big man. Acting on this, it is wise to have Perry Davis's Pain Killer on hand.

The Quaker invasion of Massachusetts: by Richard P. Hallowell. Boston: Houghton, Mifflin & Co. Sold by M. Goodrich; price $1.25.

The author has the satisfaction of knowing that his book has already called forth a very vigorous article in a New York paper, and that his volume is being read very generally by historical students. It contains with the appendix 227 pages. On the outside cover is a view of a woman "at the cart back drawn," which suggests Mr. Whittier's recent poem in the *Atlantic*, "How the women went from Dover."

The author affirms that the object of his book is to correct popular fallacies, and to assign to the Quakers their true place in the early history of Massachusetts. He refers to the persecution only so far as it may be requisite to illustrate how it was resorted to by the colonial authorities, and the spirit in which it was resisted by the Quakers. In the appendix is evidence never before published, and material which is claimed—though it may be familiar to students who have made the subject one of special enquiry—will be found both new and interesting to the general reader.

If some recent writers on the earlier colonial history of the Bay state have deemed it prudent to apologize for the cruel persecutions of the Quakers of that day, on the ground that severe measures were deserved to check their behavior, it is here met with the assertion that repressive legislation and the imprisonment, flogging and hanging of these God-fearing men and women were the cause and not the result of the acts of a few Friends, on which these apologies have been founded. It is a book of general interest, as well as one of peculiar zest to the student of history.

AROUND HOME.

Commander B. J. Cromwell is detached from duty as navigation officer at this navy yard, but is ordered to continue on duty as inspector of ordnance at the yard. Commander George H. Wadleigh is ordered to the yard as navigation officer.

It was stated on the 1st inst. that orders had been received at the navy yard detaching Major George Butler from command of the marine barracks, and ordering him to similar duty at the Norfolk navy yard, relieving Major George P. Houston, who is ordered to take command of the barracks at the Portsmouth yard.

The body of Mrs. Penny of South Berwick, who disappeared from her home on Sunday, May 20th, was found in the Great Works river near Conway junction on the 29th by Melvin Carpenter, while fishing. Several heavy stones were attached to her arms and legs, showing that the suicide was a determined one.

At the May term of the Supreme Judicial court for York county the jury gave Dorcas Wilkinson a verdict of $170.83 against John Drew, the suit being to recover for injuries to the plaintiff's picnic grove at South Berwick junction, because of Drew's burning a brick kiln so near her line as to kill many of the trees in the grove. A case of John Dow against the town of Kennebunk, to recover for personal injuries caused by a defective highway, was settled by the town paying $200. Minnie M. Bond recovered $500 from the city of Biddeford, for personal injuries from the fall of a bridge in that city.

The trial of Benjamin A. Parker of North Berwick for arson commenced at Alfred on Thursday, the 31st ult.

Mrs. Annie Dixon, of Eliot neck, has over 150 young ducks already hatched out, and a large number of ducks' eggs under setting hens; most of these ducks will go to the beach hotels and the Shoals. Mrs. Dixon has among her fowls a hen twenty years old; this veteran is still smart and lively, and has laid well up to the present year.

Mrs. Samuel Shapleigh, Jr., of Eliot, has a hen which as a rule lays double-yolked eggs, measuring 9 1-2 inches around the longest way, and 7 1-2 inches the other. It is hardly necessary to state that this hen is in no wise related to the hens which lay the eggs you buy in stores.

An attempt was recently made at Jamaica, L. I., to tar and feather and ride on a rail Horace Smith, a negro, who two weeks before married Stella Sinclair, a prepossessing white girl, at Greenport. Stella is sixteen years old, handsome and well educated. Smith is over thirty years of age. The couple were obliged to leave Greenport, and made their way to Brooklyn and took up their abode at Crow Hill, near the Flatbush asylum. They were driven from their retreat at Crow Hill by the colored residents, who would not tolerate the bride among them. After that the two lived in a small hut in the outskirts of Jamaica. Friday night, a party of fifteen young men, among whom were three negroes, headed by a drum and fife, and armed with a fence rail and a pot of tar and feathers, visited Smith's abode after midnight, with the intention of assaulting him. When they reached the hut they found it deserted.

Jenny Lind wears a wig, and otherwise shows the ravages of age. She lives in London.

At Milford, Conn., a man named Platt committed suicide because his wife ran off with another man.

—A Baltimore clergyman recently preached on the subject, "Why was Lazarus a beggar?" We suppose because he didn't advertise.

—A Chicago man has composed a piece called "Pull of Joy Galop." The picture on the cover represents a man dancing with another man's wife.

—"What is a fichu?" ask a correspondent. Ah! yes; a fichu is a hue that resembles a fish of some kind—kind of a crushed mackerel shade, and is much in vogue with the codfish aristocracy.

—"Say, George," said the married man whose wife had been ill; "I've discharged that nurse we had, and I'm taking her place myself now." "Taking her place?" inquired George; "what part of her work can you do, old man?" "Oh, I can do it about all," was the reply; "I always was a sound sleeper."

—New England wagon factories are turning out for next summer an unusual number of two wheeled carts. Some have arrangements by which they can be adjusted to horses of different builds, as a tall horse requires that the cart be pitched at a different angle from that used with a short one. The largest style of two-wheeled carts, built for four people and having seats running lengthwise of the body, passes under the name of wagonet. The carriage dealers say that the reason why there are so many novelties this year in the vehicle line is because the trade is dull, and the manufacturers have been ransacking their brains for patterns which will help stimulate it.

—An Arkansas journalist, in assuming control of the local columns of a weekly paper, says: "The proprietors of the *Skillet* have deemed it advisable for me to lend my influence to this great enterprise. I am an old hand at the business, and come highly recommended, having been run out of the swampland district on account of a delicately expressed sentiment to the effect that the county judge was a thief of no small capacity. So long as the judge of the county remains honest, or rather is not caught stealing anything, I may stay with you, and help you develop the wonderful resources of this section, but just as soon as he is proved to be a thief, I reckon I'll have to slide. I take this method of informing the people that I will preach at the Clay Hill church next Sunday."

200,000 in Four Hours.

Messrs. R. Hoe & Co. of New York, the famous press manufacturers, have just written a letter to the Boston *Globe* that their new perfecting press will be completed in September. This will give the *Globe* a capacity of 50,000 papers an hour and enable the management to print and deliver 200,000 papers in four hours, the time in which a morning and evening newspaper usually occupies in printing and delivery. The enormous increase in the circulation of the daily and Sunday *Globe* forced the management to order additional machinery, and confirms the impression in the public mind that the *Globe* is making rapid strides.

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

RAYNHAM, MASS., Aug. 12, 1878.
C. I. HOOD & CO.: Gentlemen— * * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.
I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.
MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.
Yours truly,
HOMER B. NASH.

HOOD'S SARSAPARILLA

Is sold by all druggists. Price $1, or six large bottles for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. MRS. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WEATHER.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 42 degrees above zero.

Sky clear.

THE FIREMEN'S MUSTER.

The fire department will have a torch-light procession this evening at eight o'clock, marching through Pleasant, Water, State, Middle, Cabot, Islington, Bridge, Deer, Market and Congress streets to the headquarters of the firemen's muster committee opposite the Kearsarge house, where there will be a flag-raising, with a display of fireworks. It is understood that many of the houses along the line of march will be illuminated.

THE POOL TOURNAMENT.

The May pool tournament at the Eureka pool rooms, No. 31 Congress street, ended on the evening of the 31st ult., the winner of the first prize, a choice cabinet-photograph frame, being Mr. Archie Jenness of Rye, who had fourteen balls to his credit—the highest run ever made on the table; the second prize, a decorated shaving-mug, was taken by a gentlemen of this city, with thirteen balls. There was some fine amateur pool playing during the evening, and the Eureka orchestra, under the skillful direction of Prof. Williams, performed "The girl I left behind me" and other classic selections to the delight of the large audience. Another prize (a beautiful meerschaum pipe) will be awarded on the 1st of August to the player who shall in the meantime have made the highest run at any single game. Besides the pool-playing and orchestra, and the artistic shaving and hair-cutting done as heretofore in the front shop, there are a pair of tame white rats and other attractions.

POLICE COURT--BATCHELDER, J.

FRIDAY, June 1st.

David W. Fogg, aged about eleven years, was charged with stealing $26 from his uncle, Eben W. Fogg, at Seabrook. He was sent to the Industrial school for three years.

IN PROSPECT.

"I suppose you connect with the regular trains at Portsmouth?" said a former resident in Boston the other day to one of the officers of a paper railroad the result of whose annual election of a board of directors has been duly telegraphed to the metropolitan journals.

"Well, yes, I expect we shall," was the somewhat reluctant reply.

"Shall? Is not your road running yet for the season?"

"Well, not quite."

"Do you pass near the long beach?"

"Beach! well, I think we do."

"What is the fare over the line?"

"Well, I can't say exactly. I never paid any myself."

"Can I buy a through ticket at the depot in Boston?"

"Well, I think not; we have not got our tickets out yet."

"I suppose you will let me walk on the tracks?" persisted the would-be traveller.

"Well, I presume there would be no objection if you were careful, provided we had a track."

"No tickets, no trains, no track; what kind of a railroad is yours, anyhow?"

"Well, you see, it's only on paper, so far. That is, it is partly surveyed, and as soon as we can get sufficient stock subscribed to grade it, and some road to iron it, and build the depots and fences and agree to lease it at six per cent on the cost, we shall begin to build it. If you should be round at that time and will call we should be glad to sell you a round trip ticket at reasonable rates, and check your baggage both ways."

The enquirer was thus enabled to learn just how much there was to that railroad.

GOSSIPS SAY

That nearly two hundred livery teams from Dover were in this city on Memorial day.

That the roller-skating fever is beginning to subside, and the young men and maidens can now commence picking up the stitches they have dropped in their sides and backs during the past three months.

That at Preble's Eureka pool rooms, on Congress street, can be heard one of the finest orguinettes in the city.

That it is presided over by Prof. Willams, a finished musician who plays the most difficult music at sight, without ever missing a note.

That his delicacy of touch is wonderful, and his technique perfect.

That Rev. John A. Goss of this city was elected a vice president of the Prohibitory State Convention at Concord on Thursday last.

That Richard Seely has bought the house and saloon of James Douglass, numbers 36 and 38 Deer street, in this city.

That Mr. Seely will take possession on the 6th instant.

That eleven brewings, aggregating 5000 barrels of ale, is the weekly output at the Jones brewery at the present time.

That a gentleman wearing an overcoat and mittens was seen on Vaughan street Friday noon while the thermometer was eighty in the shade.

That not a vessel was at anchor in the lower harbor on Friday afternoon save the coal steamer Harrisburg, which arrived about noon of that day.

That the government buildings at Fort Constitution are being painted white.

Ninety-three names were entered on the books of the city marshal in May; of these, thirty-six were drunks and twenty were lodgers.

A lighthouse steamer arrived in this harbor on Friday, and came up to the navy yard, proceeding down river again after a brief stop, to take up the whistling buoy from Kitts rock, and moor a bell buoy in its place.

Eighty-eight vessels were entered at the Portsmouth custom house in May, the aggregate tonnage being 20,388. Fifty-two of these vessels brought coal, of which 25,130 tons were landed here, and 7500 tons at other places within this collection district. Nine of the arrivals were of British vessels, from the provinces.

The steamer City of Portsmouth towed to York on Friday the floating stages for the landings at York harbor and Concordville.

Work has been commenced on the steamer Appledore, to get her in readiness for starting on the Shoals line about the middle of the month.

Early one morning this week five large dogs were seen lying in one of the fields of the Rollins place, Newington, with their tongues out, and apparently very tired; the dogs none of them belong in the town, and it is supposed they came from a distance to chase sheep, several flocks of which animals were raced about in their pastures the previous night, though it is not known that any were killed.

Capt. William Robinson, well known in this city and vicinity as a former master of the steamer Appledore, is now proprietor of the Rockingham house at Pleasantville, New Jersey.

In our report of the exercises at Music hall on the evening of Memorial day, we accidentally omitted the name of Miss Flora Hayes from the list of those who aided in the performance. Miss Hayes sang an appropriate song in a very pleasing manner.

The *Daily Local*, of Sandusky, Ohio, contains an obituary notice of Mr. Robert Shorrock, from which we learn that he died very suddenly on the evening of May 27th at his home in Kalamazoo, Michigan, where he leaves a wife and children. Mr. Shorrock learned the printer's trade in the CHRONICLE office, under the late Hon. Frank W. Miller, but went west thirteen or fourteen years ago, and for a time worked in the *Bee* office at Omaha. He was greatly liked by his companions in the CHRONICLE establishment, and had won a respectable position in Kalamazoo by industry, enterprise and fair dealing. He was about thirty years old.

The *Journal* says a party of about forty bicycle riders in New England, which will include W. W. McIntire and F. J. Philbrick of this city, are to start on a trip to the eastern part of Maine. The company will rendezvous at Portland on June 18th, where, after entertainment by the club in that city, they take the steamer for Eastport, the route thereafter to be as follows: Calais, Machias (where the party will be entertained by citizens,) Campobello, Lubec, Grand Menan (by steamer) and thence to Portland. The trip will last eight days.

Early Thursday evening, May 31st, Leslie C. Morse, son of Luther N. Morse of Lynn, Mass., while standing on the track of the Eastern railroad at West Lynn, was struck by a man who either fell or jumped from the Pullman train. The boy died two hours later.

The Eastern railroad company have paid $400 to Mrs. Joshua Richardson of Wolfeboro', for injuries received at the depot at Wolfeboro' junction several months ago.

The Boston *Journal* of Friday says: "John Conlon, brewer, of Islington street, Portsmouth, was the man struck by the eight P. M. train near Castle hill, Salem, Thursday night. His injuries are not serious."

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE: OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or Vitality impaired by the errors of youth, or two close application to business, may be restored and manhood regained.

236th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either case of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE: OR, SELF-PRESERVATION,

is beyond all comparison the most candid work on Physiology ever published. There nothing whatever that the worthy or simple either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Your

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheesbrough, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity."

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

The Carlton Murder.

A despatch of May 31st, from Halifax, N. S., says: "Application has been made to Judge Rigby for a writ of habeas corpus to bring up and discharge Rogers Amero, who is now lying in jail at Digby, awaiting extradition to the United States for the murder of Mrs. Carlton at Watertown, Mass. The act provides that before a fugitive can be removed he shall be retained in British territory for fifteen days, so as to enable him to make application under the habeas corpus act. Yesterday was the 15th day from Amero's commitment. Numerous technical grounds are taken against the regularity of the proceedings, but the chief ground for his discharge seems to be the insufficiency of the evidence to justify the charge, together with the suspicious character of much of the evidence. The judge granted an order nisi, which will be argued before the full bench in July. Meanwhile the extradition is stayed."

EASILY PROVEN.—It is easily proven that malarial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness, and neuralgic ailments yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives new life and vigor to the aged and infirm always.

The Jersey County Medical society, some time ago, resolved not to advertise their names in the newspapers. It was considered quackery to advertise themselves in print. A meeting of this astute body was lately held, which the *Democrat* reported, omitting all names, merely interlarding the account with numerous dashes, as: Dr. —— in the chair, Dr. ——, secretary, Dr. —— moved, etc. Now the doctors are as mad as hornets, and there are not dashes enough outside of a type foundry to express the highly objectionable words used by them when commenting upon the apparently sincere and courteous efforts of the editor to respect their plain resolution.

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and is the cause of Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25 cts. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address **Dr. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE

6 PER CENT GOLD BONDS

OF THE

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $650.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

He Didn't Catch On.

He was a tender-foot, new to the wild scenes among the cowboys of Arizona, and when one of them slaped him on the shoulder and asked him if he would "irrigate," he said:

"What?"
"Moisten yer larnyx?"
"How?"
"Smile!"
"I don't catch your reference."
"Drive another nail?"
"You have the advantage."
"Try some of the hair of the dog that bit you?"
"I cannot grasp."
"Nominate yer poison."
"What's that?"
"Crook yer elbow."
"I'm in the dark."
"Test the tubble?"
"Don't—"
"Cut the phlegm?"
"The—"
"Sample?"
"Sample what?"
"Paint yer nose?"
"Paint my nose!"
"Take some whisky—gin—cognac—drink something strong with me: you don't seem to catch on to no kind of a hint. Won't you drink some whiskey and sugar?"

A portable boiler exploded at Phœnix, Mass., Friday, and Joseph M. Hamblett, engineer, had his leg broken. The boiler was demolished, and pieces were thrown a distance of fifty to 500 feet, one going into the village a third of a mile distant.

A CONNECTICUT journal furnishes the following toothsome bit of literary diet. It may appear "fishy" at first glance, but it isn't: "A paper called *The Idiot* has appeared in Paris, France. No doubt it is intended for those "queer fish' that are in-Seine." Anybody in America could be properly called insane, or an idiot, if he declare Catarrh to be incurable. People used to think so. The newspapers now contain data, names, facts and dates of cures of this loathsome malady. Everybody has come to know that Ely's Cream Balm cures Catarrh, and it is the only preparation that will do it. "Ely's Cream Balm has cured me of Catarrh of several years standing," writes Mr. Frank C. Ogden, of Elizabeth, N. J. The balm has no equal as a cure for this terrible disease." It is not a liquid or snuff, and is easily applied.

John Bailey and Henry Wimbish, both negroes, were executed at Macon, Ga., June 1st, in the presence of a tremendous crowd. Bailey murdered an old negro one year ago for one dollar, and Wimbish killed a negro in a trifling quarrel about a year ago. Both confessed, and both died professing the utmost confidence in being forgiven.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

George Hill, a negro, who was to have been hanged at Canton, Ga., June 1st, for the murder of William Bayard, has been granted a respite.

The secret of the universal success of Brown's Iron Bitters is owing to the fact that it is the very best iron preparation made. By a thorough and rapid assimilation with the blood it reaches every part of the body, giving health, strength and endurance to every portion. Thus beginning at the foundation it builds up and restores lost health. It does not contain whiskey or alcohol. It will not blacken the teeth. It does not constipate or cause headache. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, etc.

Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Syphilitic Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syhilitic Diseases, Canker, Eruptions at the Stomach**, and all diseases that arise from impure blood. **Sciatica, Inflammatory** and **Chronic Rheumatism, Neuralgia, Gout,** and **Spinal Complaints** can only be effectually cured through the blood.

For **Ulcers** and **Erupitive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm**, VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhea**, arising from internal ulceration, and uterine diseases and **General Debility**, VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness**, and **General Prostration of the Nervous System**, no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcloths, Scotch plaids and broadclotns.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night; for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

"An infant crying in the night,
An infant crying for the light,
And with no language but a cry."

The child was in pain, and knew no better than to cry until morning, or until somebody brought him something to relieve his suffering. Everybody who has the care of a small child should remember that the little fellow's pains and gripes are ever more severe to him than corresponding pains would be to a big man. Acting on this, it is wise to have Perry Davis's Pain Killer on hand.

Burglars have recently entered the residences of Joseph Jameson, Isaac Fondo, John O'Shea, Jr., and Albert Fogg, in Laconia, taking money and jewelry.

A man named Morrill, of Laconia, had an arm cut off and was otherwise injured by a gravel train on which he worked, near Ashland on Friday morning last.

News and Notes.

Thomas Caffrey, the fourth of the Phenix park murderers to suffer death for that crime, was hung in the jail at Kilmainham, Ireland, June 2d. The gathering outside the prison comprised only about fifty persons.

A heavy rain on the 1st inst. raised Indian creek, which runs through the middle of the city of Council Bluffs, Iowa, so that seven iron bridges and two stone culverts were carried away, many buildings flooded, and a large number of lives lost. The city's pecuniary loss is hundreds of thousands of dollars, and the private losses very heavy.

John Fitzgerald, John Walter and John N. Ausland, log drivers, employed by the Muskegon Boom Company, were drowned in the Muskegon river at Hersey, Mich., June 1st.

A Guaymas, Mex., dispatch says advices from the newly-discovered gold fields state that men and animals are dying for want of water. The mines will not be worked until the rainy season.

The striking miners at Des Moines, Iowa, in addition to blowing up the residences of colored men who were carried to Des Moines to take their places, are charged with firing two houses of miners a few miles outside the city. There is no clew to the perpetrators.

At least $5000 was subscribed by Portland people Memorial day toward the fund for the soldiers' and sailors' monument.

The authorities at Wichita, Ks., June 1st, raided six gambling houses and captured twenty-one gamblers, who are now in jail.

The funeral of the late Hosea Ballou was held at Cumberland, R. I., Friday, Rev. Adin Ballou officiating. The services of the Masonic ritual were conducted by the members of Morning Star Lodge, assisted by Rev. Robert Murray, Jr., after which the remains of the deceased were interred.

The body of John Kanaff, a mill hand missing since May 29th, was found in a mill pond at Athol, Mass., June 1st. Probably suicide.

Noah R. Stiner, postmaster of Sterling, Ohio, and secretary of the Russell Wrench company, is missing, and it has been discovered that he forged his father's name to his bond of $5,000 as secretary of the wrench company.

The board of visitors made their annual examination of the naval academy at Annapolis, Md., Friday. The battalion of naval cadets was reviewed.

The jury in the election frauds cases at New Orleans, on trial in the United States court, after being out an hour, returned a verdict of acquittal.

A suit brought by William L. Smith of Port Huron, Mich., against the Chicago Grand Trunk railroad, for injuries sustained by him three years ago, resulted in a verdict of $10,000 damages.

Wm. Moore, under sentence to be hanged June 1st at Franklin, La., escaped from prison a few nights previous. He has not yet been recaptured.

Robert Henderson, a negro, was hanged at Oxford, N. C., June 1st, for the murder of his wife.

—A little boy went to his first tea party when four years and three months old. Upon his hostess asking him how he liked his tea, he replied, "It is very nice, but it tastes very much of the water."

—"Captain, we are entirely out of ammunition," said the orderly sergeant of a company to his Irish captain in one of the regiments of the Union army at the battle of the Wilderness. "Entirely out?" said the captain. "Yes, entirely out." "Then sase firing," said the captain.

—An actor, contemplating a suit for a divorce, asked a lawyer what the retaining fee would be. "One hundred and fifty dollars," said the disciple of Blackstone. "That's pretty high priced, isn't it?" "Yes; I usually ask but fifty dollars." "But why do you charge me three times as much as you charge any other man?" "Because," returned the astute expounder of Coke, "when I undertake a divorce case for an actor I generally find that he has three times as many wives as any other man."

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

—The latest novelty among society damsels in New York is "complexion dogs." No girl will now appear on the street with a dog that does not match her complexion. This explains why yellow dogs are so fashionable.

—A liquor seller presented his bill to the executor of a deceased customer's estate, asking, "Do you wish my bill sworn to?" "No," said the executor; "the death of the deceased is sufficient evidence that he had the liquor."

—A Tonawanda man proposed to three girls Easter Sunday, and now for the soul of him he can't remember how many or which one of them accepted him. He has gone back into sackcloth and ashes under the impression that Lent comes after Easter.

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

HAYNHAM, MASS., Aug. 12, 1878.

C. I. HOOD & CO.: Gentlemen— * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.

I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.

Yours truly,
HOMER B. NASH.

MEDICAL.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE TORCHLIGHT PROCESSION.

The headquarters of the Firemen's Muster committee, opposite the Kearsarge house, were formally opened on Saturday evening by a procession, flag-raising and fireworks. The procession was composed of the fire department, (the companies, with the exception of the hook and ladder, being in uniform,) with the Portsmouth band and the drum corps, and made a good show, over one hundred torches being carried. After marching over the advertised route the companies were massed in front of the headquarters, where fireworks were set off, and a large flag bearing the words "New England Firemen's Muster Headquarters" run out. The streets were thronged with interested spectators, several hundreds of whom were from across the river, and many others from Newcastle, Rye and other neighboring towns. Among the places illuminated on the route of the procession were the dwellings of Mr. Rider and Capt. Marcy, on Pleasant street, Ald. A. K. W. Green, Mr. M. J. Ryan, the Rockingham house, and many business establishments; fireworks were set off by C. W. Coleman, Alderman Sampson, David Kimball & Co., Atwell & Co., H. C. Locke, S. W. Whidden, N. W. Lord, J. H. Robertson and others. It was intended by the managers to have some speaking at the flag-raising, but the length of the day preventing the procession from starting until a much later hour than was first fixed upon, compelled the omission of this feature.

THE PATENT VALVE SUITS.

The old steam fire engine brought to this city some weeks ago from Brattleboro', Vt., was tested on Market square last Saturday afternoon, and did very fair work with one and two streams, at a moderate pressure. This engine was built by the Amoskeag Co. of Manchester in 1859-60, and is an important witness in the suits brought by Marcus P. Norton against the New Hampshire cities, for damages for infringement of the alleged Knibbs patent valve. Engineering experts say that the engine has the circulating or relief valve which is claimed as the Knibbs patent, though the machine was built some time before it is claimed that the patent was issued.

City Solicitor R. T. Barnes, of Nashua, last week returned from a visit to different cities in quest of information relating to the defence in the Knibbs valve case. He succeeded in finding the first engine built by the Amoskeag company, which first used the distributing valve. This was the Phœnix, purchased by the city of Hartford. Considerable valuable evidence was secured for the benefit of the cities engaged in contesting the claims of parties bringing the suits.

The trial of the suits will come off in the United States court in this city this week.

THE INVENTORY.

The inventory of the city, as completed by the assessors for the purposes of taxation, is as follows:

Reduced valuation, $30,458.94. Dog tax, $307. Total taxes, $122,142.76.

FREIGHTS.

Among the freight engagements to this port reported last week were one schooner from Elizabethport and two from Port Johnson with coal at $1.20 per ton, and one from Hoboken with coal at $1.15 per ton.

"And what is so rare as a day in June?"

Commodore C. W. Pickering returned home from his winter sojourn on Saturday.

Seven car-loads of furniture for the new Farragut house at Rye beach arrived at the North Hampton station on Saturday.

B. A. Kimball, Lewis Downing, Jr., and other occupants of cottages at Straw's point, Rye, have visited the point within a few days to arrange for the summer's stay at this attractive spot.

Complaints having been made by the Eastern and Concord railroads that beer barrels in cars, or in the freight yards awaiting storage in cars, had been tapped by boys, who after stealing all of the contents they wished allowed the rest to run to waste, the police on Saturday arrested thirteen hoodlums, from eight to fifteen years of age, to answer to the charge. After investigation all but three of the gang were let off; one colored boy, "Yappo," and two white boys, were held for the police court.

"Have you read Mr. Whittier's poem, 'How the women went from Dover,'" enquired one recently of a prominent personage at Dover who seemed deeply engrossed in his own thoughts. "No, I haven't," was the reply; "which way did they go? Boston & Maine or Eastern?" There are some people who are not given to poetic appreciation.

Articles of association of the Livingston Fire & Marine Escape Co., capital stock $30,000, and the Portsmouth Machine Co., capital stock $100,000, were filed in the office of the city clerk on Saturday.

Hon. Frank Jones has bought of the Eastern railroad the deep-well pump formerly used at the artesian well near the station in this city. The pump is to be used for lifting water from the well near the Hotel Wentworth, which is to be drilled deeper than it is at present.

The railroad station in Newmarket has been handsomely painted, and supplied with a sign.

Timothy Dunphy broke one of his wrists and was otherwise hurt by a fall at the Concord railroad wharf on Friday last.

We clip the following from the *Times* of Saturday: "We understand that a shoe manufacturer, doing business in Nashua, is desirous of coming to this city, and if proper inducements are held out he will hire the shop on State street."

——"Mr. H. J. Eaton, conductor on the Concord railroad, will run an excursion from Concord and Manchester to Concordville, York, via Concord road and steamer City of Portsmouth on the 13th inst. It is expected that another excursion trip will be made by the steamer from York on the 16th inst."

No. 1, Vol. 1, of the Epping *Leader*, was issued on Saturday, June 2d. It is a 28-column weekly, of the same size as the Newmarket *Advertiser*, and printed on the press of the latter. F. H. Pinkham is the publisher, and H. G. Kimball of Epping the editor.

Rev. George H. Young, of Woburn, Mass., will preach for the South Parish on Sunday, June 10th.

Major George P. Houston, detached from the marine barracks at Norfolk, Va., when relieved by Major George Butler on July 5th, is ordered to proceed to Washington, D. C., and assume command of the marine barracks there, instead of taking command of the barracks at the Portsmouth navy yard, as was last week reported.

A jacket for the stern bearing of the propeller shaft of the U. S. S. Omaha was successfully cast in the steam engineering brass foundry on the navy yard last Saturday. It weighs somewhere about two tons.

Sheers were raised on the deck of the U. S. S. Omaha, on the ways at this yard, on Saturday, preparatory to taking in her engine. The inclined plane for putting in her boilers has been in position for some time.

The steamer Mystic is to have a new name-board on each bow, ornamented with scroll-work, and bearing eight-inch letters. The carving has been done by Mr. John Bellamy of Kittery.

—The San Francisco *Call* has a delicate way of putting things. In speaking of the troubles of a deceased gentleman, it says:—"His roving inclinations induced him to borrow a government mule."

—Lady friend—"So you are going to graduate next month, Celia? Dear me! what a time of it you must have! I suppose you are nearly fagged out." Celia—"Oh, dear, no; mamma hires a dressmaker and she does all the sewing. All I have to do is to try on, you know."

—A Problem:—Two females, each thirty years of age, are sitting on the sofa. Neither of them has a husband. One is worth $200,000, and the other teaches a district school. Question: Which is the unmarried lady and which is the old maid?

—"We're sitting on the stile, Mary, where we sat so long ago. Ah, then your hair was black as jet, but now 'tis light as tow! 'Tis thus the chemist's wizard art, with changes queer confound us, and mocks when memory brings the light of other days around us."

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion when in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Eighth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. There nothing what ever that the married or single either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every case than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheadle, recently, says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention. Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders, This known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1, per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1, per bottle or six for $5, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaints of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity."

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

At the burning of the steamer Granite State in the Connecticut river on the 18th ult., a passenger who had jumped into the water was rescued by a boat and landed on the wharf uninjured, but in the amazement of his rescuers he immediately sprang into the river again, swam stoutly down stream for some distance, and reaching shoal water walked ashore. In explanation of this strange performance he afterward said that he was practically out of his mind. Seeing on the dock several bales of cotton he associated them with the steamer's freight, and supposing that he was still aboard the burning vessel he plunged into the river and swam for the shore.

At Freehold, N. J., June 1st, an indictment against John H. Cook, editor of the Redbank *Register*, for libelling the people of Redbank, was tried. The charge was that during last August the defendant sent communications to the New York papers concerning the prevalence of typhoid and malarial fever at Redbank, and that he also published similar articles in his own paper, thereby depreciating the value of real estate. After a protracted trial the court instructed the jury to acquit on the ground that the state had failed to prove the falsity of the articles, and the defendant was discharged.

The boiler of Blackburn & Snider's mill at St. Landry parish, La., exploded last Friday morning, killing two men, and wounding eight men and two boys. The mill was blown to bits.

Walter Crockett, of North Haven, Me., committed suicide by hanging on the 1st inst.

Ladies Who Bloat.

What a great number there are; how uncomfortable it makes them; it is almost impossible for those afflicted to enjoy life. In my private practice I have always found Sulphur Bitters to be the best remedy. All who are thus troubled should use it. Mrs. Dr. CHILDS, Boston.

In Boston, on the night of the 30th ult., Bartholomew Nealon, Jr., murdered his wife, Sarah Nealon, alias Sadie Golden, by cutting her throat with a razor. He then went to his father's house, and attempted to commit suicide, but will probably recover.

EASILY PROVEN.—It is easily proven that malarial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness, and neuralgic ailments yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives new life and vigor to the aged and infirm always.

At Killen, Texas, May 29th, Dr. Renfro, a prominent physician, and R. J. McDowell, a merchant, quarrelled. McDowell was shot and killed, and Renfro was badly wounded.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

M. W. Shea was fined $50 and costs in the police court at Taunton, Mass., Friday, on two complaints for the illegal sale of liquor. The evidence showed that Warren F. Smith and his brother, Herbert A. Smith, of Stoughton, have been employed for some time past as spotters at a salary of $3 a day.

No molasses and water mixture, but a concentrated extract of the active medicinal properties of roots, barks, &c., is Hood's Sarsaparilla.

A fifteen-year-old girl, named Kate M. Fitzgibbons, recently taken from a charitable institution in Boston by Charles H. Trofatter and wife of Waltham, Mass., is claimed to have been very cruelly treated by the latter and her son-in-law, Thomas Crane. The matter will be investigated. The girl was taken back to the home from whence she came.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy imitated is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and leaves an Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address **Dr. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE
6 PER CENT GOLD BONDS
— OF THE —
TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $4 0,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

The Days of Slavery.

The following we take from the Dover *Republican* of a recent date:

Slaves were formerly held in New Hampshire, and we were shown to-day an original receipt for the sale of two negroes in 1762. This receipt is now in the possession of Mr. Leavitt Yeaton of Rollinsford, who is grandson of Moses, who bought the slaves. This Moses Yeaton lived at Rollinsford junction and was a tavern keeper there a great many years. We give the spelling and capitals as in the original:

KNOW ALL MEN & SO FORTH

That I Joseph Hattinson of Newington in Province New Hampshire Husbandman doth Grant, bargen & Sell unto Mr. Moses Yeton of Sumersworth, Vintener, a Sertan Negro woman Named Vilet & a boy Child named Grigg for the full and Just Sum of Eleven hondred fifty five pounds. the receipt hearof I acknowledged this 14 Day December 1762. JOSEPH PATTINSON.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence its phenomenal popularity.

A two-story frame dwelling at five Points, near North Adams, Mass., was destroyed by fire Saturday morning. Three children were in the building asleep. The parents were away from home, but the neighbors were aroused by a dog, and rescued the children after some difficulty.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

The earnings of the Vermont state prison the past year amounted to $16,845, or $3,522 less than the expenses. The state receives fifty cents a day for the labor of each convict.

*"He that prays harm for his neighbor, begs a curse upon himself." He that recommends Kidney-Wort to his sick neighbor brings a blessing rich and full both to his neighbor and himself. Habitual costiveness is the bane of nearly every American woman. Every woman owes it to herself and to her family to use that celebrated medicine, Kidney-Wort.

Notice has been received at Digby, N. S., that hearing on the application of Rogers Amero for a writ of habeas corpus will take place at Halifax on the first Tuesday of July. Nothing remains to be done for the present by the officers commissioned to bring the prisoner to Massachusetts, and they have returned to Boston.

"Oh, my back!" is a common exclamation and expresses a world of misery and suffering. It is singular this pain arises from such various causes. Kidney disease, liver complaint, wasting affections, colds, rheumatism, dyspepsia, overwork and nervous debility are chief causes. When thus ailing seek prompt relief. It can be found best in Brown's Iron Bitters. It builds up from the foundation by making the blood rich and pure. Leading physicians and ministers use and recommend it It has cured many, and if you are a sufferer try it.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcloths, Scotch plaids and broadclotns.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from billousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

The Election of U. S. Senator.

A friend has shown us a copy of a newspaper published at Great Falls, which seems to go a long distance out of the way to argue that Hon. Edward H. Rollins is not entitled to be re-elected to the United States senate by the legislature which convenes this week. It is the province of every properly conducted journal, no less than the right of every citizen of the land, to discuss the fitness of every candidate for elective office. In the fair and honorable exchange of views upon such questions, is seen a beneficial result in the selection of a candidate.

But such discussion should be had, as far as relates to the press, from an entirely unselfish standpoint, with the simple purpose of aiding the legislature in selecting the best man for this important position. Above and beyond all questions of reward for political service, or punishment for alleged sins of omission, or its possible effect upon the distribution of federal patronage, or any such incidental considerations, is the fact that with our decreased number of representatives in Congress, the people not only require, but insist upon electing, men who are capable, active, clear headed, energetic, and above all thoroughly conversant with the way and manner in which business is conducted at the federal capitol, not only in Congress but in the several executive departments of the government. The proposition that a senator, with the ripe experience which a bright man is capable of attaining during one senatorial term, makes a more valuable member for the second term, is patent. In this connection we do not refer to the question of patronage or the minor duties which occupy the time of our public servants, through the frequent demands of their constituency, from the cares and annoyance of which there appears to be no escape, but to the proper legislative duties which pertain to the office of a Congressman and for which some men easily and naturally seem to show their adaptation, while others are seen who never seem to be able to possess the *savoir faire* in this respect.

Men may be successful in their profession or calling, they may be gifted as orators, brilliant as writers, and popular with their constituents and with the world at large; their record may be one to which their friends may point with pride; in fine they may prospectively be thought to possess every prerequisite for the position, and yet sadly disappoint every one in their Congressional career. Indeed, few men really add to their reputation in their Congressional service, because so few have that adaptability to its manifold duties, and that requisite tact which can take them through a term of service without mistakes of some kind. It is perhaps this consideration which induces the business men of our state, the men who engage largely in manufacturing or have capital invested in various enterprises, and to whom sound and judicious legislation is far more important than can be any of the minor phases that enter into this question, to again desire the choice of a man who, by integrity, ability and a fitness for the position, is entitled to a selection to that position.

Now let us see how Mr. Rollins' record stands in this respect. In the first place he has had larger legislative experience than has any candidate who is named in seriousness for the position. In all matters wherein our ship owners, business men and others have had an interest, Mr. Rollins has ever shown a readiness to serve his constituents in this vicinity equalled only by his capacity to carry through what he undertakes. Recently, when it was almost certain that the navy yard would be closed and the senators of our neighboring state seemed to regard the result as inevitable, Mr. Rollins by his indefatigable efforts and his sagacious comprehension of what was needed to be done in the exigency, seconded the efforts of our citizens' committee to prevent the proposed action. But it is not alone because Portsmouth in its appreciation of Mr. Rollins' ability asks to have him re-elected, that one should be grateful at such a result. He is the senator for the whole state. He never forgets the claims of any section, or ignores the rights or is deaf to the wants of any set of men who have claims upon his consideration. It has been said that other candidates will be presented who are abler speakers, or more highly educated, and hence are better qualified for the trust. As far as we know, Mr. Rollins has never received or been refused a college degree; we are not informed however on this point; but we have seen Mr. Rollins in the senate, and have conversed with other senators, upon this subject, and during the debates have watched with no little interest to see if the Granite State was abreast of her sister republics as far as senatorial timber was concerned. At Washington no man enjoyed the reputation of being a more punctual and better informed senator, and more conversant with the course and effect of legislative business, than Mr. Rollins. He was one of the best Speakers the house of representatives of this state ever had, and in the senate his quick discernment enables him at a glance to see the effect of every proposition in the course of legislation.

He is ready as a speaker, with a command of language whenever he takes the floor. He is not the man to make a speech simply to have his name appear in the *Record* or the newspapers, and in this way belittle his influence, but he speaks when there is occasion for it, and then it is to the point. In fine he has been the peer of his associates in the senate, and has always known what some legislators fail to discover, when to speak and when to keep silent.

What the people of the state of New Hampshire want in their senator is a familiarity with rules of legislation, a quick perception of the effects of measures coming before Congress, an influence, properly exerted, which can see that our interests are protected and served, and a man of integrity, politically, morally and socially, to represent us.

In Mr. Rollins' case the record shows that he possesses these traits in an abundant degree. It is the part of wisdom, therefore, for the state to avail itself of the benefit of his experience, ability and fitness for the office of senator, rather than to hazard the experiment of selecting a new incumbent who will have much to acquire before he can become as well fitted for the place as has been the late incumbent.

Gov. Butler attempts to conceal his chagrin at the non-receipt of the Harvard parchment, in the hope that the rebuke will give him votes, and aid his presidential nomination. In the solemn selection of a candidate by the democracy to train under in the next presidential contest, two facts should be borne in mind. The democracy care nothing for Butler unless he is of use to their party, and in the same way, Butler cares nothing for the democracy unless the party can be used by him. There will be no sentiment on the sheepskin question.

Ringworm Humor and Salt-Rheum.

HAYNHAM, MASS., Aug. 12, 1878.
C. I. HOOD & CO.: Gentlemen—* * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it, I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.
I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.
MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is least to do some others some good, and we must have it in the house.
Yours truly,
HOMER B. NASH.

MEDICAL.

THE Admiration OF THE WORLD.
Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,
NEWCASTLE, N. H.
THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, with the best of beds, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.
An Orchestra of twelve members under the direction of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.
At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

THE 4th OF JULY.

The meeting of the Reunion Committee, called for Monday evening, was postponed to this (Tuesday) evening, in the Common Council room, on account of the stockholders of the Portsmouth Machine Co. having a meeting there on the date first named. A full attendance of the Committee this evening is especially requested.

PORTSMOUTH MACHINE CO.

The first meeting of the corporators in this company was held in the Common Council room on Monday evening, there being about fifty present, within seven of the whole number of subscribers. F. Jones was chosen to preside, and William H. Hackett as secretary.

The charter was read, and a code of by-laws adopted section by section; one of the by-laws provides that the capital stock shall consist of 1000 shares at $100 each, and another that the board of directors shall consist of from five to ten stockholders.

John H. Broughton, William Ward and Marcellus Eldredge were appointed a committee to nominate nine stockholders to compose a board of directors, and reported the following:

Frank Jones, Charles H. Mendum, Benjamin F. Webster, Ezra H. Winchester, William Ward, J. Albert Walker, Marcellus Eldredge, Nathan Whalley, Edward S. Fay.

On a ballot, the gentlemen named were elected.

The sense of the meeting appeared to be in favor of erecting a substantial building 204 feet by 72 1-2, and two stories high, on the foundations of the Kearsarge mill.

The matters of applying for exemption from taxation for a term of years, and making assessments on the capital stock, were left with the board of directors.

Adjourned for two weeks.

The directors held a meeting after the adjournment of the stockholders, and elected Mr. Jones president, Mr. Mendum treasurer, and Mr. Hackett clerk.

A committee was appointed to ascertain what the Kearsarge mill property can be bought for.

Messrs. Webster, Whalley and Jones were appointed a building committee.

Messrs. Eldredge, Ward and Mendum were chosen to select a person to act as appraiser of the machine property of Critchley & Whalley.

POLICE COURT--BATCHELDER, J.

MONDAY, June 4th.

Three boys, who were arrested on Saturday for stealing beer from barrels at the railroad stations, were held in $50 each to appear for sentence on Monday, the 11th inst.

John Hutton, for drunkenness, was fined $3, costs $6.90, which he paid.

GOSSIPS SAY

That Capt. Adolph Nelson, formerly of this city but now of the New York custom house, was in town on Monday.

That the report circulating about town that a Boston man rang the chime bells on Memorial day is true to this extent—that Major Tilton of this city was a Boston man twenty-five years ago.

That a tin peddler of this city found in his rag-bag on Monday a cat and three kittens, which some thrifty housewife had sold him for three cents a pound.

That it is very refreshing to know that a peddler has been beaten for once.

That our legislative solons all have their little speeches well memorized.

That the lower harbor was filled with pleasure boats on the 3d inst., enjoying the vigorous southeast breeze.

That the new boat of George B. French ventured the farthest seaward.

That the bell buoy on Kitt's rock was clanging with great vigor on Saturday last, but the bell is fine toned and pleasant to the ear, and infinitely preferable to the groanings of the "Jersey bull."

That a dense fog prevailed outside the harbor all the forenoon of Monday, preventing any vessels from going to sea.

That the lease to J. Albert Walker of a portion of Noble's island, extending from the wood-preserving works to the bridge, was signed on Saturday.

That Mr. Walker's lease is for twenty years, and that he will immediately commence the erection of coal pockets, elevated railways, slips and other conveniences for the managing of his heavy and constantly increasing coal business.

In Tippecanoe county, Indiana, a sheriff advertised the sale of some real estate at auction in a Sunday paper. The court held it illegal, as the publication of such a paper was in violation of the Sunday law. We publish seven papers a week at our office, but we do not issue a paper on the Lord's day; advertisers should note this fact.

The bell-buoy on Kitt's rock gives a far pleasanter sound than was emitted from the displaced "Jersey bull."

The Dover Point house was opened for the season on Saturday last, having been renovated and much improved since last fall.

Mr. Wm. A. Hodgdon has the contract for building Mr. Stedman's cottage at Newcastle, the work upon which begins this week.

A pit was on Sunday put in the track at the western end of the Eastern railroad station in this city, to be used for depositing the cinders taken from the new spark-arresting locomotives.

An unfurnished house in Greenland, owned by Atwood J. Adams, was burned early Monday morning. The house was not occupied, and the cause of the fire is not stated.

Ladies' Union Prayer Meeting this (Tuesday) afternoon at three o'clock, in the Methodist chapel on Daniel street. A cordial invitation is extended to all.

Conductor Nason's train on the Lawrence branch of the Eastern railroad was on Monday morning robbed of the freight and ticket money collected at several stations to be sent to Boston. The money was as usual placed in the conductor's closet, and was abstracted through a hole cut in the side of the water-closet. The thief was evidently well informed as to the manner of making the collection.

The schooner R. J. Leonard, of and from St. John, N. B., with a load of cord wood for Boston, when near her destination last week had her foremast shattered by lightning, and was compelled to run for this port, where she is being fitted with a new mast.

The trial of Benjamin A. Parker of North Berwick, for arson, commenced at Alfred on Thursday of last week; on Saturday the case was given to the jury, who soon returned a verdict of acquittal.

There was a slight fire, which might and probably would have been a very serious one but for its prompt discovery, in the building occupied in part by the Biddeford *Times* office, on Saturday morning last. The fire started in the room over the *Times* office, occupied by the French Institute band, and was occassioned by a lighted cigar-stub being thrown into a wooden box filled with sawdust, there being four such incendiary spittoons in the room. The damage was small, and covered by insurance.

The last rail on the Kennebunk & Kennebunkport railroad was laid on Wednesday forenoon of last week; the road will be ballasted in a few days, and it is expected that regular passenger trains will be running by the 18th inst.

The following will be the campmeetings at Old Orchard for 1883: Faith Convention, conducted by Dr. Cullis, of Boston, from July 25th to Aug. 6th: Portland District campmeeting, conducted by Rev. C. J. Clark, presiding elder, from Aug. 20 to 26th; National Holiness campmeeting, conducted by Rev. J. S. Inskip, D. D., Aug. 27th to Sept. 4th; National Christian Temperance campmeeting, Hon. Nelson Dingley, Jr., president, Sept. 5th to 10th.

Railroad Meetings.

The annual meeting of the stockholders of the P. S. & P. R. R., was held Monday at Kittery depot, which resulted in the choice of the following directors for the ensuing year: Geo. E. B. Jackson, S. C. Lawrence, A. P. Rockwell, Geo. P. King, Wm. B. Beacon, F. A. Barrett and Stephen J. Young.

The president read from a copy of the act of the legislature of Maine confirming the lease of the P. S. & P. railroad to the Eastern R. R. Co. Ex-Mayor Guppy of Dover enquired as to the effect of the act upon the stock. Col. Hackett, of Portsmouth, replied that an act confirming the lease by the legislature of Maine, could not but be beneficial to the stability and permanent value of the shares. To ex-Mayor Guppy's enquiry as to the effect in case of the lease of the Eastern to Boston & Maine, Mr. Hackett mentioned that in such event the B. & M. would take the Eastern with all its liabilities, and of course would be responsible for the rentals, and this act certainly was of evident benefit to the P. S. & P. railroad.

The meeting of the stockholders of the Portsmouth, Gt. Falls and Conway road was also held Monday. They elected as directors for the ensuing year: S. C. Lawrence, W. P. Phillips, Geo. E. B. Jackson, John Cumnock, and John W. Sanborn. At a subsequent meeting of directors Geo. E. B. Jackson was chosen president, N. G. Chapin treasurer, and Wallace Hackett clerk.

The stockholders of the Portsmouth Bridge met and elected as directors:—George E. B. Jackson, A. P. Rockwell, S. C. Lawrence, Wm. B Beacon, J. S. H. Frink, W. H. Hackett and J. W. Sanborn. These directors at a subsequent meeting elected Geo. E. B. Jackson president, N. G. Chapin treasurer, and Wallace Hackett clerk.

—The latest thing in China: He (to his fiancee)—"I say, Julia, have you ever noticed this P?" She (who hates to have people talk to her when she is reading)—"No." He—"What! Not seen this sweet thing in China?" She (with enthusiasm)—"Oh, in China! What is it?" He—"Sugar." (She breaks the engagement.)

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S.; Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from in discretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

52th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most expansive work on Physiology ever published. There nothing what ever that the married or single either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every way than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Advocate.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Official List of Patents

Granted to citizens of New Hampshire, for the week ending May 29th.

[Compiled weekly expressly for this paper.]

Alexander McDonald, assignor to McDonald Stonecutting Machine company of Nashua, cutter-holder for stone-dressing machines.

William O. White, of Lake Village, and W. D. Huse of Laconia, steam trap.

It is stated that every department of the Norfolk navy yard is to be thoroughly investigated, to reform every disobedience of law, and correct any abuses in the administration, for whatever purpose, found to exist on the yard, or under whatever pretext maintained. It is rumored in Washington that irregularities, misappropriation of labor, misuse of funds, the fitting out of pleasure yachts, and like abuses, are likely to be reported as existing at other navy yards, and that the Norfolk investigation is simply an anticipated action of the next Congress.

The Tallapoosa, under command of Lieut. John F. Merry, sailed from Washington on the 4th inst. for a visit to the Northern navy yards.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

On Friday the commissioners put 5,000 brook trout into the streams of Goffstown, 5,000 into the streams of Merrimac, and 5,000 into the brooks of Milford. This week they will place 400,000 young salmon in the Merrimac river at Plymouth.

Wells' "Rough on Corns."

Ask for Wells' "Rough on Corns." 15c. Quick, complete, permanent cure. Corns, warts, bunions.

Martin Burns of Dover, eighteen years old, is held to answer for breaking and entering a liquor saloon in that city. Young as he is he has repeatedly been in jail, and also served a year in the reform school.

Diphtheria poisons the blood. Convalescents should take Hood's Sarsaprilla to neutralize and eradicate the poison matter.

The bleachery works of John Kimball at Milford were burned on the night of June 2d; loss $5000. Morse, Kelly & Co. lost 4000 lbs. of knitting cotton. All insured.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

A dam at the Vale Spinning Co.'s mill, Nashua, gave way on the 3d inst., letting five acres of water, from six to twelve feet deep, down the Salmon brook. A small stone bridge was carried away, and low lands along the sides of the brook were much damaged by sand; but otherwise no great harm was done, except to the spinning company, whose loss is $2500.

GENTLEMEN—Your Hop Bitters have been of great value to me. I was laid up with typhoid fever for over two months and could get no relief until I tried Hop Bitters. To those suffering with debility or any one in feeble health, I cordially recommend them.

J. C. STOETZEL, 683 Fulton St., Chicago, Ill.

Hon. Charles H. Bartlett of Manchester resigned the positions of clerk of the United States district court and United States commissioner, to enable him to take his seat in the state senate on the 6th inst.

"Get up like a man, and take care of yourself." Get a bottle of Wheat Bitters, it will make a new man of you, no matter what your trouble may be. No such remedy was ever before offered to the public. $1.

At New Haven, Conn., on Friday, while men were digging for a cellar, they came across a human skeleton. It had been buried, in all probability, thirty years or more. There is a hole in the left temporal bone, probably the result of a gunshot.

The Diamond Dyes for family use have no equals. All popular colors easily dyed, fast and beautiful. 10 cents a package.

—The fence of a graveyard in Pennsylvania bears an inscription in large white letters, "Use Jones's bottled ale if you would keep out of here."

—"Splendid color, isn't it?" asked the fishmonger, cutting open a salmon. "Yes," replied the purchaser, "looks as if it were blushing at the price you asked for it."

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such contemptible ones or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic pill. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What is the reason, for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and begets an Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are rife, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address Dr. J. H. SCHENCK & SON, Philadelphia, Pa.

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delphi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and to nourish these forces it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These take in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

A Woman's Way.

Woman, in reading a newspaper, has a distinct way of her own. She takes it up hurriedly, and begins to scan it over rapidly as though she was hunting some particular thing, but she is not. She is merely taking in the obscure paragraphs, which, she believes, were put in out-of-the-way places for the sake of keeping her from seeing them.

Marriages and deaths are always interesting to her, and the advertisements are exciting and stimulating. She cares but little for printed jokes unless they reflect ridicule upon the men, and then she delights in them and never forgets them.

She pays particular attention to anything inclosed in quotations, and considers it rather better authority than anything first handed.

The column in which the editor airs his opinions, in "leaded" bifalutin, she rarely reads. Views are of no importance in her estimation, but facts are everything.

She generally reads the poetry. She doesn't care anything about it, but makes a practice of reading it because she thinks she ought to do so.

She reads stories and sketches and paragraphs indiscriminately, and believes every word of them.

After she reads all she wants she lays the paper down with an air of disappointment as she observes that "there is nothing in it."

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

He was doctored to no avail,
But St. Jacobs Oil didn't fail,
To send the pain right "up the spout."

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

A CONNECTICUT journal furnishes the following toothsome bit of literary diet. It may appear "fishy" at first glance, but it isn't: "A paper called *The Idiot* has appeared in Paris, France. No doubt it is intended for those "queer fish' that are in-Seine." Anybody in America could be properly called insane, or an idiot, if he declare Catarrh to be incurable. People used to think so. The newspapers now contain data, names, facts and dates of cures of this loathsome malady. Everybody now come to know that Ely's Cream Balm cures Catarrh, and it is the only preparation that will do it. "Ely's Cream Balm has cured me of Catarrh of several years standing," writes Mr. Frank C. Ogden, of Elizabeth, N. J. The balm has no equal as a cure for this terrible disease." It is not a liquid or snuff, and is easily applied.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE CUT in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syhhilitic Diseases, Canker, Faintness at the Stomach,** and all diseases that arise from impure blood. **Sciatica, Inflammatory** and **Chronic Rheumatism, Neuralgia, Gout,** and **Spinal Complaints** can only be effectually cured through the blood.

For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa,** arising from internal ulceration, and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness,** and **General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.--Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

Portsmouth Chronicle.

WEDNESDAY, JUNE 6, 1883.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

Aaron Mann, aged seventy-two years, of Randolph, Mass., was found drowned in Leonard's pond in that town June 4th. It is believed to be a case of suicide.

The Missing Undershirt.

The morning was warm, and he imprudently made a change in his underclothing. Our climate is deceptive. Before evening there came up a chilly storm. An attack of sickness followed of course. But Perry Davis's Pain Killer was used for relief, with the happiest effect. In these summer months of suddenly varying temprature, everybody ought to keep a bottle of this valuable remedy within reach.

Minnie, the youngest daughter of George Closson, residing in Methuen, Mass., was run over by an unmanageable team June 4th, sustaining fatal injuries.

Bourbon Whiskey

is a necessity in every household. A really reliable brand may be found in the "G. O. Taylor Old Bourbon," bottled by Messrs. Chester H. Graves & Sons, of Boston, and to be obtained in bottles only, bearing their signature over each cork, from leading Grocers and Druggists everywhere.

The puddlers at the Blondin Rolling Mill, Reading, Pa., who struck for twenty-five cents per day advance, have been granted the same, and have returned to work.

The six per cent. gold bonds of the Topeka, Salina and Western Railroad offer undoubted Security to investors. Tapping the choice lands of Kansas, the future of the road is assured.

The Montreal ship laborers have passed a resolution requiring members to charge double wages while employed by the owners of steam cranes.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

The Massachusetts senate on the 4th inst. by a vote of thirteen to eighteen, refused to pass the bill dividing Boston into aldermanic districts over the governor's veto.

Mr. H. W. Devere, Enfield, N. H., says: "I have derived splendid results from using Brown's Iron Bitters as a blood purifier."

The effects of the recent flood which visited western Iowa are not so severe as at first supposed. The total amount of damage done to private property is less than $150,000, and to Council Bluffs not over $300,000. All business has been resumed.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

The navy department is informed that arrangements have been made to launch the double turret monitor Amphitrite at Wilmington, Del., on June 7th.

Wells' "Rough on Corns."

Ask for Wells' "Rough on Corns." 15c. Quick, complete, permanent cure. Corns, warts, bunions.

The verdict for $5000 in the suit of James J. McDonough vs. the Boston & Albany railroad, for injuries, has been set aside by Judge Aldrich, in Boston, on defendant's motion.

Just Married.

How loving they are; this is always a sure sign. After the first year sometimes it don't hold good. When Charles comes home to you grouty and cross, snapping and snarling, unable to relish the nice dinner you have cooked, and as if there was a ton of pig iron in his stomach, he is troubled with dyspepsia, and Sulphur Bitters is the only medicine that will cure him.

Frank Brown and John Anderson, two desperadoes, members of what is known as the "Crooked Creek gang," pursued a course of intimidation in the town of Wiota, Iowa, for three hours on Sunday, firing revolvers promiscuously, and creating other disturbance. They were finally met by an armed body of citizens, and shot down. Anderson is dead, and Brown will die. Good job.

If you fail to receive benefit from other preparations, try Hood's Sarsaparilla: it's the strongest, the purest, the best, the cheapest.

Monday afternoon about four o'clock, in Newington, several dogs were seen chasing Mr. Clark M. Coleman's sheep around their pasture, and Mr. Benjamin S. Hoyt fired on the marauding brutes with a shot-gun, wounding one so as to make him yelp vigorously, but not killing him. Two lambs of the flock were injured so they will probably die. The dogs were evidently strangers from out of town.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

Monday night, in Farmington, in an affray between striking shoe-makers and four "scabs," or men who had taken the places of strikers, one of the four, named E. A. Lathrop, fatally shot William Burrows, who though not a striker, was with the crowd.

GENTLEMEN—Your Hop Bitters have been of great value to me. I was laid up with typhoid fever for over two months and could get no relief until I tried Hop Bitters. To those suffering with debility or any one in feeble health, I cordially recommend them.
J. C. STOETZEL, 683 Fulton St., Chicago, Ill.

It is reported from Amherst, Mass., that on Sunday last Mrs. Joseph Pickering of this city fatally cut her throat with a carving knife. She was thirty-eight years of age, in poor health, and lived with a half-sister in Amherst.

Skin Diseases

Fifteen years of Suffering.—Body covered with Humors.—Had Twelve Doctors.—Paid out $500.—No Cure,—No Hope.

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp, and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment, with but little relief. I prevailed upon him to use the CUTICURA RESOLVENT (blood purifier) internally and the CUTICURA and CUTICURA SOAP externally. He did so, and was *completely cured*. The skin on his head, face, and many other parts of his body, which presented a most loathesome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months. Reported by

F. H. BROWN, Esq., Barnwell, S. C.
Reference, Dr. H. BARR, Charleston, S. C.

Helpless for Eight Years.—Unable to Walk for One Year.—Got about on hands and Knees.—A Wonderful Cure.

I have had a most wonderful cure of Salt Rheum. For seven years I suffered with Salt Rheum; I had it on my head, face, neck, arms, and legs. I was not able to walk, only on my hands and knees, for one year. I have not been able to help myself for eight years. I tried hundreds of remedies; not one had the least effect. The doctors said my case was incurable. So my parents tried everything that came along. I saw your advertisement, and concluded to try CUTICURA REMEDIES. The CUTICURA brought the humor to the surface of my skin. It would drop off as it came out, until now I am entirely well. All I say is, I thank you most heartily for my cure. Any person who thinks this letter is fraud, let them write or come and see me, and find out for themselves. WILL MCDONALD,
2542 Dearborn St., Chicago Ill.

The Cuticura Treatment for the cure of Skin, Scalp, and Blood Diseases, consists in the internal use of CUTICURA RESOLVENT, the new Blood Purifier, and the external use of CUTICURA and CUTICURA SOAP, the Great Skin Cures. Price of CUTICURA, small boxes 50 cts.; large boxes $1. CUTICURA RESOLVENT, $1 per bottle. CUTICURA SOAP 25 cts. CUTICURA SHAVING SOAP 15 cts. Sold by all druggists.

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

BRYNHAM, MASS., Aug. 12, 1878.
C. I. HOOD & CO.: Gentlemen— * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.
I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.
MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we trust it may have it in the house.
Yours truly,
HOMER B. NASH.

HOOD'S SARSAPARILLA

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. Allen has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

U. S. Circuit Court—Lowell, Judge.

June 5th —The court came in at 11 a. m., and after routine court business, the case of Marcus P. Norton vs. the several cities of New Hampshire, was brought up. A jury was impanelled as follows: Moses French of Kingston; Ezekiel Cudworth and Dean C. Phillips, Littleton; Everett Moulton, Hampstead; M. D. Poor, Antrim; Geo. C. Cummings, Holderness; D. W. Meader and L. B. St. Clair, Haverhill, E. R. Danforth, Hancock; Hiram Patch, Francestown; Frank Russell, Greenfield, and O. D. Moore, Lisbon. O. D. Moore was appointed foreman.

Wadleigh: Foster of New York: Caverly: Kivel, for pltf.; Geo. L. Roberts & Bro.: Wm. L. Foster: Ray: Wallace Hackett, and Barnes, for deft.

The case was opened in behalf of the plaintiff by Mr. Caverly. The opening, which consisted mainly of reading the long writ, the patent under which plaintiff claims, and the various assignments occupied the entire morning session.

This afternoon the legal question as to the right of the assignees to sue at law for damages was agued. In equity, the assignees entitled to recover such damages. At common law, the right of action is confined to the owner of a patent, and is not to be exercised by his assignee.

The defendants contend that this suit must be confined to the period from Oct. 10, 1877 and the expiration of the patent May 24, 1881, when present parties plaintiff held the title. This position was maintained by Geo. L. Roberts, Esq., who was followed in reply by the plaintiff's counsel.

The counsel for the plaintiff before the trial began stated to the Court that they had been informed that there were no funds with which to pay the jurors beyond a few days. The Court intimated that this was the affair of the Court, and an arrangement had been made by which Mr. Hackett would supply the needed funds.

Mr. Wadleigh stated that by a provision of the United States statute which allows damages for an infringement to be recovered by a grantee or assignee, Mr. Norton owned seven-eighths and Mr. Knibbs' assignee one-eighth. The duty of the pltf. was to take advantage by a plea in abatement. In this state amendments are always allowed. The question was not ruled upon; as to question of statute of limitation, Judge Foster briefly replied to Mr. Wadleigh.

Mayors Lathrop of Dover, Putnam of Manchester, and Treat of Portsmouth, are in attendance upon the court. Several experts are present as witnesses, and models of steam fire engine apparatus are in the court room. Each party has a stenographer in attendance.

The first witness was Mr. John C. Hoadley of Boston, a scientific and mechanical expert, who was examined by James P. Foster, Esq., of New York. The witness was asked as to pumps, and gave descriptions of the different variety of pumps. He required no pumping, but gave quite an essay upon pumps as applied to steam fire engines, their power, capacity and mode of working. Experiments were had with the model with the Knibbs valve open, and closed at various stages. The witness had examined three steam fire engines in Dover belonging to the city in August, 1882. They all had an equivalent device as that shown in the model and exhibit put in evidence. Two had the attachment connected. The inside of the pumps were not examined, but the witness was confident it was a Knibbs valve. He saw a steam fire engine fired up, but not to throw water at this time. This was the "Cocheco." The engineer, White, made explanations as to the working, which the witness narrated. The witness seemed to show great familiarity with the workings of the valve. His direct testimony closed at 5:20 P. M. Cross examination was waived, Mr. Roberts saying that he did not care to have the witness extend his very interesting lecture.

The second witness was Simon E. Furlong of Woburn, an engineer. He was engaged for eleven years in the employ of the Amoskeag Co. at Manchester, and worked upon the construction of engines built by that company. He testified as to use of steam fire engines without the "relief," and the waste of water. He testified as to the advantages of a relief valve to a steamfire engine in its prevention of waste of water, and in the workings of the engine. Two steam fire engines were delivered to the city of Dover by the Amoskeag Co. while he was in the company's employ, each having relief valves. The witness explained that it was very desirable to have an engine which did not discharge water upon the start. There was some debate as to a question as to the relative value between the two kinds of machines, the court ruling that he could explain what, if any, advantages existed in the working of pumps with Knibbs mechanism over the old kind of machines. The witness was not able to give much testimony in this direction, and the direct examination ended.

The court took a recess until Wednesday morning at half-past nine o'clock.

THE REUNION ASSURED.

The Reunion Committee of '83 met in the city rooms on Tuesday evening. In the absence of Col. Sise, the chairman, and Secretary Page, Alderman Martin was voted to the chair, and Samuel Dodge was chosen secretary *pro tem.*

Alderman Stavers, chairman of the committee on finance, reported that a subscription paper had been passed around, and signed so liberally as to abundantly warrant the committee in going ahead; and on his motion the committee on invitations were instructed to invite the absent natives and former residents of Portsmouth to accept the hospitality of the citizens on the coming 4th of July.

Chairman Samuel Dodge, of the committee on music, made a report, and it was decided that the 1st Regiment band, of Manchester, and the American band of this city, be secured, with such other music as it may be expedient to procure.

Other committees, including those on programme and regatta, reported.

On the suggestion of Dr. Parsons, Messrs. Eldredge, Stavers and Entwistle were appointed a committee on fireworks.

It was voted that all members of the general committee be present at the next meeting, and that all the sub-committees be then prepared to report as to the amount of funds needed to carry out their respective parts of the programme; and Mr. M. Crowley was appointed a rallying committee.

Adjourned to Friday evening.

POLICE COURT--BATCHELDER, J.

TUESDAY, June 5th.

Charles Marstenson, Enoch Legg, Enoch Hayes and James Ashton, the first-named belonging in this city and the others in Dover, were assessed $9.90 each, for drunkenness. County farm for four, probably.

The building committee of the Portsmouth Machine Co. will at once go to Hartford, Conn., and other places, to examine shops.

The schooner Belle Sturgis, from the Kennebec river for a southern port with 1150 tons of ice, put into the lower harbor on Monday last.

The *Herald* of Newburyport, Mass., in its report of the meeting of the Newburyport city government on the 4th inst., says: "The mayor read a communication from the mayor of Dover, N. H., asking this city to join in the defence of a suit brought by M. P. Norton for the use of a patent valve used in fire engines, in which a number of New England cities are interested. The mayor was granted full powers to act in the matter."

The schooner Charles H. Trickey, Kelly master, belonging to the Dover Navigation Co., and bound from Philadelphia for Boston, went ashore on Handkerchief shoal, Nantucket sound, early in the morning on the 3d inst., but was assisted off by wreckers from Monomoy for $250, and proceeded.

The Sunday evening service at Christ church will hereafter until further notice commence at five o'clock, instead of at 7:30 as heretofore.

The schooner E. A. Williams sailed on a cruise for mackerel, Tuesday forenoon last, under command of Capt. Oren Caswell.

Mr. Edwin R. Pearson of this city has been admitted as a student of the Massachusetts Institute of Technology, without conditions.

Mr. Andrew J. Ayers, who has been in poor health for a long time, was found sitting in a chair at a table, dead, Monday afternoon, by his daughter, on her return home after an absence of several hours.

The first four-horse stage-coach to appear on our streets this season was driven in from the Marshall house, York harbor, Tuesday morning.

The schooner Fannie A. Bailey, Hume master, from Cheverie, N. S., for Philadelphia, was on the 5th inst. reported ashore at Cape May, New Jersey, three men and a child having perished; no particulars were given. The schooner registered 272 tons, and was built at this port in 1864; she was sold to parties in Portland, Me., several years ago, and has since been owned there.

The steamer Appledore went on the marine railway at Kittery on Tuesday, to have her bottom cleaned and painted.

The Dover house at York beach, conducted by J. B. Brown of Dover, was opened for the season on the 2d inst.

The Sea Cottage at York beach is now open, and ready for the reception of permanent or transient boarders.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

BLIND CHANCE.

A Thorough Investigation of the Louisiana Lottery by a Representative of The "Times."

HOW THE SCHEME IS OPERATED, AND THE MEN WHO ARE CONNECTED WITH IT.

A Gambling Institution with a State Charter and a Government License.

OPINIONS AS TO ITS FAIRNESS AND THE MANNER OF ITS WORKINGS.

[From the Chicago Times, May 16, 1881.]

In all ages of the world's history, among all races of people, however highly civilized or the exact reverse, the passion for wooing the fickle goddess of chance has invariably manifested itself. Legislators and lawgivers have striven in vain by the enactment of the most stringent statutes to repress the practice of gambling in some or other of its manifold forms, for the instinctive desire to attain sudden wealth by the hazard of a die, the revolution of a wheel, or the turn of a card is too deeply implanted in the minds of men to be driven out by the power of legal enactment. The subject is a fruitful one, and might be made the text for a thousand homilies upon the folly and weakness of mankind, as it has served to point a million morals in the past. But THE TIMES to-day proposes to deal with only one branch of this great moral problem, and to treat only of the lottery business as conducted by the Louisiana State Lottery Company, an institution which has its ramifications in every city of the United States, and is nowhere more strongly represented than in Chicago.

It is well known to all that the early legislators of the State of Illinois, in their desire to protect the morals of the commonwealth, enacted constitutional provisions forbidding the authorization by the General Assembly of any lottery or gift enterprise within the State. In accordance with these provisions laws have been passed, and so far as Illinois is concerned, the lottery business is under the ban. But in other States, and notably in the South, different ideas have governed, and as the effect of the lotteries established under the sanction of local laws in Lousiana is by no means confined to that State, it becomes a matter of general interest to trace their workings. For this reason THE TIMES has made thorough and searching investigation into the manner in which the one great lottery of the country is conducted, by sending one of its reporters to Louisiana to examine into affairs on the ground. The result of his inquiries is given herewith. His instructions were to make thorough examination into the financial and legal status of the Louisiana State Lottery, to examine its charter from the legislature, and to see whether it complied with the State constitution, in which the validity of such charter is recognized and guaranteed. He was also to ascertain from State and city officials in New Orleans whether the company lived up to its contract with the State in the matter of providing for charitable institutions, and to obtain the opinion of bankers and business men about the concern. Lastly, and most important of all, he was to witness the drawing of prizes as conducted monthly in New Orleans, and to satisfy himself beyond a peradventure as to the honesty and fairness of the system. Whether a lottery be forbidden by law, as in Illinois, or chartered by the State, as in Louisiana, there can of course be but one opinion as to the fact that if it be conducted unfairly it should be exposed as a swindle.

THE HISTORY OF THE LOTTERY.

In the year 1860 the Senate and House of Representatives of the State of Louisiana adopted in legal form "An act to increase the revenues of the State, and to authorize the incorporation and establishment of the Louisiana State Lottery Company, and to repeal certain acts now in force." This act provided that no foreign lottery tickets should be sold within the State, and gave to certain citizens named the power to organize a corporation under the following regulations:

ARTICLE 1. The name and title of this corporation shall be the Louisiana State Lottery Company, and the domicile thereof shall be in the city of New Orleans, State of Louisiana.

ART. 2. The objects and purposes of this corporation are: 1. The protection of the State against the great losses heretofore incurred by sending large amounts of money to other States and foreign countries for the purchase of lottery tickets and devices, thereby impoverishing our own people.

2. To establish a solvent and reliable home institution for the sale of lottery, policy, and combination tickets, devices, and certificates, fractional parts thereof, at terms and prices in just proportion to the prizes to be drawn, and to insure perfect fairness and justice in the distribution of such prizes.

3. To provide means to raise a fund for educational and charitable purposes for the citizens of Louisiana.

ART. The capital stock of this corporation shall be $1,000,000, represented by ten thousand shares of $100 each.

There were provisions for a Board of Directors composed of seven stockholders, and the corporation was given all the corporate rights to sue and be sued, etc. The duration of its existence was fixed at twenty-five years. In consideration of the privileges thus granted and guaranteed, the Company on its part agreed to the following:

ART. 5, SECTION 1. The corporation shall pay to the State of Louisiana the sum of $40,000 per annum, which sum shall be payable quarterly in advance from and after the 1st day of January, 1869, to the State Auditor, who shall deposit the same in the treasury of the State, and which sum shall be credited to the educational fund; and said corporation shall be exempt from all other taxes and licenses of any kind whatever, whether from State, parish, or municipal authorities.

SEC. 2. The corporation shall furnish bonds to the Auditor in the sum of $50,000, as security for prompt and punctual payment of the sums set forth in the preceding Section.

The remaining provisions of the Charter regulated the matter of elections of officers, and the general method under which the Company should work, and gave it for a period of twenty-five years from the 1st day of January, 1869, the sole and exclusive privilege of establishing and authorizing a lottery, or series of lotteries, and selling and disposing of lottery tickets, policy, combination devices, and certificates and fractional parts thereof.

CONSTITUTIONAL GUARANTEES.

The Constitution of 1879 provided in Article 167, as follows:

ARTICLE 167. The General Assembly shall have authority to grant lottery charters or privileges, *provided* each charter or privilege shall pay not less than $40,000 per annum in money into the treasury of the State; *and provided further* that all charters shall cease and expire on the 1st of January, 1895, from which time all lotteries are prohibited in the State.

The $40,000 per annum now provided by law to be paid by the Louisiana State Lottery Company, according to the provisions of its Charter granted in the year 1868, shall belong to the Charity Hospital of New Orleans, and the Charter of said Company is recognized as a contract binding on the State for the period therein specified, except its monopoly clause, which is hereby abrogated; and all laws contrary to the provisions of this Article are hereby declared null and void, *provided* said Company shall file a written renunciation of all its monopoly features in the office of the Secretary of State within sixty days after the ratification of this Constitution.

Of the additional sum raised by licenses on lotteries, the Hospital at Shreveport shall receive $10,000 annually, and the remaining sum shall be divided each year among the several parishes in the State for the benefit of their schools.

Thus doubly fortified by constitutional provision and an indefeasible Charter, the question of the legal existence of the Louisiana State Lottery, so far as the State of Louisiana had the power to go, was even on the start. Having satisfied himself on these points, the investigator proceeded to have a series of interviews with prominent officials and business men of New Orleans, which tell their own story as follows:

STATE AUDITOR JUMEL.

The Hon. Allen Jumel, Auditor of the State of Louisiana, who was staying a few days in New Orleans, was found, and submitted gracefully to the interviewing process. The reporter said:

"I want to ascertain through you, as an officer of the State, the facts as to the legal, moral, and financial standing of the Louisiana State Lottery Company."

"Well, sir," replied Mr. Jumel, "it is the greatest benevolent institution in the entire South. It is the milch cow for every charity, whether personal or public, in Louisiana. It is the backbone and support of all sanitary measures in New Orleans. It gives with a free and open hand to all deserving objects, whether church, school, or public or private charity. It supports a Hospital, the largest and best in the Southern States, which gives shelter and medical or surgical treatment to the unfortunate, without distinction of class, creed, or nationality. As an institution, it protects its franchise against hundreds of political parasites who would like to rob the Company of its Charter, regardless of the loss to the city of New Orleans which would follow, and for the purpose of obtaining concessions for themselves. The Louisiana State Lottery, as it is conducted, is perfectly square and honest. The officers are men of high standing and repute, and they cannot afford to endanger their reputations or risk the forfeiture of their franchise by any slight-of-hand work. If the thousands of administators of estates in this country would guard the trusts devolved on them as faithfully as the officers of the Louisiana State Lottery Company protect theirs, there would be less suffering and want in the world."

"How about the fulfilment of the Charter provision as to placing in your hands $40,000 every year for charitable purposes?"

"They pay in advance $10,000 every quarter into my office. During my long administration, I have never found them to be one day behind with their payments. As to the men who are identified with this great institution, their names have a national repution. You can find out about them by inquiry among our best business men. The drawings are conducted under the personal supervision of Gen. G. T. Beauregard of this State, and Gen. Jubal A. Early of Virginia, whose name alone are an absolute guaranty of the bona fides of the Lottery."

"What can you tell me about the attempt made some time ago by Congressman Robertson of this State to induce the Postmaster-General to stop the delivery of mail matter to the Lottery Company?"

"I can best answer that question by referring you to a paragraph which appeared in *The Times-Democrat* of this city on July 22 last, and which you can publish as it stands."

The paragraph was as follows:

THE LOTTERY AND THE MAILS.

[*Special to The Times-Democrat.*]

WASHINGTON, July 21.—Congressman Robertson of Louisiana has received a reply from the Postmaster-General to his letter relative to the use of the mails by the Louisiana Lottery Company. The Postmaster-General, in his reply, takes the ground that the Lottery Company is a legal institution, and that he cannot, therefore, prevent the company from using the mails.

"What was the reason of Congressman Robertson's objection?"

"I do not care to go into details of the personal fight. I suppose the cow kicked."

"There is Mr. Robertson now?"

"Up at Baton Rouge. He has been elected to stay at home."

THE MAYOR OF NEW ORLEANS.

General W. J. Behan, Mayor of New Orleans, was found at the City Hall. The reporter stated that THE TIMES had sent him to New Orleans for the purpose of investigating the workings of the Louisiana State Lottery Company, and expressed the hope that Mayor Behan would freely furnish all the information in his power.

"I shall be very happy to do so," replied the courteous Executive. "I admire the enterprise of THE CHICAGO TIMES in sending a representative so far from home for the investigation of information. The Lottery Company is doing a great work in the matter of alleviating human suffering and misery in our city."

The reporter stated that he had seen a number of the leading men of New Orleans, and that they all gave utterance to the same sentiments in regard to the honesty of the drawings, and the high personal character of the gentlemen connected with the Company.

"Yes," answered the Mayor, "it is, I believe, the only institution of the kind in the world which is absolutely free from any taint or suspicion of irregularity. I never bought a lottery ticket in my life, but being engaged in commercial pursuits [Mayor Behan conducts a large wholesale grocery business], I am personally acquainted with the honorable standing of each and every membet of the Board of Directors of the Louisiana State Lottery Company. As to the Commissioners, Gens. Beauregard and Early, their reputations are national. The conduct of the Lottery is beyond reproach."

"What are the facts as to the charitable work of the organization?"

"The Managers of the State Lottery Company never seem to tire of giving in a good cause. Their donations to charitable purposes extend over the world. As to their enterprise, I can only say that it resembles that of your Chicago men. If we had more of their kind, New Orleans would not take a back seat as a manufacturing and commercial city to any in this country."

BANK PRESIDENT KOHN.

The reporter, in his researches for news among the commercial and financial magnates of New Orleans, met Mr. C. Kohn, President of the Union National Bank of that city, and propounded to him questions identical with those asked of the other gentlemen named.

"I shall be only too glad," said Mr. Kohn, "to tell to the people of the North, through the medium of THE TIMES, the facts as to the business standing and personal character of the lottery officials. I am not interested in any way in lotteries, and am opposed to them and to all forms of gambling. I believe them to be a bad thing for any state or community to encourage. But I am willing to forgive the Managers of the Louisiana State Lottery Company for all the harm that Lottery has ever done, if it has done any, in consideration of the good work it has done and is constantly doing for humanity. One-half will never be known of the true charity of that corporation. Their hands are always open to the poor and needy, and when we were visited by epidemics they simply overflowed in charity."

MR. JULES CASSARD,

President of the Germania National Bank, was found at his private desk, industriously occupied in appending his official signature to bank notes about to be issued as currency. With much suavite and good humor he laid aside his work for the time to make the reporter feel thoroughly at home.

"I consider," he said, "THE CHICAGO TIMES a great and enterprising newspaper. It is thoroughly known and its merits fully appreciated throughout the South. If there is any way in which I can serve you in the matter of getting information, you can command me."

THE TIMES representative stated his business, and went on to show how the laws of the state of Illinois dealt with the lottery question; how in spite of all those laws there was a great eagerness among the people of the North, and especially the working-classes, to invest small sums in the hope of winning large prizes, and how they were liable to be imposed upon by concerns not operated upon a reliable business basis or manipulated by corrupt or improper persons. For these reasons and in order to fully determine the financial and legal standing of the Louisiana State Lottery Company, he had been sent to New Orleans to make his investigations upon the spot and to learn how the Managers of the Company stood in the estimation of their fellow-citizens and the business community.

Mr. Cassard replied: "From a moral point of view I do not indorse anything that tends to the encouragement of gambling or games of chance. But if a lottery is to exist, and it looks as if such was to be in the present constitution of humanity, it is of course desirable to have only such as are conducted honestly and fairly. Such an institution we have got right here in this city in the Louisiana State Lottery Company. I consider a ticket in that lottery as good as this piece of paper [picking up a $10 bill.] There are certain stipulations in regard to both which will be observed to the letter. I have no interest in this Lottery Company, either as a stockholder or otherwise, but I am personally acquainted with all its officers, and I know that their reputation as honest and conscientious business men is second to none in the city of New Orleans. Their stock cannot be purchased in the market, and it is the best paying investment paper in this country. At their time of life and with such an institution to maintain, the officers of this Company cannot afford to do anything to throw a cloud upon their names. I know there are plenty of men who would be glad to find out a little crooked work in the operations of this lottery so that they might come to the front and obtain a charter for themselves. You can rely upon it that if all was not square to the last cent the fact would be published far and wide. As to the Charity Hospital, which is supported by the Louisiana State Lottery Company, it is a noble institution, the doors of which are thrown open to the sick and suffering from all parts of the world. The charity of the Company knows no bounds of creed or race, and extends wherever want and misery are found. I receive a great many letters of inquiry about the lottery. Here is a letter calling for five tickets. I answer all these inquiries as I have answered you, and tell them that the Lottery is conducted by honest men. We receive tickets for collection from all parts of the country, and they are invariably promptly honored."

MR. J. H. OGLESBY,

President of the Louisiana National Bank, is a very conservative man, and like financiers generally, has little sympathy with anything which partakes of the nature of a gambling transaction. In reply to the questions of the reporter he said:

"I do not wish to be interviewed on a matter I know nothing about. As to lotteries, I never had a ticket in my life, never expect to have one, and in my opinion any man who purchases a lottery ticket and expects to get rich in that way is very foolish."

"It is not in regard to the ethics of lotteries, Mr. Oglesby, that I desire information, but as to your knowledge of men who are at the head of the Louisiana State Lottery. Of course you know Gen. Beauregard and Gen. Early, the commissioners, and the Directors of the company. What can you tell me about their standing in the business community?"

"I believe them to be men of honesty, ability, and worth, but as to their lottery busines I know nothing."

"Do you ever have lottery tickets sent to you for collection through corresponding banks in other cities?"

"Yes, sir, hundreds of them, and they are always paid promptly by the management and returned by us in due course, like all other selections."

"How about the charitable feature of the State Lottery Company?"

"I have never heard a word of complaint that it has not lived up to the requirements of its charter. I will say that I have known it to respond liberally in aid of sufferers along the river in cases of high water and floods. No longer than two weeks ago I was at the head of a committee for a certain purpose, and sent in a check for $500. The Directors are men of high standing in community, and both enterprising and liberal in all acts."

OTHERS BANKERS

A call at the Mutual National Bank, developed the fact that the president, Mr. John T. Harden, was at his seaside residence at Pass Christian, Miss., but the reporter found Mr. P. Maspero, the vice-president, at his post of duty. That gentleman said, in reply to the reportorial querie:

"I believe the Louisiana State Lottery company to be an entirely straightforward institution. We at this bank are all personally acquainted with the officers of the company, and know them all to be gentlemen of high business qualifications and strict integrity. We have a large amount of collections on account of successful lottery tickets to make every month. These are sent to us for collection by corresponding banks all over the United States, and they are duly paid on presentation. Now, so far as I am personally concerned, I am decidedly opposed to the granting by any State or government authority of any charter to a lottery. But the right to do so is vested in the General Assembly of this State by the constitution, and as we are to have a lottery I am very free to say that we are fortunate in having an institution which lives up to the requirements of its charter and conducts its business in an honorable, fair, and legitimate way. Then, too, those people are extremely liberal, and not only meet the requirement of the law by contributing $40,000 every year to the support of the Charity hospital, but always contribute liberally to every deserving charity."

Mr. P. O. Fazende, of the firm of Fazende & Seixas, well known bankers and brokers, corroborated in all particulars the statements made by other leading bankers and commercial men in regard to the business integrity and stability of the managers of the lottery.

COL. R. E. RIVERS,

the proprietor of the St. Charles hotel, New Orleans is a gentlemen of high standing and wide personal acquaintance in that city. Seated in his private office in the hotel, he talked freely in regard to the object of the reportorial investigation.

"You ought to be able to tell me something in regard to the Louisiana State Lottery, Colonel," said the querist."

"Yes sir, I know all about it, although, much to my regret, I have no interest in the institution."

"The officers are quite politicans, are they not?"

"They are compelled to be in order to protect the valuable franchise of the company from the vampires who want its blood."

"What are the facts about the honesty of purpose of the company and its charitable work?"

"There has been more than one church built from their contributions in addition to the $40,000 a year which by the terms of their charter they are legally required to give to the Charity hospital. They donate besides this $75,000 every year to charitable purposes. The reputations of the men who own and control the company are beyond question. There is a fortune for any man who can detect and prove the slightest irregularity or crookedness in the lottery drawing. But nobody has ever succeeded in doing so, for the operations of the company are carried on in accordance with a strict system of safeguards and checks, and the names of the men connected with it are enough to satisfy anybody that everything is entirely square. Nobody here has the slightest doubt on that subject."

W. A. Baldwin, president of the New Orleans National bank, who is personally acquainted with all the gentlemen connected with the Louisiana Lottery company, cheerfully bore testimony to their high standing in the business community and to the fairness and liberality with which the lottery is carried on. With regard to the actual workings of the lottery and the manner in which the drawings are conducted, the reporter, however, proposed to conduct his own investigations. He had ascertained from a score of leading officials and bankers and business men what the standing and reputation of the managers of the concern were, and now determined to press his inquiries on the subject of the lottery itself and the manner in which it is run. Fortunately for his purpose, there was to be a drawing within a few days, and this he proposed to witness in all its details. So far he had not met any of the gentlemen connected with the lottery in any capacity, but had pushed his investigations independently. But in order to obtain more details as to the drawings he called on Gen. Jubal A. Early, who, with Gen. Beauregard, acts as commissioner to superintend that process. That distinguished soldier resides at Lynchburg, Va., but visits New Orleans to attend each monthly drawing. He is still bright and cheerful, bears his years well. Over everything connected with the drawing the two commissioners exercise the most watchful care. They take entire control of the wheels from which the tickets and the corresponding prize numbers are drawn, and the managers of the lottery have no more to do with this than any other outsider. In this way perfect safeguards against any possible collusion are provided.

GEN. G. T. BEAUREGARD

needs no introduction to the reader. His distinguished military career is recorded in the pages of history, and his name with that of Gen. Early, is a guarantee of good faith and honesty. His testimony as to the absolute fairness of the lottery may be well condensed in the following language employed by him.

"I state that, at the request of the Louisiana Lottery company, I have superintended two of its most important drawings in conjunction with Gen. Early. It is within my positive knowledge that said drawings were conducted in the fairest manner possible; and before undertaking the charge, I made investigation as to the manner in which said company conducted its operations. I became thoroughly convinced that all its affairs and drawings are honestly and fairly conducted. It is a legal institution, incorporated by the State in 1868, and has been in regular operation ever since. Its financial standing is first-rate, as it has always paid all prizes drawn, and I never heard of any one having business with it complaining of unfairness or bad faith of any description."

Since the time named the drawings have invariably been supervised by the two gentlemen, and long experience of the workings of the lottery enable them now to repeat, more emphatically than ever their endorsement of the perfect honesty with which the drawings are carried on.

THE CHARITY HOSPITAL.

Having heard so much during his visit to New Orleans in regard to the Charity Hospital of Louisiana, the reporter visited that institution, and through the courtesy of Dr. D. Jamison, the efficient assistant house surgeon, was given an opportunity of making a thorough examination of all its details. The Charity Hospital was founded in 1786 by Don Andre Almonaster Roxas, a Spanish planter. The present building was erected in 1832, and during the last year it relieved 6,419 patients, of whom 664 remained in the hospital Dec. 31st 1882. It received $40,000 from the Louisiana State Lottery Company, and about $75,000 from rents and donations during last year, and is out of debt. In every respect the conduct of this noble charity appears to be of the most desirable character. Its doors are thrown open to white and black alike, as no applicant for admission is ever refused the necessary treatment and care. In the matter of cleanliness and attention to every detail of hospital work, the Charity Hospital might well be taken as a model by many more pretentious institutions.

THE LOTTERY ITSELF.

Thus having obtained the views of many of New Orleans most prominent citizens in regard to the honest management of the lottery and the fulfilment by the Company of its charter engagements, the *Times* man proceeded to investigate for himself the lottery. Accordingly he visited for the first time the office of the Company, and stated his business to Mr. M. A. Dauphin, who for several years has acted as President of the Lottery Company. That gentleman expressed himself as being perfectly willing to furnish all the information in his power, and certainly afforded every opportunity for a couple investigation of the manner in which the Lottery is carried on.

The building occupied by the Louisiana State Lottery Company is a large and elegant three-story structure, conveniently located on the corner of Union and St. Charles streets. The building and court occupy almost one-quarter of a block. The first two stories are built of Vermont marble, and the remainder of white concrete. The court extends half-way through the centre of the property, and is protected by a high iron fence. Within the enclosure thus formed are a large fountain and a wealth of tropical plants. The main office of the Company is an immense, lofty room, occupying the first two stories of the building. Off this large room are elegantly furnished private parlors and correspondence rooms. The third floor is used for the public lottery drawing, and is fitted up in good style, with every convenience for the accommodation of those desirous of witnessing the monthly drawings. In every respect the appointments of the building and offices are complete. Over thirty gentlemen are constantly employed in attending to the correspondence.

M. A. DAUPHIN.

Some reference should properly be made in this connection to the affable gentleman who so efficiently presides over the destinies of the Louisiana State Lottery Company. Mr. M. A. Dauphin has been connected with that institution since its inception, and when it began active operations in January, 1869, he occupied a confidential position in the office. In the spring of 1870 the cashier of the Company resigned on account of ill-health, and Mr. Dauphin took the cashier's desk and the general direction of the office. In 1877 Mr. Dauphin being a stockholder and a member of the board of directors was unanimously made president for two years. He was re-elected in 1879, 1881, and in January of this year, and is now filling his fourth term at the head of the Company.

DRAWING THE PRIZES.

At 11 o'clock on the morning of Tuesday, May 8, a regular monthly drawing of prizes was had in the Company's building, under the supervision of Gens. Beauregard and Early. The reporter witnessed this from first to last, the entire process occupying about three hours. The manner in which the drawing is conducted is at once simple and calculated to insure absolute fairness.

THE PLAN OF THE LOTTERY

drawing is as follows:

The numbers from 1 to 100,000, corresponding with those numbers on the tickets, printed on separate slips of paper, are encircled with small tin tubes and placed in one wheel. The first 979 prizes, similarly printed and encircled, are placed in another wheel. The wheels are then revolved and a number is drawn from the wheel of numbers, and at the same time a prize is drawn from the other wheel. The number and prize drawn out are opened and exhibited to the audience, and registered by the commissioners, the prize being placed against the number drawn. This operation is repeated until all the prizes are drawn out. The Lottery Company have nothing whatever to do with the drawing, which is entirely taken out of their hands, and is watched by Commissioners Early and Beauregard on behalf of the ticket-holders. As to the *modus operandi* of the drawing and its absolute fairness, a correspondent of the New York *World*, who made an independent investigation of the whole subject, tells the story of a very thorough test which he made personally, as follows:

"With regard to the details of the drawing itself, it is safe to say there is not the slightest indication of unfairness. All the prize numbers (830 in all) were counted carefully over by the four commissioners last week before they were placed in the wheel yesterday morning in the presence of the *World* correspondent. In fact, the result of the drawing proved that they were all deposited in the wheel, as all the positive prizes advertised in the monthly scheme were drawn and checked one by one, by your correspondent. If any discrepancy was suspected, it could only exist in connection with the large wheel which contains the 100,000 numbers. Gens. Beauregard and Early count these numbers over twice a year, and vouch that every number from 1 to 100,000 is deposited in the big wheel. It takes five days to complete this count, and the managers offered to go through the entire process immediately after the drawing, so that the public might be thoroughly convinced that the 100,000 numbers were in the large wheel. But this would require at least ten days' labor, with four assistants, and my proposition to weigh the tickets and the tubes, so as to arrive at some accurate estimate, was willingly accepted by the managers.

"As soon as the drawing was completed yesterday, I accordingly obtained full control of the wheel. Mr. Giffen and Mr. Pille, the two commissioners, accompanied me to the room this morning. The wheel was then opened and a woolen cloth spread upon an adjoining table. I then took several handfuls of the numbers, removed them from their gutta percha tubes and deposited them in the centre of this table. From this heap I counted 100 at a time, which were verified by Giffen, until I had obtained 1,000. The remainder were returned to the wheel. I then placed these 1,000 numbers in a carton-box which I had previously weighed empty. The box and numbers turned the scales at 48 1-2 ounces. Deducting 5 1-4 ounces for the weight of the box, and the net weight of the 1,000 numbers and tubes was 43 ounces. As 830 numbers had already been drawn from the wheel yesterday, I counted out 170 numbers from the 1,000 heap and found the net weight of the remainder (830, to be 35 1-2 ounces. Five large white canvas bags were then procured at my request, as well as a pair of Forsyth's scales, which is the recognized standard in this city. Each bag weighed empty 7 1-2 ounces. I calculated to be able to place 20,000 numbers, incased in their tubes, in each bag. The weight of the 20,000 numbers, according to the weight of the first 1,000 drawn out of the wheel, should be 20 times 43, or 860 ounces, which, with the bag (7 1-2 ounces,) gave a gross weight of 867 1-2 ounces, or 54 pounds 3 1-2 ounces. I placed the regulators on the scale at that figure, and had the first bag filled until it turned the scale at 54 pounds 3 1-2 ounces. I then knew it contained 20,000 numbers. The same process was followed until I had filled 4 bags containing 80,000 numbers. The last 20,000 would necessarily be 830 short, or 35 1-2 ounces, as by the previous weight I had taken. Deducting 35 1-2 ounces, or 2 pounds 3 1-2 ounces, from 54 pounds 3 1-2 ounces I should have the net weight of 19,170 numbers which remained in the wheel, or 52 pounds. I placed the regulators at that figure, 52 pounds, and waited with curiosity for the last bag to be filled. When Mr. Pille dropped the last tube in, there was a slight motion of the regulating beam, and the scales were poised exactly at 52 pounds. There was not the slightest variation of a fraction of an ounce, so that I must say that I was more convinced that there were 99,170 numbers in the large wheel when I began to make the investigation than if I had counted them one by one. With the 830 positive prizes drawn yesterday and this would make a total of 100,000 numbers in the wheel when it was turned at 10 o'clock for the grand monthly distribution last Tuesday morning."

SUMMING IT UP.

Such testimony as this, with the added weight of the declarations made by New Orleans business men in regard to the financial standing and high character of the Directors and Officers of the Company, carry conviction with them. The reporter can only add that from all the information which he sought and got under the most thorough investigation conducted independently and for the purpose of getting to the very bottom of the whole business of lottery drawing as conducted by the Louisiana State Lottery Company, he could arrive at no other conclusion than that the lottery is conducted on principles of absolute fairness.

"Oh, my back!" is a common exclamation and expresses a world of misery and suffering. It is singular this pain arises from such various causes. Kidney disease, liver complaint, wasting affections, colds, rheumatism, dyspepsia, overwork and nervous debility are chief causes. When thus ailing seek prompt relief. It can be found best in Brown's Iron Bitters. It builds up from the foundation by making the blood rich and pure. Leading physicians and ministers use and recommend it. It has cured many, and if you are a sufferer try it.

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the south and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust by a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

THE BEST AND The Richest BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Food, Brain and Nerve are the most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerve are the forces which build up health of every, day work and life, and in order to avoid sickness it is wise to use a BLOOD PURIFIER.

Wheat Bitters are prepared, not by fermentation but by solution and the richness in the Phosphates, while the starch and other matter are eliminated. These make in themselves a tonic, to which is added the best and choicest medicinal qualities necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and most agreeable, compounded with the thousand and one cheap alcoholic bitters which are sold as curatives. Medicine is doubly effective when used with food, and strength while it corrects.

Sold by druggists, $1.00 per bottle.

"My horse walked on his toes for a year," writes W. J. Tuckerman, the well known horse man, "his trouble was a *contraction of the cords*. Ellis's Spavin Cure cured him."

Gov. Butler has asked the Massachusetts legislature to appoint another committee of investigation of the abuses of the state offices and institutions, and promises to again appear and put the subject through. Gov. Butler appears to be the great investigator of the country, and perhaps it would be a good idea for his friend Chandler to retain him to aid in the investigations at the Norfolk navy yard.

"Oh, my back!" is a common exclamation and expresses a world of misery and suffering. It is singular this pain arises from such various causes. Kidney disease, liver complaint, wasting affections, colds, rheumatism, dyspepsia, overwork and nervous debility are chief causes. When thus ailing seek prompt relief. It can be found best in Brown's Iron Bitters. It builds up from the foundation by making the blood rich and pure. Leading physicians and ministers use and recommend it. It has cured many, and if you are a sufferer try it.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

Saturday night, June 2d, a young man named Ward, of Enosburgh Falls, Vt., was killed in attempting to get out of a wagon; his foot catching so as to draw him under the wheels, breaking his neck. An iron rod was driven into his head, and he was carried some distance. The driver of the team was drunk, and did not stop to let Ward get out; he has been arrested.

On Monday night, June 4th, Charles Matthews of Augusta, Me., attacked his stepmother, Hannah Matthews, fifty-two years of age, with a flatiron, striking her four times on the head and making four ugly wounds, three being in the forehead and one on the nose, each penetrating to the bone, although the skull was not fractured. Matthews was immediately arrested, and taken to jail. He had been on a spree, and was in a state of delirium. The chances are that the woman will recover.

Reports from Austin, Texas, say the grand jury indicted between forty and fifty members of the legislature for gambling. Quite a number of those indicted left money with counsel to plead guilty and pay the minimum fine, rather than go to trial in the court. Another despatch says some one entered the county clerk's office on the night of the 2d inst., and stole all the indictments returned by the grand jury for violations of the gambling law, including those against the members of the legislature. There is no clue to the thief, but sporting circles are greatly elated.

Hon. J. C. Riddleberger, United States senator-elect from Virginia, says that all the talk about the recent election in that state having been a readjuster defeat is but mere brag, and has no foundation. He adds: "That it was not a defeat is shown by the fact that we have carried fifteen more counties than we ever carried before at a spring election."

* * "He that prays harm for his neighbor, begs a curse upon himself." He that recommends Kidney-Wort to his sick neighbor brings a blessing rich and full both to his neighbor and himself. "IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

The Missing Undershirt.

The morning was warm, and he imprudently made a change in his underclothing. Our climate is deceptive. Before evening there came up a chilly storm. An attack of sickness followed of course. But Perry Davis's Pain Killer was used for relief, with the happiest effect. In these summer months of suddenly varying temprature, everybody ought to keep a bottle of this valuable remedy within reach.

New Hampshire Legislature.

The Great and General Court assembled in Concord on Wednesday, June 6th, and opened what is likely to be an important and exciting session.

The caucuses of the two parties for the nomination of officers were held on the evening of the 5th, excepting that of the democratic senators. The republican senatorial caucus nominated Chas. H. Bartlett of Manchester for president, Frank D. Currier of Canaan for clerk, Ira A. Chase of Bristol for assistant clerk, Leonard E. Tilton of Marlboro' for sergeant-at-arms, and Charles J. Hamblett of Milford for messenger.

The republicans nominated for speaker of the house, Samuel C. Eastman of Concord; Edwin F. Jones of Manchester, clerk; George A. Dickey of Derry, assistant clerk; John Underhill of Chester, sergeant-at-arms; Norris A. Dunckles of Concord, Charles M. Horne of Rochester, Frank M. Tappan of Bradford, doorkeepers. The democrats nominated Charles F. Stone of Laconia for speaker, A. S. Batchelder of Littleton for clerk, C. L. Kingsbury of Keene for assistant clerk, and George L. Young of Ossipee for sergeant-at-arms.

The democrats on the 6th nominated Harry Bingham for president of the senate, and John E. Robertson for clerk.

The legislature convened at eleven o'clock A. M. on the 6th, the members being sworn in by Gov. Bell.

The republican caucus nominees for senate and house officers were elected.

"Whom Kathie Married:" by Amanda M. Douglass, author of "The Old Woman Who Lived in a Shoe," etc. Boston; Lee & Shepard. For sale by Mercer Goodrich; $1.50.

Miss Douglass has written six volumes about Kathie Alston and her family, and the young people who have read of Kathie will be glad to continue their knowledge of her, to learn how her marriage happened, and who was the fortunate man who wooed and won her. The tone of Miss Douglass' book is healthful, while the interest is kept up throughout the entire volume.

A recent volume of the "Round Robin Series" is "Fanchette: by one of her admirers," publised by James R. Osgood & Co. of Boston. It gives a picture of society in Washington, abounds in dialogue, and pleases the fancy rather than instructs us. For those who seek to be entertained by the effects of a story, Fanchette will be found to possess an interest. Sold by M. Goodrich.

In the June number of the "Art Amateur" there are articles on the Paris salon, the artist's haunt at Etretat, flower painting, chalk drawing, La Farge and his decorative work, sketching from nature in oil, wood carving, rural decoration, and other important subjects. There is a charcoal study by J. Carroll Beckwith for a frontispiece, a full page reproduction of J. F. Millet's "Shepherdess Knitting," and in the supplement, designs for dessert plate, wood carving, jewelry, vases and embroidery.

THE "BOSS" SWINDLER.

Rockingham county, which has furnished to other states many of their ablest business men, lawyers and scholars, is now credited with producing one of the most daring and successful swindlers whose proceedings have recently been made public.

James Henry Langley, said to be a native of Northwood in this county, has been arrested in Boston, charged with a long series of elaborate and extensive swindles. He is president of the United States Construction Co., and connected with the D. Langley & Son Medical Instrument Co., the National Anti-Friction Car Box Co., the Continental Construction Co., the Franklin Foundry Co., the Anti-Friction Journal Bearing Co., the Elastic Railway Frog Co., the West India Guano Co., the Crowther Dump Car Co., the Railway Live Stock Express Co., the Rodgers Lock Co., and the Texas Land Syndicate Co. The charges against Langley are based on his dealings as "the United States Construction Co.," and the extent of his swindling may be inferred from the fact that when arrested he had an elegant office in the Mason building, Boston, and was keeping twelve or fifteen clerks at work, nearly or quite all of these clerks being among his victims.

In 1871, Langley had a business agency on State street, Boston, and suddenly departed, leaving his partner a mourner to the extent of $2000. After this he operated in New York city, Richmond, Va., and Chicago. He returned to Boston in 1874, and opened a patent-medicine lair, secured a partner with money, and soon retired, leaving behind several cartloads of wooden blocks neatly labelled "Anti-Lean." In 1881 he organized the "Continental Construction Company of New Hampshire," with a capital of half a million, and with an office on Exchange place, Boston, and began the erection of a factory at Concord, N. H., where he claimed the sole right to make an improved journal-bearing. His principal victim was a Bostonian, who sunk $60,000 in the enterprise, and other persons lost $40,000 by the cheat. His other swindles are too numerous to mention. He is held in $8,000 bail.

AROUND HOME.

The roller-skaters will have one more evening's sport this season, in Franklin hall Friday evening; the American band will furnish music, and there will be an exhibition of fancy bicycle riding, and a potato-race on rollers.

"The Eastern railroad people," says the Boston *Traveller*, "are very well pleased with the proposed reference of Mr. Phillips' injunction suit to the full bench of the supreme court, and are perfectly confident of a victory. It is now doubtful if it ever reaches a hearing, as in the event of the New Hampshire legislature giving its consent to the lease, Mr. Phillips may deem it best to withdraw his suit."

The train which left Manchester for this city at eight o'clock in the morning on the 4th inst. was delayed near Raymond for about forty minutes, by the breaking of an eccentric-rod on the engine. The up train was also delayed.

Along the line of the Portsmouth & Dover railroad a number of improvements are in progress. Among the list is the arranging of a platform at Pinkham's grove, Dover point, for the benefit of summer excursionists.

The Manchester *Mirror* says a scheme is on foot for running Sunday trains over the Concord & Portsmouth railroad.

At the time of the impeachment of Andrew Jackson in 1866, William H. Frost, of Springvale, and Jerre Towle, of Portsmouth, N. H., decided that they ought to be punished in some way for having voted for him. They therefore agreed never to shave, or to be shaved, again so long as they lived. Seventeen years have passed, and both men have kept the agreement, and probably will continue to keep it to the end of their lives.—*Springvale Advocate.*

The family of the late Prof. Paul A. Chadbourne will spend the summer at their place in North Berwick.

A lady at Kittery Point who had a flock of fifty-six nice chickens, finding them troubled with vermin, was advised by a friend to give them a plentiful sprinkling with sulphur, and did so, to the manifest discomfiture of the vermin, and also of the chicks, fifty of the latter proceeding to die in the most expeditious manner possible.

Ringworm Humor and Salt-Rheum.

HAYNHAM, MASS., Aug. 12, 1878.

C. I. HOOD & CO.: Gentlemen— * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my hand and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.

I am gratefully yours,

EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.

Yours truly,

HOMER B. NASH.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

UNITED STATES CIRCUIT COURT.

Lowell Judge.

WEDNESDAY, June 6th.

Norton et als. vs. City of Dover, continued:

Wednesday forenoon the cross-examination of Furlong was waived.

John E. Ricker, of Cambridge, engineer for 13 years, and previously a machinist employed by the Amoskeag Co. in putting together steam fire engines, was next called, and testified as to the working of engines. The witness thought that the Knibbs mechanism has considerable benefit in saving strain on the engine, hose, allowing management of machine, without which they could not be as well operated.

Cross. examined by G. L. Roberts.—First heard of the name of "Knibbs" while he was employed by the Amoskeag Co. Heard of Knibbs relief valve as early as 1867. Have only had experience with those engines made by this Co. Has run many engines, but only had one under his charge, the "Webster," and all have been of Amoskeag make. Some have been "old rotarys." The witness was re-examined by the plaintiff's counsel, his testimony relating to the management of engines.

John Ray, an engineer of Boston fire department was next called. He was engineer of the "Lawrence" of the Boston fire department. His testimony was similar to Mr. Furlong's. Cross-examination by John L. S. Roberts.

Mr. Ray on re-direct, testified that he did not know Knibbs, and Mr. Knibbs did not know that he applied anything to these engines.

John B. Stevens, Jr., city clerk of Dover, had custody of bills paid by the city of Dover for steam fire engines. The bills were produced, two dated in 1865 and one in 1875. No controversy was made as to these bills, or for bills paid for repairs. Cross-examination waived.

Albert A. Fairbanks, an engineer, resident in Dover, testified as to his acquaintance with the steam fire engines, Dover, No. 1, Cocheco, No. 2, and Fountain, No. 3, which came to Dover within three years. On 1 and 2 engines were relief valves when delivered to the city. He described the valves by models shown. Had not examined the inside, or took out the valves of either engines. Have operated the engines. Witness described the operation.

Witness had charge of these Dover engines for six years. Same mechanism on them now as when he had charge. No change in relief device to his knowledge. Cross examination. Dover No. 1 not used at all for past 5 or 6 years; kept as a relief. City has the Cocheco Manf. Co. power as a means of extinguishing fires. It is centrally situated and the factory company's appliances are made use of more than the city's engines. Seven-eighths or three-fourths of the best buildings of the city are within the company's range. Steamers are kept in one house close to the C. M. Co.'s works. River runs through the centre of the town and supplies water. Engines are always called out but we depend upon the power the Co. M. Co. kindly furnishes. Engines are fired up and play on fires until extinguished. Sometimes the Co.'s hose may play first. The company has the greater capacity. I think 16 streams in Print works yard and I think as many in the cotton mill yard run by steam (up all the time) and by water. Can run the lines of hose out half a mile. Engines has four discharge pipes. Two only used. Cocheco and Fountain play two streams each. All of them amount to six lines of hose, and all do not amount to one-fifth of the C. M. Co.'s capacity to extinguish fires.

Sawyer's Mills is supplied with its own hydrant.

Jacob K. Purrington (affirmed) Treasurer of the Cocheco Aqueduct Co., the company supplies the reservoirs of city free of charge. Charge for use of water at City Hall and school house. Question as to the price of water for other purposes than extinguishing fires was objected to and objections sustained. Case on part of plaintiff here rested.

At the coming in of the court in the afternoon, the case was opened in behalf of the city of Dover by G. L. Roberts, who read the defendant's plea, which claimed that the invention was in prior public use; he also read the notices of other special defence, that Knibbs was not the first inventor, but that the Amoskeag Manufg. Co. and others used it before Knibbs' discovery; that the invention had been abandoned by Knibbs; that the same device, before the Knibbs patent was issued, was patented in London, England, in 1845, by Wm. Wylam, and in 1862 by Wm. Roberts, and in France in 1850; that the invention was also used by the city of Philadelphia, and by persons in said city.

Mr. J. L. S. Roberts stated that the date of the letters patent was May 22, 1864; and that John Ray, one of plaintiff's witnesses, stated that he put upon the steamer "Lawrence," three years before the date of this patent, a similar device to this patent, operating in the same manner, put there for the same purpose, and it accomplished the same result, as on the Rob Roy, placed subsequently. This Mr. Ray is one of the men whose name is in the notice as one of the persons who had used this device before the date of the patent, and Mr. Roberts moved for a verdict for defendant upon the plaintiff's own showing.

Mr. James P. Foster replied that Ray's action was only an unperfected experiment, and an abandoned invention. The engine went out of use, as plff. contends. [This was disputed by defendant.] The court intimated that the testimony was understood to have been as defendant stated. The date of invention is not shown by the patent, and the evidence is not in, only so far as it tended to show that the working of Knibbs' device was the same. Under these considerations, the motion was denied. The law permits the deft. to show when he made his invention. It is the right of the defendant to do this after the other evidence is submitted. It may be wrong, but such is the law. [Case on the part of plff. rested not on this point.] Mr. J. L. S. Roberts then proceeded with the opening, explaining the claim of the plaintiff as to his invention.

Mr. Joseph L. Perry of Philadelphia, draughtsman and designer, was the first witness called, and testified as to the use of relief valves on steamers Columbus and State of Georgia, running from Philadelphia to sea, and on steamers Burlington, Trenton, (built in 1824,) and steamer Newcastle, in 1830. The witness was shown photographs of engines having the valve in question, and pointed out the position and use of the valve to the court and jury; one picture was a lithograph of an engine made on Jan. 7th, 1858, by the order of the witness. He has been a chief engineer of ocean steamships.

The Court here took a recess to 9:30 o'clock Thursday morning.

Case Robert P. Lawrence vs. The Mascot Mining Co., a claim for $5817,16 for cash and services, was continued. Ray and Walker for plff.; Laughton & Clerque of Bangor for deft.

LUCKY FISHERMEN.

While the schooner W. B. Keen, Fernald master, was fishing near New ledge, off the coast of Maine, on Monday of this week, two of her crew, named Haven Mitchell and Herbert Clough, left the vessel in a dory to look after their trawls, and a thick fog coming on, were unable to get back. After vainly pulling around for some time they were picked up by a schooner bound to New York, on board which vessel they remained until she arrived at a point about eight miles southeast of the Isles of Shoals, when they left her in their dory and pulled to the islands, where they were hospitably treated by Mr. John Handy Robinson. After resting a short time they started again in their dory, to pull to this city, and when about halfway to Whalesback were picked up by the lobster-smack Addie & Hattie, and brought in, arriving at the wharf at four o'clock in the afternoon on Tuesday. They would prefer to make cruises in single vessels rather than to use three schooners in a single trip.

GOSSIPS SAY

That work on the Sagamore bridge was finished on Monday evening of this week.

That the directors of the Portsmouth Machine Co., which organized on the 4th inst., were seen at seven o'clock in the morning on the 5th examining the Kearsarge mill property, where the new industry is to be located.

That there must be energy and "vim" enough in a board of directors which gets to work at that hour in the morning, to make almost any enterprise a success, independent of the solid financial backing of this board.

That out-of-town capital was offered for investment in the new machine company, but was respectfully declined.

That several of the police went on a fishing junket down river on Tuesday, the 5th inst.

That contrary to expectations, there was no decided break in the fresh fish market in consequence.

That on Wednesday afternoon, the 6th inst., several hundred boys attended a matinee entertainment in this city, given by a magician who bestows on each patron a gift.

That several hundred boys came out of the hall at the close of the entertainment, each one possessing a tin whistle.

That before bed time that night the parents of several hundred boys were even wishing that the magician were dead.

That Fred Randall will shortly open a hair dressing saloon in the Badger block on Daniel street.

That Rock Cottage at Newcastle and Sea-Side Lodge at Pocahontas point are open for the season.

That C. Dwight Hanscom of this city has a fine colt, twelve months old, which weighs six hundred lbs.

That the hoodlums of Christian Shore who for pastime throw rotten eggs at old gentlemen will find themselves before the police court some of these fine mornings.

That James H. Langley, the Northwood swindler, is indebted to a local paper $20 worth.

That the Manchester *Union* used half a column of type to describe a windmill just erected in that borough, remarking that such are a novelty in the east.

That if our neighbor will come to Portsmouth we will show him a dozen windmills, more or less, within a radius of four miles of Market square, all exactly like the one he describes.

That Mr. Thomas Watkins of this city went to Boston on the 5th inst. to consult a patent attorney with reference to getting a patent for a sewer trap.

Blue-fish are being taken in quite large numbers at Martha's Vineyard.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

7 PER CT. INTEREST
Loans on Improved Farms negotiated and guaranteed by the
NORTH DAKOTA LOAN & TRUST CO.,
JAMESTOWN, DAKOTA.
THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.
TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.
On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

MANHOOD

KNOW THYSELF.

A Book for Every Man ! Young, Middle-aged and Old.

THE untold miseries that result from indiscretion or ignorance in early life may be alleviated and cured. Those who desire the best medical advice should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or wasting manhood, by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifty editions, another just enlarged, just published. It is a standard medical work, the best in the English language, by writers of a reputation of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth five times the price of the book. Bound in beautiful French cloth, gold stamp, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is a marvel of virtuous beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Freeman Crockett, of Cape Elizabeth, Me., has a shining bald head, and snores. A few nights ago he went to sleep by the side of the road, and snored more vigorously than common. Alphens Phinney saw the bald head and heard the snoring, and hastened to arouse from sleep Fred Rundlett, who lives near by, informing him that a white-faced bear was growling beside the road. Rundlett grabbed his shot-gun and with Phinney went to the spot; and the growling object making no answer to their hail, Rundlett blazed away, seriously injuring Crockett about the head with bird-shot. The wounded man stopped snoring, and howled.

KIDNEY-WORT

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their name or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisonous blood, and produce sick-headache, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, as they prevent and protect from attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or one box by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address DR. J. H. SCHENCK & SON, Philadelphia, Pa.

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $440,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $650.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are the most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, *not by fermentation* but by solution and are richest in the Phosphates, while the starchy and other matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must soon be compounded with the thousand and one cheap alcoholic bitters which are sold as specifics. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Daily Chronicle.

Miss Edith Fish, daughter of Hon. Hamilton Fish, was married on the 6th inst. in the church of St. Philip, in the highlands of the Hudson, to Hugh Oliver Northcote, son of Sir Stafford Northcote, who was for a long period the resident British minister at Washington. The ladies will be interested to know that the bride wore a dress of white satin, en traine, with high neck and long sleeves. The front of the skirt was elaborately trimmed with deep flounces of point lace to which were attached garlands of orange blossoms. The bottom of the dress was garlanded with wreaths of orange blossoms. The veil was of point lace, secured by a spray of orange blossoms and diamonds. She carried a bouquet of lillies of the valley.

A Madrid (Spain) despatch says the trial has commenced at Xeres of seventeen members of the Black Hand society, who are charged with murdering an associate who they suspected of betraying the secrets of the organization to the government.

Many horses have *wind-galls*. Nathaniel Morse, of Pembroke, Mass., says: "I have used Ellis's Spavin Cure on my horse for wind-galls, *with perfect success*."

A terrific hail and thunder storm visited Alton Bay on Wednesday afternoon, June 6th, lasting nearly one hour. The lightning struck and demolished several barns and trees.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

The republican state convention of Ohio nominated Judge J. B. Foraker for governor, Hon. John Sherman having positively declined. Wm. G. Rose of Cleveland was nominated for lieutenant governor.

"My horse walked on his toes for a year," writes W. J. Tuckerman, the well known horse man, "his trouble was a *contraction of the cords*. Ellis's Spavin Cure cured him."

The fiercest hail storm ever witnessed in the vicinity of Poultney, Vt., prevailed Monday afternoon, June 4th. Hailstones measuring half an inch in diameter covered the ground several inches in many places.

"Oh, my back!" is a common exclamation and expresses a world of misery and suffering. It is singular this pain arises from such various causes. Kidney disease, liver complaint, wasting affections, colds, rheumatism, dyspepsia, overwork and nervous debility are chief causes. When thus ailing seek prompt relief. It can be found best in Brown's Iron Bitters. It builds up from the foundation by making the blood rich and pure. Leading physicians and ministers use and recommend it. It has cured many, and if you are a sufferer try it.

At Montpelier, Vt., the "Anti-Secret Society convention" organized on Wednesday, June 6th; about seventy persons, including officers and speakers, were present, and the audience was composed largely of prominent members of secret societies. The constitution and by-laws give the name as the "Anti-Secret Society Association," and its aims to remove all such organizations from church and state. Anyone of good character can become a member, but backsliding or joining a secret society forfeits membership. The meeting was a grand fizzle.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

James Dolan, who was recently pardoned out by Gov. Butler from the Concord, Mass., prison, was arrested at Woonsocket, R. I., Wednesday morning, the 6th inst., for burglary, and subsequently arraigned in the justice court on four charges of breaking and entering, one charge for burglary and one for assault.

William M. Record, a well known citizen of Newport, R. I., dropped dead on the street at noon on the 5th inst.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

The schooner Charles P Sinnickson, from New York for Charleston, S. C., is supposed to have foundered off Cape Lookout, N. C., with the loss of all hands. The captain had his wife on board, and the crew consisted of seven men.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Just Married.

How loving they are; this is always a sure sign. After the first year sometimes it don't hold good. When Charles comes home to you grouty and cross, snapping and snarling, unable to relish the nice dinner you have cooked, and as if there was a ton of pig iron in his stomach, he is troubled with dyspepsia, and Sulphur Bitters is the only medicine that will cure him.

A silk factory is being erected in the vicinity of Mandeville, La. The building will stand in the middle of an old field, surrounded by thousands of growing mulberry trees.

A CONNECTICUT journal furnishes the following toothsome bit of literary diet. It may appear "fishy" at first glance, but it isn't: "A paper called *The Idiot* has appeared in Paris, France. No doubt it is intended for those "queer fish' that are in-Seine." Anybody in America could be properly called insane, or an idiot, if he declare Catarrh to be incurable. People must think so. The newspapers now contain data, names, facts and dates of cures of this loathsome malady. Everybody has come to know that Ely's Cream Balm cures Catarrh, and it is the only preparation that will do it. "Ely's Cream Balm has cured me of Catarrh of several years standing," writes Mr. Frank C. Ogden, of Elizabeth, N. J. The balm has no equal as a cure for this terrible disease." It is not a liquid or snuff, and is easily applied.

MEDICAL.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"It's a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

"Inventors cannot employ a more worthy or more capable of securing early and favorable consideration at the Office." EDMUND BURKE, Late Commissioner.

BOSTON, MASS.

R. H. EDDY, Esq.—*Dear Sir*—I have found you to be a faithful and efficient agent for me in 1846, my first patent, since which time I have acted for and advised my friends in many cases, and procured many patents and extensions. I have occasionally employed the best agencies in New York and Washington, but I still give your agency the preference of my business, in your line, and shall continue to employ you. Your truly, CHAS. MARSHALL.

The Missing Undershirt.

The morning was warm, and he imprudently made a change in his underclothing. Our climate is deceptive. Before evening there came up a chilly storm. An attack of sickness followed of course. But Perry Davis's Pain Killer was used for relief, with the happiest effect.* In these summer months of suddenly varying temprature, everybody ought to keep a bottle of this valuable remedy within reach.

In Milwaukee, June 6th, one wall of an elevator containing 115,000 bushels of wheat gave way, owing to the settling down of the foundations, and 2000 bushels of wheat slid into the river. Seven tramps were seen dozing beside the wall a few minutes before it fell, and it is supposed they were buried in the ruins.

Mr. H. W. Devere, Enfield, N. H., says: "I have derived splendid results from using Brown's Iron Bitters as a blood purifier."

In North Billerica, Mass., June 6th, Miss Isabella W. Talbot, daughter of Ex-Gov. Talbot of Massachusetts, was married to Frederic S. Clark of Boston.

ROCKINGHAM COUNTY.

The county commissioners expended for the year ending May 1st, 1883, $45,-724.02; the courts, the salaries of commissioners, etc., cost $13,138.27, making a total of $58,862.20.

The present debt is $41,500; amount paid last year, $500. None of the debt falls due until 1886, when $21,500 is payable, and $20,000 in 1891. It would seem as if a more judicious course would have been to have had the debt mature in sums of perhaps one or two thousand dollars per year. With $27,664.53 on hand it would seem as if a much smaller appropriation than that made last year (seventy thousand dollars) would answer. Our representatives must look to this.

The receipts for fines and costs show an insignificant sum, while the cost of state cases was $3540.17. It cost $4782.- to run the Portsmouth jail, the high- number of inmates at any one time ing been twenty-six, the lowest num- eight, and the average sixteen. This (including repairs of buildings, extensive) is nearly $300 for an ge prisoner. At Exeter jail, aver- twenty-two prisoners, the cost is or about $140 each. The sheriff, es and court messengers cost $3,- for fifty-two days' attendance, which time the jurors were paid The miscellaneous expenses cluding $355 for the commission- $186 for abatements, which not be placed in this account, 1.

day morning, the 6th the quarries at Rock- ly heard at New-

castle and other points at the mouth of the harbor.

That the roads leading out of the city are being put in fine condition for the summer travel.

That the first out-of-town excursion to arrive in this city this season will be that over the Concord & Portsmouth railroad on Thursday, the 14th.

That the excursionists will extend their pilgrimage by steamer to York beach: may the seas be propitious.

That the talking men of the Portsmouth delegation in the legislature this year are Messrs. Laighton, Sise and Urch.

That these gentlemen got in considerable preliminary work on the 6th inst.

That the legislature, after admitting Messrs. Gilman and True, who had been elected to fill the vacancies in the towns of Wakefield and Fremont, voted to inform the selectmen of ward two in this city that there was a vacancy in its delegation.

That there is a vacancy in the delegation *now*, at any rate.

That the boom across the mouth of the dock at Mason's mill broke on Wednesday night of this week, letting a large number of logs adrift.

That a large gang of men was engaged all day Thursday at "gathering them in."

That there is much brushing up and painting of houses at Kittery Point before the advent of the summer boarders.

That the Knibbs patent-valve law-suit in this city is attracting more attention than does the doings of the legislature.

That a heavily loaded farm team belonging to Charles Badger of Newington broke down on the Vaughan street railroad crossing on Thursday noon, causing a little delay to the Dover train.

That theatrical advance agents have already commenced marking out the warpath for the fall campaign, the Boston Theatre company having selected Sept. 21st as the date on which next to appear in this city.

AROUND HOME.

George T. Angell, Esq., of Boston, president of the Massachusetts society for the prevention of cruelty to animals, will visit our city as the guest of the N. H. S. P. C. A. this week. The distinguished philanthropist will hold an informal reception (this) Friday evening in the vestry of the Unitarian church on Court street, at eight o'clock. All persons interested in the history of one of the peculiar reforms of this age are invited to attend and hear a short address by the far-famed animals' friend. Mr. Angell devotes his time, talents and ample fortune to the cause he so successfully advocates.

The subscription paper for aiding to procure an organ for the Church of the Immaculate Conception will remain open until the 1st of October, by which time it is expected the full amount ($3000) required will be obtained, about $1700 having already been subscribed.

The Portsmouth cavalry went to Concord on the 7th inst. to take part in the inauguration ceremonies, the horses going by a freight train at five o'clock in the morning. The military display at Concord was a fine one, and Hon. Samuel Hale was duly sworn in as governor, and delivered his inaugural address.

The schooner M. E. Eldredge, formerly of this port but now owned in Boston, was on the 6th inst. reported ashore at Gay Head, Martha's Vineyard, with a cargo of coal on board, bound from Hoboken for Boston. She was built and for a time owned here, but was sold after being partly destroyed by fire in the harbor of Provincetown a number of years ago.

The internal revenue receipts in this district for May were $54,743.15, against $51,524.45 for the corresponding month last year.

The schooner Ceres, before reported as having got ashore at Robinson's hole while on the passage from Elizabethport to Boston with a cargo of coal, has been abandoned by the wreckers. This is the vessel which was sunk at Portsmouth bridge some years since.

A Washington despatch of the 6th inst. says: "Secretary Chandler is reported as having stated to-day that he expected a report very soon from the naval board upon the subject of the navy yards, and that the result would be the closing of some of the yards before the first of July. He would not say which ones would be closed, but it is generally understood that the yards at Washington, Norfolk and Mare island will not be disturbed."

It is now stated that the only life lost by the wrecking of the schooner Fannie A. Bailey at Hereford inlet, N. J., was that of the captain's son, all the crew being saved.

Rev. Henry T. Arnold, formerly of Wells, on Sunday, June 3d, began his pastorate over the Amicable Congregational church at Tiverton Four Corners, Rhode Island.

The postmaster general has issued an order that "Postmasters at first and second class offices will hereafter give their personal attention to the business of their offices, and not absent themselves therefrom without authority granted upon written application to the department. A violation of this order will be deemed sufficient cause for removal." However much this may be deemed a sufficient cause for removal, there is very little likelihood of its being enforced.

Jennie Miles, aged sixteen years, of New Haven, Conn., was attacked on the street one night lately by a burly negro. She stamped on his bare feet, pulled out his whiskers, and managed to throw him over a dyke and into the water. She fell with him, but managed to get free and run home. Thomas Condon is under arrest, charged with committing the assault.

Rumor has it that Gen. Sherman's youngest daughter, Rachel, is betrothed to Ex-Secretary Blaine's second son, Mr. Emmons Blaine.

The governor of Pennsylvania has signed the bill to escheat the property of telegraph companies which consolidate with competing lines.

MARRIED.

WINGATE—LOCKE. In this city, June 7th, at the Congregational church, by Rev. W. A. McGinley, James D. P. Wingate, Esq., editor and proprietor of the Exeter *Gazette*, and Miss Helen Woodbury Locke of this city.

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

TAUNTON, MASS., Aug. 12, 1878.

C. I. HOOD & CO.: Gentlemen— * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.

I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles of HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.

Yours truly,
HOMER B. NASH.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

UNITED STATES CIRCUIT COURT.

Lowell Judge.

THURSDAY, June 7th.

Norton et als. vs. City of Dover, continued.

The direct examination of Joseph L. Parry was resumed and continued until 11.30. He was cross examined by Mr. Wadleigh. Have testified in these steam fire engine cases twelve or fifteen years ago twice. Once in Troy in Dec. '74 and in Philadelphia in April last.

The examination related to the construction of the engine pump, &c., and abounded in technical recitals.

Mr. Parry's examination concluded at 4:40 P. M.

Albert W. Roberts, mechanical engineer; originally a machinist in Hartford, worked for Woodruff & Beach Iron Works Co.; in business from 1851, at Hartford, to 1857, when he gave up, and went to work for the Iron Works Co. again. In July, '61, put up an engine in Brooklyn, N. Y.; left W. & B. the last of July, and went to Manchester in this state as one of a committee to select a steam fire engine for the city of Hartford. A steam fire engine was operated in our presence on one of the parks. Witness drew a specification while at Manchester; this paper cannot now be found. It specified as to finish, and letting in water in such a way that the boiler could be fed with gates closed. An engine, the "Phenix," came to Hartford in November following. Witness again went to Manchester the last of September, and examined engine. He described the pump as similar to model No. 1. Witness explained the similarity of model No. 3 to the part of machine bought at Manchester and used at Hartford; he also explained the process of the water entering and leaving the pump. A relief valve was on the engine operated first Nov. 11, 1861, by Supt. Bean of the Amoskeag Co. Witness explained the working of the pump in the engine. Witness described the N. S. Bean pump, and the Amoskeag engine pump.

Cross examined. The arrangement is a valuable contrivance. [The question as to the value, and not taking a machine without, was objected to as improper in cross examination on part of plaintiff; objection sustained.] Had not heard of Knibbs then, and did not know these Manchester parties had been to Troy.

Henry J. Eaton, chief of Hartford fire department for fourteen years; saw the Phenix when it reached Hartford. [Mr. Eaton's evidence was objected to by plff. on the ground that his name was not inserted in the plea as one of the persons, and Hartford was not named as one of the places, as required by the law in this respect.] Have examined the pump of the Phenix engine. Described the pump valves in model as same on the Phenix, the barrel or outside being shaped differently.

Cross examined. Have not been informed that there were any claims against Hartford for an infringement. Valuable invention. Saw Mr. Bean at Hartford; never heard that he had been at Troy.

Alexander M. Rankin, engineer on several steamboats, and subsequently engineer of steam fire engines in Philadelphia. Saw engine "Hibernia" while being constructed; had before been a member of fire department; belonged to Northern Liberty Hose Co. Examined construction of Hibernia, and in December, 1859, the engine capsized and the pump bursted, and it had to be taken apart, and he had opportunity to see its construction. Witness testified as to the construction of other engines at that time. The Philadelphia engines were most of them made from Mr. Parry's design. Photographs of several Philadelphia machines were shown witness, and he pointed out to the court their peculiar construction as to pumps. After 1861 witness went into the navy, was wrecked and taken prisoner.

Direct examination not concluded at the adjournment to 9:30 A. M. Friday.

In the case of Lynch vs. Phenix Fire Ins. Co., and Hartford Fire Ins. Co., entered at this term, pleas in abatement were filed, on the ground that suits had been brought in Mass. against Lynch by some of his creditors, and this company had been trusteed in that State. The plaintiff Lynch demurred to these pleas, and a hearing was had on the demurrer. There was also a plea in abatement, alleging that Bartholomew Lynch had brought his action against Dennis J. Lynch, plaintiff in this case and against the insurance companies as trustees, and it was now pending in the State Court of Rockingham County.

The plff. contended that the pleas were insufficient in law for want of proper allegation as to amount of indebtedness, &c. The defendant claimed that they were in danger of paying two judgments, one in this case, and possibly another in Mass. They wanted only to be protected from paying a second judgment. The court while intimating that actions should be continued, but not abated, reserved its decision.

Frink & Batchelder for plaintiff. Page for defendants.

Royal D. Barnes, Esq., of Nashua, was on motion of Hon. W. L. Foster, admitted to practice as an attorney. Mr. Barnes is city solicitor of Nashua, and appears in the Knibbs patent cases.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, June 7th, Mayor Treat in the chair:

Present the full board.

The records of the last meeting were read and approved.

City Solicitor Hackett reported on several matters referred to him for opinion.

Monthly bills amounting to $3189.93 were ordered paid.

The proper price to pay for hens killed by dogs was discussed.

On motion of Ald. Hackett it was voted that when an officer shall act as substitute for an assistant marshal, watchman or police officer for more than three consecutive days, such substitute shall receive the pay of the person in whose place he acts, and the same rule as to witness fees shall apply to both.

Voted that hereafter police officers detailed for duty at the south cemetery go on duty on pleasant Sundays only, at 11:30 A. M., and quit at 7:30 P. M.; and that they be allowed $1.25 for such time.

A communication was read from the Portsmouth drum corps, asking the use of the Elm street ward room on evenings when the weather was unfit for outdoor practice. Referred to committee on city lands and buildings.

The ordinance regulating the crying of goods on the street, etc., was referred to the committee on bills on their second reading.

Adjourned for two weeks.

WEDDING.

The North church was well filled on Thursday last, the occasion being the marriage of Mr. James D. P. Wingate, editor and proprietor of the Exeter *Gazette*, and Miss Helen W. Locke of this city.

The bridal party entered the church at one o'clock, the bride, preceded by the bridesmaids, passing up one aisle, and the groom, preceded by the ushers, passing up the other, the bride and groom meeting at the altar, where the ceremony which made them husband and wife was performed by Rev. W. A. McGinley.

The bridesmaids were Miss Jennie Robinson of Franklin, and Miss Ida Nute, Miss Josie F. Walbridge and Miss Mabel Nickerson of Boston; the groomsmen were Mr. Charles E. L. Wingate of Exeter, Dr. G. E. Mitchell of Haverhill, Mass., Mr. John Caldwell of Newburyport, and Mr. Charles A. Hazlett of this city.

The bride was elegantly attired in white, with veil, and carried a bouquet of lilies of the valley. The bridesmaids were dressed in white, with trimmings of different colors, and wore white bonnets; each carried a bouquet of roses. The groomsmen were in afternoon full dress.

During the ceremony, music was rendered by Mr. Henry L. Harlow and Miss Lizzie M. Davis, on the violin and organ, Mendelssohn's wedding march being played as the party entered, and Priest's wedding march as they left the church.

After the ceremony there was a reception at the residence of the bride's mother, Harlow's orchestra supplying music, and Weber of Boston serving refreshments.

The newly-made husband and wife left on the 3:15 train for a short bridal tour, and on their return will take up their abode in Exeter.

TIRED OF LIFE.

The body of Ivory Goodwin was found on Thursday morning last hanging from the limb of a tree on the Hayes farm, at the Plains, he having evidently committed suicide during the previous night.

The deceased came to this city from Maine many years ago, and has since lived here, bringing up a family of three sons and two daughters. He was an industrious man, and for many years worked for the Portland, Saco & Portsmouth railroad, sawing wood, etc.; he also worked for years on the Hayes farm.

Last fall he, being unable from age to support himself, he was sent to the county farm at Brentwood, and remained there through the winter, his wife finding a home with a married son living in this city. A few days ago, when the county commissioners were at Brentwood he asked permission to leave the institution, saying he wished to come to Portsmouth to see his wife, and was told he could leave and stay in the city as long as he could find care without cost to the county; he accordingly left the farm on Friday, the 1st, and came home.

He was met on the street, Tuesday of this week, by Commissioner Johnston, and with tears pouring down his cheeks told the official that he had not yet seen his wife. Mr. Johnston advised him to return to the county farm, but he said he wished first to visit the Hayes farm, where he used to work; the commissioner gave him a trifling sum, and told him that after makin his visit he could go to the county farm when he chose, as he (the commissioner) would see the ticket master at the station and arrange for a passage.

The old man did go to the Hayes farm, and on Tuesday night slept in the dairy-barn; on the following evening he went to the same place, but some time during the night arose, and after apparently inspecting a rope and condemning it for his purpose, took a rein from a harness, went into the orchard, and ended his troubles and his life together.

Frye and Co.'s Express now makes three trips daily between this city and Boston, leaving this city at 7:15, 8:20 and 10:55 o'clock A. M., and Boston at 12:30, 3:15 and 4:40 P. M.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

Indian Agent Wilcox has telegraphed from San Carlos, Arizona territory, to the commissioner of Indian affairs, an account of the recept surrender to the military of Indians belonging to Laco's band. He says they were cut off from the main body of the band by Mexican troops. They heard that the country was full of soldiers and fled to San Carlos for refuge. He declined to receive them, and they are now being fed by the military. Agent Wilcox also says "the prisoners should be taken from the reservation and punished. They came here from necessity, and will breed discord and encourage the absentees to return that they may fatten and grow strong for another raid. To prevent the murder of whites in the future, and assure to the people that the reservation is not to be made a safe retreat for murderers, prompt action should be taken with all that have returned, including two bucks surrendered on May 2d, and provisions made for others who are almost sure to follow as soon as they are routed from mountains of Mexico."

While under the influence of liquor on the night of June 5th, Daniel Sawin and Lon Owens of Leominster, Mass., the latter of whom was formerly president of the reform club, called at the house of Gertrude Parmenter, who has the reputation of selling liquor. While they were there they got into an altercation with the woman. Two of her ribs were broken, and the front part of her head and the upper portion of her face smashed with a beer bottle said to have been wielded by the hand of Sawin.

KIDNEY-WORT

The Bad and Worthless

are never *imitated or counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or curses, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it would seem almost useless to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale today in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pill accustain no mercury, and yet they act with wonderful effect upon the liver. They evacuate the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are rife, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address **DR. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE 6 PER CENT GOLD BONDS OF THE TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $440,000 in bonds and $560,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $650,00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

"Oh, my back!" is a common exclamation and expresses a world of misery and suffering. It is singular this pain arises from such various causes. Kidney disease, liver complaint, wasting affections, colds, rheumatism, dyspepsia, overwork and nervous debility are chief causes. When thus ailing seek prompt relief. It can be found best in Brown's Iron Bitters. It builds up from the foundation by making the blood rich and pure. Leading physicians and ministers use and recommend it It has cured many, and if you are a sufferer try it.

Mayor O'Brien of St. Paul, Minn., was inaugurated on June 5th, and on the 6th notified all gamblers that they must close their establishments. The order was partly complied with. A war on places of ill repute will be commenced immediately.

,"He that prays harm for his neighbor, begs a curse upon himself." He that recommends Kidney-Wort to his sick neighbor brings a blessing rich and full both to his neighbor and himself. A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass

Pat Rooney tells in the New York papers a very curious story of how he was set upon by five men, how he whipped them all, how he made them run, also how they stole his watch, diamond pin and other jewelry of the value of $550. It looks very much like a case of tremendous delirium.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plasters is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use the reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York. feb21,was&gtsepl3

Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected medicinal herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humors, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syhkilitic Diseases, Canker, Faintness at the Stomach,** and all disease that arise from impure blood. **Sciatica, Inflammatory** and **Chronic Rheumatism, Neuralgia, Gout,** and **Spinal Complaints** can only be effectually cured through the blood.

For **Ulcers** and **Erupitve Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhoea,** arising from internal ulceration, and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness,** and **General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

Vegetine IS THE BEST SPRING MEDICINE.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.--Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again, Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

The Missing Undershirt.

The morning was warm, and he imprudently made a change in his underclothing. Our climate is deceptive. Before evening there came up a chilly storm. An attack of sickness followed of course. But Perry Davis's Pain Killer was used for relief, with the happiest effect. In these summer months of suddenly varying temprature, everybody ought to keep a bottle of this valuable remedy within reach.

The ground on which the Assumption college at Sandwich, Canada, stands has been in possession of the Catholic church 136 years, having been obtained from the Huron Indians in 1747.

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence its phenomenal popularity.

A Plain Speaking Judge.

An interview with Judge Scobfield of the Court of Claims by the reporter of a Washington paper, is thus described:

Reporter. "Have you seen Mr. Chandler's letter, Judge, where he speaks of the decision of the court in the cadet engineer case?"

Judge Schofield. "I've seen the letter that purports to have been written by him. I don't believe he wrote it."

Rep. "Oh! yes, he did. I saw the draft of it at the department."

Judge. "Pardon me. I do not believe Mr. Chandler wrote that letter. No lawyer would write such a letter, and Mr. Chandler is a lawyer. And then, no gentleman would write such a letter, and Mr. Chandler is —— (pause) the Secretary of the Navy."

AROUND HOME.

Sir Knights John R. Holbrook and Thomas E. Call of this city will attend the triennial conclave of the Grand Encampment of Knights Templar of the United States, at San Francisco, Cal., in August. They will be the only Templars from this vicinity to attend.

The schooner Charles L. Mitchell, which went ashore last winter on Fisher's island, at the entrance to Long Island sound, on the passage from this port to Baltimore, was floated off on the 7th inst. by wreckers, who started to tow her to Noank, Conn.; when off New London the vessel capsized, and it was considered doubtful if she could be saved after all.

One of the church societies made arrangements for a strawberry festival, the first of the season, to come off on Wednesday evening of this week, but at the last moment found that a sufficient quantity of berries could not be procured, and had to substitute ice cream and cake. This was the first strawberry festival held here at which no strawberries were served.

The U. S. S. Leyden, lying at the navy yard wharf, presented on Friday a somewhat odd appearance for a man-o'-war, having been given a coat of brilliant red lead.

The steamer Appledore came off the marine railway at Kittery on the afternoon of the 8th inst., and was towed to her wharf by the Clara Batemen.

Over seven hundred bushels of clams were brought to this city from York harbor last winter, from eighteen to twenty persons being at times engaged in digging them. With the advent of spring this industry ceased, except when clams were required for bait.

The barque John E. Chase has been chartered to carry lumber from Portland to Buenos Ayres, at $13.

The schooner Cocheco takes plaster from Portland to New York at $1.80, or if to Alexandria or Baltimore, at $1.70, per ton.

The Gloucester *Advertiser* says: "The transparency of the water at the south, the past few weeks, is unparallelled in the experience of veteran fishermen, and has interfered seriously with the success of the mackerel fleet. One skipper informs us that he fastened a towel to a fishing lead, and could plainly see it at a depth of nineteen fathoms; another that he could see the purse-weights of his seine at a depth of twenty fathoms; the bottoms of the seines were distinctly visible when pursed up, and in coming alsongside another vessel one could see under her keel. This condition of things enables the mackerel to see the operation of the seine, and makes them wild and unmanageable. The clear water is said to be moving this way, and the shore fishermen report that they can see the hooked fish start from the bottom in seven fathoms of water in the vicinity of Killicks ledge."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codtjan9,84

The findings of the boards which examined Commander Thomas H. Eastman for promotion to a captaincy have been disapproved by President Arthur. Comdr. Eastman was found to be physically and professionally qualified for promotion, but for other reasons the promotion was not approved of. Had these findings been approved by the president, the result would have been the officer's dismissal from the service. Better as it is; officers who are thoroughly capable—real seamen—are not any too plentiful in the service; there are plenty of ornaments that could far better be spared.

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

BRACKNAM, MASS., Aug. 12, 1878.

C. I. HOOD & CO.: Gentlemen— * * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.

I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few cook books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lost to do some others some good, and we must have it in the house.

Yours truly,
HOMER B. NASH.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

UNITED STATES CIRCUIT COURT.

Lowell Judge.

FRIDAY June 8th.

Norton et als. vs. City of Dover, continued.

The direct examination of Mr. Alexander M. Rankin was resumed. The process of working engines at fires in Philadelphia was explained. On cross-examination the witness told what he had done as to obtaining witnesses for the defendants in this case.

The deposition of Jacob D. Neafee, a builder of steam fire engines, was read. The evidence related to valves, &c. on steam fire engines. The reading of this deposition occupied the time until 12 o'clock.

James B. Skerrett of Philadelphia, machinist, was next called, and described the construction of engines. The depositions of this and other witnesses for the defendant was read,—Mr. Neafee's taken in Philadelphia during the latter part of April and the first of May. Witness has been engineer of the Philadelphia Hose Co.'s steam fire engine from March 2, 1858, and the relief valve and its action was illustrated by experiments upon the model.

Mr. Skerrett was cross examined by Mr. Caverly as to statement in his deposition recently taken and the witness stated that his answer which said "April or May" was erroneous. Was not told in Philadelphia all it was necessary to prove by me; was asked to testify as to the machine. Have no memorandum of the operation of engines in 1858-9. My testimony is based on my memory since 1869. My first attention was called only at time I gave my deposition in April. Witness ran the steamer Philadelphia as engineer in 1858. The relief valve was used on this steam fire engine. The use was explained from action of a model.

Mr. Parry was recalled by defendant and identified drawings of pump of engine, (working drawings for patterns in making models). Cross-examined by Mr. Wadleigh as to reason for putting in an additional valve in the model, instead of making model on plan of the old engine.

Deposition of Richard M. Warren, taken in Philadelphia. Is a machinist and engineer, working since July 1, 1849. Played the Decatur engine, built in 1859, whose construction I understood. The engine had a relief valve, opening which would pass the water back into the relief chamber.

Wm. T. Scanlan, Philadelphia, machinist since 1847; stated where he had worked while Independence Hose S. F. Engine at Philadelphia was built in 1859, and identified photograph exhibit "K" of said engine. Witness described the construction of relief valve of this engine.

Cross examined by Mr. Wadleigh. Apprentice five years; worked seven years after, and went to South America in 1852 or '53. Detailed his various places of employment. Attention first called to this testimony by some of the preceding witnesses. I did not know that I was to come here as a witness. Did not know which side wanted me as a witness. I gave my deposition in Philadelphia.

Direct examination resumed. Left in 1859, and was in employ of Franklin Iron Works, including the two years at South America; sent out by same employers.

William P. Kennedy, Philadelphia. Policeman; formerly engineer; served time as blacksmith. Engineer of Delaware Fire Co., organized 1761. Engine built by Reaney & Neaffie in 1859. Shew relief valve No. 2 in model, used to relieve pressure on hose. Photograph of "Delaware," taken in 1865, shown witness. It represents the engine as it was at that time. Was also on the "Vigilant." Identified photograph of this engine. Change was made in Vigilant while I was engineer.

Court adjourned to Monday at eleven o'clock A. M.

THE FIREMEN'S MUSTER.

Over two hundred letters had been received up to Thursday evening last from fire companies asking in relation to arrangements for the Firemen's Muster. One company of New London, Conn., muster. Sent Thursday evening for 60, Conn., modations for one hundred, hotel accommodations; another company hundred men, with proposes to show company, of New Jersey, York band. Forty men, and a New of obtaining. The committee are desirous have varying the names of citizens who pen pleasant barns, etc., where they will engines and hose carriages to be stored, as everything of that kind will have to be utilized; that the hospitality of our citizens will be liberally extended in this direction there is no question.

A letter was received by the committee this week from the managers of the New England fair, regarding a change in the time set for the muster. The fair is to be held at Manchester Sept. 4th, 5th, 6th and 7th, and if the muster should be held at the same time they would of course interfere with each other; hence the fair managers request that the time of holding the muster be changed to Aug. 27th, 28th and 29th, which will probably be done Monday evening.

GOSSIPS SAY

That five young men of this city went on a lobstering expedition to Sagamore bridge on Wednesday evening of this week, equipped with a wheelbarrow, a lot of nets and an iron kettle.

That they toiled all night and caught four lobsters, and boiled and devoured the entire catch.

That the editorial fraternity of Portsmouth were numerously represented at the wedding of Bro. Wingate, of the Exeter *Gazette*, and Miss Helen Woodbury Locke.

That so many Portsmouth newspaper men had not been seen in church at one time before for many days.

That the restaurant which for some time has been fitting up in the Aquarium building at the first Newcastle bridge opens for custom to-day.

That this will be a delightful and cool retreat during the hot summer months.

That two alligators from Florida for Urch's aquarium will shortly arrive in this city.

That parties from this city who were in Concord on inauguration day say the military display was not up to the occasions when Portsmouth sent four crack companies to the inaugural.

That the north millbridge should have a new foundation to its railing, in addition to the extensive repairs which have been made to the bridge proper.

There will be a meeting of the Reunion Regatta Committee at the Common Council room this (Saturday) evening at 8:30 o'clock. Members of that committee are earnestly requested to be present.

On next Tuesday evening a strawberry festival will be given in Temperance (formerly Grange) hall, under the auspices of Strawberry Bank Lodge of Good Templars, which will be one of the best given here this season. See advertisement.

The steamer Clara Batemen on Friday towed to the Shoals the Appledore house landing-stage and brow.

An alarm of fire was sounded about four o'clock last Friday afternoon, caused by a slight blaze in a building occupied by Mr. John Hehir, situated on Cabot street, near the railroad. The alarm was much bigger than the fire, which was quickly extinguished with small damage.

It is announced that Miss Mollie Mack, late of this city, daughter of Gunner Mack, U. S. N., has been engaged as soprano, and Mr. E. Scott Owen, also of Portsmouth, as basso, in the quartette of the First Free Baptist church, corner of Shawmut Avenue and Rutland street, Boston, of which Mrs. Martha Dana Shepard is the organist, and Rev. C. S. Perkins pastor.

The brick schooner Triton, Freeman master, sailed from this port for Boston on the 5th inst., and beat up the Piscataqua on the 8th for another load, having been to Boston and discharged her cargo in the meantime.

We are glad to note the increasing business of Frye & Co.'s express. Their patrons appreciate their prompt mode of doing business, the courtesy of their employees,—a very notable requisite,—and their accommodating spirit. Their office is conveniently located on Congress street, near Market square.

The schooner M. E. Eldredge, before reported ashore at Gay Head, Martha's Vineyard, was towed off by the tug Storm King, and taken to Boston.

The schooner yacht Wm. H. Russell, Capt. Drown, bent her sails last Friday, and is now all ready to take out parties for a day, a week or a month, to Mt. Desert or Cape Ann, or anywhere else within two or three hundred miles. Capt. Drown has also rigged out the sloop Typhosa, a good-sailing boat just the thing for small parties.

Before the Court of Commissioners of Alabama Claims on Thursday, cases of T. Salter[illegible] Tredick, executor of Jona. M. [illegible]ick, Barak Maxwell of Wells, Me., Capt. Richard C. Bartlett and Hannah L. Bartlett, and Joseph W. Peirce and others, executors of Joshua W. Peirce, deceased, were argued and submitted. Frank W. Hackett, Esq., of this city, was of counsel in the above cases.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

Skin Diseases

Fifteen years of Suffering.—Body covered with Humor.—Had Twelve Doctors.—Paid out $500.—No Cure.—No Hope.

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide of potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Helpless for Eight Years.—Unable to Walk for One Year.—Got about on Hands and Knees.—A Wonderful Cure.

I have had a most wonderful cure of Salt Rheum. For seventeen years I suffered with Salt Rheum; I had it on my head, face, neck, arms, and legs. I was not able to walk, only on my hands and knees, for one year. I have not been able to help myself for eight years. I tried hundreds of remedies; not one had the least effect. The doctors said my case was incurable. So my parents tried everything that came along. I saw your advertisement, and concluded to try CUTICURA REMEDIES. The CUTICURA brought the humor to the surface of my skin. It would drop off as it came out, until now I am entirely well. All I can say is, I thank you most heartily for my cure. Any person who thinks this letter a fraud, let them write or come and see me, and find out for themselves. WILL McDONALD,
2542 Dearborn St., Chicago, Ill.

The Cuticura treatment, for the cure of Skin, Scalp and Blood Diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Loans on Improved Farms negotiated and guaranteed by the
NORTH DAKOTA LOAN & TRUST CO.,
JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.
TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.
On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt those assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

250th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample 4ts cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the best medical work on Physiology ever published. The startling wholesome truths in this book should be read by every young man.—"London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, whatever, to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

There was a lively time in Barnum's circus at Chicago on the 7th inst., caused by one of the elephants attached to a chariot becoming frightened and dashing around the ring, smashing things, stampeding horses, and setting the rest of the elephants and caged animals wild. For a short time a terrible panic seemed inevitable, but the band kept playing, and the animals were finally secured. No person was seriously injured.

The 38th annual session of the New England Christian convention was held at Franklin this week, the four days' session closing on Thursday evening. Rev. Charles A. KIDNEY-WORT

The Bad and Worthless

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for Schenck's Medicines in foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are rading, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all Druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address Dr. J. H. SCHENCK & SON, Philadelphia, Pa.

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $840,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $650.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clear and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time if you are wise and use the great blood purifier, SULPHUR BITTERS. Why suffer with Boils? Why are you troubled with Rheumatism? Why are you so often the victim of pain, with inflammation? What makes you so irritable? Why are your nerves so unstrung? Why are you so nervous? Your nerves are all in disorder, and nothing will do you good but a nerve tonic. Your stomach is out of order, and nothing will assist nature to repair the damage which has been done to your system like Sulphur Bitters. It is just the thing you need to regulate your sluggish liver, and to purify your blood. Sulphur Bitters is just cheap enough to place it within the reach of all classes, the cheapest preparation which contains the elements of health-giving properties which Sulphur Bitters is composed of the choicest Roots, Barks and Herbs, combined with Iron, the Iron Tonic, in such proportions as to make it NATURE'S GREAT RESTORER.

Lost, Stolen or Strayed.

The report is given out that the bill making appropriations of $20,000 for salaries and $70,000 for expenses at the state almshouse at Tewksbury, Massachusetts, one of the measures that Gov. Butler declined to sign, has been stolen from the executive chamber. Under the circumstances it is thought a new bill must be passed, but the introduction of it will require a four-fifths vote to suspend the rule relating to the introduction of new business, and as the Butler men in the legislature number considerably more than one-fifth, the loss of the bill is a decided victory for his excellency. It is fortunate that Gov. Butler is above suspicion of trickery; a known-to-be unscrupulous politician, in his place, would have been suspected of himself stealing the bill.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

The whistling buoy was removed from the southw est ledge between Block island and Montauk point to the north end of the island, about two weeks ago, with, it is alleged, only one day's notice. Three schooners have since gone ashore there, owing to the absence of this buoy from the spot where they expected to find it.

A CONNECTICUT journal furnishes the following toothsome bit of literary diet. It may appear "fishy" at first glance, but it isn't: "A paper called *The Idiot* has appeared in Paris, France. No doubt it is intended for those "queer fish" that are in-Seine." Anybody in America could be properly called insane, or an idiot, if he declare Catarrh to be incurable. People used to think so. The newspapers now contain data, names, facts and dates of cures of this loathsome malady. Everybody has come to know that Ely's Cream Balm cures Catarrh, and it is the only preparation that will do it. "Ely's Cream Balm has cured me of Catarrh of several years standing," writes Mr. Frank C. Ogden, of Elizabeth, N. J. The balm has no equal as a cure for this terrible disease." It is not a liquid or snuff, and is easily applied.

The schooner Charles P. Sinnickson, reported foundered off Cape Lookout, N. C., has arrived at Charlestown, S. C., all right.

Frank P. Wright, forty-seven years old, of Bristol, Conn., shot himself in a public square at Springfield, Mass., June 8th, while insane. He leaves a widow.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

—The mashed poet declared there was nothing softer than a woman's heart. He knew nothing of the head of the dude who got away with the heart.

—A railroad contractor, unable to keep the run of the names of his Italian laborers, paints a number on the seat of each one's pantaloons, and counts them every morning at dress parade to see if they are all there. This is a new type of Italian count in this country, as giddy young women may, perhaps, like to know.

What will cure the worst case of dyspepsia? What will insure a hearty appetite and increased digestion? What will cure general debility and give a new lease of life? What will dispel nervous depression and low spirits? What will restore exhausted mothers to full strength? What will strengthen nerves and muscles? What will enrich the blood? What will enable you to overcome weakness, wakefulness and lack of energy? What will prevent chills and fever and other effect of malarial poison? Brown's Iron Bitters. It is well to know this.

—How friendships are kept warm: Mrs. Jones—"Oh, I've left out the Brownes! Must we invite them?" Jones—"Hang it all, it's a beastly bore, but I suppose we must!" Mrs. Brown—"An invitation from the Joneses, love! Must we accept?" Brown—"Confound it! It's a ghastly nuisance—but I suppose we must!"

A skater in making his whirls,

—"Did the lady take umbrage?" said the proprietor of a store to his clerk, who had just had a wordy dispute with a customer. "Oh, no. She took ten yards Turkey red calico, and wanted buttons to match."

MEDICAL.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicine. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

After they went Fishing.

They didn't catch many fish, although they had a great deal of fun and got themselves wet all over when the log they had been sitting on rolled over and dropped them into the water. The biggest catch of the day was the severe cold they caught from not being properly dried when they came out. A summer cold is quite as dangerous as one in winter, but Perry Davis's Pain Killer is the sovereign remedy in case of either.

Wm. E. Chandler stated at Concord on Friday that under no circumstances should he be a candidate for United States senator at this session of the legislature. He is opposed to electing more than one senator at this time, and has no statement to make as to how he will feel about being a candidate in 1885.

Four houses in Fisherville were burglarized last Thursday night, the theives getting about $100.

The Dover city councils have appropriated $300 for the observance of the 4th of July.

Rev. D. F. Manly, Tampico, Tenn., says: "Brown' Iron Bitters relieved me of indigestion and nervousness after several physicians had failed."

On Saturday the remains of John Howard Payne were given a final resting place in Oak Hill cemetery at Washington. There was an imposing escort. The obsequies took place at Oak Hill cemetery, the services consisting of a poem by Mr. Robert S. Chilson, an oration by Mr. Leigh Robinson, religious ministrations by Bishop Pinkney, and vocal and instrumental music. One of the principal features was the singing of the last stanza of "Home, Sweet Home," by those present.

The training ship Jamestown sailed from Newport, R. I., June 8th, for a ten day's cruise.

Lieut. Wm. F. Low is detached from the training ship New Hampshire, and granted leave of absence for one year.

Lieut. Comdr. Thomas M. Gardner is detached from command of the storeship onward, at Callao, Peru, and ordered to return home.

Lieut. Comdr. Francis W. Dickens is ordered to command the Onward.

Lieut. Comdr. Eugene B. Thomas is detached from the Tennessee, and placed on waiting orders.

"Ten Great Religions, Part 2; a comparison of all religions," by James Freeman Clarke. Boston: Houghton, Mifflin & Co.; pp. 413. Portsmouth, sold by M. Goodrich; price $3.00.

The first part of "Ten Great Religions" by this author was published in 1871. The present work is based upon twelve lectures given in the Lowell Institute in Boston in the winter 1881-2. The author here essays to show what each religion teaches as the different points of human belief. Dr. Clarke, by his long study and his broad views, is well fitted to write upon this subject, and his book will be read by persons of varying religious views, because he here presents the result of his researches for many years of diligent labor. To become familiar with the many views now entertained upon the subject of religion one needs to read a book of this kind. The author adds a list of some of the principal books upon the subjects treated in his volume, which have been published since the index of authors was prepared for the first part of the work. There is added an index of subjects treated in the book.

Messrs. Palliser, Palliser & Co., of Bridgeport, Ct., the well known architects, and publishers of standard works on architecture, have lately issued a sheet containing plans and specifications of a tasteful modern eight-room cottage with tower, and also with the necessary modifications for building it without the tower, and with but six rooms if desired. In its most costly form, the outlay is estimated at $3,000; without the tower it has been built for $2,500; and if only six rooms are included, the cost may be reduced to $1,700 or $2,000. Details are given of mantels, stairs, doors and casings, cornices, etc. The publishers have found it the most popular plan they have ever issued, and state that it has been adopted in more than five hundred instances within their knowledge. The same firm issue specifications in blank adapted for frame or brick buildings of any cost; also forms of building contract, and several books on modern, inexpensive, artistic cottage plans which are of great practical value and convenience to every one interested; so that building a cottage by the sea, for example, is by far a less formidable undertaking than in times past.

News and Notes.

The southern mackerel fishery has closed. A few of the fleet made good stakes, others met with moderate success, and many failed to take any fish of consequence. The fleet numbered about 209 vessels, of which ninety-eight were from Gloucester, thirty-eight from Portland, twenty-nine from other Maine ports, one from Nova Scotia, and forty-three from Boston, Swampscott, Newburyport and Cape Cod fishing ports.

The other day a friend called upon Mr. T. B. Aldrich at his office in Boston, which overlooks the old Granary burying-ground, and made a casual remark on the pleasant surroundings. "Yes," said Mr. Aldrich, glancing out of the window at the moss-covered tombstones in the graveyard, "I have excellent neighbors; they never send in any manuscript."

Frederick Burns, a convict undergoing a year's imprisonment, died in the Nevada prison. Some of his fellow-prisoners acted as pall-bearers, and the guards walked alongside with loaded rifles, escorting the pall-bearers. It was a strange sight, says the Carson *Appeal*, to see the convicts standing over the coffin of their late comrade, while they themselves were under surveillance.

Herr Von Bolgar, an editor, and Herr Von Schlayer, a lieutenant-colonel of the army, fought a duel in Vienna. The lieutenant-colonel had the first shot, and missed his aim. Then his antagonist fired, and shot Herr Von Schlayer through the brain. He immediately fell, and expired half an hour afterward. This is another warning to people not to fool around an editor.

Howard Blackmore, of the fishing schooner Grace L. Fears, has arrived home in Gloucester. He reports a terrible experience with his dory mate, Thomas Welch. They lost the vessel on bank Bugeo, off Newfoundland, Thursday, Jan. 25th, and Blackmore was exposed to the bitter cold and heavy seas for four days and nights. Welch died on the second night. Blackmore, alone in his perilous position, rowed without food or water until Sunday night, when he got ashore at a solitary house where he could find no inhabitants. His hands were frozen stiff, and the flesh had peeled off from the friction of the oars. He rowed another day, and returned to the same house, when he was fortunate enough to be seen, and the poor fishermen of the place rendered him all possible aid they could. His fingers subsequently rotted off, and his feet are badly injured.

John Long, who lost an arm and a leg in the machinery of the Pacific mills at Lawrence, Mass., has sued the company for $50,000.

The Latter Day Saints have a society in Fall River, Mass.; it is quite strong in numbers, and has established a mission in Little Campton.

In the suit brought by Attorney General Cleaves of Maine in 1880 to recover the state taxes assessed against the Portland, Saco & Portsmouth railroad company, judgment has been given in favor of the state, and the entire tax and interest, amounting to $14,000, has been collected.

The Kennebunk & Kennebunkport railroad, which runs from Kennebunk station on the Boston & Maine road to Kennebunkport village, will be opened to public travel June 18th, and thereafter close connection will be made with all through trains on the Boston & Maine road.

The Maine Central railroad employs two deaf and dumb freight brakemen, Thomas Starrett and Joseph Rouceaux. Starrett reads and writes, but Rouceaux does not, yet both are careful and efficient employes. Rouceaux is brakeman on a construction train, having proved his fitness while a common laborer.

Bright and Beautiful.

The *Jeffersonian*, of Cambridge, Ohio, gives the following touching incident: "Johnny, a bright, beautiful boy of one of our citizens, came to see us yesterday. We had seen him once before writhing in agony, the handsome features all pain-stricken and distorted by the cruel misery of rheumatic pains, and we thought that death had marked him for its own. Every remedy had failed when we recommended the wonderful pain-cure, St. Jacobs Oil. He was marvelously cured by a few applications. We never saw a happier face than the mother's when the child first slept in comfort."

—"If I thought I was going to become gray, I know I should die!" exclaimed Miss Springle. And when she turned gray, she did dye, sure enough.

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

FAYNHAM, MASS., Aug. 12, 1878.
C. I. HOOD & CO.: Gentlemen— * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.
I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.
MESSRS. C. I. HOOD & CO.: Gents—Please send me by express six bottles Hood's Sarsaparilla and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.
Yours truly,
HOMER B. NASH.

MEDICAL.

THE Admiration OF THE WORLD.
Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE 4th OF JULY.

A meeting of the reunion committee was held Friday evening. The committee on finance, music, fireworks and programme reported, and their reports were accepted. Letters from different persons were read, and a general discussion of the celebration made, and it was voted to proceed at once to make arrangements for the celebration. It was voted to send out invitations in the name of the citizens, rather than in the name of the city. It was the sentiment of the meeting that the celebration should be gotten up for the amusement of those who will subscribe money, and such of the sons and daughters as see fit to return home, and the people of the surrounding towns. The following is the programme which it is proposed to carry out:

REPORT OF THE COMMITTEE ON PROGRAMME.

A meeting of the Committee appointed to arrange a programme for the celebration of the coming Fourth of July and the Reunion of the Sons and Daughters of Portsmouth, was held at the office of the Chairman on Thursday evening. After considerable discussion it was decided to recommend a programme substantially as follows, subject to any changes that shall be deemed desirable.

In the morning the customary ringing of bells, salutes, etc., and a parade of Antiques and Horribles, with prizes for the best hits, avoiding personalities, and for the worst looking teams, individuals, etc. At nine o'clock a procession will be formed, for participation in which they suggest that invitations be extended to the Officers of the Navy Yard, the Marines, Grand Army, Firemen, Cavalry, Masons, Odd Fellows, Knights of Pythias and other secret societies, to the Rockingham Bicycle Club, the survivors of the Independent Battalion, the Continentals and any others that may be thought of, also that the children of the public schools be invited to make a floral display, and that an industrial procession be arranged. After forming, the procession will proceed to receive the visitors either at Frenchman's lane or at the depot as may be necessary, and afterward will move over a short route that will be laid out hereafter.

In the afternoon a regatta, with rowing and sailing races, a marine bicycle race if practicable, tub race, etc., etc.; also, various athletic exercises or sports on the parade, including road bicycle races if a suitable track can be found or prepared. Band Concert on the parade in the early evening, and a promenade concert and reception in Franklin Hall, with brief literary exercises if desirable, and closing with dancing, and later with a grand display of fireworks. These will constitute a programme amply sufficient for the occasion and the committee have no doubt of the entire practicability of carrying it out in good shape for the amount of money that will be forthcoming.

Messrs. J. Albert Walker, Dr. Thacher, Alfred Stavers, Frank Jones, William H. Sise and Andrew P. Preston were appointed a committee on reception, with power to fill vacancies, and Mr. J. Frank Magraw corresponding secretary. On account of other business Mr. Magraw resigned his position, and Mr. Frank J. Philbrick was appointed to serve in his place.

The meeting adjourned to Monday evening, June 11th.

POLICE COURT--BATCHELDER, J.

SATURDAY, June 9th.

William Quinn, 2d, was fined $3 for an assault, with $8.04 costs; paid.

James Morrissey and Joseph Lees, for drunkenness, were each assessed $9.90, fine and costs. Brentwood for two.

BURGLARY.

A robbery was reported to the police on Sunday morning as having occurred at the residence of Mrs. Hannah Seavey, on Vaughan street, between the hours of one and six that morning. A ladder was placed to a second-story window of the house, the blinds forced open and Mrs. Seavey's chamber entered, by some person who carried off Mrs. Seavey's wrapper, in the pocket of which was a pocket-book containing about $150; the ladder was left standing at the window, and the wrapper was found in the yard, minus the pocket-book. Carpenters were at work shingling the roof of the house last week, and the ladder may have belonged to them.

At a late hour Saturday evening the police were notified that there had been a fight on Miller avenue, and on going there found George Laskey with three bad cuts on his neck and one shoulder; he was taken home, and a physician called. As near as the police could make out, the wounds were inflicted by one Charles Gilbert, who has been Laskey's bosom friend, the pair having been engaged several weeks ago in a bulldozing raid on a newly-established liquor shop at the corner of Water and Charles streets, for which—or some other misdemeanor—Gilbert has been for some time "wanted" by the officers. The row between the pair on Saturday night is supposed to have been about a woman.

The Epping *Leader* of last week remarks that "the Epping fire department feel a little down in the mouth over the fact of their not receiving any invitation to participate in the muster at Portsmouth." We beg leave to assure the *Leader* that the Epping fire department, even though it may consist only of a half-dozen fire buckets and a man with a garden pump, will be welcome at the muster.

Mayor Lothrop of Dover has received a letter from the mayor of Newburyport, in which the latter expresses himself in favor of Newburyport entering the pool of New England cities against Marcus P. Norton's patent-valve claims. The matter had previously been referred to the mayor, with power, by the city councils of Newburyport.

Mr. John B. Gilson, of the Harvard Divinity school, will preach for the South Parish next Sunday.

Don't forget to go to Temperance (formerly Grange) hall to-morrow evening, and see the wonderful "Automatic Warblers;" also at the same place will be given the first strawberry festival of the season. See adv't.

The New Hampshire club will not go to York per steamer City of Portsmouth on the 13th inst., as so many of the members have business and other engagements at Concord on that day.

The U. S. S. Tallapoosa arrived at New York on Friday last, on the way from Washington to this navy yard, via intermediate naval stations.

The Dover city councils have taken measures looking to the abatement of that efficient and popular boy-exterminator, the toy pistol. At the meeting of the councils last week a joint resolution was passed requiring of the city solicitor an opinion as to the power of the councils to prohibit the sale of the murderous toys, the opinion to be rendered in season to allow of action by the councils before the end of this month. There have not been a great many deaths in this immediate vicinity, so far as we are aware, from the toy pistol—one in York, one in Dover and one in this city, being all that we remember as having occurred in the past two years; yet even this small number of deaths, considered in connection with the large number of serious wounds inflicted, would seem to justify the prohibition of the sale of the toy.

At the session of the American Medical association in Cleveland, Ohio, last week, Medical Director A. L. Gihon, U. S. N., formerly stationed at this navy yard, was appointed a member of a "committee on surgical service aboard ocean vessels."

FREIGHTS.

Among the freight engagements reported last week were two schooners from Hoboken for this port, coal at $1.15 per ton.

Ice freight from the Kennebec to Philadelphia, sixty cents per ton.

GOSSIPS SAY

That the steam fire engine Kearsarge, of Concord, will compete for the prizes at the firemen's muster in this city next August.

That the grass plat at the Eastern railroad station in this city has been hired by Hon. Frank Jones, for the sale of the Wentworth house coaches.

That the horse chestnut tree in the plat is being enclosed by a granite curbing.

That a gentleman of this city is partial to bathing in the vicinity of Pier wharf.

That the financial committee on the Return of the Sons had a meeting last Friday evening, when excellent progress in the collection of funds was reported.

That the reunion is now assured, and promises to be more of a reunion if less of a "splurge" than was the one of ten years ago.

That two bicycle riders went from this city to the Farragut house in Rye, Saturday afternoon, in forty-five minutes, and made the return trip in forty.

That their attention was drawn to a Queen Anne cottage near the Sea View house, on their return, so that they did not notice a team in the road ahead of them, the driver of which had stopped to also take a look at the cottage.

That when one of the bicycles hit the hind part of the carriage the rider went head foremost over the big wheel, and had not the top of the buggy been in the way would have landed on the horse's back.

That no harm was done, though the acrobatic wheelman and the occupants of the carriage were mutually astonished.

That one day last week the man who has charge of the gates at the south pond found one dead hen, two dead dogs and three dead cats lodged near the gates.

That people who take such a method of getting rid of dead animals have little ground to complain if the ponds do at times smell rather high.

The selectmen of Newcastle having sent bills to the city government of Portsmouth, for three years' taxes on Pest island, claimed to be due that town, Ex-Mayor Sise last week while in Concord looked up the matter, and found that on the maps at the capitol the boundary line is marked as running between Pest island and Newcastle, the same as it is on the map in the city rooms, showing that the island is not only owned by this city but is wholly within its limits, and of course beyond taxation by any other town.

Mr. John G. Gaines, a native of this city but a resident of New Orleans, La., for fifty years, died June 5th, aged seventy-seven years. He was at one time president of the St. Charles Hotel company, of the Citizens' bank and of the Jackson railroad, and at the time of his death was president of the southern division of the Illinois Central railroad. He was the founder of the New Orleans clearing house.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the best existing work on Physiology ever published. The startling what ever that the unfortunate either require or wish to know but which is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE!

IS YOUR **HEART** SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheesebrough, startingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. His known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

Mrs. Lucy, who has reached the remarkable age of 104 years, left her home in Houlton, Me., May 20th, to live with her daughter in Oshkosh, Wis. She was accompanied by no personal friend, although she found a friend in every conductor on the route, who kindly assisted her in making the required changes of cars. A postal, dated May 24th, announced her safe arrival at Oshkosh.

"Get up like a man, and take care of yourself." Get a bottle of Wheat Bitters, it will make a new man of you, no matter what your trouble may be. No such remedy was ever before offered to the public. $1.

News has been received in London that Gen. Hicks has just gained a great victory in the Soudan over 5,000 Arabs, killing 500 of them. The Arabs fight as bravely as the sacred knights, but their spears are useless against shell and cannon. Gen. Hicks' loss was two killed.

Just Married.

How loving they are; this is always a sure sign. After the first year sometimes it don't hold good. When Charles comes home to you grouty and cross, snapping and snarling, unable to relish the nice dinner you have cooked, and as if there was a ton of pig iron in his stomach, he is troubled with dyspepsia, and Sulphur Bitters is the only medicine that will cure him.

Mrs. Davis, the ex-senator's bride, was voted "the most popular lady in Bloomington," at a baby show in that place the other day.

Mrs. John Dennison, Durham, N. H., says: "Have used Brown's Iron Bitters and like them very much as a tonic."

Cassius M. Clay, of Kentucky, is the same fiery Cassius as of old. Some one having stolen his sheep, he offers a reward of $100 "for the discovery of the thief—dead or alive."

"My horse walked on his toes for a year," writes W. J. Tuckerman, the well known horse man, "his trouble was a *contraction of the cords.* Ellis's Spavin Cure cured him."

The coronor's jury on the Brooklyn bridge disaster returned a verdict finding the officers and trustees responsible in not having the bridge properly policed. It is recommended that the accommodations for foot passengers be improved.

GENTLEMEN—Your Hop Bitters have been of great value to me. I was laid up with typhoid fever for over two months and could get no relief until I tried Hop Bitters. To those suffering with debility or any one in feeble health, I cordially recommend them.

are never *imitated* or *counterfeited.* This is especially proof of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, as they purify the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address **Dr. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the south and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $650.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

Letter to Senator Blair.

PORTSMOUTH, June 11th, 1883.

Hon. H. W. Blair—Dear Sir: The time having expired, I would have returned the Geologic Survey report on the 7th of last month, but I was in hopes to have seen you in Portsmouth before then, and to personally assure myself of its safe return, or of my having a right to the ownership thereof as you half promised; but I was the more desirous of seeing you, having a globe model the merits of which I would like that you would investigate; they are at No. 5 Ladd street, up stairs, and I think you will feel paid for the trouble of looking at them; they have been considered very valuable discoveries by the best of navigators, and you being on the Senate Com. on Education and Labor will the more readily accord a citizen of New Hampshire the right to request a few minutes of your valuable time, if you will make it convenient to stop until the next train on your passage from Manchester to Washington or vice versa, or should you per chance visit Portsmouth and will favor me with a call for the above-mentioned purpose you will confer a great favor on your obedient servant,

LIEUT. NATHANIEL J. COFFIN.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

After they went Fishing.

They didn't catch many fish, although they had a great deal of fun and got themselves wet all over when the log they had been sitting on rolled over and dropped them into the water. The biggest catch of the day was the severe cold they caught from not being properly dried when they came out. Fishermen's Perils.

Charles E. Spinney and Amos E. Outhouse, belonging to the schooner Tragabiganda, of Gloucester, left the vessel Monday, May 28th, on La Have bank, and lost the vessel in a fog. About noon on the 30th they reached Little Hope light, where they were kindly treated and supplied with a sail, by means of which they reached Liverpool, N. S.

The schooner Alaska, of Gloucester, put into Yarmouth, N. S., May 31st, with her flag at half-mast on account of the loss of two men on the Western bank. The missing men had safely arrived at Halifax in their dory.

Peter Murphy and John Lahey, belonging to the schooner Eben B. Phillips of Gloucester, lost their vessel in a fog, and after seventy-four hours in their dory were picked up by the schooner Nevada, and landed at Liverpool, N. S., May 28th.

The schooner Ontario arrived at Gloucester on the 3d inst., and reported the loss on the Western bank of Albert Goodwin and Joseph Mease, who were out in their dory when a fog came up.

The schooner Mary P. Clark arrived at Gloucester on the 8th inst., from the banks, bringing in two men belonging to the schooner Frederick Gerring, who had lost their vessel in a fog. Two of the Mary P. Clark's crew were lost on the banks in a fog, but there is hope that they have been picked up by some other vessel.

James R. Merchant and Adam Hopkins, belonging to the schooner Farragut, arrived at Vinalhaven, Me., June 1st, in a dory, having lost the schooner in a fog off Monhegan on the previous day, and been in the boat thirty hours, pulling fifty miles and encountering severe weather. They were greatly exhausted on landing.

THE NAVY YARDS.

Secretary Chandler on the 9th inst. received and considered the memoranda furnished him by the navy yard commission, and it said "approves their recommendations for the closing of certain yards, and the concentration of organization and reduction of expenses in the remaining yards; and they will be ordered to take effect about July 15th."

The commissioners recommend that "there shall be a reorganization and concentration of the mechanical departments in every navy yard, so that there shall be but one shop in each for the performance of each class of work." This involves the abolition of all machine, coppersmith, plumber, boiler and plate iron shops, and all foundries, except in the department of steam engineering; and all painter's and all joiner's shops except in the department of construction.

They also recommend that all the articles forming the outfit of a ship be "made in a single shop, to be established in such yard as may now have the best facilities and convenience therefor. We mention some of the principal ones, viz., boats, blocks, sails, bags, hammocks, tarpaulins, steam-cutter machinery, and other special objects for steam engine and boiler mountings, gun carriages, and gun fittings."

The commissioners recommend that the Mare island yard and the Norfolk yard be retained in full working condition; that the Penascola yard be closed; that the Washington yard be dropped from the list of navy yards, and designated as the navy arsenal, retaining it in full working condition; that League island yard be closed, as a yard, or a naval station, for the present; that the New London yard be abandoned entirely, as a yard or a naval station; and that the New York yard be retained as a first-class yard, but that no more money be expended there in the way of improvements until plans for the full development of the yard have been approved.

Regarding the Boston and Portsmouth yards the commissioners say:

Some difference of opinion exists in the commission in regard to the disposition to be made of these yards. All agree that the navy yard at Portsmouth is indefensible against a serious attack from a fleet of ironclads armed with modern rifled ordnance, unless new and extensive fortifications should be erected for that purpose, the cost of which would be so enormous as to preclude the consideration of such an expedient. Even then it would be so vulnerable that it could be defended only by an equal force. As a consequence we recommend that no farther expenditures be made thereon for improvements of any kind.

All agree that it would be difficult to over-estimate the importance of the Boston yard in time of war, and that it should be so improved as to utilize the war frontage to its utmost extent and at the earliest moment. No expenditures for fortifications would be required for its defense beyond those demanded for the protection of the city itself. All agree that any proposal to dispose of this magnificent property cannot be too strongly condemned. All agree that the rope walk should be kept in operation, and that in view of this fact and of the superior quality of the painted canvas goods made at this yard, the sail-makers' department should be kept in operation for the manufacture of sails, tarpaulins, and other similar articles for the entire navy.

A difference of opinion exists as to the immediate disposition to be made of these yards; two members believe that the yard at Portsmouth should be closed; one member believes that the yard at Boston should be retained in active operation. One member considers it important to keep the Portsmouth navy yard open for the reception and refitting of infected ships, as well as their repair; and that any repairs needed by wooden ships can be made there as well and as cheaply as at any other station; but concurs with the other members of the commission that its importance and value as a ship building yard have passed away, and that it must be closed when the necessity for the repair of wooden vessels terminates; and in case it should be decided that no necessity exists for a yard as a sanitary station, he recommends the closing of this yard. The same member and another believe that no necessity exists that would justify the use of the Boston yard as a construction and repair yard in time of peace.

The commissioners state that if the Portsmouth yard is retained in working order, the following table will show the changes that should be made:

In concluding their report the commissioners say that the aggregate daily pay of foremen at all the yards is, at present, $930.03; with the navy yards at Portsmouth, Boston and League Island closed, and the organization of the other yards reduced as proposed, it will be $480.42; with the Portsmouth and League Island yards closed, $539.68; with the Boston and League Island yards closed, $541.16.

The General Railroad Law.

It is stated that the Concord, the Manchester & Lawrence, the Northern, the Concord & Claremont, the Boston, Concord & Montreal, the Boston & Maine and the Eastern railroad conpanies have agreed to support a bill for a general railroad law, to be introduced during the present session of the legislature, providing for the leasing and consolidation of existing lines in the state, and also for the construction of other lines under certain restrictions. The effect of this agreement will be to avoid lengthy and probably bitter legislative controversy. The bill, if enacted, will authorize the Boston & Maine to lease the Eastern, and the consolidation of lines in the central section of the state. The railroads seem to assume that they can secure whatever legislation they wish, if they act together; and probably they can.

Secretary Chandler has partaken of the hospitalities of the contractors, and is to pass over the snug little sum of $826,000 to Roach & Co., for finishing the iron-clads. The principal value of these vessels when completed will be their service as an example of the rapacity of the contractors, and the gullibility (shall we not draw it as mild as that?) of the Congress which allows the waste.

Gov. Butler has notified the Massachusetts legislature that the Tewksbury appropriation bill, which with a number of other articles had disappeared from the executive chamber, has been found. This will save considerable embarrassment, possibly, and some time, to the legislature. The governor in his communication did not say where or how the bill was found, nor who had it, if anybody.

Mr. Gould's Mineral Water.

Mr. Jay Gould is a tetotaller. Spite of all his associations with the immoral bankers and brokers of Wall street, he has never, knowingly, drank from the cup that cheers, etc. In the metropolis his temperate habits have passed into a proverb; and it is estimated that he has not had an invitation to drink within twenty-five years.

While at the Arkansas Hot Springs, last summer, Mr. Gould was unwell. He had left New York, because of an attack of indigestion which made life a burden; and even at the Arkansas resort, he grew worse. Dieting, bathing, the drinking of mineral waters, seemed to effect no improvement, and Mr. Gould lost flesh and courage with surprising rapidity.

One eventful day, a new mineral spring was discovered by Mr. George Gould; so at least, the latter said. The mineral spring, singularly enough, tasted exactly as does a mixture of rye whiskey and rock candy. The elder Gould, however, was not acquainted with these flavors, and eagerly responded to his son's invitation to try the health-giving liquid.

"Where is this new spring, George?" inquired the old gentleman, when the cough which followed the drinking of the glassful had given place to a chuckle of satisfaction.

"Over at the Rapids, I believe," said George.

"Um-m-m," soliloquised the elder Gould. "That's a bad place, George. There's a good deal of drinking done in that locality, I'm told. But I'll tell you what,"—the whiskey beginning now to get in its work,—"drinking or not at the Rapids, the man who owns the spring that produced that water has a fortune in it! I feel better already!"

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

HAYNHAM, MASS., Aug. 12, 1878.

C. I. HOOD & CO.: Gentlemen— * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.

I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.

Yours truly,
HOMER B. NASH.

THE *Renovation* OF THE WORLD.

Mrs. S. A. Allen's WORLD'S *Hair Restorer* IS PERFECTION!

Public Benefactress. Mrs. S. A. Allen has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vicinity and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT--BATCHELDER, J.

MONDAY, June 11th.

The boys whose cases were continued from the 4th inst., (on charges of stealing beer from railroad cars,) were allowed to go.

George Anderson, for drunkenness, was ordered to Brentwood for three months, costs being taxed at $6.90. He had just completed a five months' term at the county farm, for the same offence.

Edward Penny, for drunkenness, was required to pay $9.90; Peter McCann, ditto, ditto. Both paid.

Charles Gilbert was before the court on a charge of assaulting one George Laskey, with intent to kill and destroy the same, against the peace of dignity of the state and the statute in such cases made and provided. Just where the damage to the state would have come in, in case he had killed Laskey, or Laskey had killed him, was not shown; but the accused was held in $600 until Friday, the 15th. Laskey received five cuts with a knife about the breast and arms, but the wounds, though quite severe, are not regarded as serious. Both the parties were drunk when the trouble took place.

UNITED STATES CIRCUIT COURT.

Lowell Judge.

Monday, June 11.—Mr Kennedy recalled; could not state the inside diameter of pipe on the steamer Delaware; say it was an inch to an inch and a quarter; one line of hose on hand to open relief valve, so it would not burst the hose.

Cross-examined by Mr. Foster; stated as to his duties of policeman in Philadelphia; enquired of as to rules of voluntary fire department; stated as to fines for disobeying orders, &c.; Delaware company had 41 members; duties of these men described. Examined as to hose made when he was engineer; hose would certainly burst before air chamber would render assistance; ran engine according to line of hose; pressure of steam 60, 70 or 80 pounds; engineer runs to his own liking; steam cylinder 11 or 11 1-2, not certain; explained as to waste of water, feeding boiler, etc.

Wm. E. Knight, Philadelphia, machinist and engineer. Have worked for Norris locomotive builder in P. Have been engineer in fire department, &c., in charge of No. Liberty Hose Co., No. 4 since Feb. '59, built by Rainey & Neaffie. In charge of this engine 3 or 4 years. Shew how he operated engines at the fire with the use of the relief valve.

Deposition of John T. Wallace residing in Washington, D. C., was read. Machinist and member of Philadelphia Hose Co. in 1858.

M. V. B. Darling of Providence testified. Was an engineer of St. F. Engine Providence No. 13, sent to Providence in 1859 from Philadelphia, and gave evidence as to the machine. Plaintiff objected to this testimony, as not being in the notice (overruled.)

Levi T. Fuller of Brattleboro', Vt. Member of firm of Esty & Co. Learned machinist's trade; since April, 1866, mechanical supt. and part owner of Esty & Co.'s establishment, and president of Sewing Machine Co.; has taken out thirty or forty patents for his own inventions. Testified as to mode of extinguishing fires in his establishment, including two steam fire engines; bought one engine April 15, 1870. This engine is now in this city. Described the workings of the machine. Had relief valve to relieve the pressure on the hose. Second engine was described.

The cross examination developed no change in the testimony. Foot valves described. Never tried to see how fast the engine would run.

Nehemiah S. Bean, of Manchester. Learned millwright business, and afterward went into Amoskeag Manufacturing Co. machine shop pattern shop, and was subsequently superintendent of the machine shop; was supt. of locomotive department of Lawrence machine shop four or five years; there built, with Mr. Scott, steam fire engine Lawrence; was at Boston Locomotive Works, and then became [illegible] and was supt. from Feb'y, 1859, to July 1877, when he retired from machine business. Amoskeag Manufacturing Co. in 1859 manufactured cotton machinery, water wheels, locomotives; [illegible] began to build steam fire engines; built Lawrence steam fire engine in the fall of 1857, completed in spring of '58. Mr. Bean read from a register printed by the company stating when engines were finished. The Eagle was delivered to Boston in 1858; another, No. 4, was completed Dec. 17, 1859; next was No. 5, was sent to Fall River in Dec. 1859. No. 9, sold to city of Boston, was completed Mar. 2, 1860; etc. These engines were same in main features. Those that had the relief pipe, etc., are Nos. 3, 1, 4, East Boston 7, 8 and 10; all were put on under my direction, to return water to the suction of the pump. Witness described the mode of working the pump, etc., and the mechanical law of the movement of water under pressure.

Adjourned to 9:30 o'clock Tuesday morning.

Be sure and go to the first strawberry festival to-night, and have a good time. See adv't.

Ladies' Union Prayer Meeting this (Tuesday) afternoon at three o'clock in the Middle street Baptist chapel; a full attendance is desired.

Elder Geo. Sederquist, of Springfield, Mass., will preach in the Hanover street chapel this (Tuesday) and to-morrow (Wednesday) evenings at a quarter to eight o'clock. The public are cordially invited.

Major George Butler's orders of May 29th are modified so much that he will not be detached from the barracks at this navy yard until Sept. 10th, to report at Norfolk, Va., Sept. 15th.

The annual meeting of the Seamen's Aid society will be held at the Seamen's Home on State street, Wednesday afternoon at four o'clock. A full attendance of the members is requested.

Members of Union Rebekah Degree Lodge, No. 3, are earnestly requested to meet at Odd Fellows' hall, Wednesday at one o'clock, to attend the funeral of Sister Ellen Plummer.

PER ORDER OF NOBLE GRAND.

There will be an extra train leave this city July 4th at 6:45 o'clock A. M., for Portland, returning in the evening after the celebration; fare for the round trip, $1.75; tickets good for that day only. If it is a nice day, probably a large crowd will go from here.

John Cronley was pushed off a sidewalk on Sunday by another man, while skylarking, and had one wrist broken.

Stephen Murphy, a deserter from the county farm, was arrested on Monday. He was engaged at working for the contractor for removing obstructions from the river.

A two-year-old son of Mr. John S. Wendell dislocated one of his elbows on Monday by a fall.

In the divorce court in Boston, Thursday of last week, Joseph A. Peach, late of this city, asked to have his marriage declared a nullity, on the ground that his wife, who was a divorced woman when he married her, had not received permission from the court to marry again. The judge continued the case, as he considered that a fine point of law was involved; the woman had no doubt rendered herself liable to the censure of the court by marrying again without permission, but he could not see that this rendered the marriage invalid.

Capt. George W. Towle of Newcastle, and wife, arrived home last week from Fort Snelling, Minn., where they have been since November last on a visit to their son, Capt. George F. Towle, 19th Reg't U. S. Inf., who has recently left Fort Snelling for Texas, where the nineteenth regiment is now stationed with headquarters at Fort Clark. The former captain of the Portsmouth Greys looks as though his western trip had agreed well with him, and his form is as upright and his step about as elastic as when, forty years ago next 4th of July, he commanded the Greys on their last public appearance, as escort to the "Sons" on their first return.

A despatch of June 10th, from Providence, R. I., says: "Isaac C. Burgess of Hampton Falls, N. H., and Henry Parker Manning of Rainham, Mass., take the Carpenter prizes offered for the two members of the senior class at Brown university who, during their scholarship, unite in the highest degree ability, character and attainments."

A young cyclone struck Exeter on Sunday afternoon, and was attended with hail and snow. A chimney was blown from the passenger station, and lumber piles were scattered from loaded cars. Two cars were overturned, and a telegraph pole was broken off.

Rear Admiral Clitz, under date of Hong Kong, China, April 20th, reports the movements of the vessels of the Asiatic squadron as follows: The Monocacy left Hong Kong on the 5th and Swatow [illegible]h of April, and after communi[illegible] with Lieutenant Mahan, at the [illegible]nocks, who is guarding the wreck of the Ashuelot, proceeded to Nagasaki, arriving there April 14th. Commander Cotton has received instructions to place the Monocacy at the disposition of the United States minister to Corea, and to convey him to that country and to remain there so long as his presence may be deemed necessary. The Palos left Nagasaki on the 4th of April, and arrived at Hong Kong on April 9th; she requires extensive repairs to hull and machinery, and will remain there awaiting instructions from the department. The Richmond was at Hong Kong awaiting the arrival of Rear Admiral Crosby, who was due there on April 23d.

A despatch of the 9th inst from Gloucester said: "Ninety-eight fishing arrivals have been reported at this port the present week, with 2,086,000 pounds of codfish, 239,000 pounds hake and cusk, 164,000 pounds of halibut, 2662 barrels of mackerel, and forty-four barrels of porgies. The receipts of new mackerel here to date this season have been 3122 barrels, against 5990 barrels for the corresponding period last year." There were fifteen arrivals at Gloucester on the 9th, with 402,000 pounds of codfish, 66,000 pounds of halibut, 46,000 pounds of hake and cusk, and 400 barrels of mackerel.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vigality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the best medical work on Physiology ever published. The gentleman who cannot find in it something either requires or wishes to know let wrong explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for Kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Clendening, startingly says "one-third of my subjects show signs of heart disease." The heart weighs about six ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND.

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest National Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. (1)

This plaster is absolutely the best ever made, combining the virtues of hops with gums balsams and extracts. Its power is wonderful in curing diseases where other plasters simply relieve. "The Country Week."

The "Country Week," conducted by the Boston Young Men's Christian Union, has given, since its inauguration in 1875, eight thousand five hundred of the poor children of the city of Boston the pleasure of a ten days' visit in the country in summer, a pleasure which they would not otherwise have enjoyed.

Aside from the benefit to health, of which there is abundant evidence, the visitors have gained much morally from the change in surroundings and influences; and this is especially true of those children who have been received in families as guests. The influence of home life thus received is the greatest benefit that can be derived from the visit, and often has an effect upon the whole future life of the visitor. Work for the present season has already commenced. The children are ready; *the homes are wanted.* If you are willing to invite one or more children to visit in your home during the summer, address "Miss Ellen H. Bailey, Secretary, 18 Boylston street, Boston," who will furnish any further information desired. Fares will be paid by the committee.

Mrs. John Dennison, Durham, N. H., says: "Have used Brown's Iron Bitters and like them very much as a tonic."

"My horse walked on his toes for a year," writes W. J. Tuckerman, the well known horse man, "his trouble was a *contraction of the cords.* Ellis's Spavin Cure cured him."

At Fulton, Ky., June 8th, a fight took place between Bill and John Oagles, two noted ruffians of the place, and a city marshal's posse. Bill Oagles was shot dead, and his brother was wounded but made his escape. A negro who was not in the fight was killed, one of the posse was shot in the head and arm, and the marshal was badly beaten.

GENTLEMEN—Your Hop Bitters have been of great value to me. I was laid up with typhoid fever for over two months and could get no relief until I tried Hop Bitters. To those suffering with debility or any one in feeble health, I cordially recommend them.

The Bad and Worthless

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are the best medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25ct. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address **Dr. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Boats, Bicycles and Hay Fever.

Nature has resolved that all people shall not enjoy themselves at once. With the opening of the season of outdoor sports comes the time of trouble for the poor victims of Hay Fever. For them flowers have no odor, and the summer little or no beauty. To snuff, sneeze and wipe their weeping eyes for three or four successive months:—this is their pitiable portion. Whether this form of catarrh is called hay-fever, hay-cold, rose-cold or rose-fever, makes no difference; they suffer just the same. There is no help in high mountain air. These only lighten the pocket and leave the disease unabated. But there is a positive cure in Ely's Cream Balm. We could cram these columns with grateful letters of the rescued. Try it and join them. If you continue to suffer it is because you neglect a remedy as sure as it is cheap and pleasant.

At Corunna, Spain, an English brig lying in harbor recently hoisted at her mainmast a Fenian flag. The flag was green with a white cross in the centre. At the same time she was flying a small English flag at the foremast. The English consul sent a messenger on board to order the captain to lower the flag, but the messenger met with rough treatment on the vessel. The consul then summoned the assistance of the Spanish coast guard, and eventually a party of armed sailors boarded the vessel and removed the objectionable flag. An inquiry has been instituted into the circumstances of the affair.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

The boiler of the tug Athlete exploded, Monday, near Fernandina, Fla. Capt. Devette was blown through the wheelhouse, and killed, and two other men were fatally injured. The tug was wrecked.

What will cure the worst case of dyspepsia? What will insure a hearty appetite and increased digestion? What will cure general debility and give a new lease of life? What will dispel nervous depression and low spirits? What will restore exhausted mothers to full strength? What will strengthen nerves and muscles? What will enrich the blood? What will enable you to overcome weakness, wakefulness and lack of energy? What will prevent chills and fever and other effect of malarial poison? Brown's Iron Bitters. It is well to know this.

THOSE WOMEN FOLK.

How Hard-Headed Men Estimate Some Things which they don't understand.

Anybody who has led a domestic life knows how common such things as the backache, and pains in the chest, are among the women who do the work. Often—and perhaps generally—the distresses are borne without much complaint. The women get about, and the machinery of the house goes on. Beyond this, those coarse-grained animals whom New England women call "the men folks," seldom look. So long as their wives or daughters are not actually in bed, under the doctor's care, the average thick-skinned husband and father gives the subject no attention. At the same time the poor household drudges—who deserve a better fate—creep around, broom or utensils in hand, up stairs and out-of-doors, doing that woman's work, which "is never done." Losses of loved wives and fair girls—losses whose suddenness and unexpectedness astonish those wooden-pated husbands and fathers—fall, seemingly out of a clear sky, and form the logical sequel to the story of neglect.

Now, you men who stand at the heads of ten thousand such homes, allow us to drop a word in your receptive ears. If these women of yours are worth having, they are worth saving. That back-ache—that pain in the chest! What are they but indications of some organic trouble of the kidneys, heart and lungs? End it at once by the application of Benson's Capcine Porous Plaster. It will soothe that nervous distress, drive away that pain, banish that dull, weary back-ache, give new strength to the body and fresh hope to the heart. No other plasters will do this. The Benson's Plaster, however, is not made to sell—but to heal. It is a remedy which never yet broke its promise—and never will.

Your druggist has it. But before paying your 25 cents and putting the plaster in your pocket, look for the word Capcine cut in the middle.

PLAIN WORDS

Are Best to Express the Suffering so Long Endured by a most Excellent Lady, Mrs. G. Fisher, 29 Clark St., New Haven, Conn. Her Kind and Grateful Expression Towards the Means that Afforded Relief.

Facts clothed in plain words are best. Mrs. George Fisher lives in a pleasant cottage at 29 Clark St., New Haven, Conn. She says: "I was a terrible sufferer from Liver disease for a period of twelve years. My family physician told me that it was chronic inflammation of the Liver. I tried a great many remedies recommended for liver difficulties. I was under the physician's care a great deal, but could get no relief, until I began taking Dr. Kennedy's FAVORITE REMEDY. I experienced relief at once, and to-day I'm enjoying good health through the use of this. I had also been a great sufferer from rheumatism in my limbs and shoulders, but I have been *cured entirely* through the use of FAVORITE REMEDY. I consider Dr. Kennedy's FAVORITE REMEDY a most excellent medicine. I know of many in this city who have received great benefit from the use of FAVORITE REMEDY. It is, sir, a good medicine. I know it, for I've tried it."

Mrs. Fisher is a lady of character and means what she says.

Grateful patients are common. Dr. Kennedy is daily in receipt of letters from them expressing similar sentiments. These letters are spontaneous and put in all varieties of phraseology, but invariably setting forth one thing—the value of Kennedy's FAVORITE REMEDY for many forms of disease. It may be just the thing you have been looking for. Is your Liver disordered? Have you derangement of the Kidneys or Bladder associated with Constipation of the Bowels? If so, you want Kennedy's FAVORITE REMEDY. Dr. Kennedy practices medicine and surgery in all their branches. Write and state your case frankly. Letters promptly answered. Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir*: You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

After they went Fishing.

They didn't catch many fish, although they had a great deal of fun and got themselves wet all over when the fog they had been sitting on rolled over and dropped them into the water. The biggest catch of the day was the severe cold they caught from not being properly dried when they came out. A summer cold is quite as dangerous as one in winter, but Perry Davis's Pain Killer is the sovereign remedy in case of either.

An unknown young woman was seen in the depot at Dover about nine o'clock Monday evening, having apparently missed the train. After leaving the depot she went to the Fourth street bridge, climbed the railing, and jumped into the river. As soon as she struck the water she shouted for some one to save her. Her desperate act was witnessed by some boys, who were unable to render her any assistance for want of a boat. Her body was recovered after half an hour's grappling.

Rev. D. F. Manly, Tampico, Tenn., says: "Brown' Iron Bitters relieved me of indigestion and nervousness after several physicians had failed."

Capt. Jonathan Sanborn of Tilton, an old militia captain, died suddenly while in conversation at the dinner table on Sunday, at the age of eighty-one years.

CAREFUL INVESTORS will find the six per cent. gold bonds of the Topeka, Salina and Western Railroad a grand investment. The road runs through the fertile portion of Kansas.

Philip Marble and his mother, Mrs. Amelia Pelon, have been sent to the house of correction in Massachusetts for two years each, for abandoning an infant on the steps of a Catholic church in Lawrence, Mass., a few days ago. They were arrested in Newton, this state. Marble is the reputed father of the child, she mother being an abandoned woman of Newton.

News and Notes.

The magnificent new iron steamer Pilgrim, of the Fall River line, will make her trial trip from Fall River on Thursday. The officers and invited guests will leave Boston by a special train at nine o'clock A. M.

The *Epitaph* of Tombstone, Arizona, on the 11th inst. received information that Gen. Crook was encamped on Silver creek, sixty miles southeast of that town, having as prisoners 230 hostile Indians, of whom seventy-five were bucks.

Thomas F. Davis and George T. Davis, father and son, were lodged in Newport, R. I., jail on Monday morning, having been arrested in New York. The father is the man who got the reward of $500 for giving away the whereabouts of Kate A. Judd, the firebug, and George H. Rounds, the burglar, on the occasion of their escape from jail. After the money had been paid it was discovered that both father and son had been supplying the fugitives with food, and harboring them. The case was presented to the grand jury, and indictments were found against them. They will be tried at the adjourned term of court which begins at Newport on the 25th inst.

Cramp & Sons of Philadelphia are to build for W. B. Astor a steam yacht which will put Gould's steamer, the Atalanta, nowhere.

A negro murderer who was hanged in a Georgia town one day last week was terribly affected while on the way to the gallows, but seeing the local brass band requested a tune, which was complied with, the band playing "Dem golden slippers" and one or two other pieces of the murderer's selection; the music so stiffened the mans nerves and muscles that he mounted the gallows with a firm step, and was swung off in the middle of a tune.

The steamship Africa, Capt. Buchholtz, from New York for Leith and Hamburg, has not been heard from since she sailed, March 27th, and is given up for lost with all on board; she was nearly new, and had a crew of between fifty and sixty men. She is supposed to have struck ice or another vessel, probably the former. Another steamship belonging to the same line, named the America, sailed from New York for Leith and Hamburg in 1881, and has never since been heard from.

AROUND HOME.

On Saturday, June 9th, Mr. Wm. Henry Noyes, sailmaker, residing on Christian Shore, sold his farm on the North road, near Newington four corners, to Thomas McCue of Newington.

A charge preferred against the master in school district No. 1 occupied the whole session of the board of instruction on the evening of the 11th inst.; it was finally laid upon the table until the next meeting.

On Monday at the Rockingham house, several business men of this city met some of the officers of the Harvard Clock Co., who visited Portsmouth at the request of Thos. S. Nowell, Esq., with a view of removing to this city their manufacturing establishment, which needs larger accommodations than are at present available.

Capt. Andrew T. Milton of Malden, Mass., died at his residence in that place on Saturday, the 9th inst., at the age of about fifty-two years. Capt. Milton was a native of this city, and his early life was spent here. He commanded the ship Express of this port, previous to her destruction by a rebel cruiser in 1862, though he was not in charge of her at the time she was taken. From 1861 to 1870 he was engaged in the China and Australia trade, and of late years in the West India trade. He leaves a widow and three children.

It is stated that Rev. W. H. Cutler of the Congregational society in Hampton will soon become a clergyman of the Protestant Episcopal church.

The annual meeting of the Seamen's Aid society will be held at the Seamen's Home on State street, Wednesday afternoon at four o'clock. A full attendance of the members is requested.

Members of Union Rebekah Degree Lodge, No. 3, are earnestly requested to meet at Odd Fellows' hall, Wednesday at one o'clock, to attend the funeral of Sister Ellen Plummer.

PER ORDER OF NOBLE GRAND.

Frank A. Manson has resigned the position of Eastern railroad station agent at Salisbury Point, Mass., and has been succeeded by a Mr. Clifford.

The Saco man named Simpson, who five years ago loaded his family and household goods into a wagon given by his employer and friends, and started for Aroostook, has met with good success. The cover of his vehicle bore the legend "Aroostook or Bust," but so far from being "busted" he now owns a farm in Perham, and has a comfortable home.

At Old Orchard, last Sunday, lightning struck the flag pole on the Old Orchard house, ripping off the slates and gutters. It struck the Ocean house cupola, ran down to the basement, and set the building on fire, but the flames were quickly put out. The lightning struck one of the Twin cottages on the camp-ground, ripping off the shingles and clapboards; it also ran into Porter's grocery store on a telephone wire, melted it off, and blackened the wall.

The late eccentric Jonathan Chadwick of Farmington left a will giving his son William $10, and leaving the balance of his property, some $4000, to be expended in improving and caring for his burial lot at Berwick. It is understood that the son will contest the will.

Three fishing boats on Saturday morning last, between Cape Porpoise and Kennebunk river, fell in with a quantity of wreck stuff, including a water keg, new hat and clothing, and other articles, apparently very recently from a yacht, and from certain appearances they concluded that some yacht had been run down and destroyed, rather than otherwise wrecked. A small arch board with the gilt letters "Mineral" on a black ground was secured.

Clinton C. Smith and his bride, a Swedish lady from Minneapolis, Minn., made a call last week at the old homestead in Cornish of his great grandfather, who came from South Newmarket, N. H., in 1788, by blazed or spotted trees, to what was then the wilderness of Francisboro, in Massachusetts, Province of Maine.—*Biddeford Times.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod&wlm28

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City cod&gtOc1983

They Hit It Again.

Whoever it was, he will enjoy learning that the 156th Grand Monthly Drawing of The Louisiana State Lottery at New Orleans, on May 8th, resulted as follows: Ticket No. 71,195, sold as a whole for $5 to a wealthy Cuban at Havana, drew the first capital prize of $75,000. No. 47,261 sold to a New Yorker as whole, drew the second prize, $25,000. No 24,431 drew the third capital prize, $10,000, and was sold in Halifax, N. C., to Messrs. Jas. J. McMillan, through Messrs. Jones & Hamilton, Caldwell, Texas; to Mr. Sam. Jones, of Los Angeles, Cal.; Mr. P. Schumacker, of Allentown, Lehigh Co., Pa. Nos. 10,229 and 20,269, drew each the fourth capital, $6,000—sold in fifths at $1 each—among others to Henry Eichardt, S. W. cor. 10th and Market st., St. Louis, Mo.; J. F. Albers, 614 Locust st., same city; two-fifths collected by Messrs. C. H. Richard & Co., No. 61 Broadway, New York city, for a party in San Francisco, Cal. Many winners among those who captured $265,569 in prizes desired their names withheld. The next drawing occurs Tuesday, July 10th, and M. A. Dauphin, New Orleans, La., will furnish any desired information on an application.

Joseph T. Stevens, twenty-six years of age, belonging in Epping, was arrested Monday morning on an indictment warrant for criminal libel. He was employed by Mr. B. W. Hoyt of Epping, whose factory was destroyed by fire in May, 1881. A few months after the fire anonymous letters were received by the Shoe & Leather Insurance company, in which it was hinted that the fire was set by Mr. Hoyt. Detectives have traced these letters to Stevens, and he was arrested as stated above.

—In choosing a wife always select one that will wash.

—The men of Haley, Idaho, have been accustomed to wear full beards, but nearly every man in the town now goes clean shaven. A pretty female barber has located there, and does a big business at fifty cents a snave. She gets hoarse by eleven A. M. every day, shouting "next gent." The young fellows who haven't much beard, have their hair cut so much that you can't tell whether they are just born or only bald-headed.

Skin Diseases

Fifteen years of Suffering.—Body covered with Humor.—Had Twelve Doctors.—Paid out $500.—No Cure.—No Hope.

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Helpless for Eight Years.—Unable to Walk for One Year.—Got about on Hands and Knees.—A Wonderful Cure.

I have had a most wonderful cure of Salt Rheum. For seventeen years I suffered with Salt Rheum; I had it on my head, face, neck, arms, and legs. I was not able to walk, only on my hands and knees, for one year. I have not been able to help myself for eight years. I tried hundreds of remedies; not one had the least effect. The doctors said my case was incurable. So my parents tried everything that came along. I saw your advertisement, and concluded to try CUTICURA REMEDIES. The CUTICURA brought the humor to the surface of my skin. It would drop off as it came out, until now I am entirely well. All I can say is, I thank you most heartily for my cure. Any person who thinks this letter a fraud, let them write me and see me, and find out for themselves. WILL McDONALD,
2541 Dearborn St., Chicago, Ill.

The Cuticura treatment, for the cure of Skin, Scalp and Blood Diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1.; Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c. Sold by all druggists.

Ringworm Humor and Salt-Rheum.

RAYNHAM, MASS., Aug. 12, 1878.
C. I. HOOD & CO.: Gentlemen— * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.
I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.
MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.
Yours truly,
HOMER B. NASH.

THE Restoration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S *Hair Restorer* IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

...mber of Dover gentleman have ...n in this city in consultation with Tenney, the artist, concerning his painting a portrait of the late John P. Hale, to be presented to Phillips Exeter academy.

Among the young men who were graduated from the naval academy at Annapolis on the 9th inst. was Mr. Thomas A. W. Shock of Maryland, son of the late Chief Engineer Thomas A. Shock, U. S. N., and grandson of Mr. James M. Carr of this city. This young gentleman was at one time a pupil in the Portsmouth high school, and entered the academy as a cadet engineer—which class, as well as that of cadet midshipmen, was abolished by the act of Congress of Aug. 7th, 1882, which classified all the students as naval cadets.

There will be an extra train leave this city July 4th at 6:45 A. M., for Portland, returning in the evening after the celebration; fare for the round trip, $1.65; tickets good for that day only. If it is a nice day, probably a large crowd will go from here.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

THE 4th OF JULY.

At the committee meeting Monday evening, $150 was voted for the regatta committee. Messrs. Marvin, French and Crowley were appointed to arrange for salutes morning, noon and evening; R. H. Perkins to take charge of floral procession; Messrs. French, Cook and Coffin to arrange for antique and horrible procession. Ald. Stavers was appointed treasurer of the committee. Adjourned to Friday evening.

Persons knowing of the residences of absent sons and daughters are requested to notify the corresponding secretary of the Reunion Committee, Frank J. Philbrick, at once.

THE FIREMEN'S MUSTER.

At a meeting of the committee, Monday evening, it was settled that the muster shall be held August 28th, 29th and 30th. Over 400 letters were received last week making enquiries concerning it.

GEORGE K. HOOPER.

George Kennard Hooper died in the Roxbury district, Boston, about six o'clock Monday evening, of Bright's disease. He was born in Massachusetts in September, 1822, but his parents removed to Portsmouth in his childhood, and his youth and early manhood were passed here. He was for a time in a business establishment in this city, and also went to sea; then going to Boston he entered a furniture store as clerk, and afterward became a partner in the firm of J. H. Beal & Co., furniture dealers, which firm was succeeded by Beal & Hooper, and that in turn by Souther & Hooper; subsequently he became interested in the Bay State Casket Co., with which he was connected at the time of his death. He was twice married, his second wife surviving him; and he leaves one child by his first marriage, and two by the second.

THE LEGISLATIVE COMMITTEES.

The committees of the legislature were announced Monday evening. In the senate, Senator Laighton is chairman of the committee on incorporations, and a member of the committees on revision of the laws, and on banks.

In the house, the Portsmouth representatives are on committees as follows: Sise, on incorporations (chairman) and railroads; Mitchell, asylum for insane; Urch, banks; Sampson, claims; Gardiner, state prison (chairman,) elections; Sanborn, finance; Hadley, manufactures.

Representative Tarlton of Newcastle is on the committee on agriculture; Coleman of Newington, agricultural college; Brackett of Greenland, normal school; Drake of Rye, printers' accounts; Langlands of South Newmarket, division of towns; Wiggin of Stratham, bills on second reading; Priest of Newmarket, education; Folsom of Newmarket, towns and parishes; Dearborn of North Hampton, fisheries; Janvrin of Hampton Falls, insurance; Marston of Hampton, retrenchment and reform.

GOSSIPS SAY

That a party of gentlemen from Lynn were in this city on Monday, en route for Milton Three Ponds, where they propose to catch a large amount of fish.

That the party included Ex-Congressman Loverring of Massachusetts, a former resident of Old Strawberry Bank.

That Mrs. Langtry's special parlor car, the "City of Worcester," passed through this city, going west, on the three o'clock train Tuesday afternoon.

That very many strangers are in town attendant on the proceedings of the Knibbs valve suit.

That the first steamboat excursion of the season took place Monday evening, when the Mystic took a number of the Circuit court jurymen outside of Whalesback.

That there was a short "chop" on, and some of the jurymen thought they had heard the last they ever would hear of the Knibbs relief-valve case.

That others thought they had a relief valve in their stomachs, and acted accordingly.

That one juryman confidentially asked Capt. "Rashe" if the raging sea was ever more terrible in its wrath than they then saw it.

That when that reputable mariner responded "Hades! yes," the juryman did not say he thought he was lying, but looked as though he feared the skipper's Sunday school teaching had not struck in very well.

That the name of the Haywood house at Newcastle has been changed to "Cerro Gordo."

That the sea moss gatherers of Kittery Point have commenced operations, and have large quantities of the glutinous substance spread on Seaward's beach, bleaching in the sun.

UNITED STATES CIRCUIT COURT.

Lowell Judge.

Tuesday, June 12.—Direct examination of N. S. Bean resumed. The pump which plaintiff exhibited is No. 1, my patent pump, mainly, with additions. Castings (plaintiff's Nos. 2, 3, and 4, are castings of pump which I patented, or rather of same construction and design. My patent is dated June 12, 1860, No. 28,644. Mr. B. explained the plans attached to the patent. Knibbs visited Amoskeag Co.'s shops while different kinds of engines were building, in 1859, when relief valves were put in. Knibbs had every opportunity to see these valves that any man could have. He went with a party of us to deliver an engine in Beverly, Mass., in July, 1866. Have no doubt that the engine had relief valve, but cannot now state. Never heard Knibbs object to our putting on relief valves on engines while he was at our shop.

Mr. Bean's cross examination was conducted by Mr. Wadleigh. He was shown the books of advertisement issued by the Amoskeag Co., and asked if they contained any reference to the "relief valve." Witness did not prepare these books. The cross-examination occupied almost the entire morning session, and had not concluded at the noon adjournment.

Mr. Bean's testimony concluded at 4:40 P. M.

Henry A. Chase of Lynn, engineer. Was employed on an Amoskeag-built steam fire engine in 1860; also on the Eclipse in 1859, both in Boston. [Plaintiff objected that this engine was not embraced in the notice. The court indicated that the evidence was proper.] Engines had relief pipes.

Calvin C. Wilson, Boston, testified as to relief pipe on the Eclipse. Cross-examined. Don't know that the city of Boston has been sued on this patent; have heard so. Was sent for to come here three weeks ago. Examined as to his fixing dates, etc.

Deposition of Dennis J. Sweeny, taken in Chicago. Chicago fire marshal. Connected with department since 1859. Rotary pump engine from Manchester, 1860, in service sixteen years. Photograph attached to deposition, of pump, etc. The pump and its action described by the deponent. [Before the reading of the deposition was finished, one of the jurors having become indisposed the court at 5:20 P. M. took a recess until 9:30 A. M. Wednesday.]

POLICE COURT--BATCHELDER, J.

TUESDAY, June 12th.

George W. T. Brown, one of our colored citizens, was before the court on a charge of drunkenness. Mr. Brown it appears arrived in the city at 10:30 o'clock A. M. on the 11th, after a somewhat protracted stay at Brentwood, and was found lying in the street on the evening of that day by the police, who alleged that he was drunk. Mr. Brown denied that he was intoxicated, though he admitted having drank some intoxicants, which he had to do to keep himself up, as he was very tired; and it was this tiredness which caused him to lie down in the street. The magistrate thought so tired a person should have a chance to get rested, and sent Mr. Brown back to Brentwood for ninety days, costs being taxed at $6.13.

ALABAMA CLAIMS.

In the Court of Commissioners of Alabama Claims, on the 11th inst., judgments were announced as follows: Joseph W. Peirce, Wm. Augustus Peirce, Joshua R. Peirce, executors of Joshua W. Peirce, deceased, $481, with interest from June 30, 1863; T. Salter Tredick, executor of Jonathan M. Tredick, $7,423, with interest from Aug. 1, 1864; No. 1,814, T. Salter Tredick, $7,731, with interest from May 21, 1864; No. 702, Hannah L. Bartlett, $310; Richard C. Bartlett, $1,060; No. 2,148, Barak Maxwell, $4,893, and No. 2,148, Richard C. Bartlett, $1,610, with interest from Oct. 17,

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or Vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

23th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE.

IS YOUR HEART SOUND?

Many people think themselves well and doctor for Kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheadhurst, startlingly says "one third of my subjects show signs of heart disease."

The heart weighs about one ounce, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

An explosion in a powder magazine in Scutari, near Constantinople, last Friday, caused by lightning, killed ten soldiers and seven civilians, and wounded forty soldiers and fifteen civilians. A portion of the bastion fell on a bazaar, which adjoined the magazine, causing destruction of property.

The hanging of two negroes at Macon, Ga., the other day, was made a regular show. Enterprising citizens built rows of raised benches, and charged $1 apiece for seats; the mayor decided that the operation came within the law of public entertainments, and exacted a license fee from the speculators; and members of the common council demanded dead-heading, and got it.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in time like the present, when malarial and other epidemics are raging, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address **Dr. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE 6 PER CENT GOLD BONDS OF THE TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

New Hampshire Legislature.

In the senate, on the 12th inst., the bill to incorporate the Lake Shore railroad was read and referred.

In the house it was voted to make the subject of filling the vacancy in the Laconia senatorial district the special order for eleven o'clock on Wednesday, June 20th. Resolutions were introduced to inquire into the right of Abner Clark to a seat in the house as a representative from Sandown, and of Charles W. Weeks from Barrington. Notices of several bills were given.

The legislative caucuses were held in the evening, state officers being nominated as follows: Republican—A. B. Thompson of Concord, secretary of state; Solon A. Carter of Concord, state treasurer; Parsons B. Cogswell of Concord, state printer; Gilman B. Johnson of Concord, commissary general. Democratic—Henry H. Metcalf of Concord, secretary of state; Clark F. Rowell of Keene, state treasurer; Lewis C. Pattee of Lebanon, state printerr David Urch of Portsmouth, commissary general.

On the 13th, at eleven o'clock in the forenoon, the republican nominees for state officers were elected.

The payment of the June coupons upon the registered government bonds brings out the surprising fact that the Rothschilds hold in their several banking houses $400,000,000 of the securities, or more than one-fourth of our whole debt. Among the large holders in this country are Vanderbilt, who gets interest on $37,000,000, Mrs. A. T. Stewart on $30,000,000, Jay Gould on $13,000,000, and several others who hold from $4,000,000 to $10,000,000. The time when poor people put their savings into government bonds has evidently gone by.

PLAIN WORDS. Are Best to Express the Suffering so Long Endured by a most Excellent Lady, Mrs. G. Fisher, 20 Clark St., New Haven, Conn. Her Kind and Grateful Expression Towards the Means that Afforded Relief.

Facts clothed in plain words are best. Mrs. George Fisher lives in a pleasant cottage at 20 Clark St., New Haven, Conn. She says: "I was a terrible sufferer from Liver disease for a period of twelve years. My family physician told me that it was chronic inflammation of the Liver. I tried a great many remedies recommended for liver difficulties. I was under the physician's care a great deal, but could get no relief, until I began taking Dr. Kennedy's FAVORITE REMEDY. I experienced relief at once, and to-day I'm enjoying good health through the use of this. I had also been a great sufferer from rheumatism in my limbs and shoulders, but I have been *cured entirely* through the use of FAVORITE REMEDY. I consider Dr. Kennedy's FAVORITE REMEDY a most excellent medicine. I know of many in this city who have received great benefit from the use of FAVORITE REMEDY. It is, sir, a good medicine. I know it, for I've tried it."

Mrs. Fisher is a lady of character and means what she says.

Grateful patients are common. Dr. Kennedy is daily in receipt of letters from them expressing similar sentiments. These letters are spontaneous and put in all varieties of phraseology, but invariably setting forth one thing—the value of Kennedy's FAVORITE REMEDY for many forms of disease. It may be just the thing you have been looking for. Is your Liver disordered? Have you derangement of the Kidneys or Bladder associated with Constipation of the Bowels? If so, you want Kennedy's FAVORITE REMEDY. Dr. Kennedy practices medicine and surgery in all their branches. Write and state your case frankly. Letters promptly answered. The Eastman Case.

There is considerable talk in naval circles regarding the action of Secretary Chandler in recommending to the president the disapproval of the finding of the naval examining and medical boards in the case of Commander Thomas H. Eastman. According to the findings of these boards, Eastman was mentally competent, but morally unfitted for the service, and his dismissal was recommended.

The case, which has for a long time past been in the hands of the secretary, has excited considerable interest, the most powerful influence being brought to bear to smash the findings of the boards. Judge Jere Black interested himself in behalf of the commander, and urged the secretary and president to save his client. Eastman is from New Hampshire, and it is said wields considerable power in his state. This may have influenced "the ruler of our naves," who is ever on the alert to make friends in his native state, with a view some day to capturing a seat in the United States senate. Be that as it may, certain it is that Eastman has gotten out of a bad box, for if the president had not, upon the recommendation of Mr. Chandler, disapproved the findings of the naval boards, Commander Eastman would to-day be a private citizen.

What to do with Eastman is a question which is agitating the minds of naval men. Will he be retired on two-thirds pay, or will he be given another examination? In the meantime, the friends of Commander Francis M. Bunce, who is next in line of promotion, are waiting patiently to see what the secretary is going to do.

A prominent gentleman stated this morning that it was his opinion that Chandler and Eastman's friends in New Hampshire had entered into a bargain by which the latter, in consideration of Eastman's restoration to the service, were to help Billy in his political aspirations.—*Washington Critic.*

The above is as untruthful as it is disrespectful. The secretary of the navy knew that Comdr. Eastman was a competent officer and a superior navigator, and had suffered in health by a long service in one of the monitors.

If Mr. Chandler has an idea that an officer is entitled to better usage than a court recommends, he investigates the case himself. The talk of Comdr. Eastman's political influence, as far as Mr. Chandler is concerned, is as every New Hampshire man knows the merest bosh.

So too, the statement that the secretary is ever on the alert to make friends in his native state. No public man in any state of the Union has so persistently ignored his political friends as has Mr. Chandler. In the administration of his department he has shown that he has "no friends to reward," if he has enemies to punish.

To the New Hampshire man the allegation that Mr. Chandler seeks political aid from the friends of navy officers, or even from any one, is simply absurd. It shows either that the Washington paper knows but little of what it speaks, or what is far more probable, that the piece was written in the interests of officers opposed to the retention of Comdr. Eastman, and those who are "patiently waiting," etc. These are probably "waiting orders."

A Capture.

The Grand Army of the Republic has been swindled by a scheme called the Veteran Mining company. A recent meeting at Denver, Col., declared that this company had no title to the land in which the mines are situated, even if the mines themselves have any value, which is a matter of serious doubt. The chief mining has been done in the pockets of those credulous comrades who trusted to recommendations of the scheme by officers of the society.

That the G. A. R. should be more fortunate in being handled by the mining speculators than are the 99 3-4 per cent of all whose cupidity gets the better of their judgment, and who, knowing by the experience of thousands what the ultimate result of such schemes must be, still enter them, is of course not to be expected.

The shareholders of one of the California mining companies which was noted for its promised dividends, have just received a pleasant surprise of an assessment of twenty-five cents per share. To a holder of a thousand shares of these stocks, two shares of which are good for a drink at any place where the "mine" is not known, the difference between a dividend and an assessment of twenty-five cents is just $500.

GOSSIPS SAY

That Major Urch received the democratic nomination for commissary general at his party's caucus in Concord on Tuesday evening, 12th inst.

That though the major could carry that title with great dignity, he will not be called upon to perform the arduous duties of that office this year, the republican candidate having been elected on the 13th.

That the major has been appointed a member of a special committee to consider the recommendations in the message of the governor.

That one of the most important bills yet introduced in the legislature is that presented by Senator Laighton respecting the detection and prosecution of crime.

That Sheriff Kent is credited with being the father of the bill.

That the residents of Union street are agitating themselves in behalf of a plank sidewalk for that suburban thoroughfare.

That Edmund Furbish has added a live young fox to his previously quite extensive collection of objects in natural history.

That several fishing vessels put into Little harbor on the night of the 12th inst. for safe anchorage during the southerly gale which prevailed that night.

That a shed is to be erected in the court-house yard for the storage of city carts and tools during the winter months.

That it will be a mistake to offer a purse for the "worst looking team" in the Antique & Horrible procession on the 4th of July.

That the spectacle of a miserable, dilapidated, worn-out old horse-frame painfully dragging around some old rattletrap vehicle, when he is really unfit to drag his own slow length along, is not calculated to please cultured and humane spectators.

That good-natured and refined burlesque, or "hits" devoid of offensive personality, are gratifying to all, but squalor and wretchedness are not desirable to look upon.

AROUND HOME.

Elder Ross will preach in the Hanover street chapel this (Thursday) evening at 7:45 o'clock. All are invited.

The sloop yacht Wayward came off the marine railway at Kittery on the 12th inst., after being put in thorough order, and made to look as good as new. This is the yacht which went on Sea point, Gerrish's island, Kittery, last fall, while on her way from the British provinces to New York, where she is owned; she has been completely repaired, remasted, painted inside and out, etc., and is now a stronger and better vessel than when first launched. She sailed for St. John, N. B., on the 12th.

The store recently occupied by Hett Bros. as a baggage express office is being refitted for a grocery, provision and commission store by the Globe Grocery Co. Mr. J. E. Rider is to be the manager.

Extinguisher Co. No. 5 on the evening of the 11th inst. voted to procure new uniforms; the shirts, caps and belts have been contracted for with local dealers. Kearsarge Engine Co., No. 3, have also voted to purchase new uniforms, and we are informed will turn out in the procession on the fourth of July, with their machine. The indications now are that the department will take hold heartily and add their strength to the celebration of the 4th, while at the same time pushing the preliminary work of the muster.

The house and barn of Mr. George Bowden, of York, were burned about eleven o'clock on the night of the 12th inst. Loss not stated; buildings insured.

The schooner yacht Una, which has been lying at the old fish-wharf on Noble's island, housed in, since last fall, was on the 13th inst. hauled through the bridge, and made fast alongside one of the wharves at the Raynes shipyard. The yacht is owned by Mr. Eckstein of Cincinnati, who will not put her in commission this season, as the business firm of which he is a member are engaged in the erection of large manufacturing works which will require all his attention during the summer and autumn.

At a meeting of the Biddeford, Me., city councils, on the evening of June 11th, the Eben Simpson steam fire engine company asked that permission be given them to bring their engine to this city on the occasion of the Firemen's Muster in August next.

Mr. John H. Slater has in his possession the original draft of the message of Jefferson Davis to the confederate Congress in 1862. It bears on its back the endorsement of the officials of the house of representatives, and is signed by J. D. as President of the C. S. A.

We noticed parties engaged spreading hay at Freeman's point on the morning of the 12th inst. On the same date potatoes were reported as being in blossom in several gardens on Christian Shore.

About two o'clock on Monday morning of this week, as Isaiah Boston of York was crossing the street at the Eastern depot in Portland, he was struck in the chest by the pole of a hack, knocked down, and had three ribs broken, his elbow injured, and a severe scalp wound inflicted. He was taken to the Maine General hospital, and it is thought will recover.

Notice to Mariners.

The schooner Everett Steele, which arrived at Gloucester, Mass., June 11th, reports having fallen in with a floating wreck, apparently a 100-ton schooner, about 100 miles east half south of Thatcher's island. The wreck is a very dangerous one for passing vessels.

NEW ADVERTISEMENTS.

Reunion of 1883.

PORTSMOUTH, June 13th, 1883.

In accordance with a vote passed by the General Committee on the Reunion of the Sons of Portsmouth, the absent sons and former citizens are hereby invited to be present at the Decennial Reunion to be holden in this city on the 4th of July.

The programme which has been adopted by the committee is as follows:

In the morning the customary ringing of bells, salutes, etc., and a parade of Antiques and Horribles, with prizes for the best hits, avoiding personalities, and for the worst looking teams, individuals, etc. At nine o'clock a procession will be formed, for participation in which they suggest that invitations be extended to the Officers of the Navy Yard, the Marines, Grand Army, Firemen, Cavalry, Masons, Odd Fellows, Knights of Pythias and other secret societies, to the Rockingham Bicycle Club, the survivors of the Independent Battalion, the Continentals and any others that may be thought of, also that the children of the public schools be invited to make a floral display, and that an industrial procession be arranged. After forming, the procession will proceed to receive the visitors either at Frenchman's lane or at the depot as may be necessary, and afterward will move over a short route that will be laid out hereafter.

In the afternoon a regatta, with rowing and sailing races, a marine bicycle race if practicable, tub race, etc., also, various athletic exercises or sports on the parade, including road bicycle races if a suitable track can be found or prepared. Band Concert on the parade in the early evening, and a promenade concert and reception in Franklin Hall, with brief literary exercises if desirable, and closing with dancing, and later with a grand display of fireworks. These will constitute a programme amply sufficient for the occasion, and the committee have no doubt of the entire practicability of carrying it out in good shape for the amount of money that will be forthcoming.

WALTER H. PAGE, *Sec. Gen. Com.*

PORTSMOUTH, June 12, 1883.

THE Committee on invitations are very anxious to have the addresses of absent sons and daughters of Portsmouth, as they desire that all shall receive an invitation if possible. While many who receive them will not be able to attend, yet it will gladden their hearts to know that they are not forgotten in the general rejoicing. A little attention to this matter on the part of each family will greatly assist the committee, and as the time is very limited it will be necessary to hand in the names at once to the Corresponding Secretary.

Ringworm Humor and Salt-Rheum.

FAYNHAM, MASS., Aug. 12, 1878.

C. I. HOOD & CO.: Gentlemen— * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaprilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.

I am gratefully yours,
EDGAR E. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.

Yours truly,
HOMER B. NASH.

THE Restoration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. Allen has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

UNITED STATES CIRCUIT COURT.

Lowell Judge.

Wednesday, June, 13. — Reading of deposition of Sweeney was finished.

Theodore Hutchings, first learned machinist trade with R. W. Isreal & Co., and S. Gookin in Portsmouth, then went to South Boston Iron Works, where he built mdchinery and run engines. Shown photograph of steam fire engine, which is similar to old No. 8, now in engine house on Court street. Relief valve on Eagle No. 3, up to March, 1860.

Cross examination; Not connected with Boston fire department since 1873; was honorably discharged; notified that I might be wanted some three weeks ago, but did not know I was coming to Portsmouth. Have testified in Albany, and given depositions in suits of this kind.

Chas. W. Doten, chief engineer East Boston ferry, testified as to valve, pump, etc.

Cross examined as to former testimony in case against city of New York. Was notified within four days that I was needed as a witness by Mr. Roberts.

Francis Freeman, foreman of engine company, No. 13, of Boston, formerly a steam fire engine builder, examined engine taken in exchange by our firm in part payment from city of Boston for a new engine. It was steamer 8, and we sold it to Esty Co., Brattleboro, Vt. Have not seen the engine before to-day since we sold it. Same condition as when we sold it, except as to paint.

Cross examination; Did not examine inside of engine. We gave double pump engine for her, to Boston, for $4250; we took her in 1869; April, I think; got $1200 for her.

J. S. Battis, East Boston, engineer S. F. E. No. 8. First connected with S. F. engine 1859; next was No. 9, as assistant; described the copper, pipe and plug cock; described operation of S. F. E. Saratoga, and operation of cocks as to being open or closed.

Cross examination; Have testified once before an examiner; was not informed as to what suit it was; was told to come here as a witness by chief engineer of Boston fire department. First used relief valve when we first used engine; cocks first opened by a monkey wrench, afterward a stationary wrench was put on.

Brown S. Flanders; have had charge of steam fire engines; an engineer of Boston, engine No. 8, &c.; city of Boston had five engines built substantially from same pattern with this pipe and valve, which he described.

Cross examined; first began to have anything to do with this kind of engine in 1864.

Joseph R. Gilbert, engineer Boston fire department; engine 10; connected with dept. 13 years; described pipes leading into suction on a Boston engine on Purchase street.

Cross examined; connected with department in Boston 13 years; not been a witness before; first knew I was to be a witness last Saturday; Don't know that Boston fire department sent men here to testify in this case; heard matter talked over at engine house last night: was not there for this purpose; have talked about this matter for several years, also 14 years ago as to valve, about which I understood there was trouble; did not know when city of New York was sued; do not know that city of Boston is sued, nor that that is reason I am here; knew Boston, No. 8; examined engine now here; it is the same engine.

Wm. T. Cheswell asst. engineer Boston fire dept. on S F. Engine Lawrence 7. First had pipe which discharged into street altered by Ray, with my assistance, to discharge by 1 1-4 pipe a 1 1-2 inch into the suction chamber of the engine a copper valve in the pipe. Done in latter part 1861 or '62; latter part of '61 or first of 1862. Saw it used at fire. After that engineer used pipe to feed boiler. Churn water over and over to relieve pressure on hose. Cross examined. First saw this pipe used about time it was put on not later than spring of '62. Cannot leave Boston without permission of the chief of fire department. I hold position during good behavior.

Erastus D. Jeffrey. Engine man of No. 8 Boston. Connected with fire dept. most of time since '57. Have examined and recognize engine in the house on Court street. Cross examined. Orders to come to court received last evening. Redirect. Was at Roberts office in Boston with other witnesses last Saturday and was requested to come here Thursday. Cross examined. Telephoned to come to City Hall. Don't know if city had suit of this kind.

George W. Brown. Engineer of No. 9 East Boston. Connected with dept. since 1860. Remember rotary engine Saratoga 5, which came to Boston April 1860. Engine in house on Court street has same kind of pump as on the Saratoga. Cross examined. Ordered to report at Eastern depot this moaning by the Ch. Engineer and followed his orders.

James H. Dodge, City Auditor of Boston. Have charge of accounts. Bills dated Dec. 21 1859 for steam fire engine. Also April 28 1860; Barnicoat and Saratoga all from Amoskeag Mg. Co. Bill for Eagle No. 3 not found as papers are carried from the room. Contract July 28 1868 of Jacket & Freeman to build S. F. E. for city. Received to be completed before No. 1. Bill for above received. Cross examined. Can't say as to contract with Amoskeag Co.

Deposition of Charles L. Peine, Chicago, Asst. Fire Marshal was received. Also of F. A. Bragg.

The defendant then moved for leave to show the working of the engine to the jury. This is postponed until it can be seen that no changes have been made in the internal structure of the pump.

Afternoon session. Chas. H. Henry, Boston. Designed machinery for U. S. S. Hartford, and had duty to see work done according to specifications. Boiler pumps, plunger pumps to feed boilers, described in detail; relief valve for relieving over-pressure; original working drawings and tracings produced and explained. Model in wood shown and explained, as in model in nickel plate; testified as to rotary pumps, etc. Hartford was built in 1858; the device for pumps was not new.

Cross examined by Wadleigh. Did not see these models (exhibits) before today. Enquired of as to what pumps on models were made for. Witness had not seen these models till they were shown him while on the stand. Process enquired of at length in the examination.

At 4:30 there being no witness other than Mr. Renwick, the jury went to look at the engine; the court to come in at 9:30 A. M. Thursday.

POLICE COURT--BATCHELDER, J

WEDNESDAY, June 13th.

Nellie Hutchings, up on two complaints of larceny from the millinery store of J. M. Tebbetts; the first offence was committed on the 2d inst., and the other on the 11th. She was held in $300 in each complaint, for trial in a higher court.

"ROTTEN ROW."

It is announced that on the return to Washington from this state of Secretary Chandler, he will advertise for sealed proposals for the purchase of two ironclads, two iron and twenty-six wooden ships which have been condemned by boards of inspection as unfit for naval service. Among the vessels to be sold are the following:

At the Portsmouth navy yard, the second rate screw steamer Congress, 2000 tons, built in 1867; the Guard, sailing vessel, 925 tons, purchased in 1861; the Sabine, sailing frigate, 1475 tons, built in 1855; the Kansas, wooden screw steamer, 410 tons, built in 1863. Also the wooden tug Blue Light of eighty-five tons, built at this yard in 1864, now at New London, Conn.

Besides these, the following-named old hulks at other yards and stations will be included in the list of those offered for sale: At Boston, the Iowa, 2019 tons, built in 1863; the Niagara, 2958 tons, built in 1855; the Ohio, old-style sailing line-of-battle ship, 2700 tons, built in 1820; at New London, Conn., the Florida, 2135 tons, built in 1564; at Sacket'ts Harbor, N. Y., the New Orleans, 2800 tons, old style line-of-battle ship, on the stocks; at New York, the Susquehanna, paddle wheel steamer, 2213 tons, built in 1850.

THE WENTWORTH.

There may be found, all along the Atlantic coast, sea-side hotels, but there is only one "Wentworth."

The advertisement in our columns very modestly sets out the many advantages of this attractive summer resort. The many guests at this famous spot are ever enthusiastic regarding its manifold advantages over similar places. Its high and airy situation, allowing perfect drainage, with beautiful views from every room in the house, its easy approach, its freedom from marshy and unhealthful surroundings, at once show what nature has done for this location.

These attractions would perhaps satisfy the managers of some establishments, but the proprietor of the Wentworth has the best-arranged house of the kind on the coast. Its rooms are commodious, its piazzas broad, with beautiful prospects on every side, the drives and walks are attractive, the rooms are not like those in which the summer guest endures privations without the customary comforts of home life at some resorts, but with sleeping apartments and parlors comfortably supplied, chambers reached by elevator, and the many conveniences and accesseries which one always is deprived of in smaller houses, all go to render the Wentworth the hotel *par excellence* of the New England coast.

Then too, the attention paid to the supply of the table is at once seen by the newly-arrived guest. No one who goes to the sea shore can subsist upon pure air and ocean views. There is needed, to keep pace with vigorous appetite, a goodly supply of choice and well-served viands, and in this respect the reputation of the Wentworth is, of the highest order. Its large orchestra, and its hall for musical and similar festivities, are superior, and its accommodations for the care of private equipages, remote from the house and yet accessible at the call of the voice, are known and appreciated by guests who bring their establishments for a season's enjoyment of the fine hard driving roads in our neighborhood. In fine, the *tout ensemble* shows a generous anticipation of almost every conceivable want of the visitor. Here can be attained more real comfort, more actual enjoyment, better rest and recreation and a greater variety of substantial summer-surroundings than are elsewhere found.

The engagments of rooms for the summer are numerous, and we can assure our readers that the Wentworth will in this season maintain the high rank as to its management which in the years past, under its present owner, it has so pre-eminently attained.

A very heavy shower on Wednesday afternoon of this week was preceded by a squall of wind, which broke the main-boom af a fishing schooner lying at Philbrick's wharf.

[*For other local matter see second page.*]

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold misery that results from indiscretion, in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most valuable work on Physiology ever published. The startling wonders it reveals, the secrets it unfolds, either require or wish to have them explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR **HEART SOUND?**

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheesbrough, startlingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet must's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

The Pope and the Land League.

The recent letter of the Pope is having result in the Roman Catholic preaching. At Albany, N. Y., on Sunday, June 10th, the Catholic clergy preached against the Land League, causing considerable excitement among the Irish, and it is reported that several left the churches during the sermons. The officers of the League met on Monday and decided to pay no attention to the preaching, which is understood to have been by direction of Cardinal McCloskey. The bishop preached in the same strain at the cathedral, and it remains to be seen whether the leaguers will adhere to their allegiance to the church or to the political organization. There are no more faithful Catholics than the Irish, but this will put their faith to a severe test.

Helen Markovich, who attempted to shoot King Milan in the cathadral at Belgrade in October last, was found dead in prison on Sunday, June 10th. It is supposed that she committed sucide.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

At Lancaster, Pa., there was a strike in the Penn iron works on the 12th inst. The puddle mill shut down.

Did you read how Josiah Pitkin of Chelsea, Vt., was cured of a terrible sore leg, by Hood's Sarsaparilla, the blood purifier?

The general synod of Reformed Dutch church, at Albany, N. Y., on the 12th inst., denounced Masonry.

Mrs. John Dennison, Durham, N. H., says: "Have used Brown's Iron Bitters and like them very much as a tonic."

The star route cases were given to the jury on the 11th inst., at 3:45 o'clock P. M.

For one dime get a package of Diamond Dyes at the druggist's. They color anything the simplest and most desirable colors.

W. H. Kabbitt of Boston, aged thirty, who has been engaged in Sunbury, Pa., with the lead smelting works for the last nine months, was drowned in the river there while practising in a shell, June 12th. His body was recovered.

"My horse walked on his toes for a year," writes W. J. Tuckerman, the well known horse man, "his trouble was a *contraction of the cords.* Ellis's Spavin Cure cured him."

Whittaker, the colored cadet whose ears made such a sensation at West Point, is a professor in the Avery Institute at Charleston, S. C.

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence its phenomenal popularity.

The Cambridge (Mass.) *Chronicle* says "A law under which no schoolhouse shall be allowed to exist within four hundred feet of a liquor store, is said to be in contemplation."

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale today in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address **Dr. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE

6 PER CENT GOLD BONDS

OF THE

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $600,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $650.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

Boats, Bicycles and Hay Fever.

Nature has resolved that all people shall not enjoy themselves at once. With the opening of the season of outdoor sports comes the time of trouble for the poor victims of Hay Fever. For them flowers have no odor, and the summer little or no beauty. To snuff, sneeze and wipe their weeping eyes for three or four successive months:—this is their pitiable portion. Whether this form of catarrh is called hay-fever, hay-cold, rose-cold or rose-fever, makes no difference; they suffer just the same. There is no help in high mountain air. These only lighten the pocket and leave the disease unabated. But there is a positive cure in Ely's Cream Balm. We could cram these columns with grateful letters of the rescued. Try it and join them. If you continue to suffer it is because you neglect a remedy as sure as it is cheap and pleasant.

The scientific expedition sent out by the government in March last to observe the total eclipse of the sun at Caroline island, in the south Pacific, has returned to San Francisco. Prof. Edward J. Holden, of the Washburn Observatory of Madison, Wis., who is in charge of the party, reports that the weather on the day of the eclipse was perfect for observing purposes, and the result is a great success. Several good photographs of the corona and spectrum were obtained. The supposed planet Vulcan could not be found. The party arrived home in good health. It will be remembered that this expedition went from New York to Lima, Peru, and thence for a voyage of some weeks in the United States sloop Hartford to Caroline island to observe the eclipse of May 6th, 1883, having a totality of six minutes.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and ether causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

During the ceremonies attending the dedication of a soldiers' monument at Mystic Bridge, Conn., June 13th, eighteen men were injured, some of them quite seriously, by kernels of the powder used in firing a salute penetrating their faces and bodies, two of the guns being fired when the G. A. R. procession was passing in their front. The salute was being fired by a section of artillery from Fort Trumbull.

What will cure the worst case of dyspepsia? What will insure a hearty appetite and increased digestion? What will cure general debility and give a new lease of life? What will dispel nervous depression and low spirits? What will restore exhausted mothers to full strength? What will strengthen nerves and muscles? What will enrich the blood? What will enable you to overcome weakness, wakefulness and lack of energy? What will prevent chills and fever and other effect of malarial poison? Brown's Iron Bitters. It is well to know this.

PLAIN WORDS

Are Best to Express the Suffering so Long Endured by a most Excellent Lady, Mrs. G. Fisher, 29 Clark St., New Haven, Conn. Her Kind and Grateful Expression Towards the Means that Afforded Relief.

Facts clothed in plain words are best. Mrs. George Fisher lives in a pleasant cottage at 29 Clark St., New Haven, Conn. She says: "I was a terrible sufferer from Liver disease for a period of twelve years. My family physician told me that it was chronic inflammation of the Liver. I tried a great many remedies recommended for liver difficulties. I was under the physician's care a great deal, but could get no relief, until I began taking Dr. Kennedy's FAVORITE REMEDY. I experienced relief at once, and to-day I'm enjoying good health through the use of this. I had also been a great sufferer from rheumatism in my limbs and shoulders, but I have been cured entirely through the use of FAVORITE REMEDY. I consider Dr. Kennedy's FAVORITE REMEDY a most excellent medicine. I know of many in this city who have received great benefit from the use of FAVORITE REMEDY. It is, sir, a good medicine. I know it, for I've tried it."

Mrs. Fisher is a lady of character and means what she says.

Grateful patients are common. Dr. Kennedy is daily in receipt of letters from them expressing similar sentiments. These letters are spontaneous and put in all varieties of phraseology, but invariably setting forth one thing—the value of Kennedy's FAVORITE REMEDY for many forms of disease. Is it may be just the thing you have been looking for. Is your Liver disordered? Have you derangement of the Kidneys or Bladder associated with Constipation of the Bowels? If so, you want Kennedy's FAVORITE REMEDY. Dr. Kennedy practices medicine and surgery in all their branches. Write and state your case frankly. Letters promptly answered. They didn't catch many fish, although they had a great deal of fun and got themselves wet all over when the log they had been sitting on rolled over and dropped them into the water. A Murderer Murdered.

Sunday morning, Dec. 24th, 1882, Capt. A. C. Nutt, cashier of the Pennsylvania state treasury, was murdered in Uniontown, Pa., by N. L. Dukes, a prominent young lawyer and democratic politician of Uniontown. Dukes had been paying attention to Capt. Nutt's daughter, and under promise of marriage had ruined her, afterward refusing to keep his word. Not only this; the scoundrel followed up his refusal by making the most outrageous attacks on the girl's character, and in response to Capt. Nutt's indignant remonstrances, arranged a meeting at which he shot the girl's father dead, the whole affair bearing the earmarks of a deliberately planned murder. On the trial the jury was selected from the most ignorant class, and in defiance of law, evidence and the judge's charge, brought in a verdict of not guilty. The judge expressed his indignation, but could do no more; the entire bar of Fayette county asked the court to disbar Dukes; and the legislature, of which the murderer was a member-elect, almost unanimously passed a resolution expressing abhorrence of the man and the crime. The people of Uniontown hung Dukes and his jury in effigy, and he was warned that he would remain in Uniontown at the risk of his life; but he still remained there.

On Wednesday, June 13th, at about 7:30 o'clock in the evening, James Nutt, a young man not quite twenty years old, son of the late A. C. Nutt, met Dukes on the steps of the post-office in Uniontown, and opened fire on him with a revolver, the first bullet hitting Dukes in the side. Dukes started to run into the office, but was dropped by a second shot, and Nutt then fired two more shots into him, killing him almost instantly. The murderer gave himself up, and was lodged in jail.

An Old Murder Case Revived.

It is announced that at Columbus, Ohio, on the 11th inst., a negro named William Direly was arrested, charged with the murder of the Gibbons children at Ashland, Kentucky, Dec. 24th, 1881. Nannie and Robbie Gibbons and Emma Carico were found dead in a burning house. The girls had been outraged. Three men were arrested—George Ellis, William Neal and Ellis Croft, and Ellis made a confession, upon which he was convicted and sentenced to be hung, but was hung by a mob. Neal and Croft were also sentenced to be hung, and now await the decision of the governor as to the day of execution. Evidence has been presented, it is alleged, which leaves no doubt that Direly was the real murderer.

A despatch from Catlettsburg, Ky., says: "William Direly, who was arrested in Columbus and brought here by Detective Barnet, denies all knowledge of the Gibbons murder. He says he never made a confession. His arrest is regarded here as an effort to save Croft. Good counsel will defend Direly at his examining trial."

"Travels and Observations in the Orient, and a Hasty Flight in the Countries of Europe;" by Walter Harriman, ex-governor of New Hampshire. Boston; Lee & Shepard; price $2.50. Sold by M. Goodrich.

The governor calls his trip from the Mersey to the Jordan, which consumed but eighty days, a "hasty flight;" and yet, after the well-written books of travel and observations so many eminent literary men and women have from time to time given us, he furnishes a volume of 360 pages. Perhaps if the material which we can as easily find in guide-books and cleyopædias had been excluded, with certain statements of a purely personal character, and devoid of all interest to the general reader, the observations might have been compressed into a brief space.

In these days, when so many persons go abroad, and with so many admirably written books of travel; when writers like Dr. Peabody, Hilliard, and Mrs. Stowe, not to mention Howells, Winter and scores of others of literary ability, have spent years, where the governor spent days only, it is asking a great deal for "sensible people not to be wholly disappointed in the perusal of this volume."

If this class of persons read the book beyond the first chapters, they will seek not for what famous books, from the Bible down to even Mr. Coggswell's "Glints," have contained, but for a description of the impressions of scenes abroad observed by the Concord tourist. It not the number of miles achieved by either of the ex-governors of Concord or Manchester, in the shortest possible space of time, or the trivial incidents of travel, or the confirmation of the Scriptures, which the reader of to-day expects the returned tourist to write about, but of manners and customs, industries, art, education, architecture, and the many subjects of interest that go toward making books of travels interesting to two classes of readers—those who have been abroad, and those who have not.

It is of no especial interest that the author could not pronounce *Tête noire*, or that he met Americans from Boston and New York at Chamouni,—a very common occurrence in that region every season; or that several of the hotels in Athens are modern and "first class,"—or patent facts as to the births of certain personages in cities whose history is familiar to every high school scholar, in this respect.

In fine, we are obliged to conclude that a man who has been a clergyman, a general, a naval officer and a governor, might have rested contented with his laurels instead of seeking his reputation as a writer of a book of travels.

The book is well produced in its mechanical arrangements, and of course contains much of interest, but as a literary work we are led to conclude that its execution was, like the tour, pushed through with the object of making close connections with the "boat." It requires a brave person to occupy this ground after it has been so thoroughly gone over by illustrious predecessors.

Some young fellows from Kittery came across to this city on the evening of the 13th inst., and engaged the steamer James Sampson to take them back at a late hour; steam was kept up aboard the boat until after midnight, when it was learned that the entire party had footed it home across the bridge.

Old Orchard boasts of having the big soda fountain which was used on the exposition grounds at Philadelphia during the centennial celebration.

The Maine Central railway has, it is reported, purchase the Sandy River narrow-gauge road, and will soon widen it.

The Great Lottery Anaconda.

The public are cautioned against the lying publication being circulated by a rival Lottery Company, which having swallowed the State of Louisiana and a former Post Office administration, now desire to down all opposition and swallow the World. The old reliable Commonwealth Distribution Company will still live in spite of such blackmailers. The only legal honest single number Lottery in the World. $30,000 for only $2. 1,800 prizes, amounting to $112,400 to be distributed in Louisville, Ky., Saturday, June 30th, 1883. Address all orders to R. M. Boardman, Courier-Journal Building, Louisville Ky.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodjan9,83

Railroad Men and Telegraph Operators.

No more honest and hard working class of people than these, yet they are generally poorly paid. They have a great chance to secure a fortune by purchasing a ticket which costs only $2 (27 tickets only $50, 55 tickets $100) in the Commonwealth Distribution Co.'s next grand Drawing, to be held in Louisville, Ky., June 30th, 1883. Grand capital prize of $80,000; grand prize of $10,000; 1 prize of $5,000; 1,800 prizes, amounting to $112,400. Send your orders to R. M. Boardman, Louisville, Ky.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. "The Great Lottery War."

A greedy, unscrupulous, grasping, monopoly of a Lottery Company, instead of giving ticket holders a chance to win a prize, is spending their money by paying newspapers throughout the United States for advertising mean, untruthful articles aimed to injure the Great Commonwealth Distribution Co., of Ky. The Commonwealth Co. is above such practices to secure business, and prefers to obtain patronage by honorable means and by honestly conducting their business. The American people love fair play and will pay no attention to such lies emanating from such a source, but will, as usual, send their orders for tickets for the next popular monthly drawing in Louisville, Ky., June 30th, 1883. $20,000 for only $2; $112,400 in prizes. Tickets $2 each; half tickets $1. Address R. M. Boardman, Louisville, Ky.

Alderman Sampson of this city, with the mayor and board of engineers of Concord, were at the trial of steam fire engine Kearsarge in that city, Tuesday evening of this week. A number of the representatives from this section were also present, and report the people there as quite enthusiastic regarding the Firemen's Muster. The mayor and other members of the Concord city government will attend, as guests of the engine company named. The Goodwill hose company of Concord, who also talk of coming here in August, had a trial of speed the same evening,—ran 500 feet, laid fifty feet of hose, connected with a hydrant, and had water through the pipe in sixty seconds.

While the canker worms are reported as being numerous and destructive in Concord and vicinity, and swarming in Dover and neighboring towns, there has been no sign of the pest in this city, so far as we have heard.

The U. S. S. Tallapoosa, Lieut. J. S. Merry commanding, left the Boston navy yard on Thursday morning for this yard, arriving here at 7:30 P. M. She will return to Boston, and take a cargo from there to the New York yard.

A summary court martial, composed of Commanders Cromwell, Johnson and Wadleigh, with Lieut. Gibson, U. S. M. C., as recorder, was in session at the navy yard on Wednesday and Thursday of this week, to try private John O'Brien of the marine corps on charges of drunkenness, unseemly talk, etc.

NEW ADVERTISEMENTS.

Reunion of 1883.

PORTSMOUTH, June 13th, 1883.

In accordance with a vote passed by the General Committee on the Reunion of the Sons of Portsmouth, the absent sons and former citizens are hereby invited to be present at the Decennial Reunion to be holden in this city on the 4th of July.

The programme which has been adopted by the committee is as follows:

In the morning the customary ringing of bells, salutes, etc., and a parade of Antiques and Horribles, with prizes for the best hits, avoiding personalities, and for the worst looking teams, individuals, etc. At nine o'clock a procession will be formed, for participation in which they suggest that invitations be extended to the Officers of the Navy Yard, the Marines, Grand Army, Firemen, Cavalry, Masons, Odd Fellows, Knights of Pythias and other secret societies, to the Rockingham Bicycle Club, the survivors of the Independent Battalion, the Continentals and any others that may be thought of, also that the children of the public schools be invited to make a floral display, and that an industrial procession be arranged. After forming, the procession will proceed to receive the visitors either at Frenchman's lane or at the depot as may be necessary, and afterward will move over a short route that will be laid out hereafter.

In the afternoon a regatta, with rowing and sailing races, a marine bicycle race if practicable, tub race, etc., also, various athletic exercises or sports on the parade, including road bicycle races if a suitable track can be found or prepared. Band Concert on the parade in the early evening, and a promenade concert and reception in Franklin Hall, with brief literary exercises if desirable, and closing with dancing, and later with a grand display of fireworks. These will constitute a programme amply sufficient for the occasion, and the committee have no doubt of the entire practicability of carrying it out in good shape for the amount of money that will be forthcoming.

WALTER H. PAGE, *Sec. Gen. Com.*

PORTSMOUTH, June 13, 1883.

THE Committee on Invitations are very anxious to have the addresses of absent sons and daughters of Portsmouth, as they desire that all shall receive an invitation if possible. While many who receive them will not be able to attend, yet it will gladden their hearts to know that they are not forgotten in the general rejoicing. A little attention to this matter on the part of each family will greatly assist the committee, and as the time is very limited it will be necessary to hand in the names at once to the Corresponding Secretary.

Ringworm Humor and Salt-Rheum.

HAYNHAM, MASS., Aug. 12, 1878.

C. I. HOOD & CO.: Gentlemen— * * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.

I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a New Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lost to do some others some good, and we must have it in the house.

Yours truly,
HOMER B. NASH.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

UNITED STATES CIRCUIT COURT.

Lowell Judge.

Thursday, June 14th.

Norton et als. vs. City of Dover, continued.

Upon motion of deft.'s counsel, addressed to the court, it was ordered that pltf.'s counsel should state their construction of the Knibbs patent before the closing argument of the counsels.

Henry B. Remick, defendants' expert, 65 years old, resides in N. J., civil and mechanical engineer; has been in patent office at Washington, D. C.; 12 years in the employment of the government after that as mechanical engineer. Went into patent office in May 1848, came out in January, 1853. Examiner of patents. Brother and I mended a hole in the Great Eastern 30 feet under water; rent a hundred feet long on the bottom; mended the stays with sheets of iron and riveted them on with red hot iron bolts. Have examined the Knibbs patent. Patent is for steam fire and other pumps; applies to other pumps as well as steam fire pumps, so far as the claim in the patent relating to the pump taking in more water than it can discharge is an error, because you cannot take in more water than you can discharge. Witness explained to the court and jury the true construction to be given to the Knibbs patent, in a very full and able manner, explaining in a very simple manner, and on the whole, giving the court and jury in very clear terms to understand that the patent is a very shallow fabric, which to the common observer seemed not otherwise than true. Witness then explained what is meant by throttling the engine, and that pressure could be increased or reduced by the proper use of the throttle. That so far as the effect upon the pumps is concerned, it makes no difference whether the pump is relieved by a pipe to discharge water upon the ground, or whether the water is returned from the discharge to the suction by a pipe connecting either. The effect is no different. Pressure is relieved in the same manner by either method. Nothing said in the patent about circulation of the water in the pumps. Witness then asked to compare the drawing and patent with the drawing and declaration in this case, and to state whether they were alike, to which witness said No, they were not alike. Then pointed out in many respects material and substantial differences. That the description of the patent as set forth in the declaration in this case is not a correct description of the patent, but is a misrepresentation and misleading.

Witness then gave the practice of the patent office at Washington as to sending out certified copies of patents and drawings, and what circumstances in connection with the copies that indicated whether the copy was a true copy. This was in view of the fact that it is claimed by defendant's counsel that the patent produced in this case by pltf. was not as it was when the patent was issued, but the patent has been changed. The witness pointed out to the court and jury the difference and changes which had since been made in the patent. George L. Roberts then made a motion to strike out fom the dictation in this case the additions and changes contained in the case which are not and do not appear in the patent, to be hereafter passed upon by the court. Witness then pointed out to the court and jury the model produced by the pltfs. That it is not a fair representation of plaintiffs claim as set forth in the patent but is materially changed.

In the patent Knibbs' claim is a pipe connecting the suction and discharge with a valve. In the model there is a pipe connecting the two valve chambers of the pumps—that is the suction chamber and discharge chamber—and there is a valve or opening in the lower extremity of the connecting pipe for the purpose of letting the water onto the ground, which is not in this model; there is an interior valve in this model which is not in the patent or claim; there is an air chamber on the discharge side of the model which is not in the patent or claim of pltf. Witness then compared the Knibbs device with the Parry device, and stated that the relief device of Parry was the same as that of Knibbs; went at length into the different kind of pumps, showing extensive knowledge and remarkable familiarity with all kinds of pumps and relief devices.

Knibbs' device makes claim for relief to all kinds of pumps, applied as well to the rotary pumps as to piston pumps. The Philadelphia relief device, or Parry's device, is a fairer and a nearer representation of the Knibbs relief device, as claimed in their patent, than is their model here in court produced. Saw the old No. 8 engine, now in the Col. Sise house here in Portsmouth; rotary pumps; has separate feed pipes upon it; has a relief pipe upon it; was the old Eagle engine, formerly at Boston, Mass. Means that he saw it since he came to Portsmouth. The relief pipe in this engine is precisely the same as that of the Knibbs device; it connects the suction with the discharge part of the pump, and is a relief device. This device is susceptible of the same purposes as the Knibbs device. Explained this to the jury by use of the model in court, in a very clear and comprehensive manner; explained the use of the relief pipe upon the rotary pump when connected to hydraut pressure, and when water is taken into the pump by other means. In the patent or drawings no claim is made for an air chamber, either on the suction or discharge part of the pump; the same is true of the rotary; therefore I say that the relief pipe upon the rotary is the same as that claimed in the Knibbs invention. Witness heard part of Mr. Hersey's testimony on the 13th; didn't hear the whole, as I was at Dover a part of the time; but I can state from long experience and knowledge with boiler pumps the effect of a relief pipe upon the boiler pump; this refers to the boiler pump on the steamer Hartford. Witness explained the operation of the relief device used upon the pumps of the Hartford, and shew the jury that it is the same, and accomplishes the same thing as the Knibbs device.

Mr. Roberts then produced the French patent and interrogated the witness as to his knowledge of the French language, and of the patent. Witness is familiar with the French language; has translated the patent; proceeded to explain the effect of the plunger pump and relief valve set forth and contained in the French patent. This French patent was obtained in 1850, and describes and sets forth the automatic relief valve, similar in construction and design to that contained in the Knibbs device; this also contains a hand device for relieving pressure in the same way as the Knibbs device. Model produced, and operated in presence of the jury. Drawing of the steamer Pawnee shown; the construction of the relief device was the same as on the steamer Hartford.

Witness' knowledge of relief pipes and pumps was such in 1858 and 1859 that if he had been brought in contact with the rotary and Amoskeag engines and had seen the pipe connecting the suction part of the pump with the discharge, and a valve between, he would have known at once that the connecting pipe was a relief pipe, and made for that purpose. The same of the Philadelphia engine, the Parry device; described and gave his knowledge of other things that the relief pipe would accomplish.

The court here at 5:00 P. M. adjourned to 9:30 A. M. Friday.

A SHARP SQUALL.

The squall which attended the thunder shower of the 13th inst. was very severe in some places in this vicinity. In Salmon Falls and Rollinsford trees and telegraph poles, fences and chimneys, were blown down, and in Rollinsford a large new barn owned by J. M. Brown was moved several feet, and damaged to the amount of $400.

Two barns are reported blown down in South Berwick, and many trees.

In Kittery the chimney of Lorenzo Whitham's house was blown down, and large trees stripped of branches or broken off.

People who came into the city on the 14th from Eliot and York reported much damage to fruit and shade trees, fences, and growing crops.

At long beach, York, a new bathing house was capsized and blown some distance; and the steamer City of Portsmouth, which had that day towed a floating stage to York from this city, had her smokestack so much damaged that a projected excursion on the 14th inst. had to be given up.

SEAMEN'S AID SOCIETY.

The annual meeting of the Seamen's Aid Society was held June 13th at the Seamen's Home.

The meeting was opened by Rev. Mr. Hovey with appropriate readings from the Scriptures, and prayer.

The secretary read the report for the year ending June 1st. The society now enters upon its 52d year, and the present Seamen's Home on its 9th year. The contributions during the past year, from the annual membership, were $114.25. Thanks are due many friends for books, magazines and papers; a Boston daily, and New York papers, have been given the reading room, and the Portsmouth *Journal* has been sent by the editor. Through the courtesy of government officials the record of vessels entered at the custom house since November, 1882, has been received, showing a slight decrease in the shipping list, the vessels registered numbering 387, and the seamen 2510.

The officers of the last year were continued for the ensuing term, viz.: President, Miss E. H. Pearson; secretary and treasurer, Miss H. C. Knight; managers, Mrs. S. Philbrick, Miss H. F. Cutter, Mrs. Fred. E. Potter, Mrs. J. H. Thacher.

GOSSIPS SAY

That a large force of painters are at work in painting the extensions of the "Wentworth," which must be completed prior to the 20th inst.

That the roofs are to be red, and the body of the house Nile green, while the trimmings will be in darker shades.

That an elegant upright piano was sold to E. H. Goodwin, president of the Elliot National bank of Boston, for his summer residence at Gerrish's island, on Thursday last.

That Mayor Treat's charming suburban residence, with its well kept lawns and beautiful beds of foliage plants, attracts considerable attention from persons passing through Creek street.

That the shower of Wednesday afternoon, the 13th inst., had a particularly wild and threatening appearance, many timid persons believing that Portsmouth was to be scourged with a cyclone.

That the pleasure boats and sailing vessels caught outside were obliged for an hour to scud seaward under bare poles.

That a dense fog shut in after the shower, considerably impeding the return of these vessels—especially of the steamer City of Portsmouth, which was feeling her way through the rocks along the coast of York, having suffered the loss of her smokestack.

That the tales of the versatile and imaginative reporter of the *Times* nearly rival those of the celebrated Baron Munchausen.

That hardly a politician of note remained in Portsmouth on the 14th inst., those gentlemen being attracted to Concord by the senatorial fight in progress in that city.

That there is a wide difference between what these gentlemen think they can do for candidates, and what they do do.

That Messrs. Sise and Urch, aided by Kent of Lancaster, got the house of representatives to adopt a resolution extending the time in which new business can be introduced, to the fifth week of the session, instead of the third as heretofore.

That among the "Notices of bills" was one by Mr. Gardiner of this city, to incorporate the New Hampshire Odd Fellow's Home.

That in the various county conventions held on the 13th inst., Mr. Hadley of this city was chosen as chairman of the Rockingham convention, and Mr. Gardiner one of the auditors, and Col. Sise was chairman of the committee to whom was referred the report of the county commissioners.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufac turer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

HEART DISEASE

IS YOUR HEART SOUND?

Now people think themselves sick and doctor for kidney or liver trouble, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheesbrough, startingly says "one-third of my subjects have signs of heart disease." The heart receives about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves, a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as Dr. Graves' Heart Regulator and can be obtained at your druggists, $1, per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

Lydia E. Pinkham

LYDIA E. PINKHAM'S VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Bodily Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe it Freely.

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach. That feeling of bearing down, causing pain, weight and backache, is at every instance promptly cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will remove every impurity and stimulate the Blood, and give tone and strength to the system, of which it is a tonic. Try it and be convinced.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Depend a Good Deal on the Husband.

It took the ladies of the Michigan Women's Christian Temperance Union, in session at Adrian, a little while to get acquainted, but when the acquaintance was once formed it ripened fast.

"How do you give your name?" asked one lady of another as they removed their wraps at the door one morning.

"I have usually written it Mrs. James P. Jones."

"Did your mother name you 'James P?'" inquired the first speaker with considerable emphasis. "I will never call myself by my husband's name."

"Nor I," "Nor I," "Nor I," came from a number of bystanders.

The little woman appeared surprised to find herself so largely in the minority, but she finally found breath and courage to say:

"Well, I suppose it does make a difference what kind of a man the husband is."

Admiral John Randolph Tucker dropped dead at his residence in Petersburg, Va., on the night of the 12th inst., aged seventy-two years. He was in the United States navy many years. At the breaking out of the war he entered the confederate navy, and at its close entered the Peruvian navy, from which he resigned five years ago.

In Rockford, Ala., June 12th, a negro named Jordan Corbin entered the house of Benjamin Carden, and shot him, his wife and son. A daughter, fourteen years old, escaped and gave alarm. Scouting parties are hunting for the murderer, who when caught will probably have but a brief trial.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandellon, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

At Andover, Mass., June 12th, Rev. George Harris, late of Providence, R. I., was installed as Abbott professor of Christian theology.

Just Married.

How loving they are; this is always a sure sign. After the first year sometimes it don't hold good. When Charles comes home to you grouty and cross, snapping and snarling, unable to relish the nice dinner you have cooked, and as if there was a ton of pig iron in his stomach, he is troubled with dyspepsia, and Sulphur Bitters is the only medicine that will cure him.

"Birdie" Johnson, of Cheshire, Mass., is under arrest on suspicion of foul play in connection with the death of his half-brother, Dwight Johnson, whose body was found in a pond on the 12th inst.

Mrs. John Dennison, Durham, N. H., says: "Have used Brown's Iron Bitters and like them very much as a tonic."

The London *Standard* has a despatch from Shanghai, dated June 11th, which says the situation is becoming very serious. The Chinese troops are moving around the city. A very uneasy feeling prevails among foreigners with regard to the unprotected condition of the foreign settlements.

"My horse walked on his toes for a year," writes W. J. Tuckerman, the well known horse man, "his trouble was a *contraction of the cords*. Ellis's Spavin Cure cured him."

The star route jury on the 14th inst., at ten o'clock in the forenoon, brought in a verdict of not guilty.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they exert a wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like this present, when malarial and other epidemics are raging, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or can be sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address Dr. J. H. SCHENCK & SON, Philadelphia, Pa.

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $400,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

They didn't catch many fish, although they had a great deal of fun and got themselves wet all over when the log they had been sitting on rolled over and dropped them into the water. The biggest catch of the day was the severe cold they caught from not being properly dried when they came out. A summer cold is quite as dangerous as one in winter, but Perry Davis's Pain Killer is the sovereign remedy in case of either.

The "Pilgrim."

The flag-ship of the fleet of Fall River line steamers, known as the Iron Monarch of Long Island sound, made a trial trip on Thursday, the 14th inst., when President Choate of the Old Colony S. S. Co., with about five hundred invited guests, including Gov. Butler, Prest. of the Senate Crocker, Speaker Marden of the Massachusetts house of representatives, Congressman Morse, Mayor Palmer of Boston, and many members of the Massachusetts legislature, left Boston shortly after nine o'clock A. M., and on reaching Fall River went on board the Pilgrim. As the steamer left the wharf a salute was fired from the shore. The band of the 3d regiment furnished music, and the visitors proceeded at once to inspect and admire the magnificent steamer.

The length of this huge steamer is 390 feet over all, and 375 feet on the load-line; breadth of hull proper, fifty feet; breadth over guards, 87.6 feet; depth of hold, 18.6 feet; from floor to top of dome, sixty feet; tonnage 3500 registered tons, making her the largest inland steamboat in the world. Her normal speed will be twenty miles an hour.

Her motive power consists of a vertical beam engine, with a cylinder 110 inches in diameter; stroke of piston fourteen feet, working under a maximum steam pressure of fifty pounds to the square inch. She has twelve boilers made of steel, in "nests" of three each, making four separate structures, developing in all 5,500 horse-power. The main shafts are twenty-six inches in diameter in the journals; the paddle-wheels are forty-one feet in diameter, weighing eighty-five tons each without the shaft; the walking-beam weighs thirty-three tons, the cylinder thirty tons, bed-plate thirty tons, and the condenser sixty tons. The strain on the centre-pin of the walking-beam will be 625 tons. The entire steam machinery (with water in boilers) will weigh 1,363 tons.

The hull and machinery of the vessel were built by John Roach & Son, at Chester, Pa., and she was launched in July, 1882.

The vessel is built of iron, with two iron hulls, one inside the other, and so rigidly braced as to almost equal in strength a solid hull of a thickness equal to that of the space existing between the two. Between the two hulls there are ninety-six water-tight compartments; and in the inner hull, beneath the iron deck, seven, so that it is almost beyond the limits of all possibility for any known form of accident to sink the vessel. Twenty-five feet from her stem is the water-tight collision bulkhead; fifty feet abaft the stem is another bulkhead; and thirty feet forward of her stern is another bulkhead, all of iron. Her engines and boilers are enclosed in iron bulkheads, rendering it impossible for fire from boilers or kitchen to reach any other part of the boat. The introduction of electricity has reduced the chances of fire to the most infinitesimal point, there being no fire in any part of the vessel except in the boiler-room and kitchen. She is fitted with steam steering gear and steam windlass, and illuminated by electricity, for generating which she has separate engines; in the ship are 912 incandescent lights, aggregating a power of 11,400 candles. She has sleeping accommodations for 1400 passengers, and her fittings and furnishings are the finest in any passenger steamer afloat.

Newport having been reached after a pleasant trip, Mr. George Peirce, supervisor of steamers of the line, with his family, came on board, and the Pilgrim proceeded on her way down the bay. After being under way she was formally christened by Miss Annie M. Peirce, daughter of Supervisor Peirce, who went to the bow, and there holding in her hand a bottle gaily decked with red, white and blue ribbon, and filled with wine, said: "Wishing thee all success, long life and prosperous voyages, in the name of Neptune I christen thee 'Pilgrim.'" The steamer was going at full speed, and as the bottle was broken at the cutwater the wine was blown aft in the breeze, and several bystanders, including Manager Kendrick, received a sprinkling of the traditional fluid.

Lunch was served in the cabins and on the forward lower deck, which was decorated with flags. After a turn in the bay the boat returned to Newport, and the guests embarked on a special train for Boston, arriving at the Hub on the schedule time.

AROUND HOME.

A party of fifteen persons from New York went from this city to one of the York harbor boarding houses on Friday, by one of the stage coaches.

Two condemned cannons, donated by Congress for a soldiers' monument, were brought to the navy yard this week by the U. S. S. Tallapoosa. This vessel has been supplied with a new steam launch, built at this yard, to take the place of the one previously carried.

Men were engaged on Friday in taking out the battery of the U. S. S. Marion, at the navy yard.

The new screw for the U. S. S. Plymouth, which vessel is hauled up in ship house No. 5 at the navy yard, arrived here from the Washington yard on Thursday last, by the Tallapoosa.

The Biddeford *Times* tells the following story about Italian housekeeping: "We know little how our neighbors sometimes live, but the regimen of the Italian laborers on the Kennebunk railroad is quite apparent. Some twenty-five or more of them occupy a two-story dwelling near the residence of Mr. Geo. Emmons, and there is in the house neither bed, stove, table nor chair; the men, rolled up in a blanket, sleep on the grass or in the house as the rain or thermometer favors; their standing diet is bread and lard, though last Sunday they had a feast on sculpins and greens boiled over small holes dug in the ground."

The people of Limington are making extensive preparations for a grand reunion on the 4th of July, the "absent sons and daughters" having been invited to return on that day. Limington is one of the five towns in the northwesterly part of York county known as "the Ossipee towns," and is part of the territory sold by Capt. Sunday, an Indian sagamore, to Francis Small, Nov. 28th, 1668, lying between Great Ossipee river, Little Ossipee and Saco rivers. It was one of the earliest-settled inland towns in the state, and was incorporated by the Massachusetts legislature Feb. 9th, 1792.

There was launched at Kennebunkport on the 12th inst. by George Christenson a first-class fishing schooner of about 100 tons, ninety feet long, twenty-four feet beam and eight feet hold, built on contract for J. W. Sawyer & Co., of Portland, to be in charge of Capt. Orchard, late of schooner W. S. Sawyer. Mr. Christenson has commenced another schooner for Portland owners, to be finished as soon as possible.

When a citizen of Sault Ste. Marie, Mich., wishes to send a letter to a friend in the opposite village on the Canadian side of the river, he directs it, prepays the postage, and puts it in the postoffice on the American side; then, in order to reach the postoffice on the Canadian side, which is about one mile distant, the letter goes to Detroit through the United States mails, crosses from Detroit to Windsor, where it enters the Canadian mails, and is sent over Canadian routes back to the Sault, reaching the Canadian office there in about ten days from the time it started—ten days to go one mile. But when one is in a hurry he goes across the river himself and talks to the other fellow; he doesn't write.

Trials have begun in Paris of Marquis de Roys and seventeen other persons, who are charged with manslaughter, in that they despatched four old sailing vessels to the island of Port Breton, in the south Pacific ocean, with emigrants, most of whom died on the passage or after they arrived in Port Breton from hunger and disease. They are also charged with fraud in the sale of imaginary land in Port Breton.

Reunion of 1883.

PORTSMOUTH, June 13th, 1883.

In accordance with a vote passed by the General Committee on the Reunion of the Sons of Portsmouth, the absent sons and former citizens are hereby invited to be present at the Decennial Reunion to be holden in this city on the 4th of July.

The programme which has been adopted by the committee is as follows:

In the morning the customary ringing of bells, salutes, etc., and a parade of Antiques and Horribles, with prizes for the best hits, avoiding personalities, and for the worst looking teams, individuals, etc. At nine o'clock a procession will be formed, for participation in which they suggest that invitations be extended to the Officers of the Navy Yard, the Marines, Grand Army, Firemen, Cavalry, Masons, Odd Fellows, Knights of Pythias and other secret societies, to the Rockingham Bicycle Club, the survivors of the Independent Battalion, the Continentals and any others that may be thought of, also that the children of the public schools be invited to make a floral display, and that an industrial procession be arranged. After forming, the procession will proceed to receive the visitors either at Frenchman's lane or at the depot as may be necessary, and afterward will move over a short route that will be laid out hereafter.

In the afternoon a regatta, with rowing and sailing races, a marine bicycle race if practicable, tub race, etc., also, various athletic exercises or sports on the parade, including road bicycle races if a suitable track can be found or prepared. Band Concert on the parade in the early evening, and a promenade concert and reception in Franklin Hall, with brief literary exercises if desirable, and closing with dancing, and later with a grand display of fireworks. These will constitute a programme amply sufficient for the occasion, and the committee have no doubt of the entire practicability of carrying it out in good shape for the amount of money that will be forthcoming.

WALTER H. PAGE, *Sec. Gen. Com.*

PORTSMOUTH, June 12, 1883.

THE Committee on invitations are very anxious to have the addresses of absent sons and daughters of Portsmouth, as they desire that all shall receive an invitation if possible. While many who receive them will not be able to attend, yet it will gladden their hearts to know that they are not forgotten in the general rejoicing. A little attention to this matter on the part of each family will greatly assist the committee, and as the time is very limited it will be necessary to hand in the names at once to the Corresponding Secretary.

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

TAUNTON, MASS., Aug. 12, 1882.

C. I. HOOD & CO.: Gentlemen— * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.

I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send one by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.

Yours truly,
HOMER B. NASH.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

UNITED STATES CIRCUIT COURT.

Lowell Judge.

Friday Mr. Renwick's direct examination was resumed. Explained as to the device, and gave some information as to the claim of the patent and to the interpretation given to it. He testified that this claim was invalid, and gave several reasons therefor.

Direct examination closed at 10.20. Cross examined by L. Foster. Appointed principal examiner of applications for patent in 1848. Resigned in 1852. Duties of examiner detailed. Patent office library described and its object. Practice as to examining applications at time he was in office described. Didn't allow patents to slip through for my friends. Subject of "interference" explained and mode of practice in such cases illustated. Original patent of Knibbs shown and witness enquired as to changes that had been made on the drawing. I am able to say that the drawing contained a misrepresentation. I was once a draughtsman; the change explained to the jurors.

Mr. Foster enquired as to valve pumps as a wrong commentary upon certain kinds of mechanism; it was of technical intent only. The cross examination lasted but an hour.

On re-direct, the witness illustrated by the model the difference between the Knibbs and Bean pumps. The testimony on behalf of defence closed at 11.30 a. m.

The plff. recalled Mr. Hoadley, the first witness, and he was examined as to patent. His testimony related to the mechanical difference between the drawings in the patent and the description of the claim.

Deft. objected to an article written by witness and printed in the Boston *Advertiser*. Court said he could refer to the printed article to refresh his memory, if the article was a true copy of what he wrote, as to the trial of steam fire engines on Boston Common. He read the article last week and stated as to appliances on the engines; no force pumps for feeding boiler or engine. Reasons given for this statement.

Mr. Hoadley's direct re-examination continued until four P. M. Another model of pump was produced and explained. Cross examination. This model is a fair illustration of Knibbs' invention. Re-direct and cross-examination ensued, the opposing counsel evidently struggling to see on which side the evidence of the witness would preponderate.

James Knibbs. Lives in Troy, N. Y. Lived there in 1860. The engine which came to Troy from Manchester had no relief valve or pipe. Stated when he first thought of the necessity of opening gates at a fire. Began in a day or two, in latter part of April, to think of some process for remedying the defect. Talked it over with a friend now deceased, captain of the steamer of which I was engineer. Had to have permission of the Capt. to experiment on the engine. In 1861 I suggested the trial by putting the valve in the pump when a new engine, Jason C. Osgood, No. 3, was built by the Amoskeag Co. E. A. Straw and N. S. Bean came to Troy in reference to it. They had been there in September, 1860, at a steam fire engine trial where they had two engines representing; Mr. Furlong was also there. Bean and Furlong came to engine house, and saw my relief valve. Am under the impression that I explained the operation to Bean; am not positive. The Amoskeag Co. were to make engine with my valve in it, to the best of my knowledge. The J. C. Osgood arrived about the middle of January; experiments made in two or three days; the engine worked well; trials made to prove engine satisfactory, without builders' men being present. Engineers appointed for it in about a week. I did not see it often. Shown model. [Mr. Knibbs is to be re-called and cross-examined hereafter.]

Thos. Furlong, re-called. Testified as to delivery of steam fire engines when in employ of Amoskeag Co., and instructing others how to use them. Mr. Bean and Mr. Bachelder used to deliver; latter when I was away. Employed at Essex shop, Lawrence, when Mr. Bean was there in 1856. Essex shop made locomotive and stationary engines. Was at exhibition of steam fire engines in Boston, in Sept. '58. Pump shown in model is the same as was on the engine R. B. Reed at Troy; did not see pump on steamer J. C. Osgood after it was on the engine. Was Engineer of City of Lawrence in Boston from Jan. 1860. [Questions as to conversation of Bean, etc., objected to.]

Adjourned to 9:30 A. M. Saturday.

POLICE COURT--BATCHELDER, J.

FRIDAY, June 14th.

Charles Gilbert, charged with assault with intent to kill George Laskey, was held in $400 to answer to the charge at the October term of the Supreme court.

FIRE.

The alarm of fire, Friday forenoon, was caused by a blaze on the roof of the house on the corner of Middle and State streets, owned by Mr. B. F. Webster and occupied by Dr. D. W. Jones. The fire was probably caused by a spark from the chimney, and burned a hole through the roof, but was put out before the fire department arrived. The loss will not exceed $100.

BURGLARIES.

In Eliot on Thursday night last, a number of successful burglaries were perpetrated, all apparently by the same person or persons, entrance being effected by false keys or the "nippers racket." Owen Shapleigh had $52 stolen; at Alexander Shapleigh's house about $100 was captured; and George A. Hammond had $25 taken from a pocket-book which was in a pocket of his pantaloons, the pantaloons being in a chair within two feet of his bed. Partly burned matches were found in each of the houses robbed. It is reported that an unsuccessful attempt was made the same night to enter Mr. Samuel Fernald's house.

GOSSIPS SAY

That every room at the Rockingham was full on Thursday night last.

That passengers by the early Pullman train, Friday, had to be supplied with sofas and cots in the parlors.

That Thursday evening last was the most beautiful of the season, thus far.

That Special Agent Eldredge of the internal revenue service was in town on Friday, and inspected the several breweries and Ward's distillery.

That family excursions down river are quite the thing now-a-days.

That the wall enclosing the north burying-ground is being repaired, and the willows are being trimmed up.

That the alarm of fire on Friday morning was the noisest heard in this city for years.

That the inlets of some of the sewers should be looked to, after heavy showers, and the tops cleared of stranded debris thereon.

That the north pond is rehearsing for the return of the sons, and if it keeps on increasing in power will give them such a welcome as will make them glad to "return" the other way by the next train.

That persons who crossed the north millbridge on the night of the 13th inst. invariably put their hands to their noses, and many of them used language which we could not admit to our columns.

That Major L***** is practising daily, getting up his muscle and wind for the single-scull race on the 4th of July.

That the story that he takes a fifteen-mile spin each day is a Munchausenism; he only pulls twelve miles.

In the progressive evolution of mankind, nature, notwithstanding its kindly aspects toward him in some respects, in others has ever been his steady and determined antagonist, and nothing marks more clearly the upward progress made by man, than the effective ways in which he has met, conquered and subdued the adverse elements of his surroundings.—*Times, 14th inst.*

Yes, perhaps this is true. But is not our brother giving it to us in rather lofty *hifalutin*, and would not plain Saxon better inform us of what he is attempting to say?

At a meeting of Storer Post, G. A. R., held last Friday evening, it was unanimously voted to turn out on the 4th of July.

A large tank, to be used as a landing stage by the steamer James Sampson, has been built on the wharf near Broughton's lumber office.

Judge Nathan Webb, of the United States District court of Maine, has informed Judge Lowell of the Circuit court, now in session in this city, that the condition of his health may prevent his holding the June term of the court at Bangor. Judge Lowell has requested Hon. Daniel Clark, judge of the District court in this district, to be ready to hold the term in case Judge Webb is unable to be at Bangor on the 26th inst.

Col. Sise, who returned from Concord on Friday morning, expressed the opinion that neither Mr. Rollins nor Mr. Blair would be chosen senator. Col. Kent wore an anxious look. Postmaster Peirce does not seem better for his leave of absence. Collector Howard was not much inclined to talk. Col. Pender was much engrossed in bringing up his office work, which had accumulated during his necessary enforced absence. Inspector Salter and Deputy Collector Marshall seemed glad to be relieved by the return of the force, and the busy hum of the offices shew with what adaptability the officials were able to resume labor after an almost sleepless night at the capital, and a broadside from Gen. Marston.

The proceedings of the naval court martial held at the navy yard this week were sent to the navy department on the 14th inst.

The machinery of the U. S. S. Omaha is being rapidly put in; it is taken up the inclined plane built for the purpose of putting the boilers on board. Work in the department of construction and repair at the yard has been almost wholly suspended for the past three days.

The 14th annual commencement of the Robinson female seminary at Exeter took place on the 13th inst., and was largely attended. In the evening there was a reception and dance, with music by the Boston Cadet band.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

Skin Diseases

Fifteen years of Suffering.—Body covered with Humor.—Had Twelve Doctors.—Paid out $500.—No Cure.—No Hope.

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as Iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scab or trace of the disease left behind. He has now been cured 12 months.

Helpless for Eight Years.—Unable to Walk for One Year.—Got about on Hands and Knees.—A Wonderful Cure.

I have had a most wonderful cure of Salt Rheum. For seventeen years I suffered with Salt Rheum; I had it on my head, face, hands, arms, and legs. I was not able to walk, only on my hands and knees, for one year. I have not been able to help myself for eight years. I tried hundreds of remedies; not one had the least effect. The doctors said my case was incurable. So my parents tried everything that came along. I saw your advertisement, and concluded to try CUTICURA REMEDIES. The CUTICURA brought the humor to the surface of my skin. It would drop off as it came out, until now I am entirely well. All I can say is, I thank you most heartily for my cure. Any person who thinks this letter a fraud, let them write or come and see me, and find out for themselves. WILL McDONALD,
2542 Dearborn St., Chicago, Ill.

The Cuticura treatment, for the cure of Skin, Scalp and Blood Diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 35c.; Cuticura Shaving Soap, 15c. Sold by all druggists.

HEART DISEASE

IS YOUR HEART SOUND?

Your

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheesbrough, startlingly says "one-third of my patients show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting six day or night! Surely this subject should have careful attention. Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at prices, $2, per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

The Historical Society.

The annual meeting of the New Hampshire Historical society was called to order at the rooms of the organization in Concord on the 12th inst., the president, Ex-Governor Bell, in the chair. The treasurer's report showed $6,855.15 on hand. It was voted to have a field day this year at such time and place as the president may select. The following officers were elected:

President, Charles H. Bell; vice presidents, Jonathan E. Sargent, John M. Shirley; corresponding secretary, John J. Bell; recording secretary, Amos Hadley; treasurer, Samuel S. Kimball; librarian, Samuel C. Eastman; publishing committee, William L. Foster, John J. Bell, Moses T. Runnells; standing committee, Joseph B. Walker, Sylvester Dana, Joseph C. A. Hill; library committee, Amos Hadley, P. B. Cogswell, Samuel C. Eastman.

J. E. Sargent, John Kimball and Sylvester Dana were appointed a committee on a centennial record of the United States. Rev. Dr. Quint of Dover, Wm. H. Hackett of Portsmouth, and John T. Perry of Exeter, were appointed to secure certain papers now in possession of Mrs. Gerrish of Kittery, Me., relating to the early history of the state.

Several resident and corresponding members were elected, after which the meeting adjourned to reassemble at the representatives' hall at 7:30 P. M., to listen to an address by Hon. John M. Shirley of Andover, on the Early Jurisprudence of New Hampshire.

Mother Swan's Worm Syrup.

Infallible, tasteless, harmless, cathartic; for feverishness, restlessness, worms, constipation. 25c.

J. Hunter Collins and George Molox quarreled at Feliciana, La., on the 14th inst., and Hunter shot Molox dead.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling, Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

In Boston, June 14th, Henry McCall, aged twenty-eight years, attempted to kill his wife, inflicting a bad wound on her neck, and then cut his own throat, dying in a few minutes.

For one dime get a package of Diamond Dyes at the druggist's. They color anything the simplest and most desirable colors.

At Beaver Dam, N. C., June 14th, David Moss and M. Roberts fought a duel. Both were killed.

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence its phenomenal popularity.

Robert Lowe shot and killed Washington Brown near Brenham, Texas, June 14th.

Hood's Sarsaparilla is an extract of the best remedies of the vegetable kingdom known as alteratives, and blood-purifiers.

The Ohio prohibitionists held a state convention on the 14th inst., and nominated a full state ticket.

It seems impossible that a remedy made of Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

In London, on the 14th inst., the case against the dynamite conspirators was in the afternoon given to the jury, who in a short time returned to the court room and announced that they had found a verdict of guilty against Dr. Gallagher, Wilson, Whitehead and Curtin, and a verdict of not guilty in the case of Ansburgh and Bernard Gallagher. The four men found guilty were then sentenced to penal servitude for life. The finding of the jury in the case of the four convicted men was "Guilty on all the counts of the indictment." Dr. Gallagher protested his innocence. He said the time would come when the matter would be put right before the world.

Mrs. John Dennison, Durham, N. H., says: "Have used Brown's Iron Bitters and like them very much as a tonic."

Three children of W. Davis were crushed to death under a wagon bottom in Mathews county, Va., June 14th.

"My horse walked on his toes for a year," writes W. J. Tuckerman, the well known horse man, "his trouble was a *contraction of the cords.* Ellis's Spavin Cure cured him."

Henry Simmons, a wife murderer, was killed by a guard while attempting to escape from the penitentiary at Tallahassee, Fla., June 14th.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. They sels to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poison the blood and induce such diseases as Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in time the moment, when malarial and other epidemics are rife, as they prevent the system from resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent **free** to all. Address **Dr. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE

6 PER CENT GOLD BONDS

OF THE

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Beloit, 151 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $460,000 in bonds and $550,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass

In the United States district court at Austin, Tex., last Thursday, an opinion was rendered in a criminal prosecution under the civil rights act of Congress, of March, 1875, for a penalty of $500, for excluding Laura Evans from a ladies' car on the Houston & Texas Central railroad. Nineteen similar cases were also disposed of. The court held the law unconstitutional, and that the things alleged were cognizable by the state tribunals only.

KAHOKA, Mo., Feb. 9, 1880.

I purchased five bottles of your Hop Bitters of Bishop & Co. last fall, for my daughter, and am well pleased with the Bitters. They did her more good than all the medicine she had taken for six years. WM. T. MCCLURE.

The above is from a very reliable farmer, whose daughter was in poor health for seven or eight years, and could obtain no relief until she used Hop Bitters. She is now in as good health as any person in the country. We have a large sale, and they are making remarkable cures. W. H. BISHOP & Co.

A despatch from Wetumpka, Ala., states that the negro Jordan Corbin, who murdered Benjamin Carden, and seriously wounded his wife and son, for the purpose of outraging Carden's daughter, near Rockford, Coosa county, on Monday night of last week, was captured by citizens and put in jail on Wednesday. That night he was taken from the jail by a crowd of 500 persons, and hanged. The crime of Corbin was the most deliberate and horrible that can be conceived; he remained for an hour about the house, which was barricaded by the wounded wife with a bed in which lay her dead husband, who had been shot in the head while asleep, by a gun poked through a window. The daughter escaped to the woods. She was found almost dead from fright, and is not expected to live. The mother and son will recover.

Boats, Bicycles and Hay Fever.

Nature has resolved that all people shall not enjoy themselves at once. With the opening of the season of outdoor sports comes the time of trouble for the poor victims of Hay Fever. For them flowers have no odor, and the summer little or no beauty. To snuff, sneeze and wipe their weeping eyes for three or four successive months:—this is their pitiable portion. Whether this form of catarrh is called hay-fever, hay-cold, rose-cold or rose-fever, makes no difference; they suffer just the same. There is no help in high mountain air. These only lighten the pocket and leave the disease unabated. But there is a positive cure in Ely's Cream Balm. We could cram these columns with grateful letters of the rescued. Try it and join them. If you continue to suffer it is because you neglect a remedy as sure as it is cheap and pleasant.

Lyman W. Howe, a well-known resident, committed suicide at his home in Marlboro', Mass., June 15th, by cutting his throat with a pocket-knife. He then went to the window, leaned his head over the sill, and from exhaustion occasioned by the loss of blood, fell out to the ground.

Just Married.

How loving they are; this is always a sure sign. After the first year sometimes it don't hold good. When Charles comes home to you grouty and cross, snapping and snarling, unable to relish the nice dinner you have cooked, and as if there was a ton of pig iron in his stomach, he is troubled with dyspepsia, and Sulphur Bitters is the only medicine that will cure him.

A great many people feel themselves gradually failing. They don't know what is the matter, but they suffer from a combination of indescribable aches and pains, which each month seem to grow worse. The only sure remedy known that will counteract this feeling and restore perfect health is Brown's Iron Bitters. By rapid assimilation it purifies the blood, drives out disease, gives health and strength to every portion reached by the circulatory system, renews wasted tissues and restores robust health and strength.

PLAIN WORDS

Are Best to Express the Suffering so Long Endured by a most Excellent Lady, Mrs. G. Fisher, 20 Clark St., New Haven, Conn. Her Kind and Grateful Expression Towards the Means that Afforded Relief.

Facts clothed in plain words are best. Mrs. George Fisher lives in a pleasant cottage at 20 Clark St., New Haven, Conn. She says: "I was a terrible sufferer from Liver disease for a period of twelve years. My family physician told me that it was chronic inflammation of the Liver. I tried a great many remedies recommended for liver difficulties. I was under the physician's care a great deal, but could get no relief, until I began taking Dr. Kennedy's FAVORITE REMEDY. I experienced relief at once, and to-day I'm enjoying good health through the use of this. I had also been a great sufferer from rheumatism in my limbs and shoulders, but I have been *cured entirely* through the use of FAVORITE REMEDY. I consider Dr. Kennedy's FAVORITE REMEDY a most excellent medicine. I know of many in this city who have received great benefit from the use of FAVORITE REMEDY. It is, sir, a good medicine. I know it, for I've tried it."

Mrs. Fisher is a lady of character and means what she says.

Grateful patients are common. Dr. Kennedy is daily in receipt of letters from them expressing similar sentiments. These letters are spontaneous and put in all varieties of phraseology, but invariably setting forth one thing—the value of Kennedy's FAVORITE REMEDY for many forms of disease. It may be just the thing you have been looking for. Is your Liver disordered? Have you derangement of the Kidneys or Bladder associated with Constipation of the Bowels? If so, you want Kennedy's FAVORITE REMEDY. Dr. Kennedy practices medicine and surgery in all their branches. Write and state your case frankly. Letters promptly answered. Address Dr. *David* Kennedy, Rondout, N. Y.

"Thought The Child Would Die."

This is what the sisters of the Home for Catholic Children, in Boston, said about a poor little child who was racking itself almost to death with whooping cough. The child was suddenly taken with severe spasms and vomiting and with frightful pains in the head. The Sisters write: "We used Perry Davis's Pain Killer with the most astonishing results. In a few hours the disease was gone and the child was well."

Edward Conroy, night watchman at Thayer & Turner's lower mill in Ashuelot, was found dead outside the mill on the morning of the 14th inst. He is supposed to have fallen from an upper door. He was forty-five years old, and leaves a family.

Dr. W. B. Cummings, Sparta, Tenn., says: "I am strongly convinced of the efficacy of Brown's Iron Bitters and heartily recommend them."

AROUND HOME.

Seven hundred extra nice mackerel, brought in from the Shoals on Sunday last, were bought by Mr. James Kehoe, and are for sale at his stand near the Spring market.

The Roundabout club of Melrose, Mass., have their annual field day to-day, leaving Melrose at 8:15 A. M. by special cars on the express train, and arriving in this city at 10:15; an hour or more will be devoted to looking about the city, and the party will then embark on the steamer James Sampson for Kittery Point, where they will dine at the Pepperell house, and devote the afternoon to inspecting the Pepperell and Sparhawk mansions, the old church and the blockhouse, returning to this city in time to take the 5:15 P. M. train for home.

The annual report of the matron of the Chase Home for Children, for the year 1882, shows that the number of children admitted was twenty-four; returned to parents, four; died, one; present number, nineteen. The treasurer's report gives the sum of $1812.59 on hand and invested for repairs, improvements, etc. The report of the current expenses of the Home shows the receipts for that purpose to have been $1450.31; expenditures $1420.05; balance on hand, $30.26. The Home was begun as an experiment in January, 1877, with four children; during the six years of its existence, forty-nine children have been cared for. The majority have their board partially or wholly paid by parents or friends, about half the expense of the Home being met in this way. There are at present seven children for whom no board is received.

On Saturday last ten barns were tendered to the firemen's muster committee for the storage of engines and hose carriages during the three days of the muster; this is a good start, but many more buildings will be required.

Edgar Smith, of Stratham, was driving in North Hampton with a friend on the 10th inst. when a shower came up, and in attempting to drive under a shed the horse struck the side of the building and was instantly killed. Smith was thrown out, and badly shaken by the fall; the young man who was with him escaped with a few bruises. A day or two previous, Charles Gove, of Stratham, was thrown out of his team in Exeter by a collision, and was stunned, receiving a cut on the side of his head, and a number of severe bruises.

The Atlantic house at Hampton beach, C. E. Sleeper manager, will open June 21st.

The Eastern railroad's earnings for the first week in June exceeded those of the corresponding week of last year by $6000.

The diver employed on the ledge at Badger's island point reports the appearance there of a new kind of fish, about six inches in length, shaped like a trout, and entirely white except for a very small black streak running near the back fins. He has been unable to catch any of them either by hook or hand, but a few have been killed by the explosions of dualin, and brought to the surface by him; fish killed in this manner are considered unfit for eating, consequently he does not know whether they are valuable as food fish, or not.

C. A. Colby of Manchester, while returning to that place on Saturday from York beach, where he has been engaged in building a cottage, went into a saloon in this city and bought a glass of beer, and shortly afterward missed his pocket book, containing $108. The pocket book was found on Congress street by Mr. John E. Lear, clerk with Mr. H. M. Clark, who returned it to the owner, and received $5 reward.

St. John's Lodge, No. 1, of Masons has accepted an invitation from Rev. Mr. Hovey, rector of St. John's church, to attend divine service at St. John's on Sunday next, June 24th, that being St. John's day.

The Tallapoosa, which left the navy yard on Saturday for Washington and intermediate naval stations, carried with her a new steam launch built for the express use of the Hon. Secretary of the Navy when he hoists his flag upon the freight boat. In his annual tour of inspection as to the wants of stations, and the capacities of the various yards for building iron steamships of war and for repairs and refitting of Mr. Roach's steel cruisers, this launch will be found to be absolutely essential; and while there was nothing in the act of Congress expressly authorizing the construction of the "Cockroach,"—which is the name of the new launch, her appellation being derived from the fact that Contractor Roach is "cock-of-the-walk-over,"—there is a manifest display of wisdom in her being furnished for the secretary's use in his summer cruises north as well as his wintry voyages to the sunny south, and so we say, with the maxim "The king can do no wrong" upon our lips, "Success to the *Cockroach*."

The new floating stage for the steamer James Sampson's landing was put in place last Friday, just north of the navy yard landing.

Burglars entered the house of Samuel H. Hull, on Franklin street, Dover, last Friday night, and stole one gold and one silver watch, three diamond rings, and other articles, all valued at $650. Three other places were attempted to be entered, but the thieves were frightened away in each case. Saturday forenoon a man found lying in a shed, having in his possession some burglars' tools, was arrested, and made a partial confession; he gave the name of M. Sullivan, of Jersey City, N. J., and said he was one of a gang of five, who have for some weeks been operating in this vicinity. The gang is said to be a very skillful one, using chloroform in operating.

News and Notes.

The result of the star-route trials has not tended to cause respect for the majesty of the law, or to increase our reverence for trial by jury.

The firm of McGeoch, Everingham & Co., the heaviest dealers in lard and provisions on the Chicago board of trade, failed on Saturday, carrying down many other dealers and firms. The failure is said to be one of the worst that has ever occurred in the west, the firm's losses on lard alone being estimated all the way from $1,000,000 to $2,500,000.

Gray's opera house building on Chardon street, Boston, was burned Saturday, surrounding property being considerably damaged; loss estimated at $100,000.

In Durham, county of Sunderland, England, Saturday evening, a panic occurred among the children who had attended a conjuror's entertainment, and in their frantic efforts to escape down a narrow flight of stairs 178 of them were knocked down and suffocated or trampled to death.

The *New Hampshire Journal*, Congregationalist paper, has not yet completed its second year, but its success is such that the paper—large from the first—has been enlarged with the issue of June 15th. It now appears as an eight-page sheet, pasted at the back, and leaves cut. Each page contains six quite long columns. Rev. Dr. Spalding, of Manchester, is the editor. Terms $2 a year in advance.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. The summer arrangement of the Eastern and Maine Central railroads, commencing June 18th, marks a new departure in travel between Boston and the British maritime provinces, as it brings St. John, N. B., seven hours nearer Boston than ever before. This is done by what is called "The Flying Yankee" train, which leaves Boston at 1:30 o'clock P. M., this city at 3:15, Portland at five and Bangor at ten, arriving in St. John at 6:30 the next morning; that is, a passenger can leave Boston in a Pullman car at 1:30 P. M., and without change of train be in St. John, a distance of about 450 miles, in time for an early breakfast next day. Returning, the Flying Yankee will leave St. John at seven o'clock in the morning and Bangor at 2:05 P. M., and arrive in Boston at ten o'clock in the evening of the same day it started,—fifteen hours from St. John. Halifax and Boston are only twenty-eight hours apart under this arrangement; and Halifax and New York are only thirty-seven hours apart, allowing time for meals and transfers. At one time it was predicted that the steamship-sick passengers from Europe, on arriving at Halifax, would take the railroad to Boston and New York to escape the ocean. These fast trains will prove the correctness or otherwise of the prediction; it is certain that business men, to whom time is of value, will take the Flying Yankee.

Reunion of 1883.

PORTSMOUTH, June 13th, 1883.

In accordance with a vote passed by the General Committee on the Reunion of the Sons of Portsmouth, the absent sons and former citizens are hereby invited to be present at the Decennial Reunion to be holden in this city on the 4th of July.

The programme which has been adopted by the committee is as follows:

In the morning the customary ringing of bells, salutes, etc., and a parade of Antiques and Horribles, with prizes for the best hits, avoiding personalities, and for the worst looking teams, individuals, etc. At nine o'clock a procession will be formed, for participation in which they suggest that invitations be extended to the Officers of the Navy Yard, the Marines, Grand Army, Firemen, Cavalry, Masons, Odd Fellows, Knights of Pythias and other secret societies, to the Rockingham Bicycle Club, the survivors of the Independent Battalion, the Continentals and any others that may be thought of, also that the children of the public schools be invited to make a floral display, and that an industrial procession be arranged. After forming, the procession will proceed to receive the visitors either at Frenchman's lane or at the depot as may be necessary, and afterward will move over a short route that will be laid out hereafter.

In the afternoon a regatta, with rowing and sailing races, a marine bicycle race if practicable, tub race, etc., also, various athletic exercises or sports on the parade, including road bicycle races if a suitable track can be found or prepared. Band Concert on the parade in the early evening, and a promenade concert and reception in Franklin Hall, with brief literary exercises if desirable, and closing with dancing, and later with a grand display of fireworks. These will constitute a programme amply sufficient for the occasion, and the committee have no doubt of the entire practicability of carrying it out in good shape for the amount of money that will be forthcoming.

WALTER H. PAGE, *Sec. Gen. Com.*

PORTSMOUTH, June 12, 1883.

THE Committee on Invitations are very anxious to have the addresses of absent sons and daughters of Portsmouth, as they desire that all shall receive an invitation if possible. While many who receive these will not be able to attend, yet it will gladden their hearts to know that they are not forgotten in the general rejoicing. A little attention to this matter on the part of each family will greatly assist the committee, and as the time is very limited it will be necessary to hand in the names at once to the Corresponding Secretary.

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

RAYNHAM, MASS., Aug. 12, 1872.

C. I. HOOD & CO.: Gentlemen— * * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.

I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.

Yours truly,
HOMER B. NASH.

HOOD'S SARSAPARILLA

Is sold by all druggists. Price $1, or six large bottles for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

THE *Admiration* OF THE *WORLD.*

Mrs. S. A. Allen's WORLD'S

Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

UNITED STATES CIRCUIT COURT.

Lowell Judge.

Saturday June 16.

Mr. Furlong's testimony was resumed at 9.30, and concluded at 10.30 a. m.

Daniel W. Moore, of Manchester, employed by the Amoskeag Co. stated names of engines built by the company in 1859 and 1860. Amoskeag No. 1, was used at Manchester. Described the times at which the several engines were built. Remembered when Eagle No. 3 was built. Mr. Bean brought me a piece of work to do and said—(objected to by deft., as there was no foundation laid for contradicting Mr. Bean, by previous testimony to this point.) Ruled out. Witness stated why pipe was put on to steamer, Eagle No. 3. I made some of the fittings for this steamer by direction of Mr. Bean; don't know that he said why it was wanted.

Horace Nichols, Manchester, employed by Amoskeag Co. from 1859 to 1877. This witness' testimony was delivered in a low tone, and it is possible that the jury may have heard some of it. He testified as to a steam engine. The stenographers gathered under his chin, and here and there obtained some parts of his evidence, but the rest of the audience seemed to lose the benefit of his testimony.

An additional model, the Hartford pump was brought in.

John E. Ricker was recalled by pltf. Ran rotary engine in 1869, at Nashua, taken from Amoskeag shops. It was returned to the Amoskeag Co. after 1869. It had no pipe leading from suction pipe when returned. Used the pump 16 days pumping out pond, with four lines of hose attached to drain an ice house. Pressure 40 lbs. water, 70 lbs. steam.

Maverick, No. 9, described. Also method of running other machines. Never knew rotarys with single cylinder. A piston pump not tight in the barrel, is not a supposeable case. Rotarys have metal not leather packing and are liable to break. First engine built by Amoskeag Co. said to be Amoskeag, No. 1. Seen it operated with considerable length of hose. Had no such water supply in Manchester then as now; 1000 feet of hose used on engines. No relief pipe to my knowledge, though I didn't run engine, and couldn't say; no relief pipe put on to my knowledge up to 1870. Heard Hoadley asked as to excessive pressure; 101 lbs. is excessive; I am limited to 100, over that I consider excessive; 80 lbs. steam, 100 water, by special order of Board of Engineering; above that excess I should relieve it. Can run engine at 240 lbs; excess, to me, means above limitation set by my superiors.

Cross examined. Played Monarch No. 9 one line hose in Somerville at fire. Had 5 or 600 feet leading hose or more. This was in 1875. Think opening relief cock would reduce the pressure clear to the bottom. Do not set myself up as an expert. Cutting off two lines of hose would send up pressure one-third. The discussion of supposable cases between counsel for defendant and the witness was protracted. To a question put by witness to Mr. J. L. S. Roberts who was conducting the examination, Mr. Roberts naively remarked that he was not under cross examination.

Hose is much stronger now than formerly. Once when hose would not stand 150 lbs. pressure it was considered as unfit for service. Did not know what pressure hose would stand in '69. Have burst it at all the way up to 200. 120 I consider proper. Hydrant pressure will burst old hose.

Cross examination concluded at 1 o'clock.

The court cautioned the jury against conversing with any one pending the trial of the case.

THE 4th OF JULY.

The general committee held a meeting Friday evening. Several of the committees reported progress. The plans of action were perfected, and the several committees given instructions.

The secretary of the general committee was requested to give notice through the papers that a subscription paper can be found at Stavers' store for the benefit of those who had not already subscribed.

The committee on printing was instructed to prepare copy for a poster to be circulated about the surrounding towns, and present it at the next meeting.

The corresponding secretary stated that some 600 invitations had already been sent out, and that a large number of names were being received daily from those who desired to have their friends abroad come home.

It was reported that Commandant Wells had responded to the invitation, and the officers at the yard would accept. The fire department has also responded, and will appear in the procession with their machines.

The music committee reported that the Dover cornet band had been secured.

The chairman of the decoration committee reported that it had been thought advisable to ask the citizens living along the route of the procession to decorate their residences and places of business.

The chairman of the committee on floral display by the school children, reported that he thought a creditable display could be made, and he was requested to report at the next meeting, making an estimate of the expense.

The committee on fireworks reported that they had decided to expend about $500, and that negotiations were being made with the manufacturers for the display.

The matter of selecting a chief marshal, was referred to a committee composed of the chairmen of the several sub committees.

The committee on literary exercises have invited Albert Laighton, Esq., to write a welcome ode, which duty he has accepted. Mr. Henry C. Barnabee of Boston will read the same at the evening reception. Adjourned to Monday evening at 8 o'clock.—*Times.*

A RETURNED "SON."

The congregation at the Unitarian church on Sunday morning were gratified in listening to the singing of Mr. Henry Clay Barnabee, who is paying a visit to the scenes of his childhood. Mr. Barnabee's solo, "Palm branches," was admirably rendered, and in the hymns his deep, rich voice was heard, reminding his early associates of the time when he first appeared as one of the choir of the South Parish. Mr. Barnabee's song, no less than Mr. Gilman's allusion in his sermon, will doubtless encourage the ladies of the parish in their efforts to aid in securing a church choir.

Among the many Portsmouth boys who have gone from the old town none is more cordially welcomed home than is Mr. Barnabee. He has accomplished in music what Mr. Aldrich has in literature, and his reputation as an artiste in developing the grand and beautiful, no less than the humorous, in song, is world-wide. He has recently returned from a professional tour in the west, and employs his first spare hours in the filial enjoyment of a visit to his excellent mother.

SWEET REVENGE.

A lively fight is reported as having occurred in a grocery store on Water street one day last week. An elderly man, a Swede or Norwegian who follows the occupation of a fisherman, was in the store making some purchases, when a young man who has more than once been before the police court on charges of brawling, assault, etc., picked a quarrel with him, and undertook to administer corporal punishment. The old man did not approve of this, and a gallon jug which he held in his right hand suddenly described a circle in the air, and landing on the head of the assailant was broken into about seventy-five pieces, the molasses with which it was filled adding a deeper hue to the sunset color of the hair with which it got mixed, and making of the young fellow a sweet creature indeed. The handle of the jug remained in the old fisherman's hand, and with it he hit his antagonist two or three generous raps in the face, and probably would have hit him some more had he not effected a brilliant retreat. At a later hour in the day the old man was on Liberty bridge without any molasses jug in his hand, when the other party to the quarrel, having had the molasses washed out of his hair and the cuts in his face covered with sticking plaster, came up behind him, caught him by the neck with both hands, and would possibly have strangled him had not a third party interfered. A warrant for assault was sworn out against the young man and placed in the hands of the police, but he had suddenly departed from the city; he can remain away a good while without doing the city any harm.

FREIGHTS.

The engagements reported of vessels to this port last week were schooners from Hoboken with coal at $1.25 per ton; one to discharge at Dover at $1.15 net (discharged and towed;) one schooner from Rondout, N. Y., with cement at twenty-two cents per barrel.

It was Col. Sides who last week expressed the opinion that neither Mr. Rollins nor Mr. Blair would be elected to the United States senate, and not Col. Sise, as our types had it on Saturday morning.

Hon. Charles Levi Woodbury spent Sunday in Portsmouth.

The ordinance of baptism, by immersion, was administered at Noble's island on Sunday forenoon at nine o'clock to four converts, by Rev. Selden J. Gould, pastor of the Freewill Baptist church. The hand of fellowship was extended to the candidates at the close of the afternoon service in the church.

The consecration of Christ church will take place on Tuesday, July 3d, at eleven o'clock in the forenoon.

The advance made in telephone rates in this vicinity has induced many persons to conclude that the telephone is not indispensable to their convenience, above a fair price.

The *Times* states that Mr. Joseph A. Meloon, formerly of this city, has been appointed clerk and register of deeds of Clinton county, Dakota territory.

Hon. Chester Pike of the state senate spent Sunday in this city. He admits that matters are somewhat complicated at Concord.

Excursion tickets from Dover to Concordville, York beach, and return, via Portsmouth & Dover railroad and steamer City of Portsmouth, are now sold at the railroad station in Dover at $2 each; from Dover to Dover point and return, thirty cents; to this city and return, sixty cents.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents), worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

RODERICK ROSE, Vice-President,
Jamestown, Dakota.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifty editions, revised and enlarged, just published. It is a Standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample 4c cents. Sent now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the best ever issued work on Physiology ever published. The nothing what ever that the Boston Society may either require wish to know let what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

A NOTED BUT UNTITLED WOMAN

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be justifiably called the "Best Friend of Women," as some of her correspondents love to call her. She is seriously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a blessing for good and not evil purposes. I have personally investigated it and am satisfied of its truth-ability.

On account of its proven merits, it is recommended and prescribed by the best physicians in this country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, dizziness, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and lists fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose soft whisper is to do good to all.—

Dear Bitters—I am here trying to breathe in all the salt air of the ocean, and having been a sufferer for more than a year with a refractory liver, I was induced to mix Hop Bitters with the sea gale, and have found the tincture a glorious result. * * * I have been greatly helped by the Bitters, and am not afraid to say so. Yours without a struggle. JOSH BILLINGS.

The annual meeting of the New Hampshire Temperance Union convened in Concord on Thursday of last week. The forenoon session on Friday was devoted to the reception and consideration of reports of committees, and discussion of the organization. The following officers were elected for the ensuing year: President, Ex-Gov. Bell of Exeter; vice presidents, D. H. Goodell of Antrim, John Mason of Plymouth, T. P. Pierce of Nashua; secretary, J. A. Merrill of Nashua; treasurer, A. G. Fairbanks of Manchester; and an executive committee of fifteen persons.

Says the *Commercial*, of Bangor, Me.; "When the curtain was parted disclosing Mrs. Langtry standing on the pedestal as Galatea, a statue, there was a little buzz of admiration, but it did not quicken into anything like enthusiastic applause. Probably the general verdict of the coldly-critical audience of last evening would be that as a statue Mrs. Langtry was beautiful."

Many horses have *wind-galls*. Nathaniel Morse, of Pembroke, Mass., says: "I have used Ellis's Spavin Cure on my horse for wind-galls, *with perfect success*."

The *Giornale di Roma*, the Papal organ at Rome, remarks: "Has the holy see ever pretended to impose a policy on Ireland? Never! But let the Irish leaguers respect, as they say, the Roman theology. Now, Roman theology repudiates secret societies; it repudiates conspiracies; it repudiates those immoral pratices, known in Ireland under the name of boycotting, by which every individual suspected of simple obedience to the laws is persecuted, molested, held at a distance from all society, and interdicted even the use of things necessary to life."

Mrs. Mary F. Chamberlin, Washington, N. H., says: "I took Brown's Iron Bitters for dyspepsia and received great benefit."

—It is advice thrown away to the girl that has a beau, that going to bed early will improve her complexion.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address **Dr. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $640,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to strengthen it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution, and are richest in the Phosphates, while the starch and impure matter are eliminated. These Salts in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

William H. Beatty, a wealthy banker of Toronto, was asked one day recently to lend his four-in-hand to drive the Marquis of Lorne and the Princess Louise from their hotel to the race course. Mr. Beatty, who had two $1,000 bills in his hand, said; "Not much. I would sooner tear these notes up and throw them into the street than lend that party my four-in-hand."

Andrew Wormsley, a Pittsfield negro, was arrested Saturday night at Springfield, Mass., for rape on the ten-years-old white daughter of Dosity Cognac, a neighbor of the family whom he was visiting.

*."He that is discontented in one place will seldom be happy in another." People are constantly changing their homes from East to West and from North to South or *vice versa*, in search of a healthy State. If they would learn to be contented, and to use the celebrated Kidney-Wort when sick, they would be much better off. The whole system can be kept in a healthy state by this simple but effectual remedy.

The American mosquito has arrived in London, travelling in cargoes of grain, and the English papers note that women and children are almost blinded by the swellings that result from his bite. Europe is now agreed that the Cincinnati hog, the Colorado beetle and the big Jersey mosquito are not desirable visitors. When it is remembered, however, that from Europe we have the dude, the hand-organ man and the assisted emigrant it will no doubt appear to our justice-loving Trans-Atlantic cousins that a fair exchange of nuisances is no robbery.

Popularity is defined to be "the state of being suitable to or beloved by the people." This is an exact description of the esteem in which Dr. Graves' Heart Regulator is held. It is a peerless, pleasant, popular and certain cure for heart disease, nervousness and sleeplessness.

Over 2,000 people met in Chicago last Saturday night and listened to speeches rebuking the pope. The series of resolutions adopted, while directed at his holiness, did not use his name, but some of the speakers did, and rather freely.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

A despatch from Bustamente, Mexico, says that Thursday night a train from Monterey ran over the body of a Mexican lying on the track. An armed force of Mexicans arrested and lodged in jail all hands of the next train that passed. Another train reached the station Saturday morning. It was run on a side track and has not yet been released.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or refunded—Internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

The Portland *Advertiser* says "Of all war memories that of General Butler's rule must be most lasting with the people of New Orleans, and it is probable twenty years have not extinguished their fierce hatred of the man. Yet some of them have come to regard him with less aversion than formerly, judging from the reception which the Continental Guards of New Orleans gave his welcoming speech at a dinner in Boston last evening. Time works a wonder when 'Beast' Butler is beheld in Faneuil hall welcoming a representative organization from the Crescent City."

A great many people feel themselves gradually failing. They don't know what is the matter, but they suffer from a combination of indescribable aches and pains, which each month seem to grow worse. The only sure remedy known that will counteract this feeling and restore perfect health is Brown's Iron Bitters. By rapid assimilation it purifies the blood, drives out disease, gives health and strength to every portion reached by the circulatory system, renews wasted tissues and restores robust health and strength.

PLAIN WORDS

Are Best to Express the Suffering so Long Endured by a most Excellent Lady, Mrs. G. Fisher, 29 Clark St., New Haven, Conn., Her Kind and Grateful Expression Towards the Means that Afforded Relief.

Facts clothed in plain words are best. Mrs. George Fisher lives in a pleasant cottage at 29 Clark St., New Haven, Conn. She says: "I was a terrible sufferer from Liver disease for a period of twelve years. My family physician told me that it was chronic inflammation of the Liver. I tried a great many remedies recommended for liver difficulties. I was under the physician's care a great deal, but could get no relief, until I began taking Dr. Kennedy's FAVORITE REMEDY. I experienced relief at once, and to-day I'm enjoying good health through the use of this. I had also been a great sufferer from rheumatism in my limbs and shoulders, but I have been *cured entirely* through the use of FAVORITE REMEDY. I consider Dr. Kennedy's FAVORITE REMEDY a most excellent medicine. I know of many in this city who have received great benefit from the use of FAVORITE REMEDY. It is, sir, a good medicine. I know it, for I've tried it."

Mrs. Fisher is a lady of character and means what she says.

Grateful patients are common. Dr. Kennedy is daily in receipt of letters from them expressing similar sentiments. These letters are spontaneous and put in all varieties of phraseology, but invariably setting forth one thing—the value of Kennedy's FAVORITE REMEDY for many forms of disease. It may be just the thing you have been looking for. Is your Liver disordered? Have you derangement of the Kidneys or Bladder associated with Constipation of the Bowels? If so, you want Kennedy's FAVORITE REMEDY. Dr. Kennedy practices medicine and surgery in all their branches. Write and state your case frankly. Letters promptly answered. Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

☞ "Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, late Commissioner of Patents.

BOSTON, October 10, 1870.

R. H. EDDY, Esq.—*Dear Sir*, You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

BOSTON, January 1, 1883. eodly

A VETERAN BENEFACTOR.

His Past Life, Present Plans, and What He Has to Say Upon a Subject That Astonished Him.

(New York Times.)

Nearly forty years ago a young man, of unusual endowments, began to mould public opinion upon a subject of vital importance. Like all pioneers, his early efforts were unsuccessful, but his ability and the value of his work soon won public confidence, and to-day there is not a village or hamlet in the country that has not been influenced by Dr. Dio Lewis. When, therefore, it was learned yesterday that he contemplated the establishment of a large magazine in this city, the fact was deemed so important that a representative of this paper was commissioned to see him and ascertain the truth of the rumor.

Dr. Dio Lewis is a gentleman of sixty years and two hundred pounds, with snow-white hair and beard, but probably the most perfect picture of health and vigor in the metropolis. He is a living exponent of his teachings, and notwithstanding the amount of work he has already done, promises still greater activity for years to come. He received the interviewer most courteously, and in reply to a question said:

"It is true I have come to New York to establish a monthly magazine. I have come here for the same reason that I went to Boston 25 years ago. Then Boston was the best platform in the country from which to speak of education. New York has now become most hospitable to progressive thoughts, and especially so to movements on behalf of physical training.

"I have reason to know the great and abiding interest of the American people in this subject. They have come to realize that the future of our country pivots upon our physical vitality, and especially upon the vigor of our women. My new magazine will bear the title 'Dio Lewis's Monthly,' and be devoted to Sanitary and Social Science. I hope through its pages to inaugurate a new departure in hygiene."

"Have you not written several books on the subject?"

"Yes, nine volumes, and some of them like 'Our Girls,' published by the Harpers, have had an enormous circulation, but the best work of my life I shall give the world in the new magazine. Forty years of skirmishing ought to conclude with ten years of organized warfare."

"Doctor, what is the occasion of this new interest in health questions?"

"It has come through suffering, which seems the only road to self knowledge. The stomach, heart, kidneys or liver fall into trouble, happiness is gone, and then people give attention to their health."

"Which of these organs is most frequently the victim of our errors?" asked the Reporter.

"Within the last few years diseases of the kidneys have greatly multiplied. When I was engaged in practice, thirty-five and forty years ago, serious disease of the kidneys was rare; but now distressingly frequent and fatal."

"To what do you attribute this great increase of kidney troubles?"

"To the use of stimulating drinks, adulterated food and irregular habits of life."

"Doctor, have you any confidence in the remedy of which we hear so much now-a-days, 'Warner's Safe Cure?'"

"I believe in the ounce of prevention, rather than in a ton of cure."

"But have you noticed the remarkable testimonials of Warner's remedy?"

"I have, and confess that they have puzzled and astonished me. The commendation of proprietary medicines usually come from unknown persons residing in back counties. But I see in our most reputable newspapers the warmest praise of Warner's Safe Cure from College Professors, respectable physicians, and other persons of high intelligence and character. To thrust such testimony aside may be professional, but it is unmanly. No physician can forget that valuable additions to our *Materia Medica* have sprung from just such sources. I was so impressed with this cloud of witnesses that I purchased some bottles of Warner's Safe Cure at a neighboring drug store, and analyzed one of them to see if it contained anything poisonous. Then I took three of the prescribed doses at once, and found there was nothing injurious in it. I do not hesitate to say that if I found my kidneys in serious trouble, I should use this remedy, because of the hopelessness of all ordinary treatment, and because when a hundred intelligent and reputable persons unite in the statement that a certain remedy has cured them of a grave malady, I choose to believe that they speak the truth.

"But as you may know, my great interest in life lies in a prevention. For forty years I have labored in this field. One of the phases of my work in New England was the establishment of the Ladies' seminary at Lexington, Mass. My aim was to illustrate the possibility in the physical training of girls during their school life. The institution became before I left it, the largest and most successful Seminary for young women owned and managed by one person, in our country. I sat down to dinner every day with a family of two hundred persons. The remarkable results of this muscle training among girls, were given in my paper published in the *North American Review* of December, 1882.

"Besides, I established the Normal Institute for Physical Training in Boston, and for ten years was its President and Manager. Dr. Walter Channing, Dr. Thomas Hoskins, Professor Leonard, and others were among its teachers, and more than four hundred persons took its diploma and went out in all parts of the land to teach the new school of gymnastics. And now the years left to me I propose to devote to the magazine which I have come here to establish. It will be the largest periodical ever devoted to this field of literature, and will present the hundred and one questions of hygiene with the simplicity of a child's talk. To this end all so-called learning will be subordinated. The magazine will be more or less illustrated, and will strive to reach a high place in the confidence and hearts of the people. In a few weeks our first number will appear, and we shall fondly hope for it a hearty welcome."

The facts above narrated are indeed most important. It is gratifying to know that the life long experience of a gentleman who stands without a peer in successfully demonstrating the principles of hygiene; whose heart has always been in sympathy with the afflicted, and whose brain has ever been active in planning for their relief, are to be given to the public through the pages of a magazine. And it is specially significant and proof positive of rare merit that a proprietary medicine, even with such high standing as Warner's Safe Cure is known to have, should be endorsed and recommended by a man so able, so reputable and of such national renown as Dr. Dio Lewis.

AROUND HOME.

The Roundabout club of Melrose, Mass., numbering with ladies and guests about seventy-five persons, arrived in this city by the forenoon train over the Concord railroad on Monday, having left the Boston & Maine road at Newmarket junction. An hour or more was spent in visiting St. John's church, the Langdon mansion on Pleasant street and the old cemetery at the Point of Graves, after which the party proceeded to Kittery Point in the steamer James Sampson, dined at the Pepperell house, and passed the afternoon inspecting the objects of interest in the vicinity, returning to this city in time to take the evening train for Boston.

"Wildy" Murphy called at the house of James Rutledge, on Bridge street, Sunday afternoon, and remarking that he would "like to be sent up for about four months," proceeded to give Rutledge a severe beating. He then suggested that he might as well make it six months, and proceeded to use vilely insulting language to Mrs. Rutledge. After earning his six months he ran off, on word being given that the police were coming.

The lobster smack Addie & Hattie arrived from the eastward on Sunday, bringing in between 4000 and 5000 lobsters.

John H. Slater on the 18th inst. received from Eliot twelve boxes of strawberries— the first strawberries of local production brought into the market this year. One of the berries measured 4 1-2 inches in circumference.

While Mr. Samuel Welch and wife, of Great Falls, were visiting relatives in Newington recently, their only child, a daughter about two years old, fell into an open cellar-way and struck her head against the masonry, cutting a deep gash about two inches long in her forehead. Dr. Hall was called to dress the wound, and found no bones broken; and though the shock was a severe one, the child will probably recover.

At the first annual meeting of the stockholders of the Livingston Fire & Marine Escape company, held at the Rockingham house in this city on Monday, June 4th, for organization and election of officers for the ensuing year, John Conway, Jr., was elected president, Chas. H. Hall vice-president, Wm. F. Ashton treasurer, and H. A. Tarlton secretary. The board of directors elected at the same time and place were J. Conway, Jr., Chas. H. Hall, Louis Livingston, Wm. F. Ashton and W. V. Hingman.

At the annual meeting of the trustees of the Bronx Wool & Leather Co., of New York, held last week, Mr. Daniel E. Broderick was unanimously elected treasurer and secretary of the company, receiving one more vote than did the president of the company, who was re-elected. There are on the board of trustees four bank officers, two heavy leather-dealers, and one of the largest wool-brokers in Boston; and Mr. Broderick may well feel gratified at the evidence of their entire confidence in his ability and integrity, as shown by their voting him into a position of trust and responsibility such as is more generally filled by older men. Mr. Broderick is a native of this city, and a son of Mr. John Broderick; he was graduated from the Portsmouth high school in 1878, and shortly afterward entered the service of the Bronx company, going first to their factory on the Bronx river at West Farms, N. Y., and by the efficient and intelligent performance of his duties winning his way step by step to his present position.

The Pepperell house at Kittery Point went into commission on Monday, the 18th inst., hoisting on the new flagstaff seventy-five feet high, standing in front of the house, a new flag twenty-five feet long. The Roundabout club of Melrose, numbering with ladies and invited guests about seventy-five persons, dined there that day.

The schooner Golden Gate went on the marine railway at Kittery on the 18th inst.

A gondola-load of rocks was taken from Gangway rock to Neal's wharf in Kittery on Friday of last week.

A lot of rifle shells are being sent from the navy yard to Washington.

GOSSIPS SAY

That the menhaden have struck in along the coast, and the wolrs at the mouth of the harbor are catching many of this bony fish.

That Samuel Jennison, Esq., of Boston, is on a visit to his recently-purchased farm at Gerrish's island.

That Major Urch has been elected clerk of the legislative committee on banks and banking institutions.

That the Portsmouth shoe factory is in want of more cutters.

That one of the finest pieces of carved marble work ever turned out in this city is being made at the shop of Mayor Treat, consisting of a Greek cross entwined with a wreath of calla lilies, over which is a dove with expanded wings, the memorial being destined to mark the resting place of the recently deceased son of Mr. C. M. Gignoux.

That a letter dated Las Vegas, New Mexico, was received in this city on Monday from Dr. Whittier and Mr. Davis, stating that they were about starting for the "mica camp" in that territory, having thoroughly examined the mines on Snake river, Idaho, and been more than satisfied with their investigations.

That in accordance with a suggestion of "Gossip's" a few days since, a new foundation for the railing of the north millbridge is being laid.

That the Kearsarge mill lot is being cleared up, preparatory to the erection of the Portsmouth Machine shop.

That petitions to the legislature, asking a change in the school law, will be circulated about town for signatures to-day.

That there will be another hegira of politicians to Concord to-day.

That it will be a battle of giants—but giants do not always win.

So far from being unemployed, homesick, and intending to shortly return home, as he was reported in a recent letter from St. Paul, Minn., to be., Mr. Joseph E. Amazeen, who went west from this city some months ago, has been at work ever since his arrival in Minnesota, at Lake Calhoun, not far from St. Paul; he is and has always been too busy to be homesick, and does not think of returning to Portsmouth, even on a visit, for many years yet.

"Thought The Child Would Die."

This is what the sisters of the Home for Catholic Children, in Boston, said about a poor little child who was racking itself almost to death with whooping cough. The child was suddenly taken with severe spasms and vomiting, and with frightful pains in the head. The Sisters write: "We used Perry Davis's Pain Killer with the most astonishing results. In a few hours the disease was gone and the child was well."

Rev. Lane Borden, president of the Mansfield (La.) Female college, was killed by Rev. Benjamin Jenkins, Jr., Saturday. Borden had seduced a young lady friend of Jenkins.

"Get up like a man, and take care of yourself." Get a bottle of Wheat Bitters, it will make a new man of you, no matter what your trouble may be. No such remedy was ever before offered to the public. $1.

In Rushville, Ind., last Friday night, Joe Bevor, a farmer, was shot dead by Jim Story, a hard character. The trouble was over a woman.

Dr. W. B. Cummings, Sparta, Tenn., says: "I am strongly convinced of the efficacy of Brown's Iron Bitters and heartily recommend them."

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

BURNHAM, MASS., AUG. 12, 1882.

C. I. HOOD & CO.: Gentlemen— * * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.
I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

PITTSFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.
Yours truly,
HOMER B. NASH.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

UNITED STATES CIRCUIT COURT.

Lowell Judge.

Norton et als. vs. City of Dover, continued.

Monday, June 18.—Court came in at 11 a. m.—Mr. John S. Ricker, plaintiff's witness, re-examined by Mr. J. Foster. Piston pump must be kept tight and in perfect order to run properly; explained operation of this character.

Cross-examined as to his experience on rotary pumps. Had seen none except old pumps; packing in piston pump will run according to use; such as leather as Amoskeag furnished, would last two or three years.

W. A. Chapman, now foreman machinist in U. S. navy yard, Boston, examined as to the models of the pumps; examined as to exhibit A., steam fire engine, and defendant's exhibit B. They represent same style of engine, but have different fittings; difference pointed out to court and jury.

Cross-examined; water relieved by the relief valve is excessive water; it passes to the suction pipe.

Adjourned to 3 o'clock.

Albion H. Lowell, Manchester, iron founder. Has been employed by the Amoskeag Co. Company commenced manufacturing steam fire engines in 1859. First piston pump built by Co. was on engine J. C. Osgood having the return valve. Patterns used were the R. B. Reed engines; partition between suction and discharge valves. All piston engines after that so made. Have been connected with Manchester fire department; pipes put in under my direction. Cross examined. Number of Osgood engine I do not remember. Have made moulds for casting for single pump.

S. C. Forsaith of Manchester. Enquired of as to his knowledge of piston pumps. Shown pump which came from engine No. 3, now in his yard at Manchester. Cross examined as to the workings of pumps on steam fire engines. A rotary pump is not as good as a plunger pump; will not do the work as well. Mr. Norton owns part of the engine. Enquired if he is to share in the results of this case. Replied that he had a contingent interest in getting his pay for the trouble he had been to in connection with the engine. Had conversation with Mr. Ray about case; don't think I said I could get a settlement of the case with Ray; don't remember if I told him I represented Mr. Norton. Never manufactured steam fire engine pumps. Rotary pumps are still used to a large extent to-day. I went into Mr. Ray's office when I was at Concord on my own business.

Thos. H. Beto, Philadelphia. Dealer in fire supplies. Been connected with fire departments of Philadelphia and New York; been engineer and first assistant. Philadelphia companies in volunteer dept. received $2000 each from the city annually, and owned their engines. Described the various engines in use in Philadelphia, forty-two in all, made by different builders. Had steam fire engine on the brain. Studied out each as fast as they were made at the time. Have had a model built here by a carpenter since the trial began, to represent Philadelphia Hose Co. pump as it was, and now is. Model explained, and difference in distance in water thrown by the Philadelphia demonstrated. Knibbs' valve put on engine in about 1865. Amoskeag engines first had it. I took it in at once. Described the valve and its operation. Model of valve shown witness, who said it was precisely the same. The witness seemed to show great familiarity with workings of engines, with a great faculty for describing it.

Cross examined. Have called this a relief pipe not before 1860; right sure of it. Don't think I ever wrote it. Letter shown is my letter, speaking of "relief valve;" *is* my letter dated Feb. 17, 1883. Press copy shown witness; original received. Letter read, from J. L. S. Roberts to witness. That is what he answered, and my reply. Witness said that these engineers did not know of any relief valve. I mean to say it is not now true. I said the part of letter is not true. [The examination at this stage seemed to be quite interesting. The court said counsel did not comment upon the testimony.] Letter from J. L. Roberts & Bro. read. I wrote it, and the sentiments contained therein he now means. Letter is read dated March 10, 1883. In this he suggests that Roberts forward a check, and he would furnish all the evidence that was to be had. The witness here advertised his business, and stated that his time was of value and he meant to be paid for when he went around among the fire-people on the business of other parties. He had spent too much time in this business without pay. Letter of March 15th received and the reply read. Witness allowed that he did not go back on that letter either. Don't take no stock in lawyers or their promises. No recollection of receiving anything; was full of promises; was told by J. L. S. Roberts I would be paid, but told him I had no bill. I meant that if deft. wanted me as their agent I would have kept the engineer of the Reed away from the others. That is, they should be treated as I was in Providence the other day, "coldly." Witness explained the process. Witness refused to say that he did not find that he was wanted for improper uses, and only to find evidence. Didn't ask for $250 as a retainer, and $500 to disburse. Never asked for a dollar, or said that I should want $250. Told him Rankin would want $100, and I should want $200. I called a meeting at my office, and told J. L. S. Roberts what the engineers wanted. I got no money at all. Letter of April 12, 1883, shown. It is written to N. S. Bean, and states "if Roberts loses his case that they have not sent the right man or the means." Wrote this to Mr. Bean, because I thought Roberts was the smallest rooster I ever met. He didn't draw water enough. He didn't know enough to ask the boys to take a drink. That is what I meant; $10 or $15 would buy many drinks for these Philadelphia fellows. Didn't tell Roberts when he refused me $250 on Chestnut street that "I would make it cost the cities d—d large sums," etc. I wanted $200. He was there fourteen days taking testimony, but he was through with me by his own mistake. Did not try to prevent witnesses not to come here to testify on behalf of the defendants in April last when testimony was taken. Have a sign in my shop, "It's no use to lie to the greatest liar in the country." Witness explained that when a fireman came into his office and began to tell big stories, he pointed up to the sign, and that was enough. Was first engineer of the Hope 5; Thompson and Alexander were not the first engineers, nor Jos. L. Parry; were not engineers in 1859. Could not get much pressure on Philadelphia.

Adjourned.

POLICE COURT.

MONDAY, June 18; *Bufford J.*

Frank Hartshorn, for drunkenness, was fined $3, with costs.

John P. Hale, a shoemaker from Haverhill, Mass., pleaded guilty to a charge of drunkenness, but was allowed to go on promising to leave town.

PORTSMOUTH MACHINE CO.

An adjourned meeting of this company was held on Monday evening, and the unfinished business of the first meeting was disposed of.

Mr. Nathan Whalley was chosen superintendent.

It was voted that the ell on the Kearsarge mill building be at once put in order for the reception of machinery; and contracts for the engine and other machinery were ordered to be made.

The plans for the machine shop are being made by Mr. H. A. Paul of this city.

The directors have voted an assessment of twenty-five per cent, payable on the 28th inst.

THE PISCATAQUA FLEET OF STEAMERS.

There are not many persons excepting those who are employed on the river, who are aware how extensive is the fleet of steamers employed on the Piscataqua and its tributaries during the summer months. The following is a list of their names, made from memory:

City of Portsmouth (York beach line,) James Sampson and Fearless (Kittery Point line,) Appledore and Pinafore (Isles of Shoals boats,) Clara Bateman, Naumkeag and Ann (tow boats,) Mystic (Portsmouth and Kittery passenger line, and towing,) Emerald, Leyden, and naval commandant's launch (United states steamers,) Three Brothers, Gypsey, Swan, and Lottie.

It was announced some time ago that the Naumkeag had been sold to go south, and that the Three Brothers was going to Salem, Mass., to run for the season; but no report has ever been made of the departure of either, so we put their names in the list.

Mr. William Locke is fitting up a steam cutter at Kittery Foreside, to be used for excursion parties during the summer; the name of the boat we have not got.

The steamer Mystic, Capt. "Rashe" Trefethen, looks gorgeous in the new war-paint she has taken on for the summer campaign. The name-boards on her bows beat anything else in that line displayed on the river. She is in first-class order, and having a bran-new boiler the fireman can "fire up the middle door" *ad lib.* without fear of being himself fired out through the side, or of sending the Sunday passenger further toward the skies than he can ever hope to get by his own endeavors.

The steamer Appledore made her first regular trip to the Shoals for this season, on Monday.

The Fearless made the regular trips to Newcastle and Kittery Point after ten o'clock Monday forenoon, the James Sampson being held to await the pleasure of the Roundabout club.

The City of Portsmouth made a trip on Monday, the damage caused to the smokestack by the young tornado which visited York last week having been repaired. The boat will commence her regular trips between this city and York on Friday, the 22d inst.

Nineteen years ago, on the 19th of June, 1864, the British cruiser Alabama, flying the confederate flag, was sent to the bottom of the ocean by the U. S. S. Kearsarge.

Major William B. Slack, quartermaster, and Major Augustus S. Nicholson, adjutant and inspector of the United States marine corps, paid an official visit to this navy yard on Monday of this week.

James R. Yeaton on Monday had for sale at his store on Congress street the first green peas raised in this vicinity which we have seen this season, being about ten days earlier than peas were brought in last year. These peas were raised by Mr. Yeaton at his place on Richards avenue, and were well filled out.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quantity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

Reunion of 1883.

PORTSMOUTH, June 18th, 1883.

In accordance with a vote passed by the General Committee on the Reunion of the Sons of Portsmouth, the absent sons and former citizens are hereby invited to be present at the Decennial Reunion to be holden in this city on the 4th of July.

WALTER H. PAGE, *Sec. Gen. Com.*

PORTSMOUTH, June 12, 1883.

THE Committee on invitations are very anxious to have the addresses of absent sons and daughters of Portsmouth, as they desire that all shall receive an invitation if possible. While many who receive them will not be able to attend, yet it will gladden their hearts to know that they are not forgotten in the general rejoicing. A little attention to this matter on the part of each family will greatly assist the committee, and as the time is very limited it will be necessary to hand in the names at once to the Corresponding Secretary.

HEART DISEASE

A NOTED BUT UNTITLED WOMAN

[From the Boston Globe.]

Mrs. Pinkham.

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a lifetime, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by leading physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach, It cures Bloating, Headache, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1 per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All most respect her as an Angel of Mercy whose soft ministrations to the sick and suffering are well known throughout the land.

Lydia E. Pinkham's Vegetable Compound is prepared at Lynn, Mass. Price $1. Six bottles for $5. Liver Pills, 25 cents per box. Sold by all druggists.

Josh Billings heard from.

NEWPORT, R. I., Aug. 11, 1880.

Dear Bitters—I am here trying to breathe in all the salt air of the ocean, and having been a sufferer for more than a year with a refractory liver, I was induced to mix Hop Bitters with the sea gale, and have found the tincture a glorious result. * * * I have been greatly helped by the Bitters, and am not afraid to say so. Yours without a struggle. JOSH BILLINGS.

A prize fight, short but sharp, was fought last Saturday afternoon in Collier township, Pa., between Tom Duffy, superintendant of the Cherry Hill mines, and Peter Murphy, a miner. Murphy was whipped and terribly punished. There were 800 spectators. The affair wound up in a riot.

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence its phenomenal popularity.

During a school exhibition at Sulphur Wells, Metcalf county, Kentucky, Marshal Henry Beauchamp asked J. B. Winfrey and J. Price to desist from making a disturbance. Winfrey and Price opened fire on Beauchamp, who returned it. McFarlane, a bystander, was shot dead. Beauchamp was mortally wounded, a Miss Phillipot was struck in the cheek, and a negro who lived at Sulphur Wells has not been heard from since the affray, and is supposed to be dead in the bushes where he hid. Winfrey escaped injury, but Price is said to be badly wounded. No arrests have been made. They have very lively school exhibitions in Kentucky.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. The sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, for they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, postpaid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address **Dr. J. H. SCHENCK & SON, Philadelphia, Pa.**

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $650.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and, see, when properly prepared, the most acceptable nutriments with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and a deficiency or weakness in it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by *fermentation* but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These take in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant in its taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is double effective when used with food, so as to nourish while it corrects.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

The notorious swindler, "Dr." Langley, whose recent arrest in Boston has occasioned much talk, is not unknown in Springfield, Mass. When the "doctor" got his agencies established, and while they were waiting for him to manufacture the bitters, he one day stole quietly away, taking about $2,500 as the result of his month's operations.

What's Saved Is Gained.

Workingmen will economize by employing Dr. Pierce's Medicines. His "Pleasant Purgative Pellets" and "Golden Medical Discovery" cleanse the blood and system thus preventing fevers and other serious diseases, and curing all scrofulous and other humors. Sold by druggists.

The tug Storm King, while last week towing the ship Mary L. Cushing from Newburyport to Philadelphia, fell in with the abandoned schooner Ephraim & Anna, loaded with 400 tons of coal for Boston, and towed her to Philadelphia. It was thought the vessel had been run into, and abandoned by her crew before they knew how much she was hurt; but a despatch of the 18th from Philadelphia intimates suspicion that the captain, Harvey, was murdered by the crew, and thrown overboard; where the crew are is not stated.

Boats, Bicycles and Hay Fever.

Nature has resolved that all people shall not enjoy themselves at once. With the opening of the season of outdoor sports comes the time of trouble for the poor victims of Hay Fever. For them flowers have no odor, and the summer little or no beauty. To snuff, sneeze and wipe their weeping eyes for three or four successive months:—this is their pitiable portion. Whether this form of catarrh is called hay-fever, hay-cold, rose-cold or rose-fever, makes no difference; they suffer just the same. There is no help in high mountain air. These only lighten the pocket and leave the disease unabated. But there is a positive cure in Ely's Cream Balm. We could cram these columns with grateful letters of the rescued. Try it and join them. If you continue to suffer it is because you neglect a remedy as sure as it is cheap and pleasant.

Boston celebrated Bunker Hill day on Monday of this week, and the *Post* of Tuesday remarked; "If Gen. Putnam had been as drunk at the battle of Bunker Hill as a good many were who celebrated the event yesterday, the British would have made a grand scoop. That is, allowing that the British were not drunk."

KAHOKA, Mo., Feb. 9, 1880.

I purchased five bottles of your Hop Bitters of Bishop & Co. last fall, for my daughter, and am well pleased with the Bitters. They did her more good than all the medicine she had taken for six years. WM. T. MCCLURE.

The above is from a very reliable farmer, whose daughter was in poor health for seven or eight years, and could obtain no relief until she used Hop Bitters. She is now in as good health as any person in the country. We have a large sale, and they are making remarkable cures. W. H. BISHOP & Co.

A Tallahassee, Fla., despatch says: Near Harmony Baptist church the wives of George Anderson and Cato Wade quarrelled about a cup of salt. The husbands took the quarrel up and settled it with shotguns, both firing at the same time. Anderson was shot dead instantly, and Wade died a few hours afterward. Both were shot through the bodies.

The Yantic, which sailed from New York for Halifax last week to accompany the chartered steamer Proteus on the Greely relief expedition, before starting had her battery removed from off her deck, and her bow and sides sheathed with iron; but even now she is considered a poor vessel for facing the ice of the Greenland seas.

CLEAR HEAD and voice, easy breathing, sweet breath, perfect smell, taste and hearing, no cough, no distress. These are conditions brought about in catarrh by the use of Sandford's Radical Cure. Complete treatment for $1.

Capt. Henry Erben, ordered to proceed to the Pacific station and take command of the Pensacola, *vice* Capt. Joseph Fyffe, invalided home, is instructed to bring the vessel to Norfolk, Va., via the Cape of Good Hope.

Chief Engineer William H. Shock, chief of the bureau of steam engineering, went on the retired list June 15th. Among those prominently mentioned for the position made vacant are Chief Engineers B. F. Garvin, Charles H. Loring and Edward D. Robie.

A great many people feel themselves gradually failing. They don't know what is the matter, but they suffer from a combination of indescribable aches and pains, which each month seem to grow worse. The only sure remedy known that will counteract this feeling and restore perfect health is Brown's Iron Bitters. By rapid assimilation it purifies the blood, drives out disease, gives health and strength to every portion reached by the circulatory system, renews wasted tissues and restores robust health and strength.

A board consisting of Pay Directors Looker, Murray and Eldredge convened at the navy department on the 16th inst., to examine Pay Inspector Wm. W. Williams for promotion to pay director.

THOSE WOMEN FOLK.

How Hard-Headed Men Estimate Some Things which they don't understand.

Anybody who has led a domestic life knows how common such things as the backache, and pains in the chest, are among the women who do the work. Often—and perhaps generally—the distresses are borne without much complaint. The women get about, and the machinery of the house goes on. Beyond this, those coarse-grained animals whom New England women call "the men folks," seldom look. So long as their wives or daughters are not actually in bed, under the doctor's care, the average thick-skinned husband and father gives the subject no attention. At the same time the poor household drudges—who deserve a better fate—creep around, broom or mandle in hand, up stairs and out-of-doors, doing that woman's work, which "is never done." Losses of loved wives and fair girls—losses whose suddenness and unexpectedness astonish those wooden-pated husbands and fathers—fall, seemingly out of a clear sky, and form the logical sequel to the story of neglect.

Now, you men who stand at the heads of ten thousand such homes, allow us to drop a word in your receptive ears. If these women of yours are worth having, they are worth saving. That back-ache—that pain in the chest! What are they but indications of some organic trouble of the kidneys, heart and lungs? End it at once by the application of Benson's Capcine Porous Plaster. It will soothe that nervous distress, drive away that pain, banish that dull, weary back-ache, give new strength to the body and fresh hope to the heart. No other plasters will do this. The Benson's Plaster, however, is not made to sell—but to heal. It is a remedy which never yet broke its promise—and never will.

Your druggist has it. But before paying your 25 cents and putting the plaster in your pocket, look for the word Capcine cut in the middle.

PLAIN WORDS

Are Best to Express the Suffering so Long Endured by a most Excellent Lady, Mrs. G. Fisher, 29 Clark St., New Haven, Conn. Her Kind and Grateful Expression Towards the Means that Afforded Relief.

Facts clothed in plain words are best. Mrs. George Fisher lives in a pleasant cottage at 29 Clark St., New Haven, Conn. She says: "I was a terrible sufferer from Liver disease for a period of twelve years. My family physician told me that it was chronic inflammation of the Liver. I tried a great many remedies recommended for liver difficulties. I was under the physician's care a great deal, but could get no relief, until I began taking Dr. Kennedy's FAVORITE REMEDY. I experienced relief at once, and to-day I'm enjoying good health through the use of this. I had also been a great sufferer from rheumatism in my limbs and shoulders, but I have been *cured entirely* through the use of FAVORITE REMEDY. I consider Dr. Kennedy's FAVORITE REMEDY a most excellent medicine. I know of many in this city who have received great benefit from the use of FAVORITE REMEDY. It is, sir, a good medicine. I know it, for I've tried it."

Mrs. Fisher is a lady of character and means what she says.

Grateful patients are common. Dr. Kennedy is daily in receipt of letters from them expressing similar sentiments. These letters are spontaneous and put in all varieties of phraseology, but invariably setting forth one thing—the value of Kennedy's FAVORITE REMEDY for many forms of disease. It may be just the thing you have been looking for. Is your Liver disordered? Have you derangement of the Kidneys or Bladder associated with Constipation of the Bowels? If so, you want Kennedy's FAVORITE REMEDY. Dr. Kennedy practices medicine and surgery in all their branches. Write and state your case frankly. Letters promptly answered. Address Dr. *David* Kennedy, Rondout, N. Y.

"Thought The Child Would Die."

This is what the sisters of the Home for Catholic Children, in Boston, said about a poor little child who was racking itself almost to death with whooping cough. The child was suddenly taken with severe spasms and vomiting and with frightful pains in the head. The Sisters write: "We used Perry Davis's Pain Killer with the most astonishing results. In a few hours the disease was gone and the child was well."

UNITED STATES CIRCUIT COURT.

Lowell Judge.

Norton et als. vs. City of Dover, continued.

Tuesday, June 19.

Mr. Pete's direct examination resumed to-day. Mr. Roberts called on me, said he was recommended to me by insurance patrollers. Enquired what I knew about different engineers of Philadelphia. He first wrote to me after the conversation. Letter March 9 previously put in by defts. shown and read. Received this from Roberts. List of names of persons who had information as to S. F. Engines made by Rainey & Neiffie accompanying letter was read. I was to hunt these people up, see where they live. As Roberts and I walked up Chestnut street, he asked me what I wanted for pay. I told him $200. He declined it. Did not ask me if I could testify. I suppose he thought I was a sure thing. I knew pipe was there. He did not ask me to testify further. Claim as to engineer of the Reed and losing no effort to make witness "solid," explained. Correspondence ended March 17 on my part. Received after that letter from Roberts Bros. March 19, 1883, read. Don't know if he answered letter. Letter of March 2 read. Roberts first referred to relief valve. Perfectly natural that I should call this a relief valve, as we had used it for ten years. Enquired as to sign in office. Four mottoes in my office: "No use to outlie old liars," "Mind your own business," "God is just," &c. Firemen tell all sorts of yarns and fish stories, and I point to signs. "That will do," says I. It is only put up with a marking pot. Sold engines for Amoskeag Co., for about a year.

First acquainted with Mr. Bean at Amoskeag works. Interview with him and Mr. Straw. Sold four engines for the Co.; got commission on them; delivered them in connection with their man. Witness corrected reply to cross question as to Thompson & Alexander as engineers of the Hope.

Dates of certain fires given. (Omitted in direct.)

Cross examination.

Did tell J. L. S. Roberts that the Hope Hose Co., had relief valve on her. That all the pipes and valves on the Philadelphia engines were the same thing.

I gave R. to understand that the engines did not have relief valves if he asked me. Did not say much to me as to my testimony. Thought he had me for a certainty. Don't remember that I talked with John L. S. Roberts about relief valves. Did not tell him that the Hope had a relief valve when she first came out. I should have told him No. She has had it of late years. Did not say she had it on when first built. That's a falsehood of the first water. Don't tell me such things as that. (The witness sighed audibly at this apparent perversion of history.) Attention called to letter of March 10 from witness to Roberts read agreeing "to furnish all evidence required if check for a reasonable amount was forwarded."

Wanted $200 for acting as agent. I wanted pay for what he proposed to have me do, not for what I had done. This was April 11; did not ask him about my retainer; did not say "but I will make it cost your parties a d——d sight more than $200." No such conversation ever took place, we parted the best of friends. Witness desired to explain as to how he came to fall out with R., but it was not considered as pertinent to the case.

Re-direct, never said Hope Hose Co. had relief valve in 1858, to Mr. Roberts, or that the Philadelphia or Hibernian when built had same relief valve as the Knibbs; they did not have it on.
